Ag Engineering Wing To Be Ready July 1

The agricultural engineering wing is expected to be completed by July 1 and ready for occupancy next fall, according to R. F. Gingrich, superintendent of the physical plant.

"Construction on the ag wing and Justin hall is probably ahead of schedule," Gingrich said.

Forms for the columns and retaining walls of Justin hall are ready Gingrich said, but the cold weather prevents the pouring of concrete.

Gingrich said the plans for the addition to Eisenhower hall the addition to Kedzie hall and should be ready to go to the contractors by April 15.

Plans for the 11 additional units to Jardine Terrace have been detained in the State Architect's office much longer than had been expected, Gingrich said.

These plans are expected to be sent to Fort Worth, Texas, this week for approval by the Housing and Home Finance agency. This step is necessary because the federal government has granted a \$2,100,000 loan for construction of the 11 units.

The \$35,000 Anderson hall remodeling program is almost completed. The comptroller's office should be finished by Saturday. The Placement bureau, the Alumni office, the IBM room, and the Registrar's office also have undergone extensive remodeling.

Plans are being prepared providing for the remodeling of the College post office. Tentative plans call for pre-fabrication of the complete post office front unit in the shops, after which the unit will be set in place in Anderson hall.

K-State Band Has Concert On Sunday

The K-State concert band will present its winter concert Sunday, January 12, at the College auditorium at 3 p.m. The program will be conducted by Jean Hedlund, K-State director of bands.

The program will open with "Mortege" from "Mlada" by Rimsky-Korsakov. Other numbers for the opening group include the first and fourth movements from Milhaud's "Suite Francaise," Griselle's "Nocturne," Gould's "Deserted Ballroom," and Suppe's "Dichter and Bauer".

Following the intermission the K-State band will perform a Prokofiev march, Opus 99; Beghon's "Prelude," "Three Negro Dances," by Price; a "Prelude," by Jaernefelt; and Gould's "Cowboy Rhapsody."

Warren D. McCauley, assistant conductor, will direct the band for the Griselle "Nocturne".

Mortar Board Banquet Will Honor Five Coeds

Approximately 250 tickets to the Mortar Board banquet have been sold, according to Darlene Larkin, Tx C Sr, general chairman for the banquet. The banquet is tonight at 6 in the Student Union main ballroom.

"We were delighted by the interest that women students have shown by buying tickets," she said.

The purpose of the banquet is to encourage scholarships. Miss Margaret Lahey, associate dean of students, will be the speaker.

The three scholastically high women from last year's freshman class, and the two Mortar Board scholarship holders, Mary Alice Jordan, HT Soph, and Linda Wagoner, Mth Soph, will be honored.

The woman with the highest grades as a freshman will be presented the Mortar Board plaque for scholarship with her name engraved on it.

The plaque, which hangs in the Student Union main lobby near the library door, bears the names of the women who have received the award since it was first given in 1949.

The name of the sophomore woman honored tonight will be the 12th name to appear on the plaque. In both 1949 and 1950, more than one name was added, but since then, the policy has been to honor only one girl a year in this way, according to Miss Larkin.

Each person to win the award for the last four years made a three-point grade average during her freshman year.

Fifteen K-State debaters will participate in the Golden Spread Tournament at Amarillo Friday and Saturday, according to Dr. Charles Goetzinger, assistant professor of speech. The tournament is sponsored by Southwestern Oklahoma State college, Panhandle A and M, and Amarillo Bar association.

The K-State entrants in the senior division are Tom Bowman, PrL Sr; Carl Austermliller, EE Fr; Bill Hiatt, Ar 01; Dan Hahn, Sp Jr; Dave Nuttle, AH Sr; and Phil Reid, EE Jr.

Those entered in the junior division are Mary Richardson, GA Sr; Sarah Heltman, Sp Fr;

Sue Shriver, EEd Fr; and Jo-sette Maxwell, Sp Fr.

Participating in the women's divisions are Sharon Nuttle, PrL Soph; Patricia Trent, BMT Soph; Mary Ruth Hall, ML Jr; and Virginia Baxter, Gvt Fr.

Entering the individual events are Bowman, Reid, Trent, Heltman, and Glenn McGinnis, Sp Fr, in the extemporaneous speaking contest; Austmiller, and Maxwell in the Oratory; and Hiatt and Baxter in poetry reading.

Seven of the entrants will leave this afternoon and will debate Central State college, Ed-mund, Okla., tonight on the

CRACKING BOOKS and biting pencils, Joanne Jacobs, Psy Soph, gets off to a good start studying for final exams. She reads about Moby Dick in front of a rosy fire, an environment much too relaxing for studying.

Y-Orph Scripts Deadline Scheduled for January 19

Y-Orpheum scripts submitted to James Rosenberg, assistant professor in the English department, for criticism were returned to the houses yesterday.

Entrants must make the changes and corrections before noon, January 18, and return the corrected copy to the Student Union activities center, according to Bob Hofmann, EE Soph, chairman of the Y-Orpheum committee.

"It is essential that all entries meet this deadline to keep on schedule," Hofmann said.

The scripts will be checked for missing pages and other mistakes on the 18th. Those scripts with mistakes will be returned to the houses the same evening for correction and must be turned in for

final judging Sunday, January 19.

The three judges who will select the winning scripts have been chosen, but their names will not be announced prior to the judging, according to Hofmann.

Loans Now Available To KS Ag Students

Approximately \$1,000 is available to students in agriculture as long-range low-interest loans. Loans are available from a special Atkeson loan fund as a tribute to Prof. F. W. Atkeson, head of the department of dairy husbandry.

Money for the loans is provided by firms and individuals participating in the Formula Feed conference this week. Announcement of the fund was made at the conference banquet Monday night.

Professor Atkeson was presented a parchment "in appreciation for what he has done for the conference over the past 13 years," Prof. Thomas B. Avery, head of the department of poultry husbandry, said.

The loans are available anytime to students majoring in dairy husbandry, poultry husbandry, animal husbandry, feed technology, and agriculture chemistry who are entering the nutritional industry, according to Avery.

A committee consisting of representatives from the four fields in the School of Agriculture and from the commercial feed industry will select the students most deserving of the loans.

"The loans will be given on need of the student for assistance with some emphasis on the student's scholastic ability and activities," Avery said.

Legislature Must Delay KSU Topic

The earliest time the Kansas legislature can consider the matter of changing the name of Kansas State college to Kansas State university is the regular session in 1959, according to an official letter received this week from John Anderson Jr., state attorney general.

In his letter to Warren Keegan, Ec Sr, Student Council KSU committee chairman, Anderson stated that only appropriation bills, revenue bills, and bills necessary to provide for the expenses and conduct of the session can be considered during the 1958 budget session which will convene next Tuesday.

"Now we are going to set up a frame work so we can start a campaign next fall," Keegan said. "If everyone cooperates and maintains his enthusiasm, chances are very good that we will get this passed in 1959. I think Kansas university will also support the idea."

Members of the name change committee have been contacting individual representatives and several of the legislators have said they will do all they can to help. Charles Arthur, Manhattan lawyer and state representative from the first district, has said that he will draft the bill and introduce it early in 1959.

The action on the name change referendum will be discussed on a 15 minute television show over WIBW in Topeka beginning at 6:30 p.m. Saturday.

Neil Scott, Soc Sr, student body president; Don Smith, IE Sr, Student Council Public Relations committee chairman; and Keegan will be interviewed on the program.

Keegan explained that the recent name change of schools in this area are encouragement and help in this name change referendum. Michigan State university, formerly Michigan State college, and Oklahoma State university, the former Oklahoma A&M and new Big Eight school, have new names along with several others.

K-State Debaters To Leave For Golden Spread Tourney

Students Insult Solons at Game To Endanger KSU Possibility

THE FINE EFFORT from K-Staters to get the name changed from Kansas State college to Kansas State university is in danger of being junked.

The overwhelmingly favorable results could easily go for naught because of some disgruntled students.

Here's the situation. The seats in the Field House reserved for the legislators are bounded on three sides by student seats. The legislators seats are, to be sure, extremely choice ones and highly coveted by K-Staters in this time of dwindling student seating capacity.

SOME STUDENTS HAVE LET their feelings be known in such a way as to irritate the harried solons. A few have booed when a legislator has taken his seat just as the varsity game was about to start and some have shoved the government officials as the Field House was emptying after a game.

If enough of these state legislators continue to be irritated, when they visit the campus there's a strong possibility the name change won't be approved. The state legislature has the final authority to approve or disapprove.

BUT, ON THE OTHER HAND, K-Stater's have a right to just as good a seat as anyone else and it's tough to stand in line for an hour or so, rush in to get a mediocre seat, and then see someone come in late and get a choice place to park with no squeezing toward the middle.

Legislators must mail their requests for tickets two weeks in advance. The majority of these requests are filled of course, but the legislator can obtain only two tickets this way. Even when groups have been invited, the legislators averaged only 150 a game. This fills slightly over four rows in one section.

Now, a possible solution. Why not reserve a section up behind the pep section and open those four rows on the north side now being reserved for the legislators?

IN THIS WAY, IT'S possible to kill four birds with one stone. The seats behind the Pep club are good ones so the legislators will still be happy. If more of the government boys show up than were expected, the Pep club can be squeezed closer together. This way, only those students who are willing to suffer a little discomfort and are willing to get to the game a little earlier, would remain in the Pep club.

NOW, THE LEGISLATORS are happy, the students are happy because there are more seats, cheers are being squeezed from the pep section, and the solons go home with good cheer toward K-State and name change affirmation in their hearts.—Roger Myers.

The Students Say

K-Staters Mad at Athletic Department Over Doubleheader Ticket Sales, Seating

By Charlene Strah

Seating at the K-State-Washington, Kansas-California basketball doubleheader was poor. This was the unanimous decision of 20 students interviewed at random on the subject.

Most of them agreed that too many general admission tickets were sold for seats usually given to students. Several of the students thought the crowded game conditions were caused by the Athletic department underestimating the number of students staying for the game while others thought all persons were sold tickets with no consideration of seating capacity. Another student thought bringing in more chairs would have overcome part of the problem.

A general complaint was that people who came early to get seats could not even see while some people with reserved seats were forced to stand.

Some answers to the question, "What did you think of the seating arrangement at the doubleheader?" are,

EDITH MELZER, EEd Jr—I don't think they should have sold the end section because the students didn't have seats. A lot of people who wanted to see the game couldn't.

BOB CONOVER, TJ Jr—I don't see any reason for selling so many extra tickets unless they are extremely hard up.

BETSY BURNHAM, EEd Jr—I went at 5 o'clock and got a fairly good seat but many who came later couldn't even see the game. I think if they can sell our seats we should be able to give our tickets to whomever we wish.

CHARLOTTE STRAH, ArG Jr—I think they should bring in extra chairs to put behind the

goals, but I think all of our games are worth standing to see.

MARGARET FRERKING, BA Sr—I don't think they should sell the general admission tickets on the main floor.

TOM SCHICKTANZ, ChE Sr—I think it was pretty poor. Students ought to be able to have their own reserved section whether they are there or not.

RON BRYANT, ME Sr—It appeared that the people in charge of our seating arrangements failed to foresee the number of students who would be remaining for the game because of their interest in supporting their basketball team.

PHYLLIS WRIGHT, EEd Jr—I thought it was ghastly. They shouldn't have sold student seats in the first place.

BILL PATTON, VM Jr—We left at the half because we couldn't see. They shouldn't have sold so many general admission seats.

PAT SCHMIEDELER, ME Sr—It was very poor and hurt school spirit. They should have some kind of special section for students since first-come-first-serve doesn't work out very well.

RON MOLINARI, Gvt. Sr—I think it was lousy that things were so fouled up. A committee should be set up to investigate the situation.

RON FRANCIS, BA Jr—There wasn't any. It was a big mistake to sell so many tickets. A lot of people came a long way and then had to stand the whole game or leave without seeing anything.

Readers' Forum

To the Editor:

Let me first say that I am well aware of the problem of a newspaper in an educational society, namely—making news of education. As a result, it is only common to turn to the less academic news in order to fill the paper. But after looking at the January 7th edition of the Collegian I have become convinced that our paper has gone overboard on this non-academic news.

On the front page of this particular paper was a story about how many sophomores pre-enrolled. On the back page the activities column was headed "Wampus Cats To Initiate." At the very end of this activities column was recognition of the fact that Governor Docking will be on campus January 13 to deliver a major policy address on education.

Let me close by merely asking that, in the interest of education, the Collegian personnel either be taught to recognize a newsworthy item when they see one or give up trying to print news. Maybe something along the lines of a day-to-day activities calendar would be sufficient.

Dan Hahn, Sp Jr.

(Ed. Note) Any paper can use a man of your unqualified news judgment to stop the ceaseless flow of PR that comes to us daily. Why don't you apply to Miss Sue Goss for a spot on next semester's Collegian?

Three IM Units Win In Quarter-Final Play

Three intramural basketball teams were eliminated in the quarter-finals of the independent division play-offs last night. A semi-final round involving four teams from each division will be tomorrow night in the gymnasium.

The Rebels got past the Hillbillies, 42-23, as Don McCutcheon scored 17 points for the victors. Jack Keelan collected 14 of the Hillbilly points.

House of Williams stopped the Hobos, 30-26. Don Long of the Hobos and Roger Congleton of House of Williams each had 11 points.

YMCA downed Westminster Foundation by a 29-22 count.

Darrell Rosenow scored 12 for YMCA.

Fraternity division semi-finals tomorrow will have Sigma Phi Epsilon meeting Beta Theta Pi at 7 p.m. and Delta Tau Delta against Kappa Sigma at 8 p.m. Both games will be on the west court.

The independents, playing on the east court, have the Rebels playing YMCA at 7 p.m. and House of Williams taking on West Stadium at 8 p.m.

Boozer Hitting at 19.5 Mean

After 11 games this season, Bob Boozer leads the Cats in scoring with 214 points for a 19.5 average. Boozer also is the top man in the rebounding department with 137 grabs to average 12.5.

Jack Parr, despite a late slump, is second in scoring with 143 points for a 13.0 average. Parr is also next to Boozer in rebounding with 131 for a 11.9 rebounding average.

Roy DeWitz and Wally Frank are tied for third place in the scoring department with 100 points for means of 9.1. Hayden Abbott, in 10 games has scored 86 points for fifth high in the scoring department. The fifth regular, Don Matuszak, has hit for a 6.7 average with 74 points.

The team is averaging 71.2 points a game to their opponents

58.8. They have also out rebounded their opponents 574 to 475.

Frank has the best shooting percentage from the field among the leaders with 28 out of 80 for 48 per cent. Boozer is No. 2 with 76 out of 174 for a 44 per cent average.

Roy DeWitz has the highest free throw percentage with 30 out of 40 for 75 per cent. Boozer has 62 out of 86 for 72 per cent, Frank has hit 24 out of 34 from the line for 71 per cent, and Matuszak has connected on 24 out of 35 for a mark of 69 per cent.

Cat Mermen Open Season At Emporia

Nine members of the K-State varsity swimming team will travel to Emporia Saturday to oppose Emporia State's swimming team, according to Bill Thrall, coach.

This is the first meet of the season for the Wildcat swimmers. The Cats have eight returning lettermen. Last year the team had a 6-4 dual meet record.

Tom Onuma, 60 and 100-yard free style; Gordon Harper, 220 and 440-yard freestyle; Tom Coblenz, 220 and 440-yard freestyle; James Mariner, backstroke; Dave Dicken, butterfly; Marion Towns, diving; Fred Nolen, breaststroke; John Nickel, 60 and 100-yard freestyle; and Ron Mihordin, breaststroke.

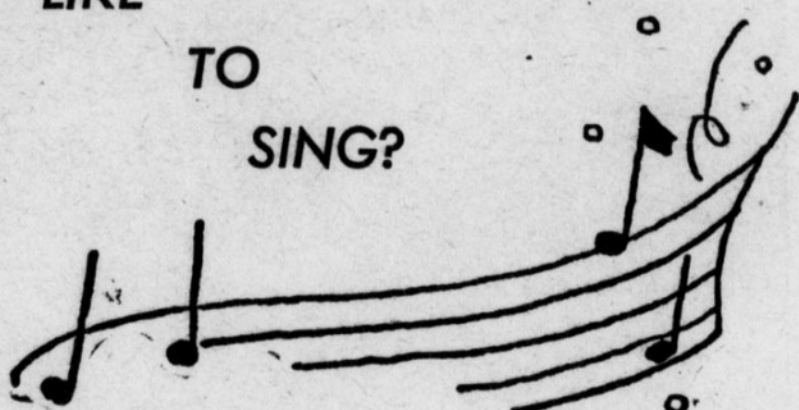

The first home meet will be next Wednesday with Kansas university.

Wildcats Drill On Fast-Break For Nebraska

K-State's basketball team had a lengthy practice session yesterday in Ahearn fieldhouse in preparation for the game here Saturday with Nebraska. The Cats go into the game with a 10-1 record.

Coach Tex Winter ran the cagers in a workout stressing fast-breaks and offensive scrimmage. Meve Douglas, Jim Holwerda, and Wally Frank were alternated into the first unit during part of the drill.

First uncensored photo of TALOS, long range guided missile developed by APL for the Navy.

Technical achievement is our sole concern

The Applied Physics Laboratory (APL) of The Johns Hopkins University exists solely to make scientific and technical advances. For this reason we are able to offer our staff members freedom to explore tangential ideas, which frequently lead to significant accomplishments. Among our "firsts" are the world's first supersonic ramjet and the first large booster rocket. As far back as 1948 we achieved fully-guided supersonic flight.

Today two guided missiles that grew out of our pioneer work are in production: The TERRIER is now a fleet service weapon, and TALOS (above) has been adapted for land as well as ship-based operation. When TALOS was recently unveiled by the Navy, APL shared honors with many associate and subcontractors who had worked under our technical direction in its development.

We are presently engaged in missile assignments of a highly

advanced nature which cannot be divulged for security reasons. Suffice it to say that, as always, our work is of such vital importance and urgency that little is spared to facilitate its progress. Scientists and engineers at APL are in the vanguard of science and enjoy the keenest sort of responsibility and challenge.

For information on opportunities awaiting men with better-than-average academic records, ask your Placement Officer for our new 30-page publication or write: Professional Staff Appointments.

Louis Armstrong Scheduled For March 7 Performance

Louis (Satchmo) Armstrong and his band will play for a concert and dance at K-State March 7 in celebration of the Union's third birthday. The announcement was made by Mike Dole, ChE Jr, chairman of the Union dance committee, to Union Program council members at council meeting last night.

Dole said that details concerning the performance will be released as soon as plans for the celebration have been completed. He also announced that an all-College dance will be held in the Union main ballroom February 8 following the Kansas State-Iowa State basketball game. Bob Dougherty and his band from Kansas City, Mo., are scheduled to play for the dance.

Jackie Cummerford, BA Jr, has been named temporary chair-

man of the Publicity committee until a new one is selected by the council. She replaces Sue Goss, who resigned.

Jim West, MTc Jr, Jazz club president, announced that two

all-College jazz concerts are being scheduled for the spring semester. One concert would feature such artists as Sarah Vaughn, Jay Jay Johnson, and Kai Winding, West said.

K-State Whistle To Blow No More; Ended Dec. 21

The K-State physical plant whistle will blow no more.

The whistle which has been disturbing near-by townspeople and married students with children was discontinued December 21 in response to a circulated petition to President McCain's office. Or-

iginators of the petition weren't named.

The whistle, which told students, faculty, and townspeople the time at 8 a.m., 12 noon, 1 p.m., and 5 p.m., went into operation June, 1917, according to the college historian.

THIRTY-FOUR HOURS of "A" gave Sue Hiebert, BPM Soph, Mortar Board top ratings at last night's scholarship banquet. Sue will have her name placed on the permanent scholarship plaque which hangs in the Union.

Sue Heibert Gets Scholarship Award

Sue Hiebert, BPM Soph, was presented the Mortar Board scholarship plaque at the annual

Mortar Board scholarship banquet attended by 270 women last night in the Union.

Miss Hiebert received the plaque engraved with her name for having the highest grades as a freshman last year. She had a three-point grade average for 34 semester hours.

Kathleen Pile, DIM Soph, and Jane Chalmers, EEd Soph, were presented certificates for maintaining three-point grade averages for 32 hours each.

While attaining her three point average, Miss Hiebert was a member of Whi-Purs, Wesley Foundation, Methodist Kappa Phi, and Home Economics-Journalism club. She also was librarian for Northwest hall and received a K-Key award for work on the Royal Purple business staff. She holds a \$1,500 Betty Crocker Homemaker of Tomorrow scholarship.

Miss Pile, a member of Alpha Delta Pi, was in Whi-Purs, Southeast hall house council and tribunal, a 10-member vocal ensemble, and was an attendant to the queen of the dorm Christmas dance. She received the ADPI pledge scholarship award.

Miss Chalmers participated in Whi-Purs, Future Teachers of America, Wesley foundation, Kappa Phi, and was a member of the Student Council resident hall committee.

K-State To Play Host To Foreign Students

The fifth annual International weekend has been tentatively scheduled for February 28 through March 1 on the K-State campus, according to Samih Haseyan, ME Sr, general Kansas chairman for the weekend.

The weekend, sponsored by the Student Governing associa-

tion International Relations committee, is to provide an opportunity for American students at K-State to get acquainted and share problems with foreign students from all over Kansas.

Personal invitations have been sent to foreign students at KU, Baker university, Fort Hays State college, Emporia State Teachers college, Wichita university, and Pittsburgh State Teachers college.

At the beginning of second semester, the International Relations committee will send letters to organizations and living groups on the campus, asking that each one select a representative to help plan the weekend.

For the last two years, K-State has been host to the International weekend. The first two conferences were held at Emporia and the third at Wichita.

Big 4 Talent Audition Scheduled for Tuesday

Audition for the Big Four Talent Show has been scheduled for Tuesday at 7:30 p.m. in banquet rooms A and B of the Union. All students are invited to attend, according to Max Bishop, ArE Soph, publicity chairman of the Campus Entertainment committee.

The committee is issuing invitations to participate to various campus acts. Judges will select the top acts in order and the winners will be announced at the audition.

K-State, Nebraska university, Kansas university, and Iowa State college will participate in the Big Four Talent Show to be held on campus February 13.

Photo by Doug Tedrow

"LONG DAY'S JOURNEY into Night" readers Glen Rhea, Jack Macy, and Ken Nakari rehearsed the Eugene O'Neill reading last night. Randi Johnson, not shown, rounds out the cast of the production. The reading will be presented January 14 in the Little theater.

More English Pro Failures

Some 789 students out of 1,011 passed the English proficiency exam given last November, according to Miss Nellie Aberle, English professor in charge of administering the test.

This semester, 21.95 per cent of those who took the examination failed, compared to 17.23 per cent who failed in the fall of 1956.

The course, writing laboratory,

is being offered during the spring semester for those who wish to set their failing papers and for juniors and seniors who wish to prepare for the English proficiency examination, Miss Aberle said.

Enrollment for this course can be completed during the regular enrollment period, or if pre-en-

rolled, during the first week of the spring semester.

Students may make appointments for one of the laboratory periods in Eisenhower hall, room 115, February 3 through February 5.

The laboratory is being offered Monday through Friday from 1-3 p.m. or 3-5 p.m., and on Saturday from 8-10 a.m. or 10 a.m. to noon.

Arts-Sciences Council Asks High Schools to A&S Day

Invitations to Arts and Sciences Day, February 22, are being sent to Kansas high schools by the Arts and Sciences council, according to Bill Schick Tanz, GA Sr, president.

The program for the day, designed as an open house for Kansas high school students, will open with a buffet lunch in the Student Union. During the afternoon the visitors will tour exhibits set up in the Union and other campus buildings by the various departments in the School of Arts and Sciences.

Arts and Sciences council members have been asked, Schick Tanz said, to discuss exhibit plans with their department heads.

Applications Now Open For SU Publicity Head

Applications for Union Publicity committee chairman are being taken in the activities center of the Union until Thursday at 5 p.m. Those who have applied for the position will be interviewed February 6 by members of the Program council.

"That made us top-heavy and we were already low in the water because we had taken on fuel the night before."

FOR TEXAS WESTERN, 4,631 showed up. For Iowa, 5,437 activity tickets were used. This averages out to 5,034 a game.

The Student Council has within its structure an apparently low-pressure group called the Activity Card committee. It's the job of this committee to work with the Athletic department and ticket office to straighten out boobos like the doubleheader. We call on the student leaders in general and the Activity Card committee in particular, to get over to the Director of Athletics office and get some kind of solution to the problem.—Roger Myers.

The weather bureau said the phenomenon was a meteorological depression southeast of Madeira. High winds laden with African desert dust clashed with rain-clouds which shed the liquid mud.

Students May Enroll Jan. 30-31 in Nichols

Registration and enrollment for
second semester will be Thursday,
January 30, and Friday, January
31, for students who did not pre-
enroll, according to E. M. Gerritz,
director of admissions and regis-
trar.

Classes will begin Monday,
February 3.

All students, except graduate
students, will begin the enroll-
ment procedure at the east en-
trance of Nichols gymnasium.
Graduate students should go first
to the graduate office in Fairchild
hall, and then proceed to Nichols.

No part of the enrollment
procedure will take place in the
recreation center in Ander-
son hall as in the past.

Approximately 100 students
are expected to enroll each of the
half hour sessions, a total of
about 2,300 students for both
days.

Constant revisions in the en-
rollment procedure are aimed at
decreasing the time consumed in
enrolling. The quantity of ma-
terial asked on each IBM card
will be reduced by one fourth
next fall, according to Gerritz.
The new cards will not be ready
by second semester, however.

Pre-enrollees must pay their
fees by January 24 in order to
retain a place in their classes,
Gerritz said. After they pay
their fees, they need not return
to school until Monday, Febru-
ary 3.

Terminal juniors, those who
are leaving K-State at the end of
second semester to enter profes-
sional schools, may enroll on
January 30 if they have a dean's
permit.

Students should report accord-
ing to the initial letters of their
last names as scheduled:

Thursday, January 30—Seniors

and terminal juniors, B, C, O, Q, W,
8:30 to 9 a.m.; G, H, L, R, V, X, Y,
9 to 9:30 a.m.; D, E, F, S, T, U,
9:30 to 10 a.m.; A, I, J, K, M, N, P,
10 to 10:30 a.m.; juniors, sophomores,
second-semester freshmen, gradu-
ate students and special students,
Bp-Bz, O, 10:30 to 11 a.m.; JW, 12
to 12:30 p.m.; Ba-Bo, 12:30 to 1 p.m.;
T, D, 1 to 1:30 p.m.; Sa-Sm, 1:30 to
2 p.m.; L, H, H-z, 2 to 2:30 p.m.; V,
Y, R, X, 2:30 to 3 p.m.

Friday, January 31 — juniors,
sophomores, second-semester fresh-
men, graduate students and special
students, Ha-Hi, Z, 8 to 8:30 a.m.;
F, Ga-Go, 8:30 to 9 a.m.; Sn-Sz, U,
E, 9 to 9:30 a.m.; Mp-Mz, A, J, 9:30
to 10 a.m.; N, K, 10 to 10:30 a.m.;
Ma-Mo, 10:30 to 11 a.m.; Gp-Gz, P,
12 to 12:30 p.m.; C, I, Q, 12:30 to 1
p.m.

Freshmen entering college for the
first time, L-Z, 1 to 1:30 p.m.; A-K,
1:30 to 2 p.m.; all those who failed
to report during time provided
for their group, 2 to 3 p.m.

School of Veterinary Medicine,
Thursday, January 30, first-year
students, 8 to 10 a.m.; second-year
students, 1 to 3 p.m.; Friday, Janu-
ary 31, third-year students, 8 to
10 a.m.; fourth-year students, 1 to
2:15 p.m.; those who did not report
with their class, 2:15 to 3 p.m.

Directory Ads Total \$671.80 For 57-58 Issue

Melvin Schwartz, ME Sr, ad-
vertising manager of the Student
Directory, turned in to the Cam-
pus Industries committee a com-
plete report of his advertising
campaign last year, according to
Warren Keegan, Ec Sr, chairman
of the committee.

The report showed an income
of \$671.80. Of this sum \$79.80
went to Schwartz for his com-
mission and expenses and \$567
went to Student Council. The
remaining \$25 will be used as an
operating expense for next year's
advertising manager.

K-State KSCF Members Hear Billy Graham Talk

A number of K-State students heard Billy Graham, the evangel-
ist, speak during Christmas vacation. These eighteen Kansas State

Hillel Leader Speaks at 8

Irving Levitas, director of re-
ligious education at Congregation
B'nai Jehudah in Kansas City,
will speak in the Kansas State
College All Faith Memorial chap-
el at 8:30 tonight as part of a
Sabbath eve service sponsored by
the B'nai Hillel counselorship at
K-State.

Levitas, a former professor of
comparative religions, religious
mythology, and Islamic culture at
the University of Kansas City, will
speak on "The Christian Image of
the Jew in History and Society."

Indian Students Plan Dinner

A dinner planned by three In-
dian graduate students will be
served at the United Student Fel-
lowship supper, Sunday, January
12, at 5 p.m. at the Congregation-
al Church. USF members will
help prepare the meal.

Students supervising the supper
are Mohammad K. Ademi, Gr,
India; Barnabas Lix. Ponnaiya,
Agr Gr, Ballia, India; and Victor
Emmanuel, Ch Gr, Madurai, India.

Religion in India will be dis-
cussed by the Indian students fol-
lowing the supper in a question
and answer session with the USF
members.

You'll be pleased with a Col-
legian classified.

NU To Visit Ahearn For Big 8 Opener

K-State's Wildcats open Big Eight basketball play against Nebraska university tomorrow night in Ahearn field house. Starting time is 7:35.

The Cats will be going for their eleventh win in twelve starts and their eighth straight against the Cornhuskers who have a 5-7 season's record.

"Had anyone told me at the start of this season that we would have 10 wins and only one loss going into conference play," said head coach Tex Winter, "I am sure I would have suggested he have his head examined."

"I sincerely feel, as I said prior to the beginning of our season, that this was the most formidable non-conference schedule ever attempted by a Wildcat team."

Nebraska lost their first conference game Monday to Missouri at Columbia, 55-54, and K-State defeated the Cornhusker's, 88-57, in the semi-finals of the Big Eight pre-season tournament at Kansas City.

A repeat of the tournament win by the Cats would put K-State in a good position in the conference race as defending champion Kansas university lost to Oklahoma, 64-62, in their league opener.

It was Oklahoma who upset the Wildcats early last year to enable the Jayhawks to keep control of the conference.

"Nebraska is an outstanding offensive team," said Winter. "They have a good fast break and are as good as shooters as there are in the league. However they are a little weak on defense because of their lack of height."

In the tournament K-State was able to work in for easy buckets against Husker defenders and posted a 46 per cent field goal average.

The Husker attacks will be led by 5-10 Gary Reimers who has a 13-point scoring average. Last year the senior guard finished the season with a 12.9 average.

Teaming with Reimers will be guard Herschell Turner, 6-2 sophomore, who is the top Husker rebounder and, according to Winter, one of the finest sophomore players in the conference.

Allen Graves, 6-9 sophomore, will be a center. Wilson Fitzpatrick, 6-4 senior, and Don Smidt, 6-4 senior, will be at forwards.

Fitzpatrick scored 16 against the Cats in the tournament and is second leading Nebraska scorer with a 12 point a game average.

Nebraska's starters average 6-3 1/2 and the Wildcats have a 6-4 1/2 mean.

With all hands fit, the Wildcat "old reliables" are probable starters against Nebraska. They include forwards Bob Boozer and Hayden Abbott, center Jack Parr, and guards Roy DeWitz and Don Matuszak. Boozer currently leads Wildcat scorers with a 19.5-point average, boosted considerably by the 27 he hit against Minnesota Monday. He had reached that same mark against Indiana, December 7.

Probable starters:
K-State Pos. Nebraska
Boozer (6-8) F (6-4) Fitzpatrick
Abbott (6-3) F (6-4) Smidt
Parr (6-9) C (6-9) Graves
DeWitz (6-3) G (5-10) Reimers
Matuszak (6-0) G (6-2) Turner

KU Has 4 Tourney Titles; Only Team with 2-in-Row

When K-State was defeated by KU in the finals of the Big Eight pre-season basketball tournament at Kansas City during Christmas vacation it marked the first time a team had won the 11-year-old tourney two straight years.

The Jayhawkers' win also broke the tie with the Cats for the most tournaments won. KU has now taken the crown four times to K-State's three. Missouri has taken home the title twice.

Winter Calls Guard DeWitz Hustling Heart of Cat Team

By JOHN RODRIGUEZ

"The hustling heart of our ball club . . ."

These words were used by coach Tex Winter in describing K-State's 6-3 defensive basketball ace, Roy DeWitz, senior guard.

"Roy leads through his example," said Winter. "He has tremendous desire to play basketball and has a great love for the game."

"He was selected 'most inspirational player' by his teammates last season. He was the first junior ever to be awarded the trophy, which has previously gone to a senior. This is an indication of the high esteem his teammates have for him."

DeWitz, who is rated by Winter as one of the best defensive players in the country, is currently in a shooting slump.

Winter is showing no great concern over DeWitz's early season slump in his offensive game. "We don't doubt that he is a good shooter. He has indicated this in the past seasons."

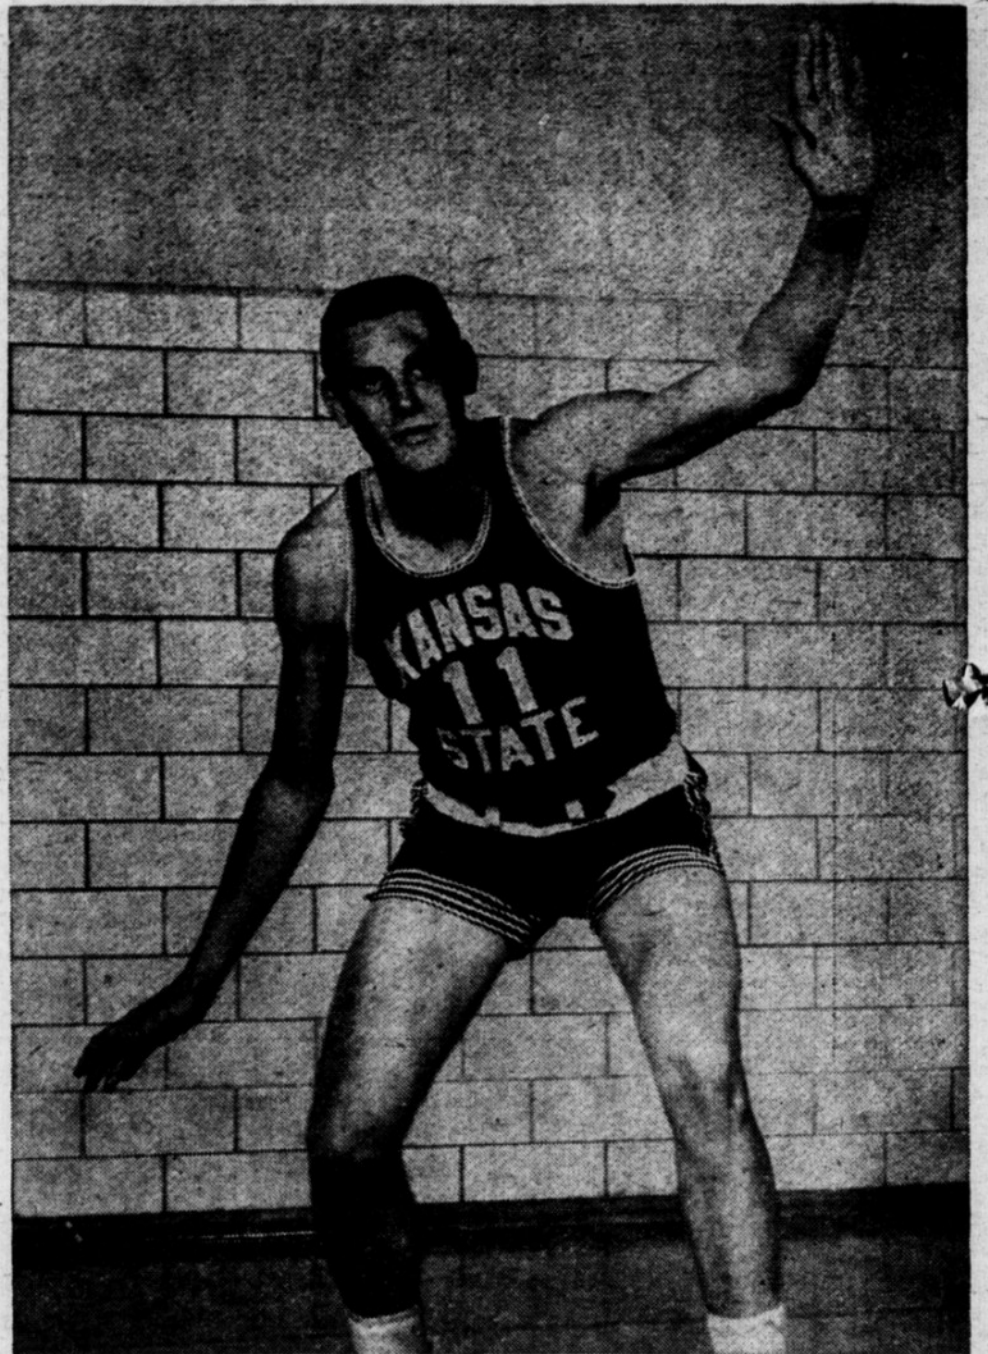

DeWitz hit 250 points last year. Only Bob Boozer, junior forward, and Jack Parr, senior center, scored more points. In his sophomore year DeWitz scored 149 points.

Currently DeWitz has hit 100 points in 11 games. Again only Boozer and Parr surpass him in scoring. He is the top free-thrower on the squad, having hit 30 of 40 attempts for a 75 per cent average. He has collected 58 rebounds.

DeWitz came to K-State from Barrington, Ill. While in high school, he won six letters, two each in football, basketball, and baseball. Although only 5-11 in high school, he scored at a 20-point clip during his senior year.

DeWitz, a physical education major, plans to coach upon graduating, but admits that he would consider playing professional baseball. Before deciding to come to school he considered a contract with the Atlanta Crackers of the Class AA Southern Association.

"Kansas university was definitely put on the spot when they lost to Oklahoma university Tuesday night," DeWitz said.

Matmen to Meet Minnesota; Risk 1-2 Mark Here Tonight

K-State's wrestling team will take a record of 1-2 into tonight's action in Ahearn field house as they meet Minnesota university, Big Ten champion. The matches will start at 7:30.

The Cats will be hampered with injuries to two starters, Riley Miller and Jim Roberts. Both men will be out of action tonight.

Moving up to take Miller's position, Coach Fritz Knorr has named Bob Cervantes to take Miller's 130-pound class. Taking Robert's place will be Pete Everist in the 147-pound class. Cervantes formerly wrestled in the 123-pound class and Everist formerly

wrestled in the 137-pound class.

The rest of the line-up will be Billy Youngers, 123 pounds; Cal Schwalbe, 137 pounds; Pat Doyle, 157 pounds; Ray Glaze, 167 pounds; Gary Haller, 177 pounds; and Ken Ellis, heavyweight.

Ability To Break Game Open Makes Abbott a KS Threat

By DAN KERSHAW

"Hayden Abbott is the type of ball player that can break a basketball game wide open," said head Coach Tex Winter about his regular forward.

"Hayden has been a mainstay on the team for three years. He was outstanding as a sophomore and played a vital role in the championship team. Last year he was hampered by injuries but I think his best basketball at K-State lies ahead of him in the conference race this year."

"The team attitude and desire rate as the top strength on this year's ball club," said the Cat forward. Abbott, a 6-3 senior two year letterman, rates the strong height advantage, the defense of the team and the good bench strength of the team among the strong points of this year's squad. "Most of our games have been won with our defense. The defense came through when the offense wasn't working."

Sick with intestinal flu the night K-State played Kansas university for the pre-season Big Eight championship, Abbott picks Minnesota as the toughest team offensively that he has faced this year. Minnesota wasn't too good on defense but could really run and shoot," he said about the narrow Cat win of 72-71.

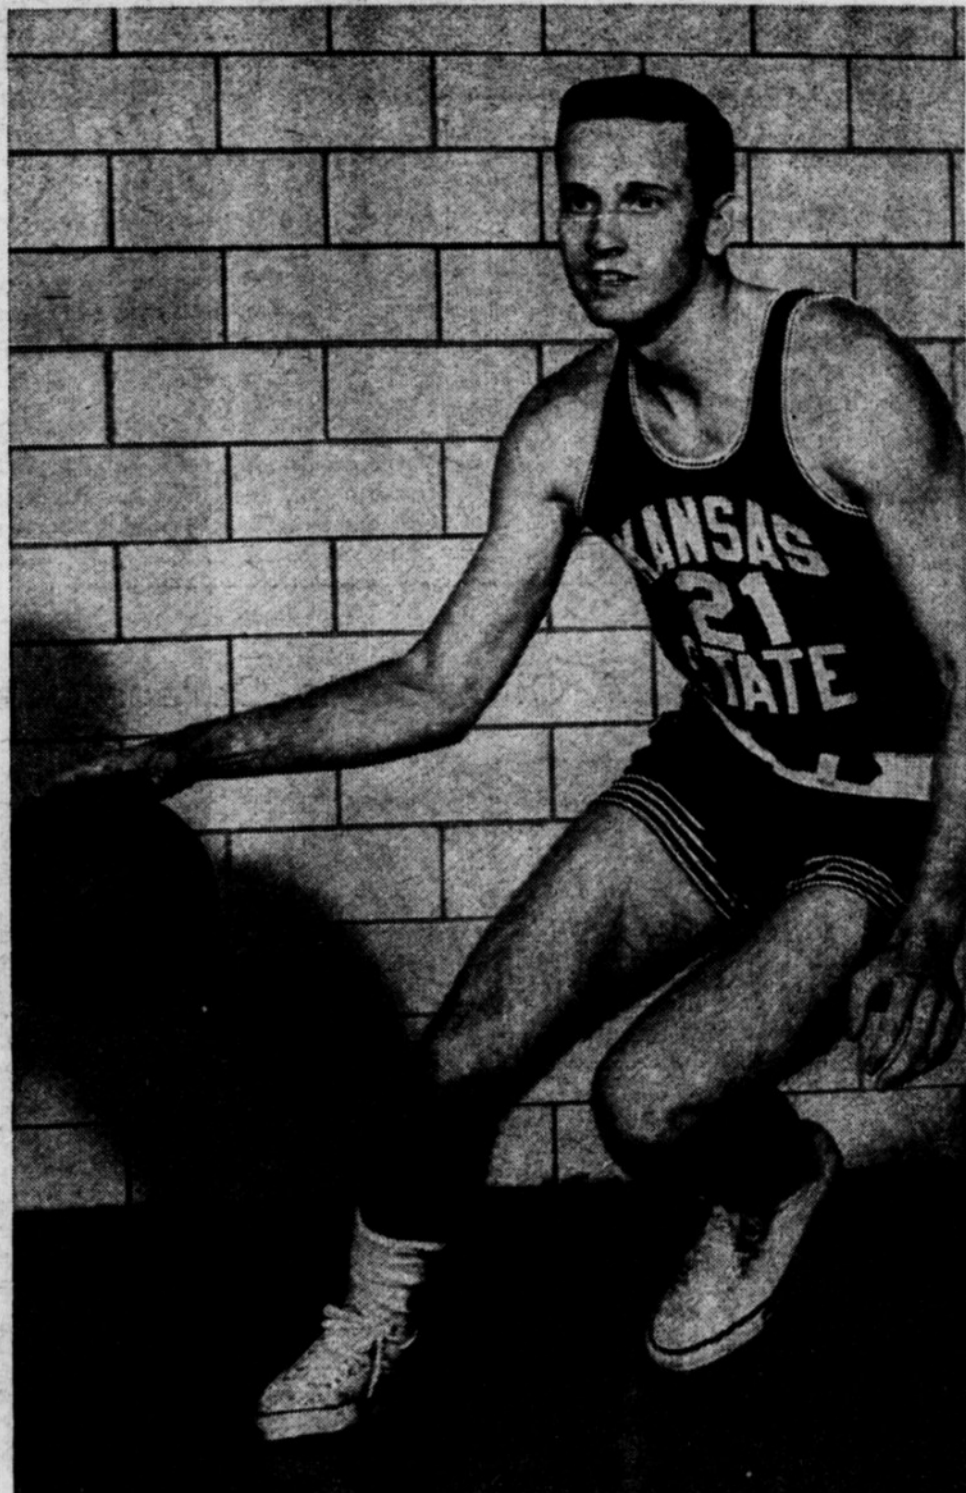

Abbott was dogged with injuries that hampered his play last year. He was out with an infection, a sprained ankle and a bad back. After scoring 210 points his sophomore year, he dipped to 136 points his junior year. After 10 games this year he is hitting at an 8.6 clip with 86 points. He has pulled down 58 rebounds from his forward position to rank third behind Bob Boozer and Jack Parr in that department.

Coach Winter ranks Abbott as one of the quickest reacting 6-3 boys that he has ever had at K-State.

Hayden, a senior in pre-med played high school basketball at Olathe. He earned two letters in basketball with his team winning the district title his junior year. He also holds a letter in high school cross country. Abbott missed his senior year of basketball because of a bad back.

"We have yet to play up to our team potential. We will have to start playing our best with the opening of conference play. Our offense has yet to click for a full 40 minutes and we're going to have to play good ball to be a contender in the Big Eight," Abbott said.

"The team to beat for the title? It's KU—We'll have to beat KU to win the title and everyone on the team is convinced that we can do it."

HAYDEN ABBOTT, impressive in the two previous seasons of K-State basketball, should play his best in the conference race ahead according to Coach Tex Winter.

Wilt Practices Again; Should Play Saturday

By UNITED PRESS

All-America center Wilt Chamberlain was back to play with second-ranked Kansas today, boosting Jayhawk hopes of rapid return to the victory trail.

Chamberlain, who still leads the nation's scorers with 322 points in 10 games for a 32.2-point average, has been ill from an infection. Previously unbeaten and top-ranked, Kansas lost its last two games without Chamberlain in close decisions to Oklahoma State and Oklahoma.

Dr. Kollbjorn Jenssen, team physician, released the lanky goal-getter yesterday and Chamberlain rejoined the squad for practice. He said he expects to be ready for Colorado Monday night.

Chamberlain's work yesterday was confined to shooting baskets and running on the indoor track.

Stilt's Lead Shrinks In Nation's Scoring

Oscar Robertson, 6-5 sophomore scoring sensation of the Cincinnati basketball team, hit 56 points last night as the Bearcats blasted Seton Hall, 118-54. This effort boosted his game scoring average to within .3 of a point of national scoring leader Wilt Chamberlain.

BETWEEN COURSES at the Alpha Delta Pi house Wednesday night, the engagement of Deena Martin, BA Fr, and Gene New, VM Soph, was announced. Deena is from Overland Park and Gene, an Acacia, is from Olathe.

Pinnings

Kell-Dunlap

Sandy Kell, EEd Soph, and Ed Dunlap, ME Sr, announced their pinning Wednesday night with chocolates and cigars at the ADPI and ATO houses. Sandy is from Kansas City and Ed is from Wichita.

Wilson-Bell

Chocolates were passed at the Alpha Delta Pi house Wednesday to announce the pinning of Sandy Wilson, TJ Jr, and Jim Bell, TJ Jr. Sandy is from Manhattan and Jim is from Kansas City, Kan.

McLeod-Livingston

The pinning of Nancy McLeod, EEd Jr, and Don Livingston, ChE Soph, has been announced. Nancy and Don are from Marysville.

Engagements

Farrar-Lawrence

The engagement of Peggy Farrar, HE Sr, and Gary Lawrence, Ar 04, has been announced at the Chi Omega and Sigma Phi Epsilon houses. Both are from Topeka.

They have no definite wedding plans.

Bradley-Reid

Genie Bradley, Sp Grad, and Phil Reid, EE Jr, announced their engagement during the Christmas holidays. Gene is from Independence, Mo., and is a Gamma Phi Beta. Phil is from Kansas City, Mo., and is a Phi Delta Theta. A late summer wedding is planned.

Minear-Boone

Dorothy Minear, TxC Soph, and Larry Boone, AA Jr, have announced their engagement. Dorothy, a Gamma Phi Beta, is from Downs and Larry is from Toronto. He is a member of Farm House.

Engagements

Endicott-Williams

Cigars have been passed at the Alpha Kappa Lambda fraternity to announce the engagement of Kathleen Endicott, HE Fr, to Robert Williams, CE Jr. Kathleen is from Murdock and Robert is from Westmoreland.

Swenson-Root

Cigars were passed December 3 at the Alpha Gamma Rho house to announce the engagement of Wanda Swenson, FN Soph, to Bill Root, AH '57. Bill is now farming near Medicine Lodge, and Wanda is from Council Grove. The wedding will be in August, 1959.

Larson-Cleveland

Chocolates were passed at the Kappa Delta house Wednesday night to announce the engagement of Gretchen Larson, EEd Soph, Concordia, and Bruce Cleveland, AEd, Rice.

Banks-Hitchcock

The engagement of Charles Hitchcock, ME Soph, and Mary Banks, DIM '57, has been announced. Mary is interning at the KU Medical center, and is from Hutchinson. Charles is from Kansas City, Kan.

Harkins-Kidd

Caroline Harkins, SEd Jr, and

Bob Kidd, ME Jr, have announced their engagement. Caroline is an ADPI from Overland Park and Bob is a Delta Upsilon from Liberal.

Kenison-McConnell

Sue Kenison, TxC Sr, and Mike McConnell, BA Jr, have announced their engagement. Sue is an Alpha Delta Pi from Salina and Mike is an ATO from Kansas City, Kan.

Marriages

Cochran-Rumph

Carolyn Cochran, DIM Sr from Topeka, and Vash A. Rumph, Ec Gr from Wichita, were married December 27 in the First Methodist church of Topeka. Vash is a member of Lambda Chi Alpha. They are now living at 341 North 15th.

Guard-Lonsinger

Carolyn Guard, EEd Jr, and Lawrence Lonsinger, BA Jr, were married in Manhattan, December 29. They have made their home here. Carolyn is from Asherville and Lawrence is from Wamego.

Frazier-Bradley

Mary Frazier, HEA Sr, was married to Russell Bradley, December 22, in Topeka. Mary is a Chi Omega from Topeka. Russell,

a zoology graduate student at the University of Kansas is a Beta Theta Pi.

Cooper-Hylton

Carol Cooper, HEA Jr, and Gary Hylton, Geo Sr, were married December 22, in Kansas City, Mo. The couple have made their home in Manhattan. Gary is a Pi Kappa Alpha from Mission, and Carol is a Chi Omega from Kansas City, Mo.

Berg-Feaker

Kay Berg, EEd Sr, and Darrell Feaker, BA Sr, were married at the Methodist church in Topeka December 28. The couple took a honeymoon trip to New Orleans and are at home in Manhattan now. Both will complete school this spring.

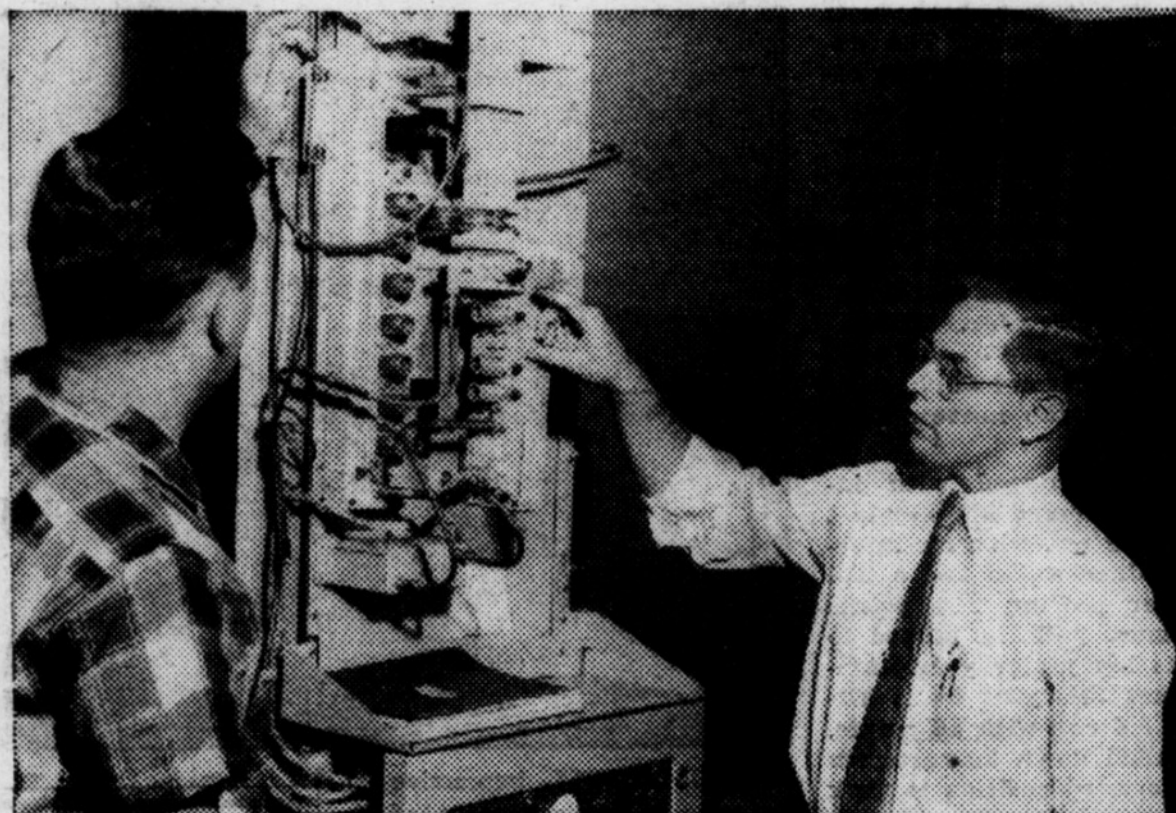

Compton-Mase

Mary Lu Compton, Sp Sr, Wichita, and Gerald Mase, ChE Sr, Salina, exchanged wedding vows December 29. Mary Lu is a Kappa Kappa Gamma and Gerald is a Sigma Chi.

Higley-Keady

Diane Higley, HEA Jr from Atwood, and Gene Keady, PEM Sr, from Larned, were married November 29 in Atwood. Gene is a member of Sigma Phi Epsilon. They are now living at 1306 Manhattan street.

A Campus-to-Career Case History

John Reiter (right) discusses the route of signals from the wave guide through the IF stages of a microwave receiver.

"This was the kind of challenge I was looking for"

Here's what John A. Reiter, Jr., B.S. in Electronics, Arizona State College, '54, says about the biggest project so far in his Bell System career.

"This was the kind of challenge I was looking for—a chance to assist in planning a microwave radio relay system between Phoenix and Flagstaff, Arizona. Five intermediate relay stations would be needed, and I began by planning the tower locations on 'line of sight' paths after a study of topographical maps. Then I made field studies using altimeter measurements, and conducted path-loss tests to determine how high each tower should be. This was the trickiest part of the job. It called for detecting the presence of reflecting surfaces along the

transmission route, and determining measures necessary to avoid their effects.

"Not the least part of the job was estimating the cost of each of the five relay stations. All told, the system will cost more than \$500,000. When construction is finished in December of this year, I'll be responsible for technical considerations in connecting the radio relay and telephone carrier equipment.

"This assignment is an example of the challenges a technical man can find in the telephone company. You take the job from start to finish—from basic field studies to the final adjustments—with full responsibility. To technical men who want to get ahead, that's the ultimate in responsibility."

John Reiter is building his career with Mountain States Telephone and Telegraph Company. Find out about the career opportunities for you. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office, or write for a copy of "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Company, 195 Broadway, New York 7, N. Y.

Ground was broken for the new Home Ec building.

This semester brought us Dean Lahey

Time for a Backward Glance; Close of Term Brings Nostalgia

By CHARLENE STRAH

As the semester is coming to a close we can look back over many highlights at K-State during the past four months.

Students came back in the fall to find the east wing of Waters hall gutted by fire, and a new face in the Dean of Students office—Associate Dean Margaret Lahey. A few weeks later Ollie White replaced Bob Alexander as program director of the Union.

Also during the first month of school ground was broken for Justin hall, new home economics building to be completed in 1959; President McCain returned to campus from a six month trip to Europe on an Eisenhower Exchange Fellowship; and a burglary in the Union business office netted over \$2,000.

Homecoming 1957 saw Susan Schober, PEW Jr, crowned queen to climax the activities. Attendants were Rosemary Derks, Eng Sr; Pat McDermott, BA Sr; Roberta Wray, SED Jr; and Janice Graham, TJ Sr.

The next week Student Health reached its capacity during the big campus Asian flu epidemic. Smooch lines were forever banned from K-State following their restrictions during the epidemic.

The first K-State Veterinary Medicine Open House, October 26, was deemed a success.

October 31 and November 1 brought the largest election turnout in K-State history. About 70 per cent of the student body voted in the Student Council name change referendum. Students voted 4,692 to 369 to change the name Kansas State college to Kansas State university.

Students are saving many steps as a result of the completion of the footbridge over the track north of West Stadium.

Wally Carlson, PEM Sr, received the Most Inspirational Football Player award at the football banquet and Jack Parr, BMT Jr, varsity basketball player was crowned Favorite-Man-On-Campus at the Snowball dance.

Petitions asking for faculty pay raises of five per cent or more were signed by 3,750 students in backing a Student Council project.

Harriet Harwick, Ed Soph, reigned as queen of the second annual Air Force Ball and Barbara David, HDA Soph, was named Ag Barn-warmer Queen, a highlight of the Ag Week events.

Stan Kenton, popular jazz band leader, crowned Emily Mohri, EEd Soph, 1958 Royal Purple beauty queen. Attendants were Kay-dene Dashen, EEd Soph; Carol Lala, HEA Soph; and Deena Martin, BA Fr.

The footbridge was completed.

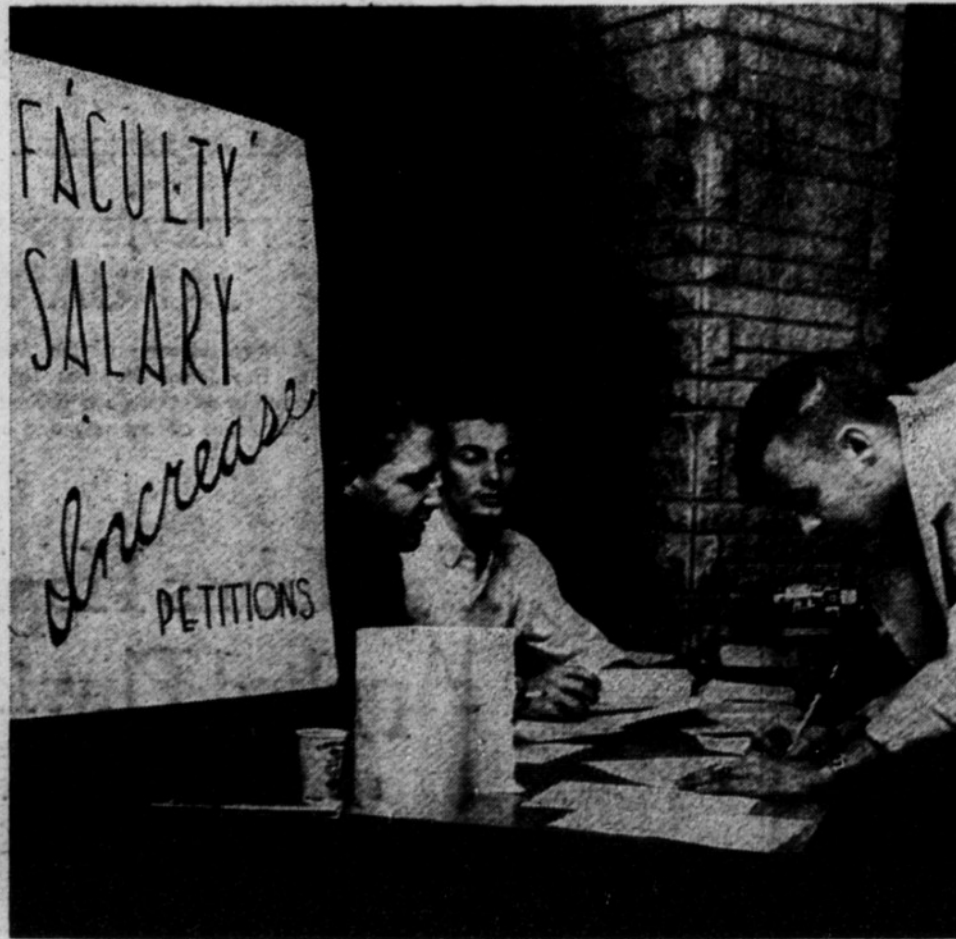

Vet Open House was a standout.

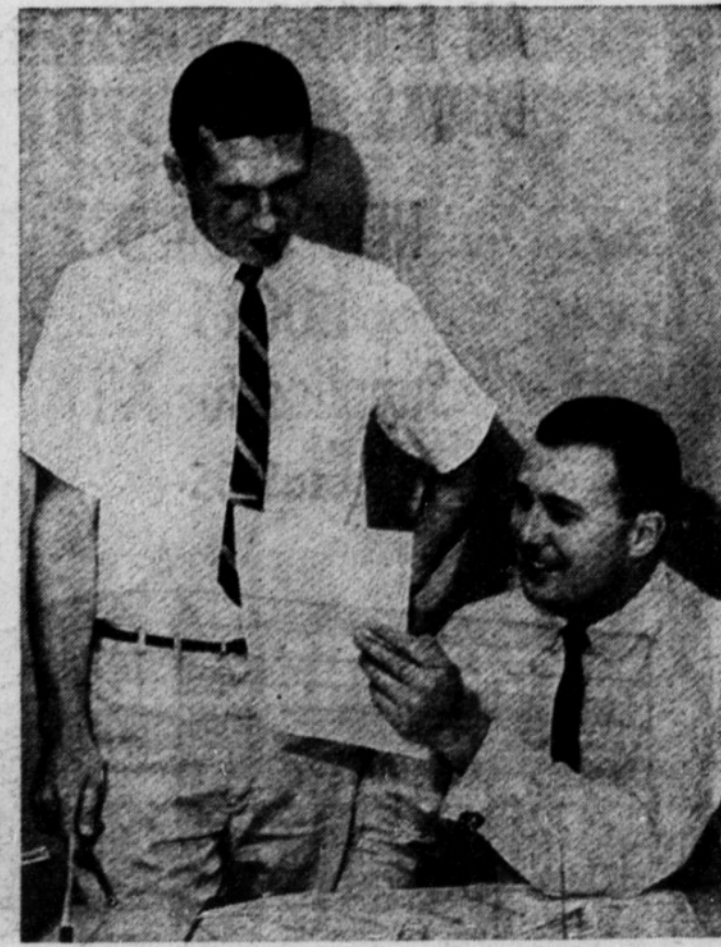

Kenton crowned Mohri R.P. Queen

President McCain returned from Europe.

K-Staters went to the polls for the faculty.

White replaced Alexander on Union staff.

KSC Band Elects DeCou President

Band officers recently elected are Bob DeCou, MEI Jr, president; Dale Norris, MEI Sr, vice president; Donna Turner, MEI Sr, secretary. On the band council are Lois Burch, Chm Fr; Judy Mai, HE Fr; Bill Warner, Chm Soph; and Carolee Weissner, Eng Soph.

Jr. AVMA

Bruce Detter, VM Soph, is the new president of the Jr. AVMA. Other officers recently elected are Dave Carnahan, VM Jr, president-elect; Tim McKenna, VM Jr, vice president; Frank Rodman, VM Sr, secretary; Bob Parker, VM Fr, marshal; and Tom Landis, VM Sr, critic.

Phi Chi Theta

The newly elected officers of Phi Chi Theta, women's business honorary, were installed Tuesday evening. They are Valeta Purcell, BA Jr, president; Jackie Commerford, BAA Jr, vice-president; Carolyn Eby, BA Jr, recording

secretary; Kay Eplee, BA Jr, corresponding secretary, and Judy Pringle, BA Jr, treasurer.

Ag Education Club

The Agricultural Education club will meet Tuesday in room 207 of the Student Union at 7:30 p.m. Next semester's officers will be elected, according to David Mugler, AEd Sr, president.

Sports Car Club

K-State's Sports Car club is sponsoring a rally in the Danforth chapel parking lot at 1 p.m. Sunday. All students are invited to compete for the trophies to be given. The rally course will cover about 120 miles and take approximately three hours to complete.

At an open club meeting Saturday at 3 p.m. in room 206 of the Union the art of running a rally course will be explained to all interested persons, and slides will be shown.

JOIN IN THE VANGUARD OF SCIENCE

WE have entered the age of fully guided supersonic missile flight. This state can be attributed, in large measure, to scientists and other technical men at the Applied Physics Laboratory (APL) of The Johns Hopkins University. Since 1945 we have been in the vanguard of the guided missile field.

Young engineers and scientists with above-average ability will want to know more about APL: how we built the first ramjet engine, the first large booster rocket, achieved fully guided supersonic flight as far back as 1948, developed TALOS, one of the country's most successful long range missiles, and how we are presently engaged in missile programs of such urgency that little is spared to facilitate their progress.

You'll also be interested in finding out why the record of achievement of our 550-man engineering and scientific staff is exceptional, about how we can allow greater scope for creative thinking because our sole goal is technical achievement.

Our laboratories, covering over 350,000 square feet, are located in rolling countryside midway between Washington, D. C. and Baltimore, Md. These facilities, combined with those of our 18 major contractors and Government test stations provide exceptional opportunities for staff members to develop and extend their capabilities.

For detailed information on APL, an organization of and for technical men and scientists, ask your Placement Officer for our new 30-page publication or write: Professional Staff Appointments.

INTERVIEWS ON CAMPUS JANUARY 14th

A representative of the Applied Physics Laboratory of The Johns Hopkins University will be on your campus on the days indicated. Please contact your placement officer now and arrange for an interview.

Library Hours Question Under SC Consideration

Student Council will hear a report from the Library Hours committee tonight on action being taken to determine whether or not College library hours should be extended.

The committee has sent petitions to Jardine terrace residents and the scholarship chairmen of organized living groups to find out how many students actually would use additional library hours.

The petitions will be collected for study by the committee by next Monday.

Talent Show Rescheduled For Tonight

Auditions for the Big Four talent show will be presented for the public at 7:30 p.m. today in the Danforth chapel auditorium instead of tomorrow night in the Union as previously announced.

The change is due to a conflict of engagements in the Union.

Winning acts will be announced at the audition. The Big Four Show, featuring talent from K-State, Nebraska university, Kansas university, and Iowa State college, will be given on campus February 13.

Council will also act on a recommendation from the Student Governing Association Public Relations committee to appropriate \$110 to print an SGA news publication. If the money is appropriated, the General Publicity subcommittee of the Public Relations committee will be in charge of publishing it.

The proposed publication will acquaint students with SGA leaders and Student Council projects, and will contain a diagram of the SGA committee structure.

The committee in charge of studying the possibility of flooding ground on campus for ice skating will report that it is impossible to do so this winter.

After talking with city officials, the committee decided that ground in this locale will not retain enough surface water to make a worthwhile skating rink on exposed ground possible.

Photo by Gary Settle

A JAZZ CONCERT was presented by Matt Betton and his band Friday night in a private performance for the Jazz club in the Union's main ballroom. Seated behind the bass is drummer Owen Sherman, Sp Fr.

Assembly Speaker Is Famed Historian

One of America's leading historians, Arthur Schlesinger Jr., will speak at tomorrow's all-College assembly at 9:30 a.m. in the auditorium. Schlesinger will discuss "The Challenge of the Future."

He is returning by request after appearing at an assembly

several years ago. More requests for bringing him back to the campus have been made than for any other assembly speaker, according to A. L. Pugsley, dean of academic administration.

The youngest historian ever to win a Pulitzer Prize, Schlesinger received the honor at the age of 28 for his book, "The Age of Jackson." This was in 1946.

Other books he has written are "The Vital Center," a discussion of political and social problems; "The General and the President," (written in collaboration with Richard Rovere of "The New Yorker") which concerns issues raised by President Truman's dismissal of General MacArthur; and "The Crisis of the Old Order," the first volume of a new trilogy, "The Age of Roosevelt."

Schlesinger is the son of Dr. Albert M. Schlesinger, also a distinguished historian. The younger Schlesinger graduated with highest honors from Harvard in 1938. In 1947, he returned to Harvard as an associate professor of history. He is now a full professor.

During the 1952 presidential campaign, Schlesinger was a member of the staff of Adlai Stevenson.

Students and faculty will have the opportunity to meet with Schlesinger in the main lounge of the Union for a question and answer period immediately following the assembly.

Transfer of Activity Tickets Blamed for Seating Problem

The crux of the seating problem at basketball games lies not in the lack of seats, but in the illegal transfer of activity tickets, believes Neil Scott, Soc Sr, student body president.

"How can students legally justify the transfer of tickets?" Scott asks. "I recommend a tighter restriction on the transfer."

"The ticket is mine. I bought it so I can do with it as I wish," is a widespread belief of students, says Scott.

"Each student did buy a ticket, but it entitles him to a privilege for students only."

"Just as the student health service is a privilege reserved only for students, so is the admission to games at a minimum cost."

Of the yearly activity fee paid by students, \$3.80 is used for athletic events—four football games and 10 basketball games. The cost averages 63 cents per game.

To see the same number of games, an outsider would have to pay \$34, according to Scott.

"Students have the privilege of approximately a \$25 reduction, a privilege that can't be offered to the general public."

"My main desire is to protect each student who holds a ticket entitling him to a seat at the game. With the exception of KU, no other school in the Big Eight can begin to seat its student body."

"K-State theoretically is capable of seating its students. The situation created at the recent double-header was an exception.

It was caused, not only by a mistake in predicting the number of students who would attend the game, but also by the illegal transfer of tickets."

Approximately 6,280 of the

6,500 activity tickets owned by students were used, he explained.

"This means that many students who went home for Christmas vacation left their tickets behind to be used."

MAN, HE FLIPPED—Somebody got his signals crossed and Nebraska forward Don Smidt went vaulting out-of-bounds. Wildcat Jack Parr slips out into the open as Cornhuskers Allen Graves (25), Herschell Turner, and Wilson Fitzpatrick look on. Parr scored 20 points and collected 20 rebounds. Smidt was high man for Nebraska with 16 points.

'Must Play Best Game To Take OU'—Winter

By JAY WORKMAN
Collegian Sports Editor

K-State's Wildcat basketball team overpowered Nebraska, 74-59, in Ahearn field house Saturday to boost its season record to 11-1. Jack Parr came up with one of his best outputs of the year on 20 scores and 20 rebounds.

This gives K-State a 1-0 mark in Big Eight play while the Cornhuskers stand at 0-2 in loop games and 5-8 for the year.

"We'll have to play our best

game of the season against Oklahoma at Norman Saturday," Tex Winter, K-State coach, said. "We're still hurting for outside shooting—most of the points our guards scored were on close shots. But Parr should be on his way now."

Forward Bob Boozer was the No. 2 Cat scorer with 14 points. Hayden Abbott snared 13 rebounds and Roy DeWitz had 12.

Don Smidt, 6-4 Husker, pushed in 16 points as 6-4 Wilson Fitzpatrick made 15 and 5-10 Gar Reimers sank 14.

Along with his shooting and rebounding, Parr played a fine defensive game, holding the No. 1 post man, 6-9 Allen Graves to none-out-of-three from the field. Graves made one-out-of-two free throws for his only point of the contest.

Nebraska had the better shooting percentage, 39.6 to 37.2, but could only get off 53 field goal attempts while the Wildcats broke through the Husker defense for 78 shots.

K-State's height was used to ad-

(Continued on page 3)

Tickets for KU Game To Be Sold Tomorrow

A limited number of tickets for the Kansas State-Kansas basketball game at Lawrence, Kansas, February 3 will go on sale at 1 p.m. tomorrow, according to K-State ticket manager Frank Mosier.

Students must present the activity tickets at the ticket office in the Field House to purchase the game tickets at a \$2 price. Mosier emphasized that a student can buy only one game ticket—and that he must present his own activity ticket.

Jazz at Peak in Popularity Today, And Is Good-Will Ambassador

ALTHOUGH JAZZ is at its greatest peak in popularity today, it has been one of the United States' chief ambassadors of good will since the early 1920s.

Jazz concert exchanges with countries behind the Iron Curtain were the first cultural exchanges between the East and the West since the lowering of the Iron Curtain. The Glenn Miller band led by Ray McKinley was mobbed by people in Iron Curtain countries wherever they played.

Even today, jazz artists are touring various parts of the world and performing before thousands of people. Many jazz groups have played command performances for European royalty. Such artists as Benny Goodman, Lionel Hampton, Dizzie Gillespie, and Louis Armstrong have been commissioned by the United States Department of State to make good will tours of the Middle and Far East, South America, and Africa.

JAZZ REACHED another popularity peak in the 1930s and early 1940s during a period called the Swing Era. The names of Tommy Dorsey, Benny Goodman, Glenn Miller, Artie Shaw, Harry James, and Lionel Hampton will long be associated with the Swing Era.

American people today are giving widespread acceptance to all kinds and forms of jazz. This is partly due to the fact that nearly all jazz played today is being played

well. Jazz has also been given a boost by high fidelity.

Six books about jazz have been published during the past year. This is more than almost any two-year period previously. There are more record companies than ever before; consequently, more jazz albums and single discs are being recorded.

TWO JAZZ MUSICIANS have appeared on the cover of a widely read magazine during the past three years and jazz clubs are being formed primarily in colleges and universities throughout the country. The National Jazz fraternity has recently been organized to give encouragement to jazz musicians.

Jazz dance bands have been organized in high schools, colleges, and universities from coast to coast. Three schools in the United States now offer a jazz curriculum. The schools are located in California, Texas, and Massachusetts.

World News

Sarnoff Tells Senate Subcommittee United States Can Catch Russians

Compiled from United Press
By PAT ROBERTS

Washington—Brig. Gen. David Sarnoff, chairman of the board of the Radio Corporation of America, told Congress today "it is late, but not too late," for the United States to meet and overcome the Russian challenge.

Sarnoff, a member of the Rockefeller group which has been studying U.S. defense problems, outlined before the Senate Preparedness subcommittee a 10-point recommendation for action highlighted by greater emphasis on basic research and a speed-up in the development of anti-missile missiles.

The RCA head said survival must be the "overwhelming factor" in considering the cost of such a program. But he said America would be able to maintain its safety "without endangering our economy or deteriorating our standards of living."

Sarnoff said he agreed with the Rockefeller brothers fund panel that there should be a "principal military adviser" to the President and the defense secretary.

The adviser, he said, would align the roles of the separate services more closely with the essential defense jobs and "free those charged with strategic planning from their dual roles."

Sarnoff said Congress should provide the National Science foundation with enough funds to enable it to assume "a major role" in sponsoring and coordinating basic research.

Truman Refuses Conference

New York—Former President Truman appeared today to have closed the door to his possible participation in a White House conference on foreign policy by making a particularly derogatory attack on President Eisenhower.

Truman, who is in New York for a series of speaking engagements, said yesterday that he would "have to find out what the program is" before he would accept an invitation to join other Democratic and Republican leaders in the conference being planned under the chairmanship of Eric Johnston.

"Let's cross that bridge when we come to it," he said.

Johnston, a former President of the U.S. Chamber of Commerce, said Saturday that he might ask Truman, Adlai E. Stevenson, and former President Herbert Hoover to take part in the conference which was proposed last week by the White House. It would mark the first occasion that

the Eisenhower administration has sought Truman's advice.

Truman told reporters yesterday he thought Mr. Eisenhower was neither "a good policy maker" nor "a good budget maker." He conceded that the President has been "a great military commander in Europe and in NATO when he had some one to tell him what to do."

"Who told him what to do?" Truman was asked.

"The Commander in Chief," he replied.

"You were the Commander in Chief, weren't you?" he was asked.

"Yes," Truman said.

Humphrey Lauds Eisenhower Proposal

Washington—The Senate disarmament chairman today hailed President Eisenhower's proposal to Russia for a prompt ban on testing and production of space weapons.

The new U.S. proposal was made in the President's letter to Soviet Premier Nikolai Bulganin yesterday. The President also left the door open for a "summit" meeting with Russia if preliminary talks indicate that they might produce results.

Sen. Hubert H. Humphrey (D-Minn.) told the United Press the Chief Executive's space ban plan represents a "broadened dimension" of previous American disarmament proposals "and a sound one, too."

Humphrey, chairman of the Senate Foreign Relations Subcommittee on Disarmament, said he was "not surprised" that Eisenhower's reply to Bulganin was "more positive than expected."

Declaring he "always believed the President to be a man of peace," the Senator said he hoped "the same spirit will permeate the state department and the Secretary of State John Foster Dulles."

The President, in a surprise offer in his letter to Bulganin, proposed "that we agree that outer space should be used only for peaceful purposes."

Noting that both Russia and this country now are using space to test military missiles, he said:

"The time to stop is now."

Recalling this country's fruitless offer 10 years ago to internationalize all atomic discoveries, the President told Bulganin the world now faces "another choice perhaps even more momentous . . ."

LITTLE MAN ON CAMPUS BY BABIER

"FETCH ANOTHER GUINEA PIG, AGATHA—YOUR FATHER JUST RECEIVED ANOTHER 'ANONYMOUS' CHRISTMAS CAKE."

Readers' Forum

Dear Editor:

Your editorial of January 8 denouncing "scholastic capability" as the prime criteria for reviewing the fitness of campus organization officers provokes me to write.

While we all have nothing but the highest regard for "sports editors," "employees of IBM," and "graduate assistants at Big Ten schools," it seems to be that (1) occupancy of such positions can scarcely be regarded as the epitome of success, and (2) the fact that a few have reached such positions while "having had a tough time making enough grade points to get a sheepskin," is scarcely sufficient evidence to warrant the inference that requiring a C average for campus leaders is placing too much emphasis on scholastic ability.

If more emphasis were placed on scholastic ability, it might someday occur to an editor to follow studied policy of giving at least as much emphasis to the intellectual activity going on on the campus as to the parking problem and why the grass won't grow.

As a case in point, in the same issue in which our editorial appears, you devote two columns to the organization of Order of Omega, a new K-State branch chapter of the national economics honorary and one of the few in existence of agricultural colleges. In the same issue, you devote a page-one story of some eight columns to a picture, to a sleeping dog in the lion.

Having the editor of the Collegian opposed to emphasis on scholastic ability and the cover of the new student catalog devoted to athletics and marriage, it remains only to re-do the cover of the General catalog with a picture of this year's MOC, and have the faculty convene and denounce the D-plus average required for graduation as "excessive emphasis on scholastic ability."

W. B. Nelson,
Associate Professor of Economics.

CENTER AT WORK—The Nebraska game Saturday saw one of Jack Parr's best all-round performances of the season as the Wildcats defeated the Cornhuskers 74-59. Parr, 6-9, far outmaneuvered Nebraska center Allen Graves, 6-9, as he led both teams with 20 points and 20 rebounds. In the left picture, Parr outjumps Graves (25) to sink a two-pointer. In the center, he scrambles to rescue the ball from going out-of-bounds and managed to pass it to teammate while surrounded by Jim Kubacki (33), Allen Graves, and other Cornhuskers. At right Parr swats down a shot attempt by Bob Harry (31).

Cat Tankers Tip E-State

Tom Onuma and Tom Coblentz faced the K-State swimming team in a decisive 61-21 win over Emporia State Saturday in its first meet of the season.

K-State won every event and added two seconds and one third to win handily.

Onuma took firsts in the 100-yard freestyle with a time of 2:22 and the 50-yard freestyle with a time of :26.5. He was also member of the winning freestyle relay team, which had a time of 4:10.5.

Coblentz scored first in the 220-yard freestyle with a time of 2:51 and the 440-yard freestyle with a time of 5:22.

MSU Matmen Flatten K-State

K-State's wrestlers lost their first night meet Saturday as Minnesota defeated the Wildcats, 16-6.

After taking the season's opener from Fort Hays State, the Wildcat matmen have won only one of 24 matches against three opponents.

Ray Glaze (167-pounds) and Jerry Haller (177-pounds) each won decisions for the six K-State matches. Haller is the only Cat with a winning record with a 3-1 mark.

The Gophers scored on five decisions and a forfeit by Cal Schwalbe who was forced to quit in the second period of a match because of a leg injury.

The Cat grapplers wrestle at Hays tonight at Hays. Start-time is 7:30 p.m.

Cat Cagers Overpower Huskers

Continued from page 1)
vantage as the Cats beat NU on the boards, 37 to 67.

Nebraska gave the Cats a better game than was expected, keeping close most of the first half and being down only five with 7:30 left in the tilt.

The Huskers led 7-1 early in

the game and 25-24 with 5:58 remaining in the first half, but were trailing at intermission, 41-33.

All Wildcats who played broke into the scoring column. Guards DeWitz and Don Matuszak swished nine and six, respectively. Wally Frank, 6-8

sophomore, hit for eight while Jim Holwerda, who played a sharp floor game, sank two, and Larry Fischer cashed in with five counters.

Husker coach Jerry Bush was impressed with Frank, "His being around the next two years will really help K-State basketball."

"We played a good game against NU," Winter said, "They have a real good club. It took us a while to get going in that game. When you beat a team by 31 points it is a little hard to start seriously against them in the next game." Nebraska will be pretty tough at Lincoln.

Finals Tonight In Cage IM's

Intramural basketball championships will be tonight in the Field House with YMCA meeting West Stadium at 7 p.m. for the independent title and Beta Theta Pi playing Delta Tau Delta at 8 p.m. for fraternity honors.

These teams advanced into the tournament finals after semi-final wins Friday.

Beta Theta Pi, with George Phipps scoring 14 points, downed Sigma Phi Epsilon. Delta Tau Delta defeated Kappa Sigma, 24-18. George Rood tallied eight points for the winners.

Ben Grosse and Darrell Rose each scored nine points to lead YMCA to a 27-21 win over the Rebels. West Stadium smashed House of Williams, 36-21. Ralph Pfeifer and Duane Shaw each collected 10 for West Stadium.

Steve Sucic To Illinois

K-State backfield coach Steve Sucic resigned Saturday to assume similar duties at Illinois university.

KS Debaters Finish Fourth In Tournament

K-State debaters placed fourth in the Golden Spread tournament at Amarillo over the weekend, according to Anita Grimm, assistant speech instructor. Eighteen schools from Texas, Oklahoma, New Mexico, Arizona, and Kansas participated.

Two teams in the women's division won in the quarter finals and tied each other for third place in the semi-finals. On the teams are Virginia Baxter, Gvt Fr; Mary Ruth Hall, ML Jr; Sharon Nuttle, PrL Soph; and Pat Trent, BMT Soph.

Dave Nuttle, AH Sr, and Phil Reid, EE Jr, senior men's debate team, won five and lost one debate in the preliminaries. The junior men's division won two and lost three debates.

Bill Hiatt, Ar 01, was a finalist in the poetry reading division and Reid was a finalist in the senior men's extemporaneous division. Tom Morey, PrL Fr, was a finalist and Glenn McGinnis, Sp Fr, placed second in the junior men's extemporaneous division.

Students May Pay Fees

Students who pre-enrolled may pay fees in Anderson 104 from 9-11:50 a.m. and 1-4 p.m. Monday through Friday and 9-11:50 a.m. Saturday through January 24.

Students should know their second semester address and telephone numbers when they pay fees in order to fill out housing cards. This is especially important since mail no longer goes through the College post office.

Livestock Judging Team Wins Two Denver Meets

K-State's junior livestock judging team won both the carload contest and the intercollegiate judging contest, while the wool team finished fourth at the National Western Livestock show in Denver over the weekend.

The victories marked the fifth and sixth national contests won by K-State judging teams this year.

Frank Bell, AE Sr, was high individual in the livestock contest and tied for high individual with Lionel Chambers, AE Soph, in the carload contest, which consists of comparing groups of 20 fat animals.

E.E.'s, M.E.'s, A.E.'s, Math, Physics and Chemistry Majors:

First uncensored photo of TALOS, long range guided missile developed by APL for the Navy.

Technical achievement is our sole concern

The Applied Physics Laboratory (APL) of The Johns Hopkins University exists solely to make scientific and technical advances. For this reason we are able to offer our staff members freedom to explore tangential ideas, which frequently lead to significant accomplishments. Among our "firsts" are the world's first supersonic ramjet and the first large booster rocket. As far back as 1948 we achieved fully-guided supersonic flight.

Today two guided missiles that grew out of our pioneer work are in production: The TERRIER is now a fleet service weapon, and TALOS (above) has been adapted for land as well as ship-based operation. When TALOS was recently unveiled by the Navy, APL shared honors with many associate and subcontractors who had worked under our technical direction in its development.

We are presently engaged in missile assignments of a highly

advanced nature which cannot be divulged for security reasons. Suffice it to say that, as always, our work is of such vital importance and urgency that little is spared to facilitate its progress. Scientists and engineers at APL are in the vanguard of science and enjoy the keenest sort of responsibility and challenge.

For information on opportunities awaiting men with better-than-average academic records, ask your Placement Officer for our new 30-page publication or write: Professional Staff Appointments.

Interviews on campus January 14

A representative of the Applied Physics Laboratory of The Johns Hopkins University will be on your campus on the days indicated. Please contact your placement officer now and arrange for an interview.

Council Considers Pictures For Student Activity Cards

Student Council voted last night to open bids to companies interested in making photo-identification cards as permits to campus events.

Council decided that any or all bids may be rejected at its discretion. The Student Governing Association Activity Ticket committee is in charge of opening the bids, but no definite date has been decided on yet.

Council also appointed a committee to select the insurance company to handle the student health insurance program for K-State. Bids were opened January 2 and will close at 10 a.m. Saturday.

On the committee are Herbert J. Wunderlich, dean of students; Daniel Beatty, business manager for K-State; Richard Kirk, business manager for Riley County hospital; Paul Hatfield, AgE Sr, chairman of Student Council; Neil Scott, Soc Sr, student

body president; Mardy Edwards, HDA Jr; and Sam Warren, EE Sr.

In another action, Council voted that a Student Governing association newsbooklet be published by the General Publicity subcommittee of the Public Relations committee.

Council designated that 3,000 copies be printed, but did not allot the \$110 requested by the committee. The cost of the publication will be cut, but the amount of reduction has not been determined yet.

Council also approved a proposal submitted by the Finance committee of the Leadership Training workshop to assess each member enrolled in the Workshop \$3 to help cover expenses.

The workshop will begin on Tuesday night, February 11, and will continue for six consecutive Tuesday nights through March 18. A special all day "kickoff" session will be Saturday, February 15.

VOLUME LXIV Kansas State College, Manhattan, Kansas, Tuesday, January 14, 1958 NUMBER 72

Military Ball Plans Okayed

Scabbard and Blade was granted permission to hold its annual military ball by the Student Activities board at a meeting in the Union yesterday. Ralph Flanagan and his band will play for the ball.

Positive action concerning the request was delayed until the meeting yesterday because the organization was financially unstable and because the Activities board had not received a budget of expenses to be incurred for the affair at the time the first request was made.

Craig Fischer, BPM Sr, representing Scabbard and Blade, explained to the board that \$388.85 had been added to the treasury since the previous board meeting

and that \$1,050 would be received in the near future to help meet expenses. Fischer said the group's total assets are \$1,470.85.

The cost of hiring the Flanagan band is \$1,500 and expenses for the ball are expected to total \$1,696.25.

Bob Carlson, BA Jr, also representing the group, told the Activities board the difference between the total assets and the expenses to be incurred will be taken care of by ticket sales. He reported that tickets will be sold for \$3 a couple and all College students will be invited to the ball.

The Activities board also suspended the Psychology club as

a student organization yesterday. The group was suspended on the basis that it was of no benefit to the student body or to any group on campus at the present time.

KS-KU Tilt Brings Coeds Extra Hours

Closing hours Monday, February 3 will be extended until midnight for women students attending the KU game, according to Patsy McClenahan Garner, EEd Jr, president of Associated Women Students' council.

This extension of closing hours was approved by the AWS council at last night's meeting.

The council appointed a committee to determine closing hours for all women students the night of February 3 in the event of a K-State victory. The report of this committee will be announced after it investigates the plans being made for an organized pep rally.

According to a report submitted to the council by the AWS Conference committee, the theme for All Women's Day this spring is "What You Will Be, You Are Now Becoming."

Plans for All Women's Day include an address by an outstanding woman speaker, discussion sessions in the afternoon, and a fashion show sponsored by Manhattan stores with college women modeling the clothes.

McCain Feels Better, Will Come Home Soon

President James A. McCain, who is in Riley county hospital recuperating from an operation, is expected to be released soon—possibly tomorrow or Thursday, according to the President's wife.

Mrs. McCain doubts that the President will be back in his office before the first of next week. She said he was feeling much better and intends to speak at commencement.

the people of Kansas are worked up unnecessarily," Docking said. He did say that the budget will be different from the one which was expected to be released.

The budget message was written three weeks ago, Docking stated. "I am not infallible. If I am wrong, I want you to tell me so." By this, he invited Kansans to write him concerning the new budget.

In a question and answer period following the speech, the Governor said that the state system of higher education needed to be more efficient than it presently is. He suggested that competition among state colleges be reduced, and proposed that action concerning the five state colleges begin at the State Board of Regents level.

Concerning the proposed K-State name change, Docking had little comment. He said that the name of the college made little difference to him.

Schlesinger Calls Society Complacent

"The real problem of our age is a homogenized society," said Prof. Arthur Schlesinger Jr., noted historian, in this morning's all-College assembly.

Individualism, self expression, and intelligent thinking are becoming obsolete, he said. "It's a case of the bland leading the bland. We can ill afford this desire of inner conformity which condemns us to a society of mediocrity. A lapse of originality puts everyone in the masses."

Education stresses adjustment instead of achievement, Professor Schlesinger pointed out. The bright child is many times kept on the same level as the slow child. In time, everyone will become mediocre.

Another problem of the American society is abundance, he said. "The change from scarcity to abundance is the biggest change since 1930. The people of the 30s were able to cope with the problem of poverty and their spirits were unbroken." However, luxurious living may soften the American people and tend to make them dependent on someone else to think for them, he added.

Big 4 Talent Entries Announced

BIG FOUR TALENT ENTRIES from K-State are "The Four Delts," "The Nightcaps," and Jan White, HT Jr. At top from left are "The Four Delts".

"The Four Delts," "The Nightcaps," and Jan White, HT Jr, were selected as first, second, and third place winners respectively in the Big Four Talent show audition last night in Danforth chapel auditorium. Judy Means, MAI Fr, was chosen as alternate.

The top three acts will perform in the show which will begin a four-school tour at K-State Thursday, February 13. Talent from five schools will be in the show this year.

Max Bishop, ArE Soph, bass; Lowell Novy, VM Soph, baritone; George Rood, ME Jr, top tenor; and Larry Foulke, NE Jr, lead; are members of "The Four Delts" quartet which has been performing at K-State since 1956.

"The Nightcaps," a vocal quartet, have been together since December, 1956. They have performed for a variety of campus and civic organizations and have their own weekly radio show.

Members of the group are Doug Exline, ME Soph; Janet Holm, EEd Soph; Jon Wiegand, GA Jr; and Bob Sanders, EE Soph, arranger.

Miss White, a transfer this year from Colorado Women's college, is a marimba soloist. She received the talent honor in the last "Miss Colorado" contest.

Dear Sir:
I can contain myself no longer! Can it be that the "Do-Better" committee has persuaded the Physical Plant to do away with our traditional 8 a.m. whistle which informed us that if we weren't already in class, we should be?

This is surely a step in the right direction, as without our whistle we can no longer be known as a "cow college." However, I feel that this is of no avail, for if we do revert to KSU, our friends down the river will only reply in kind and simply refer to us as the "udder university."

Sincerely,
Carl Swisher, EE Sr

No Solution in Sight Yet for the Quandary That Is the Activity Ticket Mess, But . . .

THE ACTIVITY TICKET PROBLEM is still much in the foreground but there's no solution in sight. The question of whether the students have the legal or moral right to sell, or give away, their activity tickets looms menacingly over student-Athletic department relations.

But relations or no, we think the students have the right to do as they please with their activity tickets.

The argument that the students paid for the ticket and therefore have the right to do whatever they want with

them is admittedly an unstable one because the students get them at a much-reduced price.

STUDENTS PAY AN AVERAGE of \$4.60 a semester for the activity ticket. This amounts to about 66 cents for each of 14 major contests. By major, we mean four home football games and 10 home basketball games.

K-Staters can also get into wrestling, baseball, and track meets with their activity tickets.

But one can also argue, that the students should be given a special rate. Students have a special interest in the sports.

STUDENTS ARE SUPPORTING the athletic program at K-State to the tune of \$61,753 this fiscal year. This is guaranteed, steady, income and isn't dependent on how the weather is down at Norman, Okla., or at East Lansing, Mich. (K-State gets more money if a good crowd shows for the K-State-OU, or K-State-Michigan State game, so inclement weather cuts down on the money the Cats bring home. This is true of football at least.)

There's another aspect to consider. The student has no choice of whether to buy an activity ticket. He must pay for the ticket and like it. The student has no comeback. If the student never, or rarely, uses the ticket, then he's out \$9.21.

THE ACTIVITY TICKET setup now is a unilateral contract. Unilateral, that's short for one-sided, contracts aren't recognized by law and on this basis the student can legally do what he wishes with the ticket.

In our estimation, the activity ticket represents a right as opposed to a privilege.

But there is a plausible solution to this problem. One was presented to us which we endorse and think worthy of consideration.

Dissassociate activity tickets from tuition fees. Make their sale completely optional, but at the same time keep the price at a cut rate. The price should remain low because students have a much higher interest in their school's athletic teams than the person who buys a general admission ticket.

RESERVE FOR EVERY GAME the number of seats equal to the number of tickets sold. This way if a student lends his ticket to someone there'll be a place to sit. The ticket office won't have a chance to err because it'll know exactly how many seats to save. And if the office does oversell, the manager can be put into jail for selling a reserved seat twice.

Whoops! The light in our crystal ball just went out. Guess we'll have to open the issue for suggestions from the student body.—Roger Myers.

Over the Ivy Line KU Answers Soviet 'Educational Supremacy,' Lures 'Foreign Scientists' to Embalming School

By Sharon Totten

SAYS THE DAILY KANSAN, "So our fat, dumb, and sloppy educational system is far back of the Soviet Union's, with the result that Russian scientists have developed an intercontinental atomic rocket, while our rockets fizzle even in the attempt to lift a tiny, pint-size moon into the skies.

"So now, with magnificent timing comes the University of Kansas' announcement of a new School of Embalming—with professors in this 'science' imported from distant Canada.

"Is this to be the Jayhawks' triumphal answer to Sputnik? If Russian hydrogen bombs fry us, KU will embalm us!

TRADEGY HAS STRUCK the University of Colorado campus. The rising cost of living has finally hit the student where it hurts—in his beer money.

Returning students who wended their way to a local tavern for a cool glass found the New Year had brought a change. Pitchers now cost \$1.25.

After outraged cries of "What?" thirsty students dug deeper and paid the extra quarter which, according to waiters in the establishment, goes for a "cabaret tax."

Typical student reaction is that the sedate pub on the hill is "raking in enough" without boosting costs, and one Colorado university sophomore doesn't believe the raise is justified "due to the lack of nutritional benefits derived from 3.2 beer."

And the Colorado Daily is taking a rather calm attitude toward the tragedy. Its only comment . . . "Well, everything's going up nowadays—even dogs."

FIVE UNIVERSITY OF Colorado coeds are using a novel way to pay phone bills.

The girls were notified at noon one day last week that unless their overdue bill was paid, the telephone would be disconnected. In a panic they, rushed to their rooms and returned with their piggy banks, spilling the contents into a laundry bag in the living room.

An hour later they lugged the \$94 worth of pennies, supported by a coat, into the telephone office downtown and deposited the money at the cashier's desk.

The girls were asked to package the pennies for easier counting, but they complained they had classes to go to. Official company conferences followed and after due deliberation a messenger was dispatched to the bank to deposit the money. It will take a while for the bank to count the money, but the girls will receive credit eventually.

THE EFFECTS of a slippery thief to stymie the city room of The Indiana Daily Student in its untiring pursuit of the news by stealing one of its telephones have been foiled. A new telephone was installed Friday morning.

The culprit, however, remains at large. And no clue to the missing telephone has been found.

LITTLE MAN ON CAMPUS BY BIBLER

Telegraphic Tabloids

By UNITED PRESS

Chattahoochee, Fla.—William Gordon found he timed his escape wrong from the Florida Mental hospital last week and turned himself in to police yesterday. He said it was too cold outside.

Knoxville, Tenn.—Matthew Leeper, 76, a janitor, landed in trouble yesterday when a woman tenant violated his order that everyone be in bed by 10 p.m. She charged that Leeper tried to hit her on the head with a hammer when she disobeyed his order.

Memphis, Tenn.—One of two thugs who stole \$968 from a bank yesterday apparently doesn't like his profession. While scooping bills from a cash drawer he turned to a woman clerk and said: "This is a hell of a way to make a living, isn't it?"

Jackson, Miss.—Dr. Felix Underwood, an official of the Mississippi Health board, had a ready exhibit when he took the stand to testify in favor of fluoridation of Jackson's water supply. Underwood just pulled out his false teeth for the committee.

Hollywood—The Wild West ain't what it used to be. Warner Bros. hired 200 Indians as extras in the Kanab, Utah, area for a western movie being filmed there. Then studio officials learned they would have to order 200 Indian-style wigs from Hollywood because most of the Indians had crew cuts.

Chicago—The Animal Welfare league thinks its about time someone held a "tag day" for well-bred dogs.

The League said it found almost 20 purebred dogs wandering about the city without tags and that no one has claimed any of them.

GEORGE ROOD, Delta Tau Delta, tries to fight out of a Beta Theta Pi trap composed of Don Ade (77), Ray Serpan (background left), and George Phipps (85). Beta Theta Pi went on to win the intramural championship, 30 to 26.

Coaches Say

Extra-Point Rule Change May End Tie Grid Tilts

There will be fewer ties and more interest in college football, commented college football coaches as the NCAA rules committee passed a new two-point conversion play.

The new rule, which marked the

first change in football scoring since the NCAA was formed in 1906, was approved unanimously yesterday by the 10-man committee. The committee also voted to liberalize the substitution rule, permitting all substitutes to re-enter each period once, and made four other rule changes.

The conversion rule retained the old one-point for placement or drop kick regulation but added the option that a team could try for two points by running or passing from the three-yard line. Most high schools throughout the country are expected to conform to the regulation.

In the committee's other action:

1. Teams will be penalized five yards for each out-of-bounds kick-off.
2. Ineligible pass receivers will be permitted to move downfield from the line of scrimmage as soon as the ball is thrown.
3. The rule against defensive teams "jamming" offensive signals was strengthened.
4. Players are limited to making contact with only one arm and hand when they block. Offensive blockers were permitted the use of both hands and both forearms.

Betas, Stadium IM Champs

One new intramural basketball champion was produced last night as Beta Theta Pi edged Delta Tau Delta, 30-26, for the fraternity division trophy.

West Stadium retained the

Wrestlers Top Ft. Hays

K-State's wrestling team won all but one match to defeat Fort Hays yesterday, 21-5, in a non-conference dual meet at Fort Hays.

independent division championship that it won last year by defeating YMCA, 41-32. West Stadium built up a 22-15 lead at half behind Duane Shaw's 12 first half points. Shaw finished the game as the leading scorer for both teams with 14. Ralph Pfeifer collected 11 for West Stadium. High point man for YMCA was Ben Grosse with 10 points.

The Delts enjoyed a 18-14 half-time lead but the Betas came back strong in the rugged second half behind Ray Serpan who tallied 11 points. Mike Dole and George Rood each collected seven points for the Delts.

West Stadium collected its third championship in a row and the Betas took over Sigma Alpha Epsilon's place as fraternity champion.

Activities

O'Neill's 'Long Journey' To Be Read by Players

The K-State Players will present readings from Eugene O'Neill's "Long Day's Journey into Night" in the little theater tonight at 7:30 p.m.

The story is built around the record of one day in the lives of the haunted Tyrone. Ken Nakari, Sp Jr, will be James Tyrone, the 65-year-old head of the household. Randi Johnson, Sp Fr, will read the part of his wife Mary. Glen Rhea, Sp Soph, will be the cynical elder son, and Jack Macy, PsP Fr, will read the part of the younger son.

Orchesis

Orchesis, modern dance club, is sponsoring a dance workshop today at 4:30 p.m. in Nichols 1.

Any student interested in learning new dance techniques, compositions, and warming-up exercises, is invited to attend this session, according to Kaye Aye, PEW Sr, publicity chairman.

Eta Kappa Nu

New officers were chosen by Eta Kappa Nu, electrical engineering honorary at a recent meeting. Elected were Phillip Garberich, EE Jr, president; Royce Kopf, EE Sr, vice president; Marion Hinshaw, EE Jr, corresponding secretary; Gordon Carlson, EE Sr, treasurer; Robert Moyer, EE Jr,

bridge correspondent; and Ronald Garlow, EE Jr, recording secretary. Prof. Ralph Kerchner, head of the Electrical Engineering department, was re-elected as adviser.

Phi Delta Gamma

Phi Delta Gamma will have a craft meeting Thursday at 8 p.m. at the Sue Larson home, 826 Sunset. The graduate women's honorary will learn to make jewelry and other hand craft.

Horticulture Club

Officers were chosen at the last meeting of the Horticulture club. They are Harlan Forslund, HSp Jr, president; Richard Runge, Ag Jr, vice president; Darlene Retzlaff, Ag Fr, secretary; David George, Hrt Fr, treasurer; and Joe Cooper, Hrt Sr, program chairman.

Forslund and Martin Meyer, HSp Sr, will co-edit the Horticulture Club Newsletter, which will be sent to horticulture clubs all over the United States.

Dames Club

PHT (Pushing Hubby Through) diplomas will be awarded to Dames club members whose husbands are graduating this January at the monthly club meeting Thursday evening at 8 p.m. in the little theater.

Docking Salary Hike Proposal Pleases KS Profs

By KATHY SCHULTIS

Gov. George Docking recommended a five per cent faculty salary raise for Kansas' five state-supported colleges in his budget which was delivered to the Kansas legislature yesterday.

"I have taken an amount equivalent to an overall five per cent increase in salaries for the

fiscal year, and I recommend that this amount, which totals \$949,232, be appropriated from the General Revenue fund to an account of the Board of Regents," Docking said in his budget message to the solons.

He also said a "careful review" should be made by the Board of Regents to eliminate

"inequalities in pay between schools and within schools."

The proposal brought various comments from Kansas State faculty members. All of them agreed the increase as a step in the right direction toward keeping the state's educational level as high as possible. President McCain declined to comment on

the proposal until he has had a chance to study the new budget more closely.

"To know that the state is giving additional salary support to the faculty in the state colleges is encouraging to faculty members," said Margaret Lahey, associate dean of students. "I think we all had a sinking feel-

ing when we learned Governor Docking did not want to recommend the salary increase."

Herbert J. Wunderlich, dean of students, said he was gratified that the governor "sees the need to raise the salaries of college faculty members."

Albert L. Pugsley, dean of academic administration, said, "Naturally we are gratified to see that the governor realizes the necessity of increasing faculty salaries. This is a step toward preventing a large turnover of faculty members. No one knows exactly what the final action by the legislature will be, but we hope it is favorable."

"We must have the increase to meet the growing competition of other schools," stated E. E. Leasure, dean of the School of Veterinary Medicine. "It will certainly help to retain instructors in the Vet Medicine school."

Prof. Finis M. Green, head of the department of Education, expressed a similar opinion by saying the proposed salary raise would help maintain the high level of education in the state. "The salary raise certainly is in order and is definitely needed," he said.

Harold Howe, dean of the Graduate school, had this to say, "I think the raise will help somewhat. It is probable we might hope for an additional increase in the future. But the five per cent will be welcome now."

"I rather expected Governor Docking would okay the salary increase proposal," commented M. A. Durland, dean of Architecture and Engineering. "Of course, we are happy about the proposed increase."

NUMBER 73

Games Area To Get Automatic Pinsetters

Automatic pinsetters may be installed in all eight Union bowling alleys in the near future.

Complete information concerning the switch was presented to Union Governing board members Monday night by Loren Kottner, Union director, and Jim Smith, Union Games manager. Details of the proposed change will be completed after the board approves the move.

"The sooner the change can be made, the better off the Union will be," Kottner said. "Our main interest in games area is participation, excellent service, and a reasonable profit. Many colleges and universities throughout the country have made, and others are contemplating, the move to automatic pinsetters."

Smith explained to board members that in all cases where automatic pinsetters have been installed, the lineage has jumped from 2,000 to 3,000 lines an alley each year. "The increased lineage naturally comes from the availability of the machine at any time of the day, this being a wonderful bowling service compared to what our bowlers get now," Smith said.

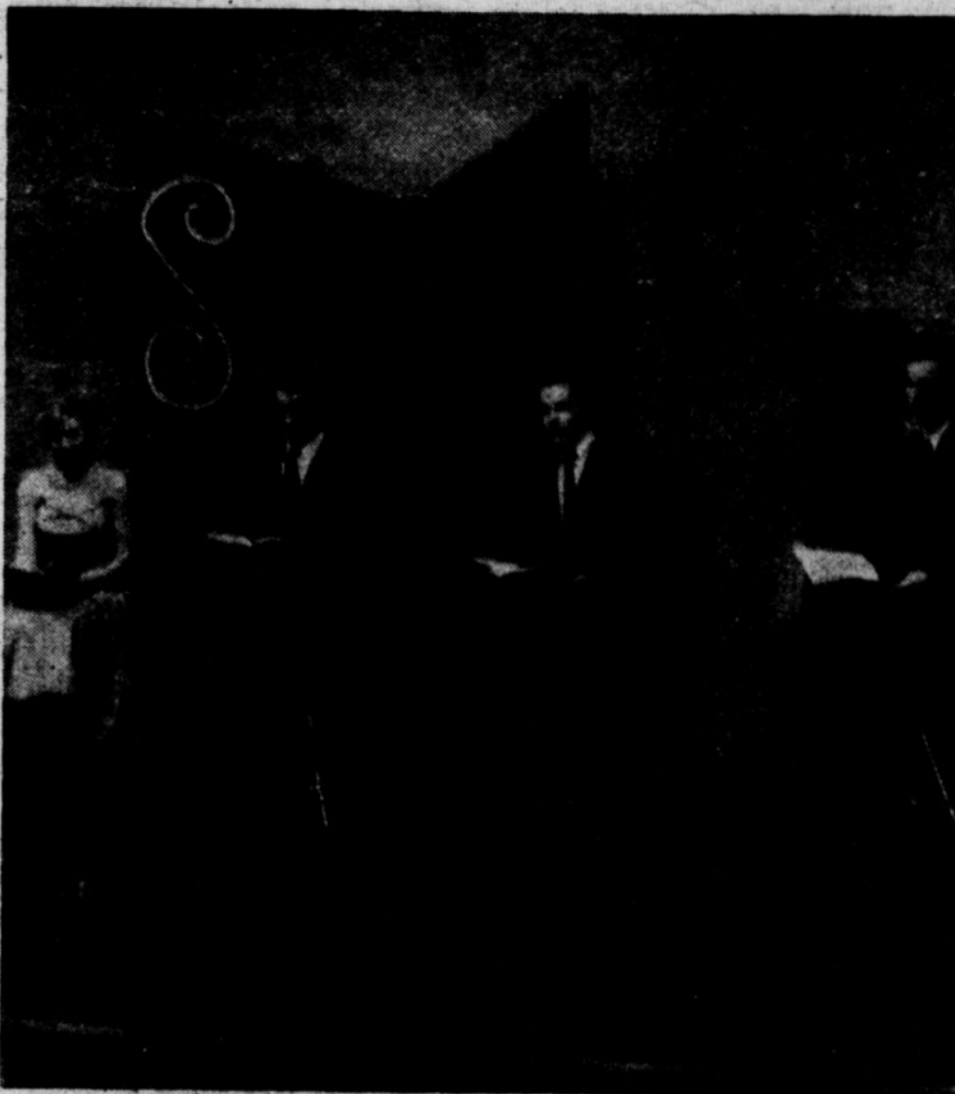

There is such a shortage of pinsetters that the games area has had to get pinsetters from the high school and some junior high school students have been

setting pins, Kottner told the board. He also said that the turnover of pinsetters is very great. "For the first four months of this school year, we have had 55 students work for us as pinsetters."

"At the present time two companies are making automatic pinsetters," Smith said. "With one company, we would lease the machines for a 10-year period and need 8,000 lines an alley a year to meet the payments. With the other company, the Union would buy the machines and pay for them over an eight-year period with the payments being the equivalent of 10,000 lines an alley a year, at 35 cents a line," he explained.

"Already we have had enough lineage to meet the minimum number of lines from one company, and with the 2,000 to 3,000 line increase other establishments are experiencing with the new pinsetters, we could meet the minimum number of lines from the other company," Smith said.

The Union Governing board is expected to act on the recommendation at a meeting early next semester.

THE CURTAIN OPENS for the encore of "Long Day's Journey into Night," presented last night in the Union theater. Randi Johnson, Glen Rhea, Jack Macy, and Ken Nakari read the Eugene O'Neill story. Dr. John L. Robson of the speech department was responsible for adapting the reading for presentation at the one-night performance.

Staters Needed To Design Y-Orpheum Program Cover

A student is wanted to design the cover of the program for Y-Orpheum, according to Dick Brantingham, BA Soph., Y-Orpheum business manager.

A contest, open to all K-State students, will be conducted by the Y-Orpheum Program committee to select the winning designer.

This year's program will be much larger, 8 by 11 inches, with 16 pages. The program cover will be done in three colors and black and white, Brantingham said.

The contest is a new feature of Y-Orpheum this year. Rules as to entry procedure will be issued later by the Program committee.

The committee members will serve as judges for the contest.

Five dollars will be awarded the winner, and the program will contain a picture and an article about him.

Another new Y-Orpheum plan this year will be the sale of

tickets on a mail order system. Tickets will be sent to parents of students, alumni, and the general public living outside Manhattan at their request. The new system will be advertised through the "K-Stater," the K-State alumni magazine, and state newspapers, according to Brantingham.

Pre-Enrollment Fees Due At Close of Finals Week

Second semester fee payment for students who pre-enrolled will continue through January 24. Fees are being paid and housing cards filled out in the new Cashier's office in Anderson 104 from 9 a.m. to 11:50 a.m. and from 1 p.m. to 4 p.m. today through Friday and Saturday morning.

Those pre-enrollees who have not paid their traffic fines are not being allowed to pay fees until the Cashier's office receives clearance that their fines are paid. About 20 students still have outstanding traffic tickets.

The first day of fee payment 398 of the 3,842 pre-enrollees

paid their enrollment fees.

Registration for second semester will be Thursday and Friday, January 30 and 31, in Nichols gymnasium for those who did not pre-enroll. Pre-enrollees who fail to pay fees by the deadline must reregister this time.

All of the services of the cashier and the obtaining of College business forms are now available in Anderson 104 after being moved last week from room 101. The personnel assistant's office is now located in the former Cashier's office and student loans and employees' group insurance are now being handled in room 103.

Pay Petition Sent Today To Docking

The petition that 3,750 students signed to encourage faculty pay increase will be sent to Gov. George Docking today, according to Neil Scott, Soc Sr, student body president.

Governor Docking included a five per cent increase in faculty pay for all state colleges and universities in his budget, which was announced yesterday.

"We did not send the petition to the governor as soon as we had it assembled because we felt that he had his budget almost complete, so we held it to see whether he would include the increase or not," Paul Hatfield, AEd Sr, chairman of Student Council, said.

"Another reason for holding the petition was that we wanted to send it at a time that it would do the most good because we had the feeling of the students, but we did not feel that it would do any good to send it at the time," Scott said.

"Scott said that Kansas university sent a letter to the governor and got a reply, stating that the governor realized the need for good education."

The Board of Regents, desiring to encourage better education in Kansas, submitted a statement to the governor desiring faculty pay increase. The Board of Regents got the ball rolling while the K-State students joined in to give it a boost, Scott said.

Commencement Invites Available in Kedzie 101

Graduating seniors may pick up their Commencement invitations in Kedzie 101. Those who need extra invitations may purchase them at the same place.

Traffic Tickets Upheld for Two

Traffic tickets incurred by two students were upheld yesterday by the Traffic Appeals board at its meeting in the Union.

Carole Hall, HE Soph., explained that she had received a traffic ticket for not having her parking permit placed so that it could be easily seen. She told the board that the permit was placed on the inside visor of the car and that the visor was usually turned down so the permit was visible. Another student turned up the visor when using the car, causing the ticket to be given.

Lawrence Brady, GA Sr, received two traffic tickets for not having his car registered with the College through the Traffic office. He told the board that he does not keep his car on campus throughout the school year, and that he thought it was not necessary to register the vehicle.

The first ticket was incurred for parking in the student parking lot west of West Stadium and the second ticket was given after Brady had parked his car on a campus street.

Seniors Should Return RP Blanks to Kedzie

All seniors who have had their pictures taken for the Royal Purple should turn their activity blanks in at K103A or mail them to Student Publications, Kansas State college.

Those persons graduating or dropping school this semester who wish to obtain a Royal Purple may do so by paying \$4 at K103A. The yearbook fee is \$3 and \$1 is charged for wrapping and mailing charges.

Name Change Doesn't Matter To Kansas' Governor Docking

DURING THE QUESTION and answer session after Gov. George Docking's Monday night speech, the Governor said he didn't particularly care whether Kansas State college changed its name to university.

The Governor said he was more interested in seeing students get a well-rounded education and that the title wasn't too important.

He went on to say that he would rather have the Board of Regents handle the situation and indicated he would probably go along with the final Regents' decision.

The name change committee (Student Council KSU committee) must now apparently aim its guns mainly toward the Regents. KSU committee chairman Warren Keegan has said that the Regents are fairly well sold on the idea of the change to university.

THE ROAD TOWARD a rightful title seems to be stretching straight toward conclusion, and we hope this is the case. Governor Docking can't be expected to share the enthusiasm K-Staters have, and we hope his lack of interest is merely the indication of a heavy work schedule instead of an underlying opposition.

During that same question and answer session, the Governor said he's been kicking around the idea of setting up a state university structure.

This way, the state could increase efficient operation of the five state-supported

colleges and universities by doing away with schools and departments which duplicate instruction—for instance, the incorporation of education and home ec at K-State, KU, Emporia State, etc., into one school at a central location.

ONE OF THE MOST outspoken advocates of elimination of duplication is newly-appointed Regent Whitley Austin, editor of the Salina Journal.

In a recent editorial, Austin cited journalism in the state-supported schools as duplication, and suggested that they be combined into one department at one school.

Most state-supported schools use journalism majors to put out their newspapers. But K-State, with a department of technical journalism, teaches scientific writing as well as general news writing. The practical application value would be damaged if the newspaper were to be curtailed or moved to another location.—Roger Myers.

World News

Republicans Attack, Democrats Defend Proposed \$313.2 Million Docking Budget

Compiled from United Press
By PAT ROBERTS

Topeka—Kansas legislators hewed to political lines today as Republicans attacked and Democrats praised Gov. George Docking's recommendations for a record-breaking \$313.2 million budget.

Republicans, controlling both Houses, called his program a "confused patch-work," involving "double taxation," and described it as "unsound and detrimental."

Democrats said Docking had presented a "blueprint that will balance the budget" and called it a "courageous and forthright clarification" of the state's needs.

Docking delivered his address late yesterday to a joint session of the newly convened legislature, which opened its 30-day session with quick passage of a bill to clean up a deficit of more than \$3 million in state aid to elementary schools. Docking said he probably would veto the bill in its present form. He called it "a cheap political move" to transfer money from the general fund to cover the deficit.

The fast-developing fight between the governor and Republican legislators brought a quick announcement by Sen. Howard Immel (R-Jola) that he would introduce a bill to increase the sales tax from 2 to 3 per cent and earmark the estimated revenues of \$26.5 million annually for education.

Docking repeatedly has said he would veto a sales tax increase. Immel said the sales tax boost would "take care of all tax matters in the budget session."

Both Houses began work with adoption of routine resolutions to organize the legislature, adopt rules, make seating arrangements, and appoint the same officers who served in the 1957 session.

Eisenhower Meets with Press Today

Washington—President Eisenhower meets the press today at his first news conference since October 30. He faces a bombardment of questions expected to range from his decision-making abilities to possible top-level talks with Russia.

Today's press conference is the first time he has met formally with reporters since his mild stroke of November 25.

Eisenhower was almost certain to be asked about former President Truman's acid comment, repeated twice in

three days, that the President "always had someone to tell him what to do" when he served as a military commander under Democratic presidents.

The President's attitude toward a conference with the Russians was sure to be another major topic of today's meeting with reporters. This country has indicated it would favor a "summit" meeting with Kremlin leaders only if advance discussions "in the valley" indicated hopes of success.

The Russians are said to be favorable to the lower-level foreign ministers meeting proposed by the West if assured a chiefs-of-state meeting would follow. Eisenhower might give some hint of the U.S. feeling on that score.

His remarks also could indicate the future fortunes of his disarmament adviser, Harold E. Stassen. Stassen has been reported at odds with Secretary of State John Foster Dulles on how to deal with the Russians. Dulles is said to have won out. There has been much speculation whether, under the circumstances, Stassen would remain long in the government.

Other topics likely to be raised at today's news conference were the new Eisenhower budget, particularly its defense portion which some of his top military chief have indicated does not provide enough for the bombers and missiles they consider vital to security.

Britains Split on Test Tube Baby Issue

London—Roman Catholics and professional anti-Christians split sharply today over the Archbishop of Canterbury's declaration that it is a crime for a woman to have a test-tube baby.

Government leaders declined comment on Archbishop Geoffrey Fisher's attack on artificial insemination, and spokesmen for Britain's doctors followed suit. Most prominent Britons also evaded the issue.

Laborite members of Parliament, however, backed up by second-string conservatives, indicated that they may press for debate on Fisher's statement as a possible ground for revision of divorce laws.

Fisher did not take a stand on the possible classification of artificial insemination as adultery, but he did say that it "defrauds the child unbegotten and deceives both his putative kinsmen and society at large."

LITTLE MAN ON CAMPUS BY BIBLER

Readers' Forum

Editor:

I would like to give my view point on the seating problem, which I am sure many other students share with me.

Neil Scott blamed the illegal transfer of student activity tickets, as the entire fault for many students being left with only standing room. My question is this: How can you say that the system set up by the sale of activity tickets completely protects the student and is all for the students?

It seems to me that you are arguing the lesser of two evils. Take for example, a person buys a reserved seat for the price of \$2.00, before he has a chance to attend the game, the Athletic department decides to sell his seat again. He arrives at the game a little late and has to sit up in the corner or stand up.

You cannot make me believe the double sale of a student's ticket is not illegal. His seat is bought and paid for and space should be provided for that ticket, no matter who is the bearer.

It was pointed out that the student was getting such a bargain at 65c a game, however it was not pointed out that the student is forced to buy a student ticket. If he attends three or four games, he is paying \$8.80 for four games, or \$2.40 each game he attends. That is a pretty high price for a student to pay to see his own team play.

When a student lends the use of his ticket and his space to a friend to support his team, it seems the team would be better supported rather than general admission tickets sold to anyone which would not necessarily be as closely related to the college.

All in all, I would say the big problem was not the fault of the students, but the fault of the Athletic department's love for the Almighty Dollar!
Allan J. Hastings, Arch 05.

U.S. House Debating Missile Dollars

Washington — House leaders drove for passage today of the first bill of the week-old session—an emergency authorization of \$349,670,000 for missiles.

It was learned that the measure contains money to start construction of the nation's third big intercontinental ballistic missile (ICBM) base to locate ocean-spanning rockets pointed at Russia.

House members (about 11 a.m. CST) were expected to pull the high priority legislation through by a near-unanimous vote and send it to the Senate.

Authority to start building the third ICBM base was reported to be included under a section of the bill authorizing construction of ballistic missile facilities costing \$112,400,000. But it was understood that only a part of this sum would be applied to the ICBM base.

Defense Secretary Neil H. McElroy, who disclosed Monday funds would be sought this year for the base, said no decision had been made on its location. The other two will be at Cooke Air Force base, Calif., and Warren Air Force base, Wyo.

Simultaneously, Chairman George H. Mahon (D-Tex.) of the House Defense Appropriations subcommittee declared Republicans were making "grossly misleading" charges in contending Democrats lopped off 300 million dollars for missiles last year. He said not one penny was cut by Congress from the ballistic missile program.

Three more missile makers were scheduled to testify today before the Senate Preparedness subcommittee in an open session. Witnesses included President Robert Gross of Lockheed Aircraft, Dan Kimball, vice president of Aero-Jet, and Patrick Hyland, vice president of Hughes Aircraft. George B. Bunker, president of the Glenn L. Martin Co., told the

committee yesterday government "red tape" was holding up his company's development of the Air Force's Titan 5,000-mile ICBM.

Committee vice chairman John C. Stennis (M-Miss.) who relayed their closed door testimony, said another witness—President Mervin J. Kelly of Bell Laboratories—said money was still a roadblock to missile development.

Kelly also termed "optimistic" the operational dates for long range missiles that he had heard, Stennis reported.

A third witness, Gen. Nathan F. Twining, chairman of the Joint Chiefs of Staff, warned against any hasty reorganization of the Defense department. Sen. Leverett Saltonstall (R-Mass.) said Twining also "had a reassuring attitude toward our posture as a sufficient retaliatory power for our security at the present time." He did not elaborate.

Shortly after the hearings ended for the day, the Army announced that Lt. Gen. Arthur G. Trudeau, a corps commander in Korea, would replace Lt. Gen. James M. Gavin March 31 as Army missile chief in charge of research and development. Gavin quit in a fight over his freedom to criticize the defense effort.

Snow Monster Spotted

Moscow—Soviet scientist A. G. Pronin reported today in a Soviet newspaper he had actually seen the legendary "abominable snowman" of the Himalayas.

Pronin was quoted in the Soviet newspaper Komsomolskaya Pravda, official organ of the Communist Party Youth organization, as saying he saw the "snowman" last August 10 in the Pamir mountains of Central Asia.

The Pamir mountainland stretches across the Soviet frontier area paralleling Sinkiang, Afghanistan and India—a Rus-

sian offshoot of the Himalayas where the snowman has been rumored for years.

Pronin said an "unusual phenomenon attracted my attention" at an altitude of about 1,500 feet near the Fedchenao glacier last

August and that it turned out to be an abominable snowman of "Yeti."

"The body was covered with a reddish-grey fur. It was stocky and had long extremities. This was especially noteworthy.

Tuition Fees Count Little Toward College Operation

Did you ever wonder where the College gets its money and how it is spent, or how your fees each semester are accounted for?

Student fees accounted for less than seven per cent of the cost of operating the College during the 1956-57 fiscal year ending last June 31, according to the annual financial statement recently completed by the Comptroller's office.

General fees, including sales, services, interest, and tuition, accounted for about seven per cent of the \$13,836,281 expended compared to 14 per cent the previous year. The percentage students contribute may go up again this year however with the increased enrollment costs.

Fifty per cent of the total expenses were paid by state appropriations during the 1956-57 year.

The other sources of funds expended, rounded to the nearest per cent were: federal funds, 11 per cent; restricted fees, 10 per cent; agency funds and scholarships, eight per cent; revenue bonds proceeds, seven per cent; and auxiliary enterprises, including residence halls, cafeteria, student health, seven per cent.

Salaries totaled \$7,981,298 or 58 per cent of the total College expenses—43.4 for faculty and administration and 15.3 for other employees. Another 18 per cent was spent for equipment, livestock, land, and other capital outlay; 15, transportation, communications, printing, repairs, and other items; 10, supplies and materials.

New Vaccine Now Available

A new type of flu vaccine has been received by Student Health, according to Dr. B. W. Lafene, Student Health director. "This new vaccine is better and more effective against Asian flu and types A and B of influenza than the vaccine given students previously," he said.

Lafene is urging students to obtain flu vaccine before a second epidemic of the disease strikes. Many authorities have predicted that an epidemic of Asian flu will strike during January and February.

Those who have obtained their first injection of the flu vaccine at Student Health will not pay for the second injection. Fifty cents an injection is being charged students receiving the vaccine for the first time. Those wanting the vaccine are asked to come to the clinic during clinic hours.

Placement Center Wants Civil Service Applications

Applications for 1958 U.S. Civil Service management internship positions are now being accepted at the Placement center, according to Dr. Chester E. Peters, director of placement.

The management intern program is designed to recruit young people who show outstanding promise for executive and senior staff-level careers in the federal service.

Students must take the federal

service entrance examination on January 11, February 8, or March 8 in order to be considered. Students must have their applications on file by January 23 for the second administration, or February 20 for the third. December 26 was the deadline for the first administration.

Students must file before February 20 to be eligible for internships beginning in the summer or fall of 1958.

KANSAS STATE COLLEGIAN

Wednesday, January 15, 1958-4

K-State's Swimming Squad Entertains Jayhawks Today

K-State's swimming team looks for its second win of the young season when it opposes Kansas university this afternoon in Nichols gym.

The meet, second of the year for the Wildcats, begins at 4 p.m. The Wildcat team will be with-

out the services of their captain and top point-getter last year, Jim Nolen. Nolen, who is expected to be out of action for one month, has a severe sprain in his left knee and ankle.

"Although we'll miss the services of our captain, this should be an even match," Bill Thrall, swimming coach, said. KU, which has a 3-1 record, defeated Nebraska, 56-29, last week.

The next meet for the Wildcats will be Saturday against Nebraska at Lincoln.

The meet this afternoon is open to the public with no charge of admission.

K-State team and events:
400-yard medley relay—(Jim Mari-

ner, Ron Mihordin, Dave Dicken, and John Nickel)

220-yard freestyle—Tom Coblenz and Gordon Harper

60-yard freestyle—Tom Onuma and Nickel

Diving—Marion Towns

200-yard butterfly—Dicken

100-yard freestyle—Onuma and Nickel

200-yard backstroke—Mariner

440-yard freestyle—Coblenz and Harper

200-yard breaststroke—Mihordin

400-yard freestyle relay—(Mariner, Onuma, Towns, and Dicken)

An Attraction

Coventry, Conn. (U.P.)—Families which still had water during a severe drought found it easy to get baby-sitters. They offered them free baths and shampoos.

Site in Sight For Dodgers

By UNITED PRESS

The Coliseum commission meets today in special sessions which could finally give the Los Angeles Dodgers a big league-sized place in which to play baseball.

The commission's baseball committee will present to a meeting of the other major users of the Coliseum—the Los Angeles Rams and USC and UCLA—a new proposal given the commission by Dodger president Walter O'Malley yesterday.

Commission chairman Burton W. Chase declared after O'Malley's proposal that "we are much closer together than at any time before. . . . It seems to me you have a plan that would not disrupt the football program in the Coliseum."

The proposal, if acceptable to the commission and the other Coliseum users, could result in the club using the 100,000-seat stadium as a temporary home instead of minor league-sized Wrigley field.

Following presentation of the new O'Malley plan by the baseball committee at a morning session, the full commission scheduled a special afternoon meeting at which it was expected to vote on the proposal.

Navy Man Out As Texas Ag Football Coach

By UNITED PRESS

The job of head football coach and athletic director at Texas A&M college, sometimes described as one of the juiciest plums in collegiate football, was still vacant today after another imported prospect threw up his hands and headed for home.

The last candidate was Eddie Erdelatz, head coach at Navy, who yesterday departed from Annapolis after exchanging compliments and then heated words with the choosers of the man to succeed departed Paul Bryant.

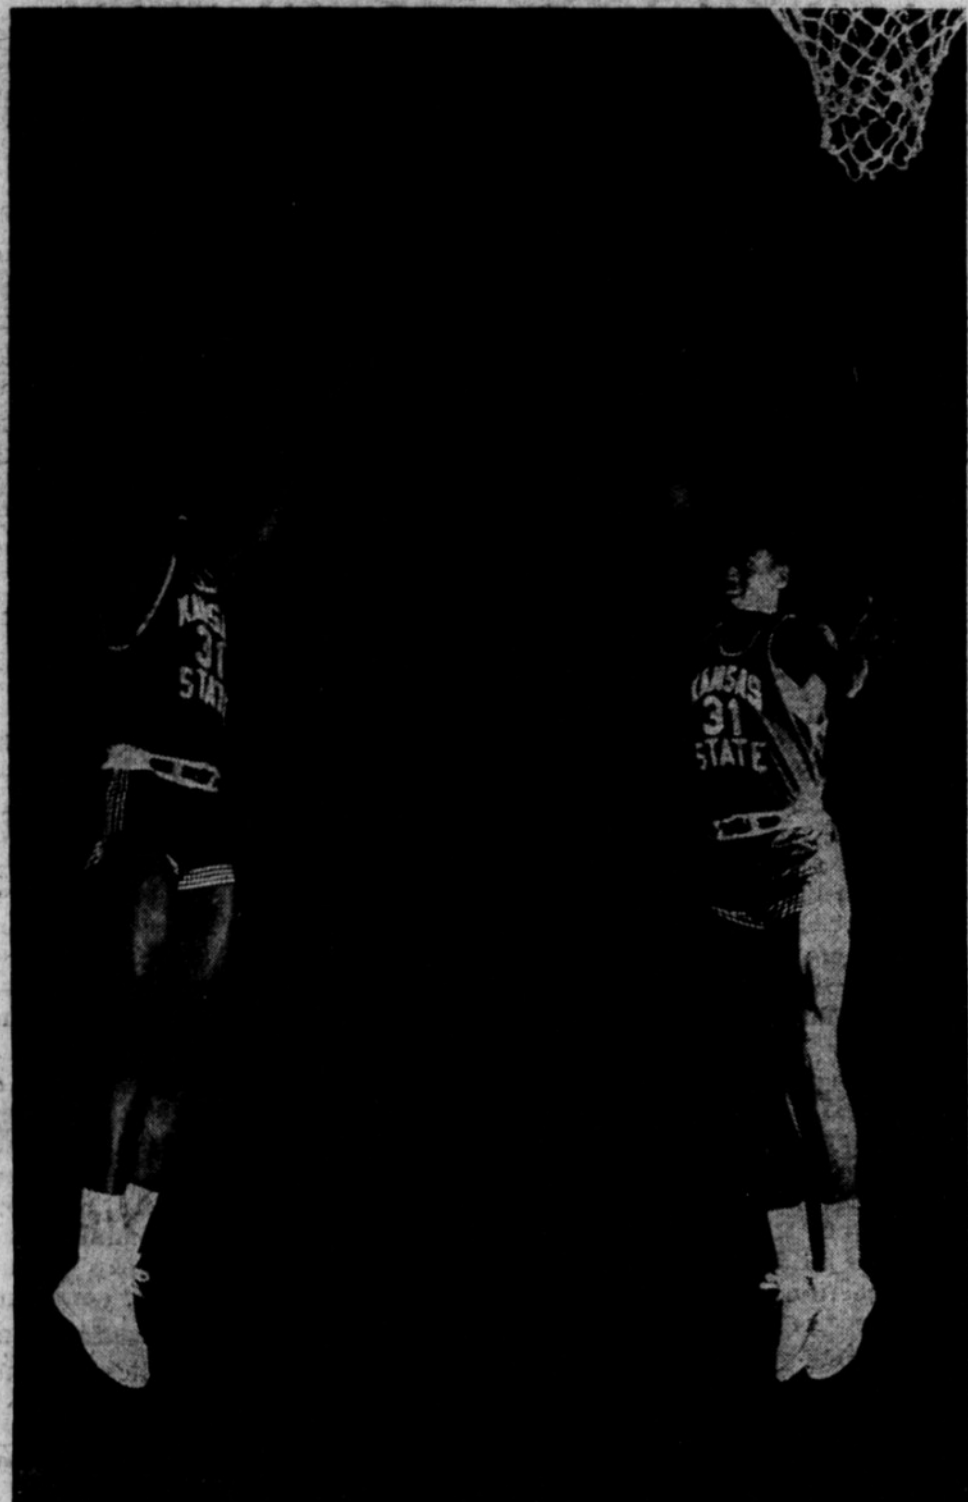

Photo by Gary Settle

DOUBLE TROUBLE—This is K-State's secret weapon, an extra Boozer, which would enable coach Tex Winter to play a team of four or more 6-8 men. A good thought, this picture is printed mainly as a psychological weapon, designed to panic Oklahoma and make them give up hope for this Saturday's game. During practice, the new Bob Boozer (31) proved to be outstanding, alternating at center and forward. Here he is shown making a jump shot over the old Bob Boozer (31), who coincidentally, is also excellent at center and forward. A little more work by the photographer could have produced a team of Boozers limited only by some rules made by James Naismith back in the 1890's. But there is only one Santa Claus and only one Bob Boozer. Fortunately there are many, many more Wildcats, also, coincidentally, excellent at center, forward, AND guard.

Bill Guthridge

Bill Guthridge Large Part Of Wildcat Bench Strength

By DAN KERSHAW

Although not in a starting role on K-State's basketball team, Bill Guthridge, 5-9 sophomore guard and shortest man on the Wildcat squad, is a strong part of the Wildcat's bench strength which will be a big factor in their quest of the Big Eight title.

"Bill has a lot of court savvy. He has good basketball knowledge and court sense, consequently we'll be playing him at times when the pressure is the greatest," said Coach Tex Winter about his 'little guard.'

"We've been looking good in spots but we're making too many mistakes. Before we play real good ball we're going to have to eliminate them. KU is definitely the team to beat for the title but they are beatable, even with Wilt," said Guthridge.

"The height and the team spirit stand out in the successful season that we have had so far. The team has the ability to come through when we need to. But the team as a whole is lacking in speed. Of course, a team as tall as ours can't rely too much on speed," said Bill.

While attending Parsons high school, Bill earned two letters each in basketball, football, and golf. Guthridge was selected to the sec-

ond team all-state tournament team in 1955 when he guided his team to a fourth place finish. Guthridge played high school basketball against such ball players as Joe Stevens, Wichita, Jack Grout, California, and Lynn Kindred and Monte Johnson of KU.

After graduating from high school in 1955, Bill went to Parsons junior college for one year. "I came to K-State because I wanted to see if I could make the basketball squad. Playing for K-State is an honor with such great guys that are on the squad," said Guthridge.

After starting in basketball games for three straight years, two in high school and one in junior college, Guthridge says this about bench duty—"It's a lot different than starting, but there is also a lot to be gained on the bench. You always have something to work for, and whenever you are on the bench, you have to be ready to play."

"The coach thinks different players can get the job done at certain times. Sitting on the bench gives you a chance to observe how the teams are playing at close hand and also is a lesson in life. You are not always going to be on the starting team."

Such was the case at the Big Eight pre-season tournament. Guthridge had only seen spot duty in the previous games and only at the last minute was put on the roster for the tourney. Bill had his choice of either going to Kansas City or going home for Christmas. "I like to play and it was a chance to play in three more games. I'll play any time I get the opportunity to, so it wasn't a hard decision to make."

Guthridge played for a few minutes against Missouri in the opener and in the second round against Nebraska, Guthridge came into his own by scoring six points and playing a standout floor game for the Cats. "That was my biggest thrill in basketball. The points I scored were the first ones I'd made for K-State."

Guthridge, a Physical Education major, hopes to go on and coach high school ball. Last year, Bill had a 2.4 grade average.

Easy To Remember

Cheshire, Mass. (U.P.)—Mr. and Mrs. Charles St. John of Richmond street have announced the birth of a son, Michael Patrick. Their first child, a son, was born Sept. 25, 1956. Michael Patrick, was born Sept. 26, 1957.

Virginians Risk Rating In Cage Play Tonight

By UNITED PRESS

Top-ranked West Virginia hopes to escape an "unlucky 13" jinx and fifth-ranked North Carolina runs into an old-time backyard rival tonight in college basketball's feature games.

Unbeaten in 12 straight games this season, West Virginia tangles with Pittsburg and its "mighty mite," five-foot, nine-inch Don Hennon, on the Panthers' home court, while North Carolina's defending national champions entertain North Carolina State.

West Virginia whipped Pittsburg twice last season but was so impressed by Hennon's point pouring that the Mountaineers named dartin' Don on their all-opponent first team. So if Pitt, which has won seven of 11 games this season, is capable of springing an upset, Hennon is the guy who will lead the way.

Considered a "shorty" by today's standards, Hennon has been averaging 25 points a game.

North Carolina won the Dixie classic last month by downing

North Carolina State, 39-30, in one of the old-fashioned slow-down games. The Tarheels, meanwhile, dropped a 74-61 verdict to Maryland, and are counting on a repeat victory tonight to move into undisputed possession of first place in the Atlantic Coast conference.

Other major games tonight pit undefeated Boston university against MIT, St. Louis vs Bradley, Harvard vs. Dartmouth, North Dame vs. DePaul, George Washington vs. William & Mary, Holy Cross vs. Syracuse, Navy vs. Manhattan, Penn vs. Temple, St. Joseph's vs. Buskell, and Amherst vs. Yale.

Only two members of the United Press top 10 saw action last night. Seventh-ranked Maryland pulled away in the final minutes to down Georgetown, 55-45, while ninth-ranked Oklahoma State whipped Wichita, 55-42, for its 11th straight victory since losing to Kansas in their season opener.

A PAIR OF ENGAGEMENTS recently hit the Alpha Chi Omega house. From left are Deanna Frommer, EEd Soph; Pat Tuma, FN Soph; Emily Douthit, EEd Jr; Betsy Proudfit, EEd Fr; and housemother Mrs. Paul Jones. Deanna is the pledge daughter of Pat, who is engaged to Robert Beetley from Doane college in Nebraska. Emily is the pledge mother of Betsy, who is engaged to Bill Brock from Kansas City.

Engagements

Wendelboe-Gebhart

The engagement of Geneice Wendelboe to Keith Gebhart, PrV Soph, was announced January 7 at the House of Williams. Geneice is teaching in an elementary school in North Platte, Neb. Both are from Mitchell, S.D. No definite wedding plans have been made.

Wolf-Van Horn

Announcement of the engagement of Cleta Wolf and Jack Van Horn, DH Sr, has been made at the Alpha Gamma Rho house. Cleta is a sophomore at Kansas university. Both are from Pamo-na.

Koon-Skaer

The engagement of Diane Koon, TxC Jr, to Dean Skaer, IE Soph, has been announced. Diane, a member of Pi Beta Phi, is from Manhattan. Dean is a Beta Theta Pi from Augusta. No definite wedding plans have been made.

Fisher-Hull

The engagement of Judy Fisher, SEd Jr, to LeRoy Hull, BPM Jr, has been announced. Judy is a member of Pi Beta Phi. Both are from Wichita. No definite wedding plans have been made.

Norling-Olson

The engagement of Nancy Norling, Soc Sr, to Lt. Richard Olson of Axtell, Neb., has been announced. Nancy, a member of Pi Beta Phi, is from Wichita. Richard is a graduate of the University

of Nebraska. April 15 has been set as the date for their marriage.

Bergstrom-Glahn

Christine Bergstrom, HEJ Soph from Salina, passed chocolates at Van Zile hall January 9 to announce her engagement to Don Glahn of Roxbury. Don is a 1957 business graduate of McPherson college. He is now employed as a budget manager at the Firestone company in McPherson. No wedding date has been set.

Kaufman-York

Cigars were passed at the Alpha Kappa Lambda fraternity to announce the engagement of Delores Kaufman, HE Soph at McPherson college in McPherson, and Ronald York, IE Jr. Delores is from Scott City and Ronald is from Holcomb and a member of Alpha Kappa Lambda.

Engwall-Jones

The engagement of Janet Engwall, His Sr, to Robert Jones, has been announced. Janet is a Chi Omega from Courtland. Robert is employed in the engineering division of the Kansas State Highway department and is a resident of Mankato. They are planning a June wedding.

McCain-Peterson

The engagement of Caroline McCain, HT Soph, and Deloit Peterson, ME Soph, was announced at the Alpha Xi Delta and Tau Kappa Epsilon houses Wednesday, January 8. Caroline is from McDonald and Deloit is from Ludell. They are planning a June wedding.

Pinnings

Patterson-Lingle

Cigars were passed at the Sigma Chi house Wednesday night to announce the pinning of Marian Patterson, Niotaze, and Chuck Lingle, PrV Soph, Caney.

Tucker-Perkins

Cigars were passed at the Alpha Gamma Rho house Sunday to announce the pinning of Susie Tucker, BS '57, and Bill Perkins, AH Sr. Susie, an Alpha Chi Omega, is from Moline. She is now teaching home economics at Eureka. Bill is from Howard.

Schmelyenbach-Bailey

The pinning of Marilyn Schmelyenbach and Joe Bailey, VM Fr, has been announced at the Alpha Gamma Rho house. Marilyn is from Nampa, Idaho, and attends Northwest Nazarene college there. Joe is from Garnett.

Richardson-Lynn

Arlene Richardson, TxC Jr, announced her pinning to Warren Lynn, graduate resident assistant in agronomy. Warren is a member of Delta Sigma Phi. His home

is Atchison and Arlene's home is Emporia.

McRae-Yeakley

Chocolates were passed at Waltheim hall and cigars were passed at the Alpha Gamma Rho house January 8 to announce the pinning of Maureen McRae, HT Soph, and Gary Yeakley, AgJ Sr. Maureen is from Penokee and Gary is from Hoisington.

Wade-Stroup

Cigars were passed Sunday at the Farm House to announce the pinning of Patricia Wade, PrV Fr, to Howard Stroup, TA Soph. Howard's home is Kansas City and Pat is from Mission. She is living at Southeast hall.

Woellhof-Smith

Chocolates were passed at the Alpha Xi Delta house January 8 to announce the pinning of Ruth Ann Woellhof, EEd Jr, to Ronald R. Smith, a Kappa Sigma. Ron is a graduate of the University of Kansas. Both Ruth Ann and Ron are from Clay Center.

Marriages

Seaton-Small

Kathy Seaton, and Keith L. Small, ME Sr, exchanged wedding vows over Christmas vacation. Keith is a Sigma Chi from Conway Springs. Kathy is a 1957 K-

State graduate in elementary education.

Purinton-Ross

The marriage of Kay Purinton, BMT Fr, to George Ross, VM Soph, was December 26 in Mission. Kay is a pledge of Pi Beta Phi and George is a member of Beta Theta Pi. Both are from Merriam.

Koon-Billings

The marriage of Kaye Koon, SED Sr, to Charles Billings, Gop Sr, was in the First Presbyterian church in Manhattan December 20. Kaye is a member of Pi Beta Phi and is from Manhattan. Charles is from Kansas City.

Michaels-Martin

Gavona Michaels, BS '57, and Walt Martin, AH Sr, exchanged wedding vows December 22 at Michigan Valley. Walt, an Alpha Gamma Rho, will graduate in January. Gavona is teaching home economics at Herington, where the couple lives.

Esslinger-Rogers

The wedding of Charlene Esslinger, HEB Soph, Virgil, and Burke Rogers, AH Sr, Garnett, was December 22 at Eureka. Charlene is a graduate of the National School of Aeronautics in Kansas City. Burke is an Alpha Gamma Rho.

Ever meet a dreamer?

Frills instead of fundamentals are what interest him. In his future job he dreams of a carpeted office, a resounding title, an acre of polished mahogany to sit behind. Wide-awake men, on the other hand, look first of all for fundamentals — sound training, advancement opportunity, challenging work, professional associates, good pay. The frills will follow.

The Bell Telephone Companies offer such career fundamentals to wide-awake, ambitious young men majoring in the arts, the sciences, business or engineering. Why not make arrangements to talk with the Bell System interviewer when he visits your campus? And for more information about the careers these companies offer, read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to:

College Employment Supervisor

Waters Hall Committee Asks for \$1,421,456

By LOREN HENRY

"A committee is sending recommendations to the Board of Regents, Friday, requesting \$1,421,456 to build a new flour mill, a three story building in the gap where the mill was, and rebuild the rest of East Waters hall," Daniel Beatty, K-State business manager, said.

The flour mill was completely destroyed and the other portion of East Waters hall was deemed unusable after a \$1,500,000 fire August 25. The fire destroyed five classrooms and eight instructional laboratories which called for rescheduling of 123 classes and laboratories to other parts of the campus.

An emergency fund of \$184,619 was approved by the Kansas Finance council to raze the mill and set up temporary classrooms and offices in the hall leading into East Waters and the old livestock judging pavilion.

The east wing of Waters was constructed in 1913 at a cost of \$125,000 and was estimated before the fire at

\$1,110,000. The balance of the loss was the damage to equipment in the building.

The north, east, and west walls of the mill were razed and plans are to build a one story building on the location. Plans are to have the flour mill attached to the east side of the present feed technology wing.

A committee was appointed by the Board of Regents consisting of A. D. Weber, then acting president; R. F. Gingrich, director of the physical plant; Glenn Beck, then acting dean of Agriculture; John Brink, state architect; and two other architects to recommend what to do with the rest of the building.

The committee recommended an emergency fund of \$63,500 be used to put an incombustible roof, provide temporary heating and lighting, and to temporarily close the burned out windows.

The committee made its recommendation after visiting the campus September 26, however, work has not been started on the roof construction yet.

The Board of Regents recommended the money needed for reconstruction be taken from the General Revenue fund rather than the Educational Building fund, which provides for construction of new buildings.

Kansas does not carry insurance on its buildings, but has a reserve fund to take care of emergencies. For this reason the Board of Regents felt the money should come from the General Revenue fund rather than slow the construction of other new buildings at K-State.

Plans have been made for a complete milling structure to provide a unit offering a complete course in milling and feed technology with space adequate for classrooms and offices along with testing laboratories for research.

Members of the committee are Dr. John A. Shellenberger, head of the Milling department; Raymond V. Olson, head of the Agronomy department; Glenn Beck, director of the Agricultural Experiment station; R. F. Gingrich, director of the physical plant; Vincent J. Cool, physical plant architect; and John Brink, state architect.

Photo by Jim Bell

DURING AUGUST, the east wing of Waters hall burned, leaving ruins shown by this photograph, taken just days after the blaze.

Photo by Doug Tedrow

YESTERDAY, a good five months from the date of the fire, this sight greets 'Staters' eyes. Workmen have made little progress toward reconstruction.

R. J. Reynolds Tobacco Company,
Winston-Salem, N. C.

If you answered "No" to all questions, you obviously smoke Camels — a real cigarette. Only 6 or 7 "No" answers mean you better get on to Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to *enjoy* smoking as never before, switch to Camels. Nothing else tastes so rich, smokes so mild. Today more people smoke Camels than any other cigarette. The best tobacco makes the best smoke. Try Camels and you'll agree!

Have a real cigarette — have a Camel

K-State Players To Hold Tryouts Today, Tomorrow

There will be tryouts for the next K-State Players presentation of "Juno and the Paycock" today and tomorrow at 7:30 in the Auditorium.

The play is written by Sean O'Casey and is a compelling story of Irish city life at the time of the Irish rebellion in the early 1920's.

The play has 19 character parts and will be directed by Carolyn Hunt, instructor of speech.

ASCE

Allen Olsen, CE Sr, was elected president of the K-State section of the American Society of Civil Engineers at a meeting yesterday. Other new officers are Dale Martinitz, CE Sr, vice president; Joe Haeglin, CE Sr, recording secretary; John Kennedy, CE Jr, corresponding secretary; and Stanley Rieb, CE Sr, treasurer.

Robert Thorn, BS '50, of a bridge consulting firm in Topeka, presented the graduating civil engineering seniors with letters of introduction to ASCE sections they will join upon graduation. Since the fall of 1955 100 per cent of the civil engineering graduates have joined a section, according to Rudy Kramer, CE Sr, outgoing president.

Dairy Club

Dairy club will hold election of officers for the spring semester tonight in the Ag Reading room. A nominating committee will present several candidates for each office, but nominations from the floor are allowed.

They plan to discuss in detail preparations for the Little Ameri-

can Royal to be held March 29. Refreshments will be served in the lab.

Tri-Delt Scholarship

Applications for the 1958 Delta Delta Delta General Scholarship Fund competition are available from Charles Jacot, assistant dean of students, in Anderson hall, room 111.

Completed applications must be in by March 1.

Women students, whether sorority members or not, are eligible to apply. They should be well-qualified students, showing promise of service in their future communities.

The applicants picked will be notified by May 15. The total amount of the awards granted each successful candidate will not exceed \$200.

The scholarships will be forwarded to the winners at the beginning of the term for which the awards are granted. The scholarships may be used for the 1958 summer session.

Horticulture Club

The K-State Horticulture club

elected officers for the spring semester at a January meeting. Elected to office were President, Harlan Forslund, HSP Jr; Vice President, Richard Runge, Ag Jr; Secretary, Darlene Retzlaff, Ag Fr; Treasurer, David George, Hrt Soph; and Program Chairman, Joe Cooper, Hrt Sr. Professor Charles V. Hall is the club sponsor.

The new slate of officers was announced by Martin Meyer, HSP Sr, outgoing president.

String Quartet

The two remaining concerts for the K-State Resident String Quartet this semester will be January 10 and 15.

The quartet, composed of George Leedham, assistant professor of music, first violin; Luther Leavengood, head of the department of music, second violin; Clyde Jussila, instructor of music, viola; and Warren Walker, assistant professor of music, violoncello, will present a concert at Tabor college in Hillsboro January 10.

They will present a concert for Doane college at Crete, Neb., January 15.

Product of The American Tobacco Company - "Tobacco is our middle name"

A CLOSE SHAVE is what Bob Porter, EE Jr, is giving Dean Bowyer, EE Jr, as he trims his beard. They are growing their beards as part of preparation for Engineers' Open House March 13 and 14. Bob had some band-aids handy in case he shaved just a little too close.

Razors Thrown Out For Beard Contest

By LOREN HENRY

Beards are growing in the Engineering school.

The executive committee of Engineers' Open House is sponsoring a beard-growing contest to stimulate interest in the annual event, according to Don Beck, IE Sr, newspaper publicist, chairman.

"Most of the students participating in the contest are growing full beards," Beck said. The

specification for the beards is a full beard without the mustache.

The beards will be judged during the Open House. "The Open House is March 13 and 14, so there is still time to grow a good long beard," Beck said.

The executive committee has not announced the prize for the best beard, but an electric razor has been suggested, according to George Strobel, NE Sr, co-ordinating chairman.

Kansas State College, Manhattan, Kansas, Thursday, January 16, 1958

NUMBER 74

Scholarship Housing Plan To Be Initiated Next Fall

A complete scholarship housing program is to be initiated at Kansas State this coming fall, Kenneth M. Heywood, director of Endowment and Development, told the Kansas State Endowment committee at its first meeting yesterday. Heywood is chairman of the committee.

"The cost of living in a student scholarship house is about half that of living elsewhere," Heywood said. "The College can give more financial aid to students through scholarship housing than through other ways," he explained.

The College endowment fund, which was started in 1953, has increased steadily since then. At the end of 1953 the endowment fund estimated \$33,550.90; at the end of 1957 the fund contained \$103,240.67.

"The money in the fund is used for any and all of those projects necessary for the College and which the state does not provide money for," Heywood explained to the committee. Endowments to the College have come from alumni, those who are not alumni, corporations, and

groups with a special interest in the College.

Members of the newly formed Endowment committee are faculty members invited to attend each committee meeting and members of the Endowment Underwriters' club. Those belonging to the Endowment Underwriters' club are Manhattan business and professional men

interested in maintaining and increasing the endowment fund.

Each club member gives at least \$100 a year to belong to the Underwriters' club; this money goes into the endowment fund. Bill Farrell, owner of a local cafe and cab service, is president of the club. Approximately 50 Manhattan men are members.

Students To Begin Visitation Program

More than 100 students have already signed up to participate in the high school visitation program between semesters, January 24 and February 3, according to Dr. E. M. Gerritz, director of admissions and registrar, after a meeting with them yesterday.

More lists of students who signed up for the project are expected to be turned in, Dr.

Gerritz said. Those who were not able to attend Wednesday's meeting are asked to see him this week.

Students participating should contact the chairman for the group to visit the high school where they graduated. Twenty-six students have volunteered to act as chairman of their high school groups.

This is the second year K-Staters are speaking at their hometown high schools in order to explain college life to the prospective college students.

Looking Back, KS Campus Sees Busy Semester

By LYNN MOXLEY

The almost-completed fall semester has been a busy and eventful one on the Kansas State campus as the following summary shows.

SEPTEMBER

During rush week a total of 611 rushees pledged the nine sororities and 21 fraternities.

Dr. Margaret Lahey, the new

associate dean of students, began her duties. She was formerly dean of women at Colorado State university until she resigned to continue graduate work at the University of Minnesota. Dr. Lahey replaced Dean Helen Moore who resigned last spring.

Freshmen could no longer park their cars on the campus according to a new traffic regu-

lation set up September 1.

Bob Alexander, program director of the Student Union, resigned to take a similar position at the University of California Medical Center. He was replaced by Oliver White who came from the University of California.

Miss Kansas, Georgia Rundle, EEd Sr, returned from the Miss America contest in Atlantic City.

Optional attendance honors were given to 320 K-State juniors who maintained a B average last semester.

Ground was officially broken for the new Justin Home Economics hall. The building will cost \$1,900,000 and is to be completed in the fall of 1959.

Enrollment reached 6,670 and the men continued to outnumber women more than 3 to 1.

Twenty Student Council members attended a weekend retreat at Lake Shawnee near Topeka to discuss various policies and duties.

Connie Morgan, EEd Soph, represented Kansas State in the Miss Football contest at Berkeley, Calif. During her week's stay she appeared on TV, modeled in a style show, toured Disneyland, saw the sights of San Francisco, and attended the Coronation Ball. The highlight of her trip was the Parade of Lights in Berkeley held in connection with the University of California Football Festival.

Thirty-five high school bands presented the half-time ceremonies at the annual Band Day. K-State overpoured Brigham Young university 36-7.

The first "Twin Queens" in U.S. history were Kansas State students. Charlotte, ARG Jr, and Charlene, BA Jr, Strah were chosen to reign over the Rocky Mountain Oil show in Casper, Wyo.

Individual boxes were no longer rented to students at the College post office due to a new postal service plan.

OCTOBER

Barbara Lowe, HED Sr, represented K-State at the American Royal Livestock and Horse Show. She was selected as a lady-in-waiting to the American Royal queen.

Severt E. (Andy) Anderson confessed to the September Union theft of \$2,180. He had been the Union games manager since the fall of 1956.

Docking's Faculty Salary Recommendation Removes Proposal's Big Stumbling Block

WHEN GOV. GEORGE DOCKING recommended \$949,252 for faculty salaries in the five state-supported colleges Wednesday, he removed probably the biggest stumbling block the issue could have faced.

But there are more obstacles to be hurdled before the money can be put in professorial wallets.

Before it can be given to the Board of Regents, the proposal must undergo the scrutiny of the Senate and House Ways and Means committees. If the full amount is approved by these two groups, the measure will go to the Governor who has certainly indicated that he will sign it.

MORE THAN LIKELY, the bigger per cent of the recommended amount will be appropriated and this will be a big help to colleges in their fight to reduce the salary spread between industry and university.

The increase will not be made on a blanket basis. That is, not every faculty member will receive a five per cent increase in his salary.

Instead, if the Governor's recommendation is followed, the increase will be made on a merit basis. Last year when the state-supported institutions received a 10 per cent faculty increase, some professors got more than 10, others less.

K-State administrators have made a study on how much increase to give individual faculty members. Salary increases awarded in this way can be used for more effect than an indiscriminate blanket five per cent increase.

IF DOCKING'S RECOMMENDATION is followed, the distribution of the money will be different than in the past. Always before, the appropriation came straight from the Governor's desk to the school. Docking proposes to let the Board of Regents make a study of the school's needs and have the Regents award the raises.

The \$949,252, if it's still this much when the Governor signs his name, will be split five ways. K-State of course will get more than a stright one fifth of the money because the size of the school and the courses offered differ from those at Emporia State and the other two teacher's colleges.

BUT NO MATTER WHAT the final total comes out to be, K-State will benefit. Those instructors who have proven themselves worthy of more money will be enticed to stay and K-Staters will benefit through the continued high level of instruction.—Roger Myers.

Readers' Forum

Dear Editor:

In regard to Mr. Neil Scott's (Soc Sr, Student Body President—we bow low) comments in the Monday Collegian, we would like to point out some facts.

For 63 cents a game, a K-State student:

- 1) is given admission to basketball and football games at K-State;
- 2) may not legally transfer his ticket;
- 3) pays at the rate of 63 cents a game whether he attends or not;
- 4) is not guaranteed a seat.

For \$2 a basketball game (\$3 for the doubleheader) and \$3.50 a football game, an outsider:

- 1) is given admission to the game;
- 2) is guaranteed a seat;
- 3) pays only for those games he desires to attend;
- 4) may transfer his ticket, legally.

All of the students do not attend all the games (some of us even work nights, Mr. Scott, O Illustrious One, and find it impossible to attend the games. Then too, some of us study Mr. Scott, O Glorious One.

For these reasons, we wish to submit a plan by means of which the 63-cents-a-game activity ticket would still be available to those students who desire it, complete with all the restrictions which the administration wishes to place on its use, including your recommendation, Mr. Scott, O Omnipotent One, of "a tighter restriction on the transfer."

For those of us who desire it, however, please just deduct the \$.80 from our enrollment fees, and we will buy tickets at the established price for those games we have the desire, or the time, to attend.

Surely the Athletic department would approve such a move, since certainly it would stand to make more money than with the present (according to you Mr. Scott, O Brilliant Statistician) \$25 reduction.

Max Entrikin, EE Jr
Dean W. Boyer, EE Sr.

LITTLE MAN ON CAMPUS BY BIBLER

"SOME GUYS NEVER HAVE ANY TROUBLE GETTIN' A GIRL."

Stater Lives at (Not in) Prisons For a Whole, Normal Lifetime

By LYNN MOXLEY

A KANSAS STATE FRESHMAN has lived her whole life on prison grounds—on the outside of the walls, that is.

"When I mention that I have lived at Alcatraz, people are surprised and curious," Sue McKean, HE Fr, says. "I add quickly that I lived on the outside, though—not on the inside."

Sue's father was a guard on the well-known island (Alcatraz) for the first 13 years of her life. Her family was one of 60 that lived there. Sue rode a regularly scheduled launch to San Francisco, a mile from Alcatraz, each day to attend school. She explains that this was fun, but didn't allow her to participate in some school activities. She had to catch the boat each evening for her island-prison home by 11.

SUE WAS NOT VERY OLD at the time, but she can remember the tension and anxiety caused by a three-day riot in 1946. "The guards had to go inside the prison with guns to protect themselves and to try to compromise with the prisoners," she says.

She also recalls several times when prisoners tried to escape. When a prisoner was found missing, the warning siren was sounded, and families living outside the walls immediately locked their homes which were later searched. A prison break was dangerous to all on the island, and the guards took every safety precaution, Sue says.

"Prisoners on good behavior were allowed to work around our homes and on the boat dock," she mentions, "but they were always heavily guarded."

"WE HAD LOTS OF FUN, our life quite normal, and the families were all very nice," Sue recalls. "The lights of San Francisco were beautiful at night and we also had an excellent view of the Golden Gate bridge. There was a large store on the island where we bought supplies.

"We didn't get to see many visitors as sightseers were not allowed on the island. Our friends could come, however, but they had to register at the dock on the mainland before they could visit us. We also had to register each time we left and returned to the island," she says.

"I liked living on Alcatraz, but it would be a different story had I been on the inside. It's nicer to be in Kansas because I was able to participate in all high school activities. That was the reason my father asked for a transfer to the prison at Leavenworth where we now live."

Sue has a married sister and a brother who will soon be discharged from the service and plans to enter KU. She is a member of the Canterbury club and Whi-Purs. Her ambition is to teach high school home economics.

TELEGRAPHIC TABLOIDS

Atlanta—Thieves who stole the safe from a local fruit store are being sought by two high-ranking local policemen—Lt. Herman J. Copeland, who owns the store, and Sgt. Bud Tumlin, who operates a service station next door and keeps his receipts in Copeland's safe.

Taipei—Lu Chung-Chun, 30, was arrested for burglary yesterday in the courtroom where his two alleged accomplices were on trial. He was pointed out to police by the victim of the robbery.

London—City officials of the seaside resort of Hunstanton came to town in tuxedos with their gold-lettered invitations to a movie premier.

They were hopping mad today at being "dined" on ice cream and salt-water taffy.

"We assumed, I think naturally, that it would be a cocktail

party," Councilor Ivor Barker said. "I've never been so thirsty sitting through a film."

London—Frank Barrow had a ready excuse today for failing to answer a parking summons in suburban Croydon court.

"I have volunteered this week for space travel in a satellite or rocket," he wrote the judge, "so I cannot forsee whether I shall be available to be present in court."

Along the truce line, Korea—U.S. troops guarding the truce line joined with millions of other Americans and faced up to the inevitable—income taxes.

The 1st Cavalry division has scheduled a tax clinic to train income tax advisers to help the GIs make out their returns.

London — The minister of Croydon church hoped for more cigaret packages in his collection box today.

He was on the point of throwing one out yesterday when he opened it and found it contained \$140.

Columbia, S.C.—An unidentified mule owner picked up his wayward animal yesterday at the city dog-pound—the same place he found his stray cow several weeks ago.

Chicago—Heinie I, said to be the oldest chimpanzee in captivity, still gets his kicks at 36.

Lincoln park zoo director Merlin Perkins said Heinie's "jungle stomp" caused so much damage to his cage that bricklayers had to rebuild one wall and metal workers had to repair the door.

World News

State Legislature Votes More Money To Enlarge College Staffs, Salaries

By UNITED PRESS

Topeka—Gov. George Docking's budget of more than 313-million dollars today ran into heavy fire from political adversaries.

The Senate Ways and Means committee yesterday added \$489,470 to the Board of Regents budget and junked one of Docking's recommendations.

Docking immediately charged the committee members "changed the whole idea."

There were other issues, also, where the governor and the Republican-dominated Legislature differed sharply.

The Ways and Means committee, also dominated by the GOP, voted to ignore the Governor's suggestion that a five per cent salary increase for faculty at the state's five colleges be put in a special fund.

The committee voted to appropriate it directly to the schools, rather than follow Docking's plan for the Board of Regents to act

as go-between in parceling out the funds.

The lawmakers approved the governor's \$949,252 salary increase, and tacked on another \$498,470, mostly for salaries and additions to the number of faculty members at the various schools.

The two Democrats on the committee, Sens. Joseph McDowell and Joe Warren, voted against the actions, McDowell said.

"They changed the whole idea," Docking said, because the plan was to have the Regents split up the funds and avoid competition among the schools.

"We'll have a bunch of different schools in competition, battling for the budget and for students, when they are all part of one state system."

He called the lawmakers "shallow minded" and "not matured enough" to realize this.

Sen. August Lauterbach (R-

Colby), chairman, said "we differed only in method."

He said the Board of Regents did not have sufficient staff to administer the funds and questioned if the executive recommendation did not overlap into a function properly reserved for the legislative branch.

Atomic Jet Fighter Ready

St. Louis—The "Voodoo" jet fighter, armed with an atomic weapon that can blast an entire formation of enemy bombers, has become available to the defense of the North American continent.

The F-101B Voodoo and its prime weapon, a rocket missile carrying an atomic bomb, were displayed yesterday by officials of the North American air defense command.

The Voodoo, a 1200-mile-an-hour jet manufactured by McDonnell aircraft, and the air-to-air MB-1 "Geni" rocket, produced by

the Douglas aircraft company, were revealed for the first time.

The Geni, launched from the Voodoo, can wreak atomic destruction on an entire formation of enemy bombers without a direct hit, officials said.

"All the horribleness of atomic destruction can now be applied against high flying enemy bombers that they were intent on applying to those below," Col. Sydney Bruce told newsmen.

"We now have a weapon carrier that can go higher, faster, farther and thus intercept the enemy intruder sooner with more kill potential than any operational aircraft we have."

Bruce, an atomic expert attached to NORAD at Colorado Springs, also known as the "mayor of ground zero," said accidental explosions will be avoided by holding off on arming the Geni until the "last possible minute."

Busy Semester Nears End

(Continued from page 1)

Barbara David, HDA Jr, was chosen as Kansas Dairy Princess at the Kansas State Fair. She represented the state at the national contest in Chicago.

The Apportionment board appropriated a total of \$211,383 to K-State organizations. The Athletic department received \$61,753 while the Union received \$56,178.

K-State's honorary parents were Mr. and Mrs. Bernard Peterson of Newton. They were honored at the half time activities of the Nebraska football game in addition to attending a luncheon and touring the campus. The Petersons are parents of two K-State students, Karen, MGS Sr, and Kirsten, EED Jr. Parents' Day house decoration honors went to the Alpha Delta Pi sorority and Alpha Kappa Lambda fraternity.

Bruce Catton, Pulitzer prize winner for history, spoke at an all-College assembly on the history of the Civil War.

Homecoming festivities got underway with the unveiling of the house decorations. A pep rally was held in the city park the night preceding the game. Tours and luncheons were given for returning alums while many organized houses had special buffets and coffees.

The 1957 Homecoming queen, Susan Schober, PEW Jr, was officially introduced by Senator Frank Carlson at the half time of the Colorado game. She represented Alpha Delta Pi sorority. Queen Susan's attendants were Janice Graham, TJ Sr, Pi Beta Phi; Roberta Wray, SED Jr, Alpha Xi Delta; Rosemary Derks, Eng Sr, Kappa Kappa Gamma; and Pat McDermott, BA Sr, Gamma Phi Beta. The queen and her escort reigned over the Homecoming dance that night. Chi Omega and Phi Kappa won first place respectively in the sorority and fraternity house decorations while Delta Sigma Phi won the float competition.

A Varsity Men's Glee club of 80 members was organized by Morris D. Hayes, assistant professor of music.

The Kansas university Student Council met with the K-State Student Council to draw up the annual peace pact between the two schools.

Student Health overflowed with ill Staters as flu cases mounted.

President and Mrs. James A. McCain and daughter returned from a six months stay in Europe. Dean A. D. Weber was acting President while McCain was away.

Queen of the annual Flush

Bowl game between Sigma Alpha Epsilon and Phi Delta Theta was Lee Lutz, EED Soph. The Sig Alphas won for the sixth straight year.

A 14-10 win over Iowa State at Ames brought the Wildcat grid squad its second victory of the season.

The School of Veterinary Medicine had its first open house. More than 3,000 people toured the building and observed displays.

For the 22nd consecutive year the Royal Purple received the All-American rating by the Associated Collegiate Press. Only one other yearbook received the award in the class in which K-State was entered. Gaye Fryer, BS '57 from Manhattan, was the editor of the top yearbook.

Dave Brubeck and his quartet brought modern jazz to the campus for the first big-name band concert of the year.

More than 50 attended the annual "gripe session" sponsored by the Student Council.

A French ballet opened the first of four Artist Series performances to be given during the year. Janine Charrat and her company presented a program filled with variety to a large audience.

Polls opened as students voted on the name change to Kansas State university. A record number of ballots was cast as 5,061 voted with 4,692 for the change. The proposal will be presented to the Board of Regents who will in turn send their recommendations to the State Legislature.

NOVEMBER

The K-State football squad didn't manage to score; however, they held the Oklahoma Sooners

to 13 points in one of the top games of the season.

A highly successful flash card section was used at the Oklahoma game for the first time. Over 1200 students participated in the card section which was led by Chuck Wingert, His Jr.

Jardine Terrace, the first permanent housing development in Kansas for married students, was dedicated in honor of former K-State president, W. M. Jardine. Mrs. Effie Jardine of San Antonio, widow of the late president, was a special guest. Presiding at the dedication was President McCain.

The K-State Players presented "The Tender Trap" in the Union ballroom. This was the first time a dramatic group had ever used the ballroom for such a purpose.

Nine week exams arrived and sent most students to their books in hopes that a little late cramming would do just a little good.

The Faculty Senate voted in favor of changing KSC's name to Kansas State university. That was the second major step of the proposed change since students had already voted for it.

(The second part of the semester summary will appear in tomorrow's Collegian)

U.S. Cautious on 'Summit'

Washington—Secretary of State John Foster Dulles said today the United States wants a summit meeting with Russia, but only on condition it would not "intensify the cold war and make more likely that it would turn into a hot war."

In a major foreign policy address, Dulles warned that an improperly prepared East-West meeting could result in a "fatal disaster" if people believe that tensions can be removed "by a stroke of a pen at the 'summit'." Such a belief, he said, would be "folly."

Dulles also said that Russia's success in launching an earth-circling satellite may turn out to be a "boomerang" against Soviet Communist party boss Nikita Khrushchev.

Addressing a National Press club lunch, Dulles said the Red satellite could mark a "decisive turn" in the world-wide struggle between Communist imperialism and the free world.

"No doubt the Communist rulers gained a success," Dulles said. "They have an opportunity to gloat, an opportunity that they have not neglected. But Sputnik, mocking the American people people with its 'beep-beep,' may go down in history as Mr. Khrushchev's boomerang."

KANSAS STATE COLLEGIAN

Thursday, January 16, 1958-4

Gym Team To Lincoln; Tackles Huskers, CSU

K-State's gymnastic team will meet Colorado State university and Nebraska university in a double dual meet at Lincoln Saturday.

K-State has won two meets, dropping Oklahoma state and Fort Hays, while losing none. Colorado and Nebraska are untested.

"Nebraska should win the meet with their superiority of numbers and experience," Frank Thompson, gymnastics coach, says, "but K-State has an excellent chance to defeat Colorado if all the boys can come through in their pet events."

Strong performers back for Nebraska are Wayne Strickler, who won the all-around title in the all-College meet at K-State last year, and Ervin Krist and Robert McDonald.

"K-State's Robert Gramzow, captain of the team, should win the free exercise event as he is ranked among the top twelve in the nation," Thompson said. "His teammate and alternate captain, Corky Olsen, should score high in the side horse event and parallel bars."

Entries and events:
Trampoline — Gramzow, Loomis, Ray Berkeley

Parallel bars—Olsen, Dziura, Ted Bare
Free exercise—Gramzow, Johnson, Dziura
Side horse—Olsen, Johnson, Ron Leslie
High bar—Bare, Loomis, Robert Campbell
Flying rings—Gramzow, Dziura, Loomis
Tumbling — Gramzow, Johnson, Berkeley

Three Frosh Cagers May Aid Cat Varsity

K-States' hopes of getting future basketball help from the freshman squad remain largely dependent upon a trio of yearling cagers—Ced Price, John Bryant, and Larry Comley—according to frosh coach Howie Shannon.

Although the freshmen have shown considerable improvement since the beginning of the season, Shannon said that these three players are the only ones on the 17-man squad having solid chances of making next year's varsity roster. Jerry Johnson, however, could develop into a contender.

Because of the depth of the

Staters' Opinion

Cats Should Win Loop Cage Crown

By DAN KERSHAW

The consensus of K-State students that were interviewed about the Wildcats chances of winning the Big Eight said they were very good. The overall team balance that the Cats have seemed to be the biggest factor concerning their good chance.

Some of the answers to the question, "Who do you think will win the Big Eight conference crown this year?"

JUDY CRAWFORD, His Sr—K-State will win for sure because we don't have a one-man team.

KEN KEEFER, Sp Soph—I think if K-State keeps up its present pace, we could still loose one to KU and win the conference.

SCOTT HELMKE, Mtc Fr—If we split our games with KU or even loose both of them, we have a good chance to still take the conference.

MARION KLOTZBACH, BA Jr

—I think K-State will win the conference because they have the best all-around squad and aren't just a one-man team.

JUDY MEANS, MAI Fr—K-State will because we have a five man team instead of just one man team like KU."

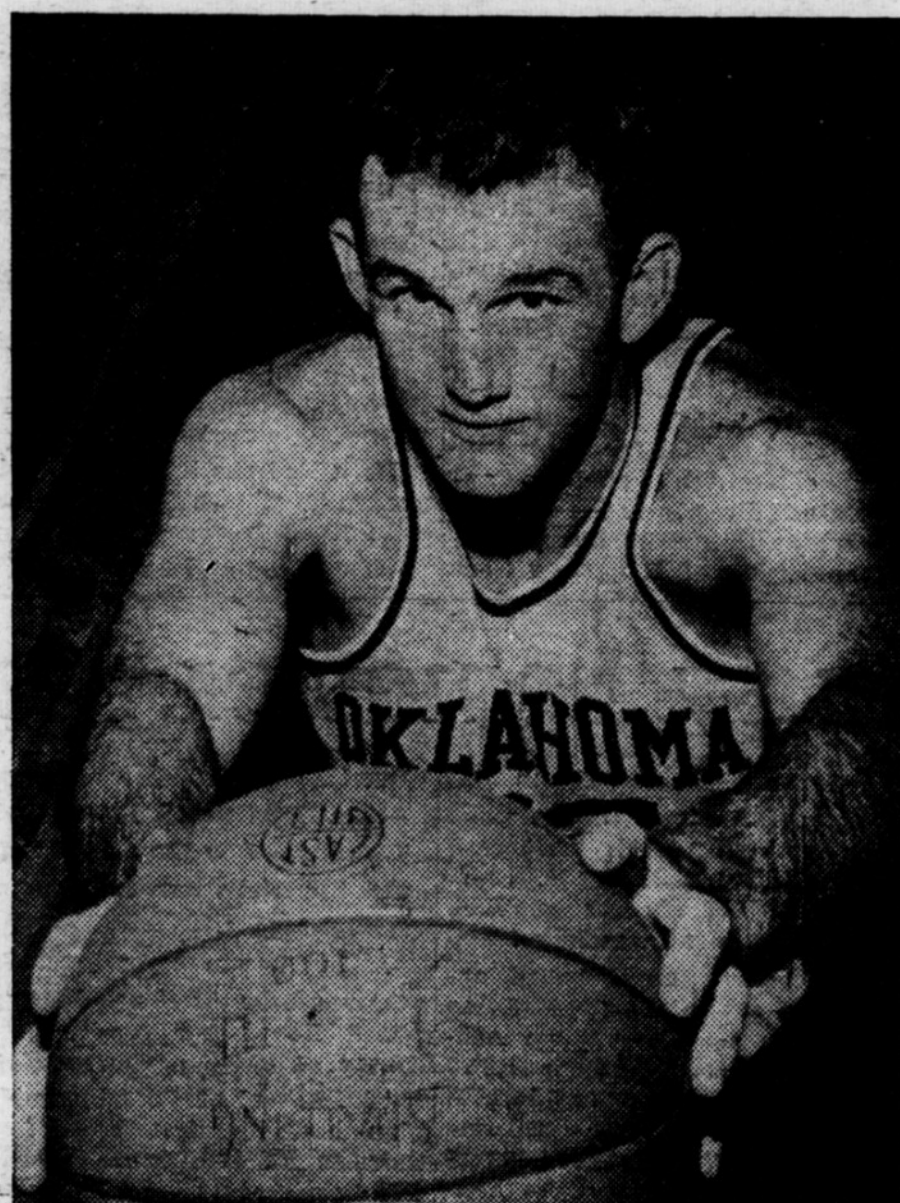

COLEEN HENSON, EEd Soph—K-State, after we beat KU twice.

Top Teams Are Defeated

By UNITED PRESS

West Virginia still has that magic winning touch but it's getting to be a tough season for other top-ranked college basketball teams.

The Mountaineers, rated No. 1 in the country, ran their unbeaten string to 13 games with a 71-64 victory over Pittsburgh last night while North Carolina State upset fifth-ranked North Carolina, 58-57, and St. Louis surprised eighth-ranked Bradley, 71-70. It was North Carolina's third loss in 14 games and Bradley's second in 10.

A POSSIBLE THORN in K-State's side this weekend is Joe King, 6-6½ Oklahoma Sooners basketball star, who averaged 16.3 points a game last season. The big senior made the Associated Press all-Big Seven team as a sophomore two years ago.

Working with Sports

By Jay Workman

Tex Sez

"We don't take too much stock in the national rankings of basketball teams put out by the wire services," Wildcat Coach Tex Winter says, "They are mainly popularity polls."

"The fans like them and they are good public relations, but the voters may be biased. They probably haven't seen many teams play and vote for the school from their area."

"The public would really think it was an upset if one of the top teams lost but in today's game of basketball any team can lose one or two. It doesn't put any pressure on us because we don't pay a whole lot of attention to the polls."

Tex said the Wildcats were looking forward to a good game with Oklahoma in Norman this weekend. "Both teams are good ones. The boys feel they have a score to settle after we got beat down there last year."

"It is an important game for both teams and the loser will almost be eliminated from the Big Eight race. Maybe we wouldn't be eliminated but we would sure hate to lose that one game lead on KU."

Thinclads Look Good

In the Sugar Bowl track meet in New Orleans K-State's mile relay team took second against a strong University of Texas group. Anchor man Deloss Dodd took the baton seven yards behind deer-like Eddie Southern and pushed Southern all the way, only to lose by less than a yard.

Head track coach Ward Haylett said, "We will have one of the top four or five mile relay teams in the nation this year. The trouble is about three of those teams are in the Big Eight! Nebraska had a freshman team last year that broke the national frosh record. Oklahoma and KU will have outstanding teams also."

Wildcat Gene O'Connor won the high hurdle event as the Cats grabbed second out of a field of 16.

Odds 'n Ends

Roy DeWitz came within a single point of tying the K-State record for rebounds for guards when he grabbed 12 against Nebraska last Saturday. Pachin Vicens holds the record of 13.

We think K-State has one of the best basketball teams it has ever had but it is not as much fun to watch as the flashy speed-ball kind of play of a few years ago when Bob Rousey, Jim Iverson, etc., were in action.

There will be no complaints when the Cats walk-off with the championship, undoubtedly.

With Oklahoma State now a member of the conference, the Big Eight is the strongest wrestling league in the nation. Oklahoma finished first, Iowa State third, and Oklahoma State fourth in last year's NCAA tournament.

We feel proud to have had something to do with a school that belongs to the Big Eight. The conference is the only one that has three cage teams in the top 10 of the national press poll ratings in K-State, Oklahoma State, and Kansas.

We read in the KU Daily Kansan sports column by George Anthen that K-State got beat by Iowa State in football this year. The TRUTH is that the Wildcats dumped the Cyclones, 14-10 on October 26 at Ames.

Anthen was talking about Iowa State coach Jim Myers' as a prospect for the coaching job at Texas A&M. He said, "So Myers, whose main claim to fame this season were victories over Kansas, Nebraska, and K-State, is finding himself in much the same situation that a coach's sudden departure often places a school."

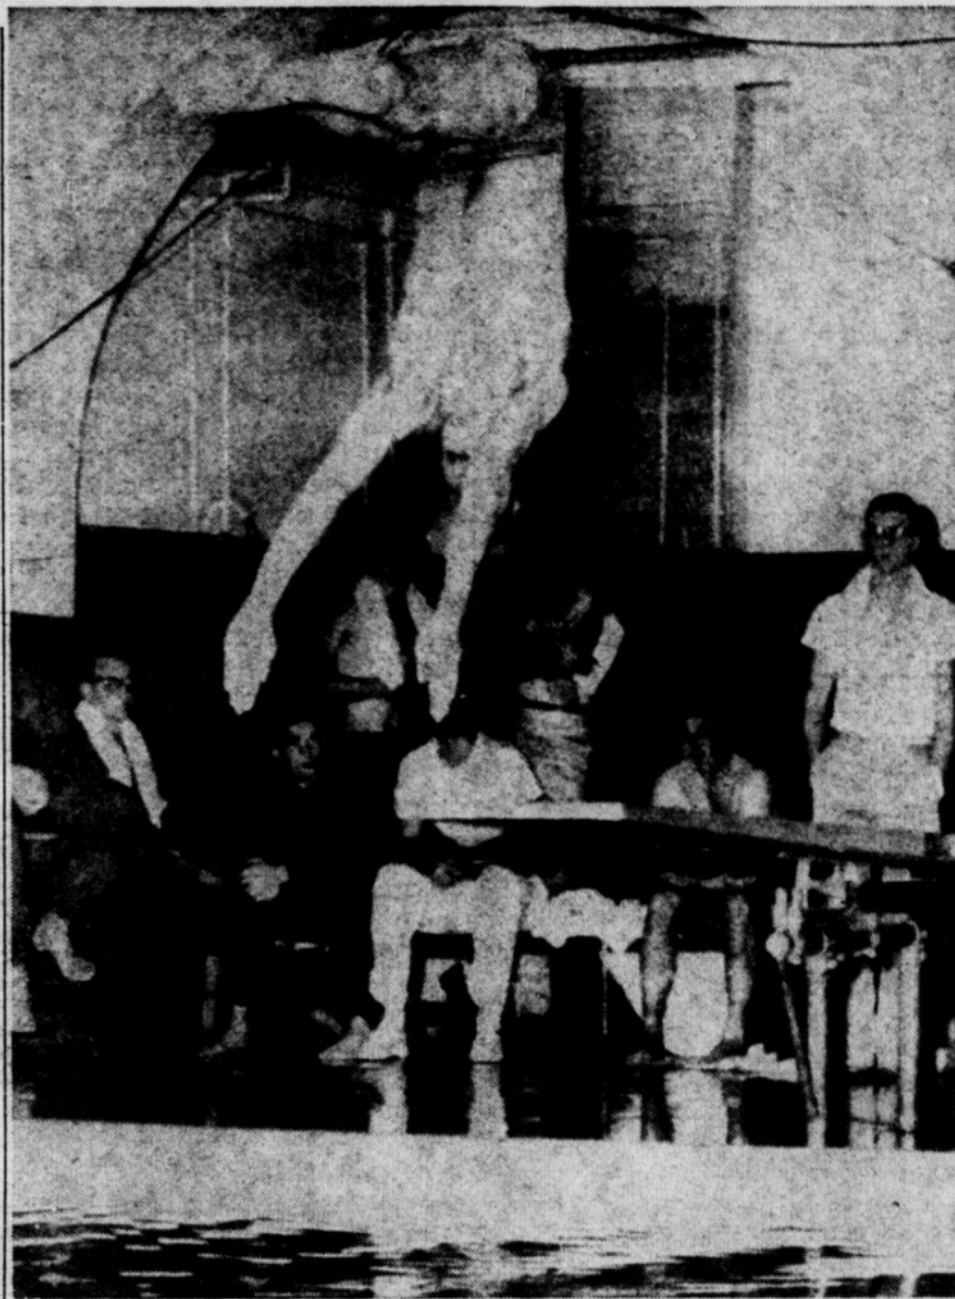

Photo by Doug Tedrow

PRECISION TIMING by Kansas University's Bill Matthews won this round of cutaway diving yesterday at the first dual meet of the season. Final scores for all events was 48-36, with KU in the lead.

Cat Mermen Tripped Up By Kansas

K-State gave the first race to Kansas university yesterday on a disqualification and never could catch up as the Wildcat swimmers were defeated by the Jayhawks, 48-36, in their first conference swimming meet of the season.

John Jeffery of KU swam the 200-yard butterfly in 2:27.5 for a new dual mark. The old standard was 2:38.1 set by Clevenger of KU last year. Jim Mariner of K-State broke the record he set last year in the 200-yard backstroke of 2:31.8 by going the distance in 2:27.6.

The results:

410-yard medley—1. KU (Bill Matthews, Jim Laidlaw, Jeffery, Steve Hill). Time 4:44
220-yard freestyle—1. Jared Piety (KU), 2. Jon Poort (KU), 3. Tom Coblentz (KS). Time 2:26
60-yard freestyle—1. Tom Onuma (KS), 2. Poort (KU), 3. John Nickel (KS). Time 30:5
Diving—1. Matthews (KU), 2. Marion Towns (KS). 196 to 181
200-yard butterfly—1. Jeffery (KU), 2. Dave Dicken (KS). Time 2:27.5
100-yard free style—1. Onuma (KS), 2. Hill (KU), 3. Gordon Harper (KS). Time :57
200-yard backstroke—1. Mariner (KS), 2. Coblentz (KS), 3. Matthews (KU). Time 2:27.6
440-yard freestyle—1. Piety (KU), 2. Poort (KU), 3. Dicken (KS). Time 6:06.3
200-yard breaststroke—1. Laidlaw (KU), 2. Jeffery (KU), 3. Milhordin (KS). Time 7:43.7
400-yard freestyle relay—1. KS (Coblentz, Mariner, Harper, Onuma). Time 3:59.7

Dads Have a Dandy Spree At Kappa Papa's Weekend

By CHARLENE STRAH

Even if their feet did stick out over the ends of the beds, Kappa dads decided to come back next year after the second Dads' Weekend at the Kappa Kappa Gamma sorority house.

"The twenty-four fathers entertained had a wonderful time and showed us how young they really are," said Sue Mechesney, EEd-Soph, Kappa social chairman.

Dads spent Saturday afternoon visiting their daughters to start the busy weekend. They were guests for hamburgers, the traditional Saturday night dinner at the Kappa house, and afterwards attended the K-State-Nebraska basketball game. They sat together in a reserved section.

Rooms on the second floor were turned over to Kappa dads for the night. Bunk beds, designed for sorority women, weren't long enough for the tall fathers, but served the sleeping purpose. Garland Atkins of Fort Scott, father of Martha Atkins, Sp Soph, found out that "the first step you take certainly is a big one" . . . especially after spending the night on a top bunk!

After the game, daughters and dads went dancing at the Skyline and then returned to the Kappa house for midnight refreshments. Kappas serenaded their dads later.

Dads were initiated as charter members into the new "Papa Papa Gimmie" club, but before they were initiated they had to give a skit. Sue said. The fathers put their heads together and came up with a song to the tune of a Kappa favorite, "Oh, I'm So Happy."

Bill Mechesney of Shawnee, father of Sue and Lynn, led the men who were wearing their coats backwards. As an added surprise they spelled out KKG

with dollar bills, which they gave to the Kappas.

The dads even made themselves useful by fixing a broken towel rack in the house.

"They especially enjoyed the weekend since all the decisions were made for them and it is one of the only times they get to see their college daughters," Sue said.

Sorority sisters were awakened Sunday morning by the sound of a

cowbell only to find the culprits were two dads. After all were up a big breakfast was served and then daughters and their dads attended services together at the Presbyterian church. Sunday dinner ended the weekend of fun for the 24 dads.

"We sure hated to see them leave," Sue said, "but we're already looking forward to future visits."

Photo by Gary Settle

DAD'S DAY at Kappa Kappa Gamma Sunday brought many fathers to the sorority house for dinner. In conversation after the noon meal are from left, Joe Culpepper and his daughter Becky, EEd Sr; Sue Mechesney, EEd Soph; Garland Atkins; Bill Mechesney; Martha Atkins, Sp Soph; and Lynn Mechesney, Gvt Jr.

Finals Fail To Phase K-State Love Affairs

Kethcart-Mengeling

Barbara Kethcart, EEd Jr, Beloit, and Bill Mengeling, VM Soph, Reeseville, Wis., announced their engagement Monday night. Barbara is an Alpha Delta Pi and Bill is a Phi Kappa Tau.

Williamson-Wallace

Jeanie Williamson, MEI Sr, has announced her engagement to Eddie Wallace, Mth '57. Jeanne and Eddy are both from Minneapolis.

Hays-Beltz

Jeanie Hays, HT Jr, announced her engagement to John A. Beltz, at the Clovia house Wednesday. John is a sophomore in history at Southwest Missouri State college at Springfield, Mo. A June wedding has been planned.

Vest-VanSickle

The engagement of Ruth Ann Vest, Bac Soph, and Kenneth VanSickle, PrV Soph, has been announced. Ruth is an Alpha Xi Delta from Grandview and Kenneth is a Beta Theta Pi from Emporia. No definite wedding plans have been made.

Irwin-Quakenbush

The engagement of Marilyn Irwin, SED Jr, and Warren Quakenbush, RM Jr, has been announced. Marilyn is an Alpha Xi Delta from Topeka and Warren is a Sigma Nu from Emporia. They have no definite date set for the wedding.

Smith-Johnson

The engagement of Cora Smith and Gerald Johnson, BA Sr, was announced in Fayetteville, N.Y., during Christmas vacation. Both Cora and Gerald are from Fayetteville. Cora is a graduate of Central City Business institute at

Syracuse, and is now secretary at the Syracuse Credit bureau. An early summer wedding is planned.

Vernon-Bechtel

The engagement of Leta Vernon, HT Sr, and Curt Bechtel, PrV Soph, has been announced. Both Leta and Curt are from Admire.

Small-Miller

Cigars were passed at the Farm House Monday night to announce the engagement of Don Miller, AEd Soph, and Virginia Small. Virginia is a student nurse at Stormont-Vail hospital in Topeka. Her home is Horton and Don's home is at Everest.

McShane-Budden

Pat McShane, DIM Sr from Haviland, passed chocolates at Van Zile hall January 8 to announce her engagement to Bernard Budden. Bernard is farming at Keats. No definite wedding date has been set.

Thorp-Cropper

Cigars were passed at the Delta Sigma Phi house Sunday to announce the engagement of Bill Thorp, BA Sr, to Inez Cropper who is working at Fort Riley. Both are from Valley Falls. A June wedding is planned.

Bollinger-Chestnut

Norma Bollinger, HT Jr, passed chocolates at Van Zile January 9 to announce her engagement to Sam Chestnut. Both are from Quinter. Sam graduated from K-State in 1957 and is now working at Soil Conservation service in Graham county. No definite wedding date has been set.

New Officers Take Over Spring Semester Duties

Pi Beta Phi

New officers of Pi Beta Phi are Carolyn Eby, BA Jr, president; Carol Schoenfeldt, BPM Jr, vice president; Carolyn Huber, EEd Soph, corresponding secretary; Marlene Van Schoonveld, HEN Soph, recording secretary; Judy Hopp, TxC Jr, treasurer; Colene Henson, EEd Soph, assistant treasurer.

Winkie Killian, Art Jr, Panhel- lenic senior representative; Irene Mangelsdorf, EEd Soph, Panhel- lenic junior representative; Barbara Marshall, Sp Sr, formal social chairman; Kay Burke, HEN Soph, informal social chairman; Beverly Cloyes, SED Sr, program chair- man; Kay Nordstrom, HE Soph, activities chairman; Kathy Hor- ridge, PEW Jr, house manager; Karen Skiver, Soc Sr, Naney Ir- vine, MEI Jr, Janet Newcomer, PEW Soph, and Nan Johnson, EEd Soph, executive council; Kar- en Peterson, MGS Sr, song leader; Sue Higdon, BMT Soph, standards chairman; LuAnn Burnette, SED Jr, Pi Phi Times chairman.

Marilyn McKnight, TJ Sr, Set- tlement school chairman; Pat Myers, Sp Soph, intramurals chair- man; Rochelle Denk, EEd Soph, and Charlene Strah, BA Jr, cen- sors; and Emily Mohri, EEd Soph, and Joan Peters, EEd Soph, house board.

Tau Kappa Epsilon

New officers of Tau Kappa Ep- sillon fraternity are Jim Shane, His Sr, prytanis; Jack Hamilton, BA

Jr, eti-prytanis; Fred Shaw, ChE Soph, granmateus; Larry Faler, Sp Soph, historian; Loren Beougher, EE Sr, hegemon; Gene Shields, VM Sr, hypophetes; Cary Hender- son, ME Fr, pylortes; Tom Isen- hour, BA Jr, crysophelas; Deloit Peterson, ME Soph, house man- ager; Harold Ghormley, AE Sr, business manager; Dale Shipp, ML Fr, assistant hegemon; Al Rader, BA Jr, social chairman; and Bob Baruth, Ag Jr, rush chair- man.

Beta Theta Pi

Members of Beta Theta Pi elected new officers January 9.

They are Pat Conlon, ChE Sr, president; Larry Lesh, PrL Sr, vice president; Duane Ramsey, AA Jr, recorder; John Erickson, BAA Soph, corresponding secretary; Daryl Mackender, BAA Jr, treas- urer; Gary Lafferty, PrV Soph, and Pete Lindsay, BAA Jr, Inter- fraternity council representatives;

Rhea Serpan, EE Jr, song lead- er; Bill Laude, CE Jr, pledge trainer; Don Carlson, Ag Jr, social chairman; Don Adey, MTC Jr, rush chairman; Larry Lesh, PrL Sr, Y- Orpheum chairman; Bill Larson, Phy Jr, parliamentarian; Phil Wright, GA Sr, Keeper of the Role, and Ken Peirce, NE Soph, initiation and ritual.

VARIETY STORES

AGGIEVILLE

BETTY BRITTON, (right) and Linda Hamm, (left) talk over a point in their text, while Sandy Culver takes advantage of the interruption to rest her eyes.

MIDNIGHT SNACK-TIME rehearsal at 9:30 is undertaken by Lorelee Terbovitch, Barb Lowe, Jody Baird and Rosi Austin. Although the "goodies" came out of a can, cooking took up a nice hour of time.

AND ON THE MALE SIDE of final week, much can be said for the interests awaiting down town. Who could beat television, an easy highstool, and something cool to sip? And who needs an "A"?

PAT SMITH, (top bunk) and Nancy Chaffee exchange comments on lecture notes during the evening. Nancy complained of poor light, ended evening by fixing her nails. Pat was soon bored and fell asleep where she was.

Finals Come and Go, But the 'F' Remains

By IMOGENE LAMB

There may not be much in a word, but a combination of them can produce an explosion of meaning.

Take the words final and examination for instance. When used together, they draw for most students a vivid mental picture. In that picture are variations of tired, bloodshot eyes, chewed-off pencil stubs, worn-out erasers, and page upon page of questions—mostly unanswered.

The two words bring distasteful memories to many, and to the first semester freshman, they bring terror and a premonition of disaster.

At final examination time each student begins to wish things were different. He wishes he had studied earlier, he wishes he had a copy of the examination, he wishes Governor Docking would abolish faculty members in all state colleges.

Final examinations mean different things to different people. To the industrious student they mean long hours of hard work; to the less industrious they mean frustration; to almost all students they mean fewer coffee, coke, or beer breaks.

One K-State coed who takes the whole matter rather lightly says, "Final examination is my favorite guessing game. Easy, you know—just cover your eyes and pick one . . . Of course I've always been a gambler at heart." (She should try Russian roulette after it is all over.)

Another "optimist" summed up her feelings about final exams by muttering one guttural sound, "F."

Some students advocate the practice of calling the week preceding finals Dead Week. In seems, however, that it might more appropriately be called Dread Week, because of the worrying that so many students do. During that week many students worry about time limits and trick questions. Others just worry about sleepless nights and meals missed. Some worry about reaching home before their grades do.

The name Dead Week could very well be saved for the week after final examinations, for after all that is the time when students are "deader than ever."

"There won't be time for dating," groaned one socialite when asked what she hated most about final week.

"Final week means I have to wear my horrid glasses all the time," was the comment of another coed.

"Me too, but I always end up with a backache anyway," said another.

Students agree that a final examination usually means an end of something—course, grade, curriculum, school, or them if they don't reach home before the grades get there. It can mean the end of friendships too—between faculty member and student or between student and parents.

After final time, desks can be cleared, notebooks revamped, textbooks burned, and thoughts sorted to make room for next semester.

Although it seems to be the consensus of the student body that final exams are pretty unpleasant, they should always keep this thought in mind . . . The end is also a beginning—probably the beginning of the same course all over again.

Snyder Nearly Wins Marilyn Monroe

Photo by Gary Settle

HE LIKES JAZZ—Local disc jockey and radio and TV instructor Bob Snyder sits among part of his \$2000 worth of recordings, dreaming what it would have been like to spend two days with Marilyn Monroe. He was a runnerup in Playboy magazine's annual all-star jazz poll.

Activities

Ralph Flanagan To Play For Army ROTC Ball

Ralph Flanagan's band will play for the Army ROTC military ball February 21 in the Union ball room. Tickets for the ball will be placed on sale at \$3 a couple in the Union February 3.

The ball, which is being sponsored by the Scabbard and Blade, Army ROTC honorary, will be semi-formal.

K-State sororities and dormitories will nominate queen candidates from which the Army ROTC cadet corps will select five finalists.

All people attending the ball will chose the queen by ballot.

Graduate Students Association

The Graduate Students association will have its end of the semester meeting in room 208 of the Student Union tonight at 7:30 p.m. Election of officers and voting on amending the constitution are on the order of business.

United Fund Drive

The SGA Funds and Drive Committee, headed by Kay Eplee, is sponsoring its annual united fund drive the second semester and is asking each organized house to help out with the solicitations.

The plan is for each house to

elect one representative to be responsible for collecting the contributions in that house. These representatives will meet with the solicitations subcommittee in the Union Tuesday, February 4.

Agricultural Education Club

The January meeting of the Agricultural Education club met last night to elect officers for next semester. Those elected were: president, Jim Macy, AEd Sr; vice president, Glenn Heide-man, AEd Sr; secretary, Donald Stuteville, AEd Jr; treasurer, Ronald Sweat, AEd Jr; reporter, Jim Wier, AEd Jr; sentinel, Tom Herring, AEd Sr; Parliamentarian, Wilbur Dunavan, AEd Sr.

Union Art Committee

The sub-chairmanship position on the Union Art committee is now open, according to Jack Hamilton, BA Jr, vice chairman of the Union Program council. Interested students can apply for the position of sub-chairman of the Union showcases in the activities center of the Union until next Monday at 5 p.m.

You'll be pleased with a Col-egian classified.

Ever dream of spending two days with some dish like Marilyn Monroe or Jayne Mansfield? Forget it. Fifteen years of enthusiasm and at least \$2000 worth of efforts couldn't swing such a deal for Bob Snyder, radio and television instructor.

Snyder, 29, who has been a jazz fan for 15 years and has accumulated a record collection valued at close to \$2000, put his jazz knowledge on the line an entered "Playboy's Jazz Poll Disc Jockey" contest in October.

The purpose of the contest is to have JD's throughout the country pre-guess the results of "Playboy's" jazz ratings by selecting the top jazz artists of the year. Balloting by the readers determines "Playboy's" picks.

First prize in the contest gives the DJ a choice of any of "Playboy's" featured Playmates of the Month, which include such talent as Miss Monroe and Miss Mansfield, for two days—all expenses paid.

The next 50 contestants are given a choice of a Jazz All-Star recording album or a year's subscription to "Playboy."

Snyder didn't get the prize package but he did win a runners-up gift. Just how close he did come will not be known until

the contest results are released in the magazine's February issue.

If Snyder would have won first place he would have had his Playmate choice sent here for promotional purposes.

Much of the K-State male populous, upon hearing that Snyder had entered the contest, had offered to assist him in taking care of his prize if he won first place.

"I imagine quite a few male students are disappointed," said Snyder. "I received several fraternity and individual offers to assist in taking care of her."

"It is probably just as well that I didn't win, though. I probably would have had to have the Playmate baby sit with my two children while I took my wife out."

Snyder's performance in the "Playboy" contest is not to be taken lightly. This jazz poll is the largest in the country and received more than 21,000 entries last year.

In addition to teaching radio and television Snyder has done music and radio reviews for radio station KSAC. He has also had a part-time jazz show on KMAN for a year and a half.

Incidentally, Snyder will take the record album as a prize instead of the "Playboy" subscription. "The records are worth more money."

ASSOCIATES Men noted for outstanding accomplishments in your field are on the UCRL staff. Many of them have contributed pioneer achievements in the nuclear field. You share their pioneering knowledge—and have their encouragement—at UCRL.

FACILITIES Generally considered unmatched in the field, UCRL facilities give project workers access to all the latest instruments of research—from high-speed

digital computers, water boiler reactors, particle accelerators, to facilities in nuclear magnetic resonance-electron spin resonance.

ATMOSPHERE UCRL is directed by scientists and engineers. Here you'll find the right "climate" for work and advancement, encouragement for initiative. And you'll enjoy the opportunity to work in the San Francisco Bay Area.

A UCRL staff member will visit your campus
TUESDAY, FEB. 4, 1958

NUMBER 75

Good Luck!

All-College Dance Scheduled Feb. 8

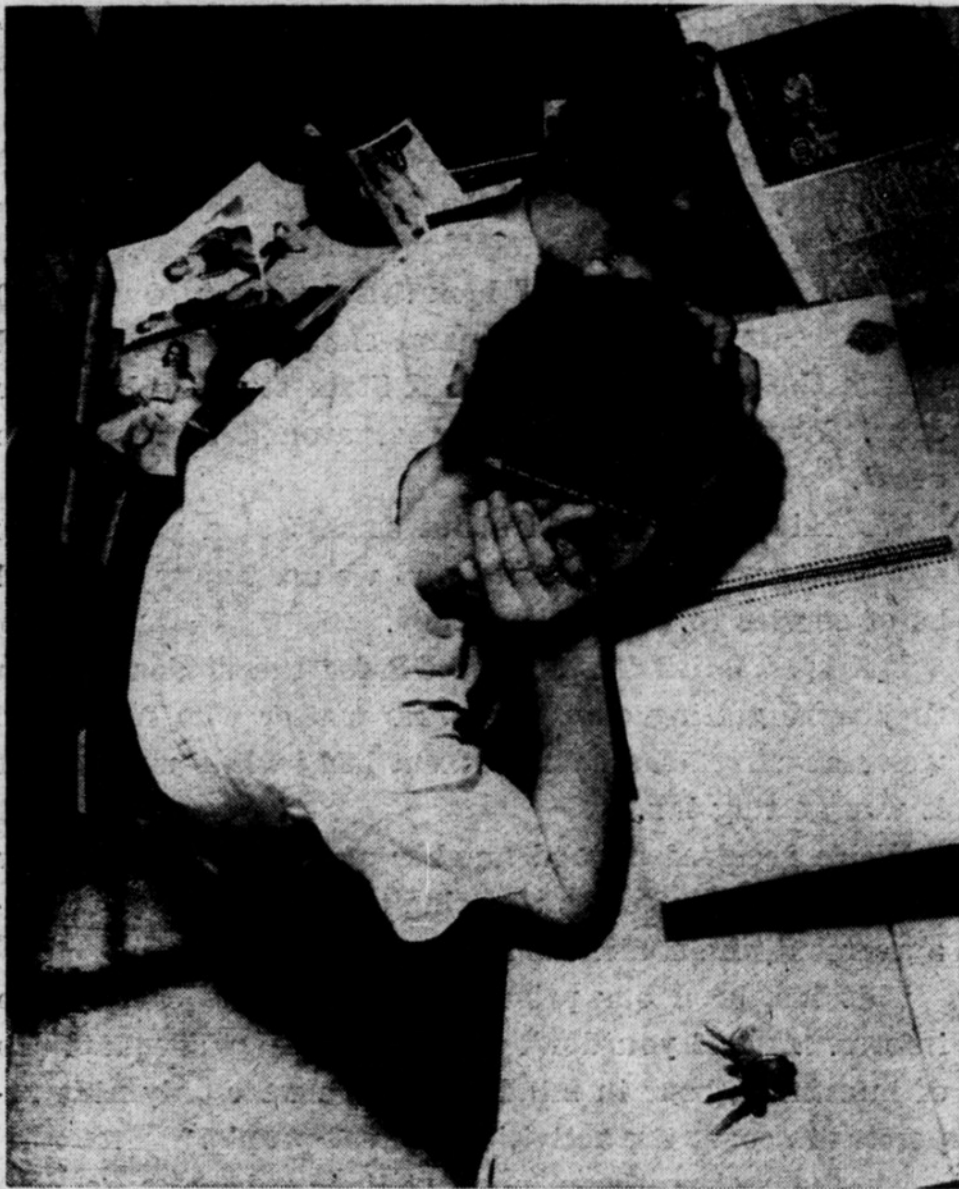

Photo by Jim Bell

ONCE IN A WHILE, a fellow has to forget fun and frivolity—final week is one of those times. Ron McNickle, TA Fr, forgot fun and frivolity (at least as far as the floor) as he began the final cram to net extra grade points. He probably has lots of company.

Bob Dougherty and his band will play for an all-College dance following the Kansas State-Iowa State basketball game February 8, Mike Dole, ChE Jr, told Union Program council members at their meeting in the Union last night. Dole is chairman of the Dance committee.

The dance will be in the main ballroom of the Union immediately following the game. Dress for the affair will be casual. The band is from Kansas City, Mo.

Six schools will be represented in the Big Four talent show, according to Larry Foulke, NE Jr, chairman of the Campus Entertainment committee. The participating schools are Kansas State, Kansas university, Oklahoma university, Nebraska university, Missouri university, and Iowa State.

Two all-College events are being scheduled for April by Union committees. George Rood, ME Jr, representing the Harmonizers committee, told the council that the committee is planning to give a musical show. The Hospitality committee, headed by Barbara Ericson, BA Sr, is scheduling a puppet show.

This Collegian Last Of Fall Semester

Today's Collegian is the last one of this semester.

The paper will not be published during final week. Publication will resume Monday, February 3, under new management.

Closing Hours Will Be Later If KS Tops KU

Coeds living in women's organized houses have been granted permission to attend a midnight pep rally Monday, February 3, in case of a K-State basketball victory over Kansas university at Lawrence, according to Jane Chalmers, SEd Soph, chairman of the AWS committee in charge of arrangements.

Closing hours will be 10:30 p.m. as usual, but the residences will reopen at 11:30 p.m. and close again at 1 a.m. Buses will be provided to take residents of Southeast, Northwest, Van Zile, and Waltheim halls to the rally at Ahearn field house when the team arrives.

A student book exchange, sponsored by Student Council and Sigma Tau, engineering honorary, will be set up on the third floor of the Union during parts of final exam week, the enrollment period, and the first few days of second semester. This is to be a non-profit project.

The exchange will be open for accepting and selling books on January 23, 24, and 30; February 1, 3, 4, and 5, according to George Hooper, BA Sr, Student Council representative. The exchange also will be open on February 6, 7, and 8 to return books or money to students. Hours of operation will be from 8 a.m. to 5 p.m.

Students are asked to bring their books to a central location at the exchange. The books will be priced by the students themselves and will be sold by the book exchange. The money received will be given to the original owner of the book. A fee of five per cent a book will be charged by the book exchange for handling costs.

The deadline for picking up books or money is Saturday, February 8, at 5 p.m. If books are not picked up by the 5 p.m. deadline, an attempt will be made to contact owners of these books. If the books are not picked up then, they will be sold.

Robes To Be Available At Bookstore Thursday

Caps and gowns for January graduates will be available at the Campus Bookstore next Thursday. Those who ordered may pick them up from Thursday until the time of graduation, January 26.

A 50 cent refund will be given for tassels returned with the rented caps and gowns.

Sure Were Busy When You Should've Studied

By LYNN MOXLEY

The following is the second half of the summary of semester events:

NOVEMBER

The 1957-58 Student Directory was distributed. Two major changes were made by editor Jan Kraft, HEJ Sr. The size of this year's directory was 8 1/2 x 11 inches and also contained advertising for the first time.

Plaid shirts and scarves appeared over the campus as the traditional Ag Week began. Finalists milked cows, called hogs, and rode horses in preparation for the queen contest.

The Ag queen, Barbara David, HDA Soph, was crowned at the Barnwarmer dance. Her attendants were Barbara McCluskey, PEW Fr; Judy Stark, SED Soph; Dee Baker, HEN Soph; and Patsy Stevens, MGS Sr.

The Lotte Goslar Pantomime Circus performed at an all-College assembly. A variety of performers gave an outstanding program of comedy for Staters.

Panhellenic voted to replace the system of weekend rush parties with a special day on which all senior high school girls would be invited to the campus to visit the sororities.

Greek Week activities were set for May 11 to 17 by the IFC.

Winter officially began as a trace of snow fell on the campus and students dug into closets for warmer clothes.

The annual Delta Sigma Rho speech contest was won by Celia Dixon, EEd Sr, and Jim Roberts, BPM Soph. Miss Dixon, who represented Alpha Xi Delta, spoke on being a good conversationalist while Roberts, who represented Alpha Kappa Lambda, spoke on civil defense. Chi Omega and Alpha Kappa Lambda won the rotating trophies for having the most points.

The Paganini String Quartet presented classical music at the second Artist Series production.

Plans were made by the Student Council to set up a committee to investigate the co-ordination of campus activities.

YWCA members set up booths in Calvin lounge to dis-

play their items from foreign countries at the annual Y-Mart.

Coeds voted for their favorite man on campus who was crowned at the Snowball. Chosen FMOC was big Jack Parr, BPM Jr, representing Beta Theta Pi. His attendants were Dave Nielson, CE Soph, Phi Delta Theta; Dwight Bennett, Ar 03, Delta Tau Delta; Chuck Larson, AE Sr, Sigma Alpha Epsilon; and Dick Streets, NE Jr, Lambda Chi Alpha.

A revolution in tradition took place on the campus as smooch lines were forever banned. Health reasons were given for making the change.

K-State footballers finished with a 3-6-1 mark for the season. The record didn't tell the story, though, as the team played the two top teams in the nation and held them to some low scores. Wildcat gridders scared Oklahoma 13-0, and played Michigan State a strong first half but went down 27-9.

"Pardon the Expression" was selected as the theme of the '57 Y-Orpheum to be presented in the spring.

President McCain gave students a look at modern foreign colleges at an all-College assembly.

DECEMBER

Pre-enrollment began for students who had no failing grades at the nine weeks.

The basketball team used outstanding defense to swamp Texas Western 76-31 to open the roundball season.

Jim Smith, former K-State basketball standout, was hired as Student Union Games manager.

The most inspirational player of the 1957 football team was Wally Carlson. He was chosen for the award by his teammates.

The K-State Department of Music presented the annual Christmas Vespers in the College auditorium.

Eight students attended the Student Conference on National Affairs at Texas A&M.

Christmas hit the Union as students put up festive decorations in preparation for the holiday season.

The Integrity party won three of the four senior offices. Integrity officers were president, Gene O'Connor;

vice-president, Barbara Ericson; and treasurer, Nancy Howard. Secretary Joyce Graham represented the United Staters party.

The 1958 Royal Purple beauty queen was Emily Mohri,

After a Fashion

'It Has Certainly Been a Long and Dry One,' Said the Fellow at the Bar—and He Was Right.

By Jim Bell

"IT'S BEEN A LONG DRY semester," I told the fellow at the end of the counter.

"Yes," he said, somewhat sadly, but a trifle nonchalantly. "It has certainly been a long and dry one." And it certainly had been, too.

"Well," I said, "I've got to get back to the books—you see, I've got tests to study for, final tests, at that." And on that note, I bugged out of the reputable establishment, reflecting upon many things—but mostly upon tests and things.

ONE OF THE REFLECTIONS that was printable had a great deal to do with my bowling test. Why (oh why) was my instructor giving me a test in no-credit-for-the-course bowling? The answer? The poor fellow loved to make out tests—he spent hours and hours making out tests, chuckling and chortling, thinking up tough questions all the while.

However, my mind, such as it was, was prone to wander, and it touched on many subjects before I had pushed too far into the interior. I reflected, for example, upon the advice of a dear friend of mine who had

died a lonely death in a 3 a.m. study hall (a Zoo Jr turned werewolf had done it).

THE POOR FELLOW had advised thus in a letter shortly before his death:

"To study is futility; to bluff is sheer intelligence. Keep a clear head when taking finals, and never (on discussion questions) go too far over the professor's head.

"Don't hesitate to talk things over with the motley instructor. Convince the fellow that you are genuinely interested in his home life, his cars, his fishing trips, and his latest book, theory, or pet passion.

"Above all, be nice to the instructor," the poor fellow wrote. "Don't curse at him, don't throw stones at him, speak nicely to him."

THAT WAS THE POOR fellow's advice, and I proposed to follow it closely. So, upon arriving at my abode, my very place of residence, I hit the books several times then went to bed. Next morning, I awoke refreshed, donned my test-day apparel, and set out for the barracks in which I was to struggle with the examination.

The instructor came in, and I tossed out a musical "hello, old fellow." He didn't seem to appreciate it at all. And that was when I had my first doubts as to the validity of the dear friend's advice, as contained within the letter. Could it be, that there was a fallacy here?

I TOLD MYSELF THAT I must persevere. And I did, using all my intellect, both hands, and the pair of feet that were mine. The fellow handed the test to the rest of the class and managed to throw the thing—a nice 13-pager—in my direction with an accompanying snarl.

I struggled through a couple of pages before I remembered another piece of the dear fellow's advice. So I hastily rewrote the first pages of manuscript, trying to pare out intelligent statements, trying not to go too far over the professor's head.

And there I was, writing away, when the bell ending the exam period rang. The professor, poor fellow that he was, ambled in my direction with a feverish glint in his eye. He stood behind me, looking over my shoulder, then he emitted a snarl or two, and cursed me unmercifully.

"WHAT, OLD FELLOW, seems to be the problem," I said. He accused me then, of trying not to go too far over his head and backed up his argument with backhand smashes, and forearm blows.

"Hold on," I cried, through the rain of blows and smashes. "Hold on, old fellow, you can't do this to me..."

"Why not, you... you... student," he asked? Darned if I knew.

a student body active enough to fill a daily newspaper with about 98 per cent local news. If we have sometimes written that you haven't moved fast enough, it's because we want the most interesting news possible, and besides it's easier to write three-column headlines.

ANOTHER BIG VOTE OF THANKS from me to the staff of the fall Collegian. When we started in September, there were only five people on the staff with even a previous semester's work on the paper.

We had to come up off the floor, so to speak, to get a newspaper out every day during the week, and I'm well-pleased with the way the staff met the challenge.

We've had a lot of good luck this semester. Over 5,000 K-Staters turned out for the name-change referendum and this is the best any group of K-State students has ever done. We're proud that we were around to report the event.

We did what we could about some Union parking lot space that was being wasted and we are happy we could be of service to the student body.

WE'VE TRIED TO STICK UP for the students when they were getting a raw deal, no matter who from, and we've chastized the same student body when we thought it was getting lax.

We've received a good number of letters to the editor and smiled to ourselves realizing that even though in disagreement, the student is reading the newspaper.

This has been our prime function on the campus—to inform. And if you don't think we did an adequate job of informing, bear in mind that there were only nine reporters to cover the activities of 6,700 people.

The hours have been long but they've been more than rewarding if you've taken time to read the Collegian. I'm sure the staff doesn't regret the time spent.

WE'VE PUBLISHED A GOODLY NUMBER of editorials, all of which we think have been warranted. We probably stepped on a number of toes, and if you reached down to see if you were hurt—well that's what we wanted you to do anyway.

We learned a lot this semester, and we hope you've benefited by our education. We made some errors along the way, but the Collegian is a laboratory for training, and we don't think too many test tubes have been broken.

There's a real good staff coming up next semester, too. We know, we got a lot of them started. Sue Goss should be able to do an above average job next semester. She's been business manager of the newspaper this semester and has a working knowledge of both ends of the publication.

It's all yours Sue.

NOW, WHAT DID I DO with that Free Soc book, I've got to study sometime this semester.—Roger Myers, editor emeritus.

Readers' Forum

Some observations:

It's nice we have such a competent student president. On Monday, January 13, Gov. George Docking recommended a five per cent faculty salary raise. On Wednesday, January 15, a petition that 3,750 students signed to encourage faculty pay increases was sent to Governor Docking. Said Neil Scott, "We had the feeling of the students so we held the petition because we wanted to send it at a time when it would do the most good. . . Governor Docking will keep the petition handy for next year's budgeting."

This same Neil Scott has blamed transfer of activity cards for the seating problem. I'm sure that as the representative of the students he has adequately expressed their opinion, and that is why 100 per cent of the students will not transfer their activity cards at the next game. Ha! That activity card is a season ticket, and should be given the same privileges as one.

It's also nice to spend \$4,000 on automatic pin-setters when the money could be used much more advantageously in the Union—for a bookstore, perhaps. I know a couple of boys who earn their school money setting pins. Anybody like to contribute to their scholarship fund?

And lastly, it's nice to have TJ support. But are you hurting them or helping them by blasting the idea of a scholastic check? If grades mean nothing, why have them? Also, editor, I would like to know how the practical application value of journalism would be damaged by moving its location. Nobody said anything about cutting out the teaching of scientific writing.

Douglas Erbeck, VM Soph.

Leadership Training Begins February 11

The Leadership Training workshop will begin with an organizational meeting, Tuesday night, February 11, according to Janice Albers, HT Jr, chairman of the workshop curriculum committee. Six consecutive Tuesday night sessions are scheduled for the workshop.

In addition to the regular meetings, an all-day "Kickoff" is planned for Saturday, February 15, and a final session, the "Blastoff," is tentatively set for Saturday near the last meeting of the workshop, March 18.

Dr. Phillip Worchel, director of Clinical Psychology at Texas university, will be the speaker for the "Kickoff" session.

Instead of planning the program for the entire workshop in advance, the Curriculum committee, consisting of seven faculty and four student members, will meet on Tuesday nights after the workshop sessions to plan the next week's program.

An assessment of \$3 will be collected from each student enrolled in the workshop by the Finance committee.

Religious Emphasis Week Guest Speakers Scheduled

Tying religion into the academic life of the school is the purpose of Religious Emphasis week, February 16 through February 21, according to Dr. William C. Tremmel, director of religious activities. In order to accomplish this several faculty members and pastors of local churches will participate in activities sponsored by the Religious Coordinating council.

Dr. Earle Davis, head of the English department, will speak on the "Religious Implications in T. S. Eliot;" Melvin Seiden, assistant professor of English, will

speak on "Religion in the Works of Dostoevski;" Dr. Tremmel will speak on "Revelation."

The Manhattan pastors who will be speaking are Dr. Samuel S. George and Dr. Emerson Abendroth, both of the First Presbyterian church; Dr. Walton S. Cole, First Methodist church; Dr. Leslie Kingsbury, Christian church; and the Rev. Roy Turner, St. Paul's Episcopal church. Their topics of discussion are "Acts of the Apostles," "Letters of St. Paul," "Gospels, Matthew, Mark, and Luke," "General Epistles," and "Gospel of John."

Sports Top Late Events As Semester Nears End

(Continued from page 1)

EED Soph, who represented Pi Beta Phi. Emily was crowned queen by band leader Stan Kenton during the intermission of the Royal Purple ball. Kenton's group presented a concert preceding the dance and also played for the ball. Attendants to the queen were Kaydene Dashen, EED Soph, Chi Omega; Carol Lala, HEA Soph, Alpha Delta Pi; and Deena Martin, BA Fr, Southeast hall.

Cynthia Ziegler, HEN Soph, won first in the semi-annual Larry Woods Memorial speech contest.

Students again signed petitions, this time favoring the faculty pay increase. The signatures were sent to the Legislature. Over 3,750 students signed the petitions.

JANUARY

Sue Goss, TJ Sr, was named editor of the Collegian for the spring semester. Chosen business manager was Hal Mitchell, BA Sr. Names of 420 candidates for mid-term degrees were announced by E. M. Gerritz, director of admissions and registrar.

"Religion and Literature" was chosen as the theme of Religious Emphasis week which will be February 16 through 21.

Auditions for the Big Four talent show were held. Winners were the Four Deltas, the Nightcaps, and Jan White. The winning entrants from other schools Feb-acts will be presented along with ruary 13.

Transfer of activity tickets was blamed for the seating problem. As yet, no solution has been given to students.

Holwerda Has No Regrets From Coming To K-State

By JOHN RODRIGUEZ

Broken promises resulted in added bench strength to K-State basketball team in the person of Jim Holwerda, junior guard.

After finishing a brilliant basketball career at Lindsborg high school where he was a starter four years and named to the all-State team his senior year, Holwerda considered attending school at Kansas university. "But," Holwerda said, "KU made some promises they did not keep," so he turned his attentions to K-State.

He has not regretted this move, even though he has bench duty. "It's hard to sit on the bench, but a player can learn a lot from watching the teams. Nobody likes to sit on the bench, so when a player gets the opportunity to play he tries to make the best of it."

"Jim is just beginning to find himself," Tex Winter basketball coach said. "We consider him as our third guard. He is one of our better, if not our best, outside shooter, a strong asset for this club."

Winter said Holwerda will not make the trip to Oklahoma Saturday because he injured a foot in practice Monday. He is expected to be out seven to ten days.

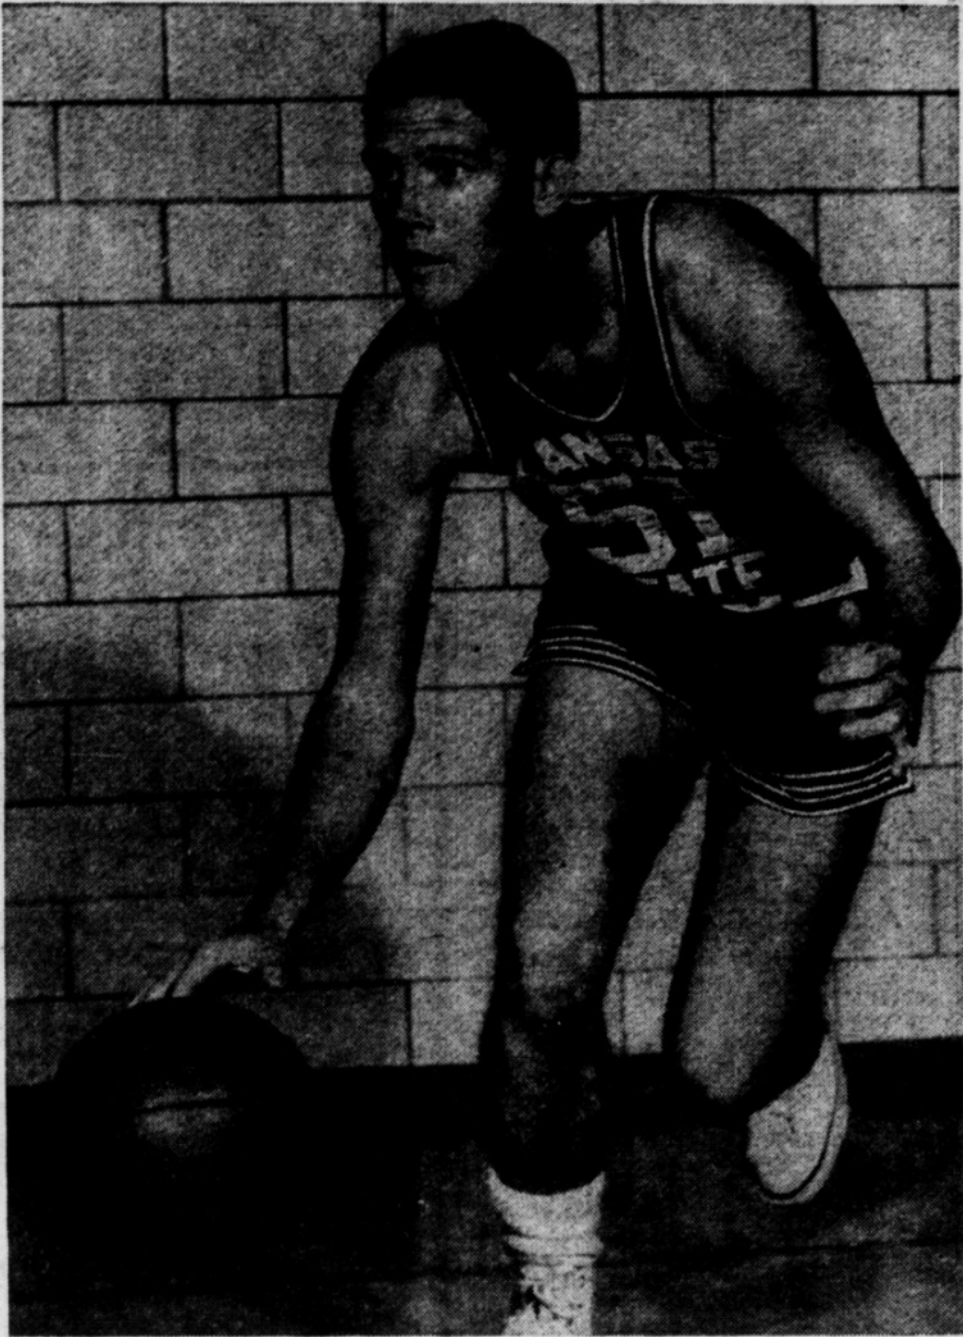

"Oklahoma has a real tough team," Holwerda said of K-State's opponent Saturday. "The team is up for the game, and while they are not scared of them, they respect Oklahoma."

Holwerda attributes the Wildcats' fine showing so far this season to the big men, desire to win, and coaching staff.

"Holwerda owns good speed and is an excellent ballhandler," Paul DeWeese, sports publicity director, says. "He has all the attributes to be a topnotch Wildcat guard."

"Ratings are nothing but prestige," Holwerda said about the national basketball ratings. "They're good for morale."

Holwerda is studying physical education.

JIM HOLWERDA, who landed at K-State because of broken Kansas university promises, is now considered as the Wildcats third guard by Coach Tex Winter.

Wildcat Swimmers To Invade Huskers

K-State's swimming team goes to Nebraska university tomorrow in search of its second win of the season.

K-State, who suffered its first loss of the season Wednesday to Kansas university, will be led by Tom Onuma, top point-getter for the Wildcats this year.

Jim Mariner, who set a new varsity record in the 200-yard backstroke at Wednesday's

meet, should give able assistance to Onuma. He lowered the old record time from 2:31.8 to 2:27.6. Mariner was the holder of the old record, which he set last year.

"The team should be victorious at Nebraska," Bill Thrall, swimming coach, said.

You'll be pleased with a Collegian classified.

Wilt Is Pressed For Point Title

By UNITED PRESS

Wilt Chamberlain, the nation's most famous college basketball player, seems caught in a squeeze—between Cincinnati's Oscar Robertson and Seattle's Elgin Baylor—that figures to deprive him of the coveted national scoring title.

Chamberlain goes into Saturday night's game with Missouri as the No. 2 scorer with an average of 32.2 points in 11 games. That average is only 0.5 below Robertson's 32.7 average and is 1.6 above Baylor's 30.6 but the hitch is that both other contenders have far easier schedules.

Wildcats Clash with Sooners; Risk 11-1 Mark at Norman

K-State invades Norman tomorrow to pit its 11-1 season's record against the 9-3 mark of the towering Oklahoma university basketball team. Tipoff is at 7:35 p.m.

K-State has a single win in Big Eight play, dropping Nebraska last Saturday, 74-59. The Sooners have conference victories over Kansas and Colorado.

The Wildcats have had an entire week to practice after the NU win while the Sooners were scuttled by Nebraska Monday, 57-54.

One Wildcat, 6-0 guard Jim Holwerda, will miss the tilt because of an ankle injury.

The Wildcats face OU on its home floor where the Sooners have a perfect 4-0 record this season. And it was a year ago this month that those same Sooners handed the Cats a 69-67 disappointment at Norman in K-State's first conference game of 1957.

"Oklahoma is big," points out K-State Coach Tex Winter. "They are bigger than we are, and we have traded a lot on size this season. But maybe more important, they have one of the greatest outside shooters in the conference in Gene Hudson, 6-3 senior guard."

Winter pointed up the size of the Sooners' probable starters. "With Joe King, 6-6, and Bill Hammond, 6-6, at forwards and Bob Stoermer, 6-8, at center, they have a front line that would dwarf almost anyone," he said.

With that trio of big men OU Coach Doyle Parrack can couple guards Hudson and Denny Price, 6-1, to average 6-5 per man. K-State's top five figure out at 6 4 1/2.

When Jack Parr, 6-9 Cat cen-

ter, grabbed 20 points and 20 rebounds against Nebraska last Saturday, K-State hopes brightened considerably. The big senior had fallen into a shooting slump that saw him limited to 12 points or less in six of the seven previous games. His average now stands at 13.6 points-a-game—considerably below the 21-point pace he set last season.

Bob Boozer, 6-8 junior forward, stepped up to take the scoring lead for the Wildcats, currently owning a 19-point average. But the Parr-Boozer duo is still well below the 40-point-a-game rate that the two collected between them last season.

"Parr has always been a slow starter," the Wildcat coach allows. "In both of his previous seasons he has not reached his full potential until we got into the conference season. We hope to see the same trend this year. His defensive play and his feeding off the post have been far improved this season. His big problem has been in scoring, and there is reason to believe that he may have broken this slump against Nebraska."

Elsewhere in the starting Cat five are guards Roy DeWitz, who is scoring 9.1 points a game, and Don Matuszak, who has 6.7 point average; plus Hayden Abbott, hitting 8.7 points a game.

Wally Frank, 6-8 sophomore forward whom Winter calls "our sixth regular," has pulled into

fourth place in individual scoring with a 9-point average.

Oklahoma took two out of three from the Wildcats last year (also defeating K-State in the pre-season tournament at Kansas City) to give the Sooners 51 wins in the 38-year-old rivalry.

The probable starters:

K-State	Pos.	Oklahoma
Boozer (6-8)	F	(6-6) King
Abbott (6-3)	F	(6-6) Ham'ond
Parr (6-9)	C	(6-8) Stoermer
DeWitz (6-3)	G	(6-3) Hudson
Matuszak (6-0)	G	(6-1) Price

Pledge Royalty To Be Picked Feb. 14

The interfraternity pledge king and queen will be crowned at the Sweetheart Ball February 14 in the Student Union ballroom. The dance is semi-formal, and Matt Betton will play.

The candidates will be introduced at a skit-night at Williams' auditorium February 11 at 7 p.m. Each fraternity and sorority will have three minutes to introduce its candidate. Fraternity pledges will vote for the queen, while sorority pledges will vote for the king.

The candidates for queen are Judy Dreiling, HT Fr, Alpha Chi Omega; Claire Fryer, BMT Fr, Alpha Delta Pi; Marlene Pinkham, EEd Fr, Alpha Xi Delta; Sherry Lewis, EEd Fr, Chi Omega; Carolyn Pickens, HT Soph, Clovia; Alyce Lambert, ML Fr, Delta Delta Delta; Judy Jackson, BA Fr, Gamma Phi Beta; De Ann Johnston, EEd Fr, Kappa Delta; Connie Morgan, EEd Soph, Pi Beta Phi; and Deanna Durham, BMT Fr, Kappa Kappa Gamma.

King candidates are Allen Jones, PrV Fr, Acacia; Jim Dicken, PrV Fr, Alpha Gamma Rho; Dave North, EE Fr, Alpha Kappa Lambda; John Peel, Ar 01, Alpha Tau Omega; Wayne Schope, ME Fr, Beta Sigma Psi; Loren Mall, IE Fr, Delta Sigma Phi; B. Clubs Choose Officers For Second Semester

Extension Club

New officers of the Extension club are Gerald Karr, AE Sr, president; James Osborn, AH Sr, vice president; Norene Clayton, HDA Sr, secretary; Charles Swannland, AA Jr, treasurer; and Gloria Ousdahl, HDA Soph, and Ray Cchooley, DH Sr, corresponding secretaries.

Veterans' Club

New officers of the Veterans' club are Dale Steffes, ME Sr, president; Curt Adams, EE Soph, vice president; Bill Becker, ChE Sr, secretary; Voyle Miller, EE Soph, treasurer; and Gregg Wakeman, PEM Jr, parliamentarian.

Dairy Club

Ed Combs, DM Sr, was recently

ly elected president of Dairy club for the spring semester. Other new officers are Ray Schooley, DH Sr, vice president; Harold Roberts, DM Jr, secretary; Gene Allen, DM Jr, treasurer; Chester Peterson Jr., DH Jr, reporter; Stanley Smith, DH Soph, parliamentarian; and Jack Van Horn, DH Sr, program chairman.

Mu Phi Epsilon

New officers of Mu Phi Epsilon, honorary music sorority, are

Yvonne Hodges, MEI Jr, president; Donna Turner, MEI Jr, vice president and pledge trainer; Carolyn Lilly, MEI Soph, recording secretary; Betty Larkin, MEI Soph, treasurer; Jo Ellen Cooley, MGS Soph, chorister; Rebecca Leroux, MEI Soph, chaplain; Marilyn Moore, HEA Jr, warden; Carol Korinek, MGS Soph, historian, Nancy Irvine, MEI Jr, program chairman; and Kay Reboul, MEI Jr, corresponding and alumnae secretary.

Special Train Will Take Staters to KS-CU Game

Students are being offered special transportation rates to Boulder to see the K-State-Colorado university basketball game Saturday, February 15, according to Dick Frank, Ec Jr, cheerleader.

Round trip fare for one person will be \$17.16 for the train ticket to Denver plus a nominal fee for bus transportation on to Boulder.

The special rate will be given if between 75 and 149 students make the trip, and rates will be still lower if over 149 participate, Frank explained.

Students wishing to make the

trip should sign up in the Union activities center by January 24.

The Athletic department will order the tickets for the game. The tickets will cost approximately \$1.50 or \$2, Frank said.

The group is scheduled to leave Manhattan on the City of St. Louis train at 11:40 p.m. Friday, February 14, and will arrive in Denver at 8:05 a.m. the next day. They will return on the Portland Rose train leaving Denver at 9:15 a.m. Sunday, February 16, and arriving back in Manhattan at 8:05 p.m. that evening.

VOLUME LXIV

Kansas State College, Manhattan, Kansas, Monday, February 3, 1958

NUMBER 76

Seven Combos, One Single Scheduled for Y-Orpheum

Y-Orpheum scripts from 15 fraternity and sorority houses have been selected for presentation in Y-Orpheum March 28 and 29. Telegrams were sent to the finalists Saturday notifying them officially that they had been chosen.

This is the first year that entries in the production included combined fraternity-sorority scripts.

"Scripts this year, particularly

the combined entries, have been about three times as good as in previous years," said Charlotte Riley, Psy Jr, assistant producer.

"Of course, how they will finally rank will depend upon how much work is done on each script between now and March 27," she added.

All acts will follow this year's Y-Orpheum theme of cliches or trite sayings. The acts in the

order they will appear in the show:

"Get Thee Behind Me, Satan," presented by Delta Delta Delta and Beta Theta Pi; "You Can't Tell a Book By Its Cover," by Alpha Chi Omega and Alpha Gamma Rho; "Out of This World," by Alpha Delta Pi and Phi Delta Theta; "Snow White and the Seven Miners," by Chi Omega and Alpha Tau Omega.

After the intermission will be the show's only single entry, "Go West, Young Man," produced by Sigma Nu; "Shape Up or Ship Out," by Kappa Delta and Alpha Kappa Lambda; "Go to Hell," by Gamma Phi Beta and Tau Kappa Epsilon; and "Is There a Doctor in the Hut?" by Alpha Xi Delta and Sigma Chi.

Y-Orpheum will be in the college auditorium with Matt Betton providing orchestral accompaniment. Bob Hofmann, EE Soph, is the show's producer.

No Deficiency Report At Five, Nine Weeks

Elimination of five and nine week deficiency reports was announced last week after approval by the Faculty Senate and the Administrative Council.

A. L. Pugsley, Dean of Academic Administration, reported the change and explained that a single deficiency report at the end of the seventh week would replace the former arrangement.

Students will be allowed two weeks in which they can confer with instructors, advisors and deans to determine whether or not they can raise low grades. The last day subjects can be dropped without a withdrawal or failure being recorded will be the last day of the ninth week, Pugsley said.

Low grades at the end of the semester will be reported to the Registrar's Office by instructors, rather than to the deans, under the new arrangement. The Registrar will then relay deficiency reports to the deans' offices.

"It means most instructors will give tests at seven weeks, rather than at five and nine," Pugsley

explained. Fourteen weeks tests are left to the discretion of each instructor, he said, since no deficiency reports are required at that time.

K-State Gets \$91,000 For Atom Equipment

K-State recently received a grant of \$91,493 from the Atomic Energy Commission for the purchase of nuclear engineering equipment, according to Dean M. A. Durland of the School of Engineering and Architecture.

The funds provide for a subcritical nuclear reactor and laboratory apparatus essential for teaching nuclear science courses in the departments of nuclear engineering, physics, and chemistry.

At the present time K-State is the only college in the mid-west offering both graduate and undergraduate programs in nuclear engineering.

Durland said the grant is expected to be the first resulting from a combined request prepared by staff members from the School of Engineering and Architecture and Arts and Sciences to the AEC for a total grant of \$336,857.

Photo by Doug Tedrow

STUDENT BOOK EXCHANGE manager Bill Harrison, ME Soph, draws a breath after another busy day in the new book exchange, installed in the third floor space of the Union. Bill indicated the new system is working well, but said that more books would aid efficiency.

KS Book Exchange Proves Successful

"About a thousand dollars worth of books have been sold and more are going out now than coming in," estimated Manager Bill Harrison in describing the Sigma Tau-Student Council book exchange.

The exchange, located on the Student Union third floor, will be open through Wednesday, and students selling books will be paid Thursday through Saturday.

"Only lack of a larger volume of books has prevented the exchange from being a whopping success," Harrison said, "but must students went home during vacation and early publicity wasn't too extensive."

Harrison was hopeful many more books would come in Monday and pointed out that the selling was going at a faster pace than intake.

Students price their own books for sale but are encouraged to set the figure at about two-thirds cost, approximately splitting the difference between the book stores' usual buying and selling prices. 5% commission is charged on books by the exchange.

"Books from history, math, business, and English courses have been most numerous," Harrison said. "There is a scarcity, however, in written and oral communications texts; we can't keep up with the demand for these."

The exchange is on a trial basis and it is not known if it will be undertaken next year. Sigma Tau is sponsoring the exchange in conjunction with Student Council.

KU Head Asks Staters Not To Join 'Singing'

A phone call from Chancellor Franklin Murphy of Kansas university to Dean of Students Herbert Wunderlich asked that K-State students not join in the singing which is planned by KU at intermission of tonight's game.

The musical uprising is supposedly planned in protest of Governor George Docking's recently proposed budget for Kansas colleges. Dean Wunderlich asked that K-Staters who attend the game refrain from poor sportsmanship and evidence the "dignity" befitting our school.

Rally Round the Team You Staters

A rally for the team's departure was at 1:15 p.m. yesterday on the north side of the Field House. Approximately 125 students joined the cheerleaders for the pep rally, and almost 30 cars followed the bus as it left for Lawrence.

If Kansas State wins tonight's basketball game with Kansas university, a pep rally is scheduled in the Field House when the team returns from Lawrence.

Buses for the freshmen girls will pick them up at the dorms, probably between 12 and 12:30, according to Susan Schober, PEW Jr, head cheerleader, who worked with Herbert Wunderlich, dean of students, to make necessary arrangements.

Photos by Doug Tedrow

ABOUT 125 enthused K-Staters cheered the Cat team off yesterday, as they left for their bout with KU there tonight. Upper left, Cheerleaders Schober and Stout yell, and upper right a fan chats with Bob Boozer before departure.

Second Semester Calendar Posted

The second semester calendar was released by the Dean of Academic Administration's office this week, with only one vacation on the agenda for the last half of the school term.

March 22 will mark the end of seven weeks, when all deficiency reports are due in the deans' office. The last day for dropping classes without a withdrawal or failure being recorded is April 5.

Easter vacation will begin at 10 p.m. April 3. Classes resume April 8.

Applications for degrees must be made on or before May 2 at 3 p.m., and no classes can be dropped after May 17 at noon.

Semester examinations are scheduled from 1 p.m. May 24 through noon May 31. Commencement exercises will be at the Field House at 3 p.m. June 1.

Editor Says Paper To Reflect Campus

OUR PURPOSE: To present the news of campus events in a concise and accurate manner and to give students a clear picture of what is happening on their campus; to evaluate news happenings and present our views in an attempt to influence the campus beneficially.

AND WHETHER OR NOT YOU AGREE with us, we hope you'll bear with us. We've a lot to learn, but we hope we can give you news and views you'd like to know.

WE'RE RESERVING ALL BUT THIS PAGE for straight, unbiased news. If you want news interpretation and evaluation, you'll turn to page two. We'll do our best to make it worth your while.

NATURALLY, WE'VE GOT AN ANGLE. We're students at Kansas State college—and we'd kinda like to see that our stay here is as pleasant as possible. Our angle is in our purpose: to influence the campus beneficially.

WE PROMISE our "angle" will be found only on the editorial page, and we'll see to it that you have all the facts, so you can decide for yourself. We hope that you readers and the staff see eye to eye often.

IF NOT, LET US KNOW about it. We'll read your letters, we'll even print 'em (with few minor restrictions, such as length), and what's more we'll probably answer them with editorial comments. Perhaps you can shed light on an angle we missed—after all, we're only human!

AND IF YOU AGREE? Well, being human, we'd like to hear that, too. We can only measure our success—or failure—by your response. Since you're college students, we're expecting a responsive audience.

THE NEW ADDITION to our editorial page is a movie review column. We're introducing it on trial basis; if you want it to stay, we'd appreciate hearing from you.

PERHAPS WE WON'T always see eye to eye on the quality of the films, but we'll try to give you a fair idea of what's best at the local theaters. We'll also keep you posted on what's coming—perhaps you can arrange your tests accordingly!

AND SPEAKING OF MOVIES and tests—we've really foxed the theater managers in Manhattan. Now that they've scheduled all the best movies during five and nine weeks' exams—our dear ol' faculty has come through with seven weeks' instead, leaving the other two open for after-class relaxation. Nice planning, hm?

Tribunal Is 'Court' To Judge Students

This is the first in a series of informative articles describing the purpose and function of various branches of campus government.

By KATHY SCHULTIS

The function of the College Tribunal is to rule on the guilt or innocence of the accused and to recommend disciplinary action where it finds such action advisable.

Cases reach the Tribunal through appeals by students desiring a further hearing on a matter that has been handled by a student group and staff or faculty representative.

Before ruling on a case the Tribunal must establish the fact that it has jurisdiction over the case by establishing that the violation involves one or more of the following:

1. Infractions of K-State rules and regulations
3. Immorality and indecency.
2. Dishonesty in scholastic work.
4. Irresponsible, destructive or riotous acts.
5. Acts reflecting adversely on K-State or acts which are detrimental to the public.

The Tribunal is composed of six student justices, one from each school, three faculty justices appointed by the President of the College, and an attorney general. The attorney general is an administrative officer and is responsible for assembling facts of cases referred for discipline, making provision for suitable hearings, convening the Tribunal, notifying students and others concerned, and following up each

discipline case until it is closed. The chancellor and clerk are appointed from the student justices.

Present student justices are Bill Patton, VM Jr; Barbara David, HDA Soph; Kirsten Peterson, EEd Jr; Phil Warnken, Ag Jr; Anita Grimm, Eng Grad; and Keith Swenson, Ar 05. Swenson is Tribunal chancellor and Miss David is clerk. Fran Meegan, Gvt Sr, is attorney general.

Faculty justices are Prof. Donald Wilbur, Department of Entomology; Alberta Curry, instructor in the Clothing and Textiles department; and William Kimel, associate professor in the Mechanical Engineering department.

A student is allowed to tell the Tribunal his story in his own words at the hearing.

Pogo

Flicks Feature Songs, Laughs

Now showing at the Campus theater is "Pal Joey" starring a very dandy double, Kim Novak and Frank Sinatra. The skinny lover boy is in fine voice, and the lovely Miss Novak is in fine shape for the movie. But the picture isn't as rosy as it might be because a rather "washed out" Rita Hayworth plays the dame with the dough and puts the crick in the flick. Sinatra as Pal Joey the Heel is of course enticed by the financial assets of Mrs. Simpson (Rita Hayworth) but love will out and Joey the Not-Such-a-Heel finds that the assets of Miss Novak make any amount of money seem a bit cold.

The movie begins on a typical Hollywood note with Sinatra the unemployed musician walking the rain-drenched streets in search of a job and ends on a typical Hollywood note with Sinatra and Miss Novak wending their way into a perfectly beautiful sunset.

Sinatra does his usual fine job. In fact he doesn't make a movement that isn't in a sort of cat-like rhythm with the background music.

Miss Novak shows up nicely doing "My Funny Valentine." Miss Hayworth hams it up good with "Bewitched, Bothered, and Bewildered."

Sinatra does have some trouble measuring up to the women in the movie. His size creates a particularly humorous note when Miss Novak gets stoned and passes out in his arms. It is horribly awkward for Miss Novak but hilarious for movie viewers as tiny Frank Sinatra tries to keep her from collapsing on the floor.—Totten.

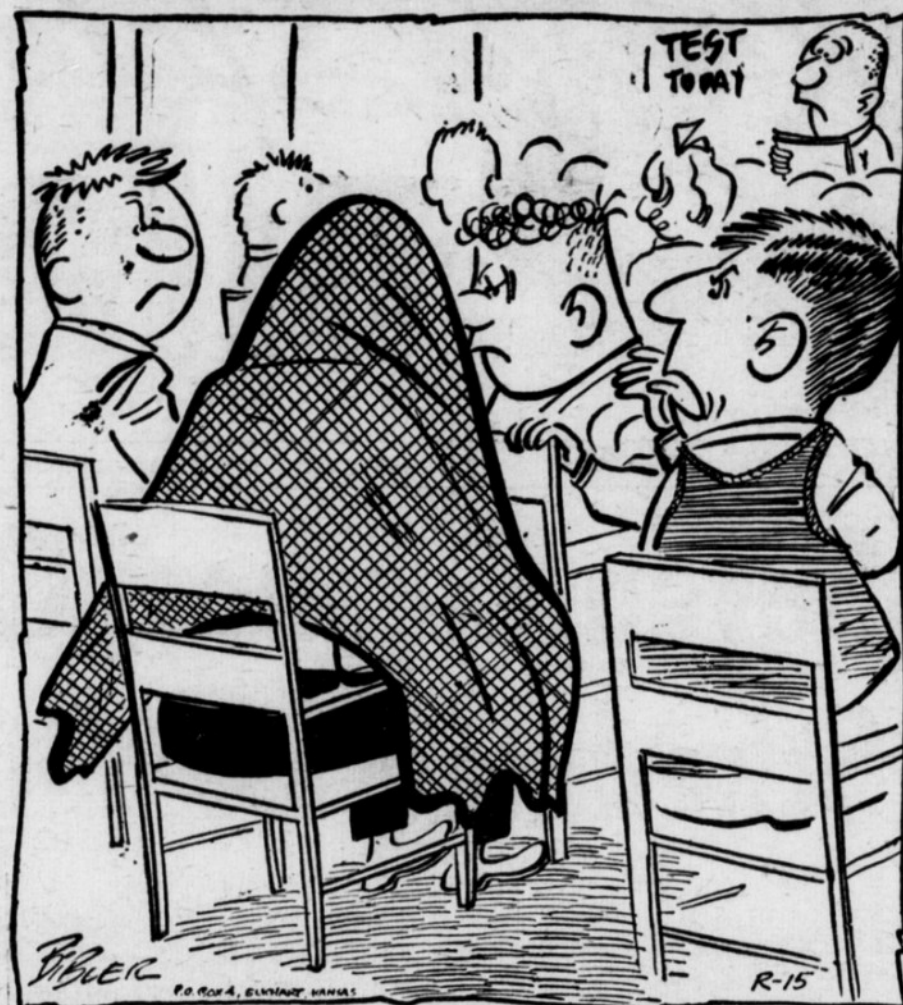

"Don't Go Near the Water," an MGM production based on William Brinkley's successful novel, is receiving the typical horse laughs at the Warehouse theater that "Teahouse of the August Moon" and "Mister Roberts" fostered. Glenn Ford seems to be getting stereotyped into the role of the military officer who finds himself juggling the good name of public relations instead of establishing beachheads during World War II.

Glenn Ford, playing the role of Lieutenant Siegel, promotes good public relations by showing visiting U.S. Congressmen around on Tulara island. But he takes more interest in winning the friendship of the natives on the island after he meets the native school mistress (Gia Scala). When she informs him that on Tulara island it takes three years to call a person by his first name, Lieutenant Siegel gasps, "Well, how do you people ever manage to get married, let alone have children?"

And then there is the salty sailor, played by Mickey Shaughnessy, that Lieutenant Siegel shapes up for war-bond rally speeches. Unfortunately, the salty sailor's speech is highly undesirable and is continually beeped out of the sound track.

Eva Gabor plays a woman correspondent who livens up the Pacific when she decides to take "pot-luck" being the only woman aboard a heavy cruiser. She quite happily gives up a bit of her wardrobe for the flagpole so the sailors will have something to fight for in combat besides the U.S. stars and stripes.—Jackson.

LITTLE MAN ON CAMPUS BY BIBLER

World News

Former Air ROTC Instructor Killed in California Air Crash

Compiled from United Press
By CHAS. H. SCHREIBER

Capt. Howard L. Malchow, former K-State Air Science instructor and the man responsible for establishing the Cadet Air-Flight AF-ROTC program here, was the pilot of the Air Force C-118 transport which collided with a Navy Neptune bomber over suburban Los Angeles, Saturday. Malchow was killed instantly.

Capt. Malchow came to K-State from Sudi Arabia in the fall of 1954. He was reassigned to the 1611 Air Transport Group, McGuire Air Force base in New Jersey last August. His principal assignment was flying the C-118 type craft.

Navy Still in 'Moon' Race

Cape Canaveral, Fla.—United States rocketeers started the fourth week of "Satellite Month" at Cape Canaveral today over the hump but determined to get the Navy vanguard into the space race also.

Successful orbiting of a 30-pound satellite by the Army's Jupiter C missile Friday night salved the wounds to the national prestige dealt by the Russian sputniks. It also took the heat off the valiant crew that wrestled with the Vanguard for days before the Army took over the "baby moon" shoot.

Cats To Meet KU In Cage Tilt Tonite

K-State's Wildcats, ready as they will ever be according to Coach Tex Winter, will put their 4-0 conference record on the line tonight against the Kansas university team in Allen field house in Lawrence. Tipoff time is 7:35 p.m.

A capacity crowd of 17,000 is expected at this 135th renewal of the interstate rivalry and thousands more will be watching on television and listening on the widest radio coverage ever accorded a single game at Lawrence.

This game will be the most important for both teams thus far in the season. The Jayhawks,

who are trailing K-State in the conference race with a 2-1 record, will be trying to hand the Wildcats their first Big Eight defeat and climb to within one-half game of first place.

A K-State win would put the Cats a full two games ahead of the nearest contender and would be a big step toward wrapping up the conference crown.

The Wildcats received their only setback of the season from Kansas, 79-65, in the Big Eight pre-season tournament at Kansas City.

The outcome of the game will rest heavily on the defensive ability of both teams. K-State, which is ranked 18th nationally in defense, will be faced with the problem of defending Kansas' Wilt Chamberlain who is the nation's third top scorer with a 32.4 average.

Kansas is sixth in the nation's defense standing and has been successful in containing the Wildcat shooting attack in the last three games between the two teams.

Probable starters:

K-State	Kansas
Boozer (6-8)	F (6-5) Loneski
Abbott (6-3)	F (6-5) Johnson
Parr (6-9)	C (7-0) Ch'mlain
Matuszak (5-11)	G (6-1) Hickman
DeWitz (6-3)	G (5-11) Billings

Grid Staff Filled

The 1958 football coaching staff at K-State has been completed with the naming of two high school coaches to staff positions.

Ed Dissinger, Manhattan high school mentor, has been appointed freshman coach and Bob Reynolds, football coach at Morton High school in Cicero, Ill., has been named backfield coach.

The two men fill vacancies left by Steve Sucic, who went to Illinois university as a football assistant, and Sol Kampf, who resigned to devote full time to private business.

Wildcats Bomb Buffs

By ELDON MILLER
Collegian Sports Editor

K-State's basketball team, with one eye on tonight's contest against Kansas university, took an easy 83-54 tune-up victory from Colorado Saturday before 10,000 fans in Ahearn field house.

This win gives the Wildcats a 14-1 season's record and a 4-0 conference mark. Colorado now stands at 5-9 for the season and 1-3 in the conference.

Led by 6-8 junior forward Bob Boozer who took game scoring honors with 28 points, the Wildcats hit 34 of 67 field goal attempts for a sizzling 50.7 percentage, their best of the season. The Buffaloes had only a 29.2 average on 19 of 65 shots from the field.

The Cats out-rebounded Colorado 56-39 as Parr led the way with 10 grabs. K-State hit 16 of 23 free throws and 69.6 per cent while the Buffs had 62.5 per cent on 15 of 24.

Both teams used a man-to-man defense throughout the first half and Boozer pumped in 22 counters while Colorado's Don Walker, 6-5 junior forward, picked up four fouls trying to stop him.

Meanwhile CU's Larry Pitts was able to shake loose for 13 first-half points for the Colorado cause. The Wildcats led at half-time, 44-31.

Both teams switched to zone defenses in the second half and the Buffaloes, who had handled the K-State fast break well in the first half, became easy prey for the Wildcats' blistering speed.

The Colorado guards slipped in toward their offensive basket

with every shot and K-State's big men were able to rebound and pass out for easy break-away lay-ins.

the technical activities at UCRL

ON TUESDAY, FEBRUARY 4, 1958

a UCRL staff member will be on campus to answer your questions about the scientific and engineering activities at the Livermore laboratory.

Work at UCRL covers a broad range of projects at the frontier of nuclear research. Managed and directed by some of America's outstanding scientists and engineers, the Laboratory offers unmatched facilities and encouragement for young men who have ability and imagination.

Call your placement officer now for an appointment.

KS Runners Are Second

K-State trackmen set two meet records while winning four first places to come in second best in a triangular indoor track meet at Lincoln Saturday.

Nebraska totalled 68½ points, K-State had 35½, and Iowa State 25. This was the first contest of the season for all three track teams.

A new record in the Nebraska field house was set by the K-State mile relay team composed of Larry French, Jim Vader, Gene O'Connor, and DeLoss Dodds in a time of 3:25.0.

The first three places in the 440-yard dash went to K-State as DeLoss Dodds came across in 50.6 seconds with Jim Vader and Larry French close behind.

Sophomore Wildcat runner Duane Holman set a meet record for the two-mile run in 9:39.5.

In his first competition, sophomore Steve French cleared 6-5 to win first in the high jump for K-State.

K-State, KU Basketball On TV Tonigh, WIBW

Tonight's K-State-KU basketball game at Lawrence will be televised by KCMO-TV, Kansas City, Mo. (Bruce Rice), feeding WIBW-TV, Topeka; and KTVH, Wichita.

There will be no athletic holiday Tuesday even if K-State wins, according to Neil Scott, student body president. However, Scott said he thought there probably would be a holiday later if K-State.. wins.. the.. conference championship.

Matmen Win Twice In Weekend Action

The Wildcat wrestling team won its second match in two nights Saturday by defeating Nebraska university, 24-10. Friday night the Wildcats won over Cornell college of Mt. Vernon, Iowa, 17-11. The victories give Coach Fritz Knorr's matmen a 4-5 record for the season.

You'll be pleased with a Collegian classified.

ONE SEMESTER HAS ENDED, HENCE ANOTHER BEGINS.

Many students would like to, and honestly endeavor to study, but they have never been taught how to study correctly, on a college level.

There is one quick cure, which would enable every student to get straight A's, for we are all of different capacities and abilities. With this thought in mind, a Study Guide, for college students of average ability has been designed.

This Guide has not been designed for the lazy student, nor for the brilliant student. In it the lazy student might find a way to become lazier and only expediate the scholastic boot, while the brilliant student has already, no doubt, learned how to study to his best advantage.

This leaves the vast majority of students, that fall into the average or C category. The Study Guide will by no means guarantee that every C student will now become an A student. Nevertheless it will enable the average, mature minded, college student to more easily comprehend and longer retain the material which he is studying.

Formally, this Study Guide was the main component of a \$325 twelve week course taught at an eastern university. But now, for the first time the Study Guide is being offered by itself, for just one dollar.

If you feel you know how to study, and are getting everything you want from your endeavors, don't send for the Study Guide! However, if you do not fall into the above category, mail \$1 to

Remember, now is the time to start studying for finals, not in May!

Union Offers Dance Classes

Maxine and Jerry Hart, professional dance team from New York, will instruct dance classes in the Union dive Monday, Tuesday, and Thursday from 7 to 8 p.m. and Saturday from 1 to 2 p.m. this semester. The first class will be Saturday, February 15.

The dance instruction will include advanced classes and classes for married students and couples only. Students may sign up for dance classes in the Union activities center.

Dance steps to be taught in the series will be jitterbug, fox trot, rumba, mambo, and cha cha.

The last lessons for the first semester dance instruction

will be tonight and tomorrow night (February 3 and 4) at 7 in the Union dive. Students enrolled in the Thursday night class may go either tonight or tomorrow night.

Marine Recruiter

Captain Paul M. Johnston will have headquarters in the Student Union February 4 and 5 to answer all questions concerning the Marine Corps' platoon leader's class, officer candidate course, and the women's officer training course.

AWS Party

New women students enrolling second semester will be guests of the Associated Women Student's

council at a "spicy tea" party February 6 at 4 p.m. in the Union.

Personal invitations will be extended to the women by the council.

AWS council members will act as hostesses for the informal affair.

\$2500 in Scholarships Given to Endowment

Initial gifts totaling more than \$2,500 have been received recently by the K-State Endowment association to establish two new scholarships.

Sums amounting to \$1,650 have been given to begin the Dr. B. F. Pfister Memorial Scholarship in Veterinary Medicine. This money starts a fund which its sponsors expect eventually to support the scholarship on a perpetually endowed basis.

Dr. Pfister, 1921 KSC graduate, died in October of last year. For many years he operated a small-animal hospital in Kansas City, Mo.

An original gift of \$1,000 has been received from Miss Helen E. Hobbs, 3529 Garfield Street, Kansas City, Mo. to establish the Thomas G. Hobbs Memorial Scholarship. It will eventually be used to support a program of scholarships for students in Agricultural Economics.

The scholarship honors the

memory of Miss Hobbs' brother, a long-time Concordia resident. Hobbs spent the major part of his career as a farm loan administrator, and because of his "long years of service in this capacity and strong faith in Kansas agriculture," his sister chose to designate the scholarship as she has.

Former Bowling Champ Will Perform February 20

Bill Lillard, former national match game and American Bowling congress all-events champion, will appear in a special exhibition of his cool, precise bowling style, Thursday, February 20, at the Union.

His appearance will be sponsored by the Union Games committee, according to publicity subchairman Bob Smith. There will be no charge for the demonstration.

Lillard, who captured the biggest cash prize (\$2,180) in ABC tourney history in 1956, has

been engaged for an afternoon and evening exhibition.

"We hope he will give some instruction and a few pointers on the game in addition to the exhibitions," Smith said.

Lillard's records include the three titles he won at the 1956 tourney—team, doubles, and all-events. No man before Lillard ever won three bowling titles in the same tournament. He also became the fourth man to win four ABC titles.

Lillard was named "Bowler of the Year" by the Bowling Writers association for the 1956-57 season.

Kansas State Collegian

VOLUME LXIV

Kansas State College, Manhattan, Kansas, Tuesday, February 4, 1958

NUMBER 77

Cat Cagers Crush Hawks' Hopes

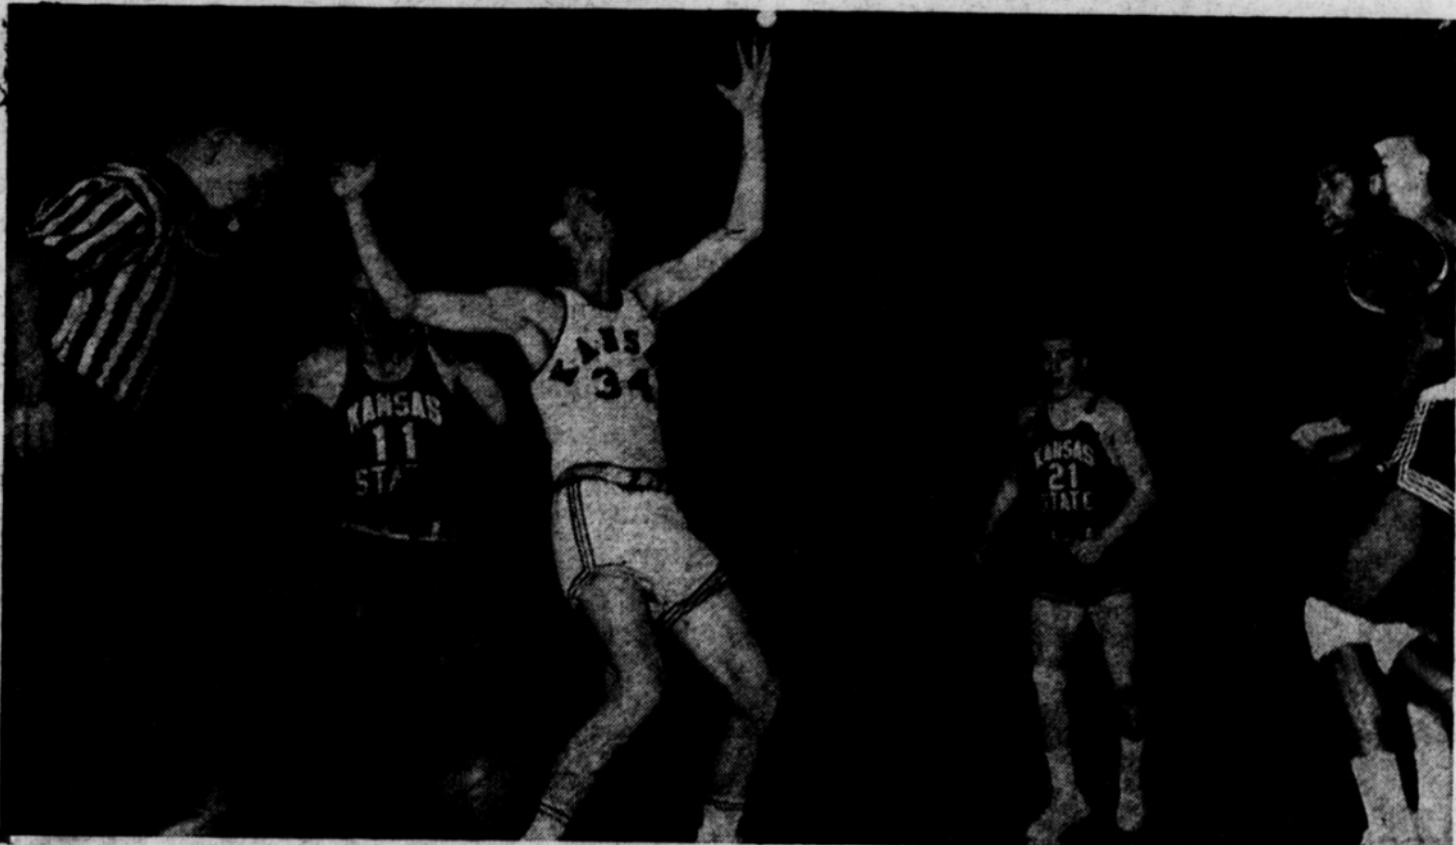

Photo by Darryl Heikes

A KU PASS goes astray as Monte Johnson (34), Kansas forward, throws his hands up in disgust after letting a pass go out-of-bounds at the feet of Referee Clarence Kellogg. K-State's Roy DeWitz (11) chases the ball, and Don Matuszak (21) and Bob Boozer look on.

By ELDON MILLER
Collegian Sports Editor

K-State took a giant step toward clinching the Big Eight basketball crown last night by defeating defending champion Kansas university, 79-75, in a double-overtime game in Lawrence.

The Wildcats combined a blistering fast-break attack in the first half and stubborn resistance against a Jayhawk uprising in the second half to gain their fifth conference win against no losses. KU now stands at 2-2.

Kansas' 7-0 Wilt Chamberlain had to give way to Bob Boozer, 6-8 forward, in the scoring department as the Wildcat junior came through with 32 counters.

A sinking 1-3-1 zone defense by K-State did a fine job in holding Stilt to 25 points, seven below his average.

Both teams hit well from the field with the Cats hitting on 29 of 66 shots for 45 per cent and KU collecting 44 per cent on 31 of 70.

K-State had a definite edge in free throws, however, with 21 of 26 for 81 per cent compared to KU's 13 of 24 for 54 per cent.

The Wildcats also led in rebounding 40-37 as "little" Roy DeWitz, 6-3 senior guard, snared 15 to edge out (Continued on page 3)

Aggieville Is Scene of Mass Celebration

By JIM BELL

After the Wildcats' 79-75 win over Kansas' Jayhawks last night, a mob of happy, slightly-inebriated, bubbling K-State students—somewhere between 2,500 and 3,000 of them—celebrated. And they celebrated in the best K-State fashion (the fashion they made famous after the 1956 crown-winning victory at KU).

About the first thing the town became after last night's win was a maze of zooming, honking cars—something like a barrel of barking dogs.

About the second thing that happened in Manhattan last night was convergence upon a point. The point was 12th and Moro in Aggieville, and nearly every K-Stater who didn't make the trip to Lawrence must have been there. Somewhere in the vicinity of 9:30, a Manhattan police car equipped with a loud speaker asked the restless crowd to adjourn to the campus and a spot that had been prepared for a bonfire and celebration.

But there seemed to be no K-State students present who were inclined to take the officer's advice. They wanted nothing to do with any tailor-made bonfires.

About 9:40 p.m., after the police car had moved on, a student pulled a cardboard box into the intersection, and shortly thereafter, a raging bonfire was going.

The students conceived that every bonfire should have a log. Unfortunately, the only handy log happened to be a utility pole at the intersection. Students who could climb relieved the pole of its wires, and a group of husky men began to pull at a rope attached to the top of the pole. They were making little headway, when another member of the happy mob showed up with a couple of axes (which later proved to have been lifted from a Manhattan fire truck).

The axes made short work of the pole, and—with the assistance of the rope pullers—it fell to the street with enough force to injure Bruce Hull, PrV Soph. Hull was struck in the leg, an ambulance removed him to Riley County hospital, and he was transferred soon after to Student Health.

Around 10:30, the students began to disperse to the Field House to wait until the team came. Coach Tex Winter spoke, then Bob Boozer spoke, both to tremendous ovations by happy fans. And some 4,000 or so K-State fans were mighty happy about a ballgame. It was a pretty wonderful night.

Photo by Doug Tedrow

INJURIES resulted when the fire was fed by two near-by utility poles, which found their way into the fire. On the way down one pole fell on a boy's leg.

Photo by Don Argabright

A NICE, CHEERY fire was lit in Aggieville to celebrate the KU win. Police didn't think the fire so nice and cheery.

Administration Asks Russia's Intention On Space Control and Summit Talks

Washington—The United States called on Russia today to be more explicit about its intentions on outer space control and "summit" talks.

Administration officials made it plain a White House statement last night was not intended as a rejection of Soviet Premier Nikolai Bulganin's latest letter to President Eisenhower.

Rather, they said, the statement was intended to smoke out Russia's aims in hopes of paving the way for talks with real prospects of easing major East-West tensions and halting the arms race.

Finds Little Radiation, Dust

Dr. Lee A. Dudridge, president of the California Institute of Technology, told a news conference yesterday that future spacemen won't be bothered as much by cosmic rays and meteoric particles as had been previously thought.

Dr. Dudridge said that early cosmic ray information radioed back by the U.S. satellite indicated cosmic radiation is "only 12 times as intense in space as on earth."

The satellite has not recorded any hits by cosmic dust since it began orbiting although some were registered on its ways up to its present orbit altitude.

Engineers Shave Dam Costs

Topeka—Government engineers today shaved \$4,000,000 off the estimate of the cost of Tuttle Creek dam.

An Editorial

Congratulations Go to Cats, To KS Student Body Too

WE'RE PRETTY damned proud of Kansas State college. The team won a basketball game that would have been a credit to any school in the U.S., and the students reacted accordingly.

By accordingly, we don't mean they wrecked \$700 worth of Aggieville. This was the immediate mob reaction in 1956, when K-State managed to beat KU in basketball by a score of 79-68. You students were jubilant, sure, but only at the cost of one student, two Christmas decorations poles, and one slightly-hacked tree.

Of course, we must take into consideration that the game in March, 1956, was immediately preceding our final record, which took us to the NCAA tourney. This might in part account for the more costly celebration.

We'd like to think instead, however, that it was simply the good behavior and sportsmanship of the college students that resulted in less damage. We're quite proud of your celebration—as is the team, we're sure—and we feel you couldn't have done a better job of showing the team your appreciation.

The Aggieville "rally" was costly, certainly; we're sure the stu-

dent involved doesn't even enjoy the idea today. But in a comparison over the years, this celebration was far less expensive than many in the past.

And interesting to note, while only 125 students rallied at the team's departure, we'd estimate (with Assistant Dean of Student Chuck Jacot) that approximately 2,500 were on hand for their return. We know the team was glad to see you; we were proud to be on hand to watch the festivities. It'll be intriguing to see if the jubilant "spirits" stay with us for the rest of the season.

We're proud of you people. We're sure the team is, too. You behaved nicely (Dean Herbert Wunderlich thought so, too!) and yet you did all you could to show how very glad we all are that we won. Things were good—and if the cheerleaders—or the administration—will remember to have some program planned for an evening's celebration (besides a few records at the Field House) in order to keep a happy crowd even happier—we're sure that you'll continue to uphold the "dignity" of the school!—Sue Goss

Over the Ivy Line

Iowa State Basketball Coach Bill Strannigan Praises KS Wildcats' Fine Forward Wall

By Judie Ross

AS A GLORIOUS NEW SEMESTER STARTS, what is a better way to start the new term than with a few words of praise for our basketball team? From the Iowa State Daily comes this quotation from Bill Strannigan, Iowa State basketball coach, concerning the K-State-I-State basketball game. "We faced one of the finest forward walls in the country," Strannigan said. "Everyone likes to win, however, if you must lose, you don't mind losing to an outfit like Kansas State."

AND SPEAKING OF WINNING, the Chi Omegas at the University of Colorado won a trophy for their talents and efforts that outdoes all other Colorado campus trophies in originality of appearance and meaning. The trophy consists of a modernistic white statue that once resided behind the Colorado university little theater. The group that saw fit to award such a statue to the Chi Omegas is known only by the title "The Campus Phantoms." From the Colorado Daily comes this reprint of the letter the Chi Omegas received concerning their award.

To: Chi Omega
From: The Campus Phantoms
Congratulations:

Your chapter has been appointed the lucky recipient of the Marble Statue Award for:

1. Being the best Chi Omega chapter on campus.
2. Being one of the top 16 sororities on campus.
3. Having the cleanest door knobs in town.
4. Not swimming often in the nude in Varsity Lake.
5. Not causing the lions by Sewall Hall to roar when you pass.

This new award is presented by a progressive campus group known as the Campus Phantoms.

Provided you keep up the good work on the above clauses you may keep our beloved statue until death do you part, or until the University decides to claim it.

Best of luck in your future escapades.
The Campus Phantoms.
P.S. Please wash it faithfully.

WITH BEARDS BECOMING a common sight on Kansas State's campus, a moment of pause and reflection should be given to the forestry students of Minnesota university. From the Minnesota Daily comes this report concerning Centennial Foresters' Day. On the first day of Winter

quarter, forestry students put away their safety razors, straightedges and ax blades and strive for manly hirsuteness (hairiness) . . . all are expected to resemble the lumberjack's idol—St. Pat; excuse me, I mean Paul Bunyan.

Forestry club members gave three reasons why a beard was the mark of a man in early logging days:

1. There were no women around.
2. It kept the face warm.
3. Razors weren't very good.

There are, of course, party poopers in the crowd. Those who refuse to wear beards explain:

1. "My boss doesn't allow beards."
2. "My girl doesn't want to go with an old man."
3. "The first few days it just looks like you forgot to shave."
4. "A beard would detract from my moustache."

Methinks women had more to do with whether the young forester grew a beard or not than the above reasons suggest. However, men are having something to say about what their lady friends look like also.

Pogo

By Walt Kelly

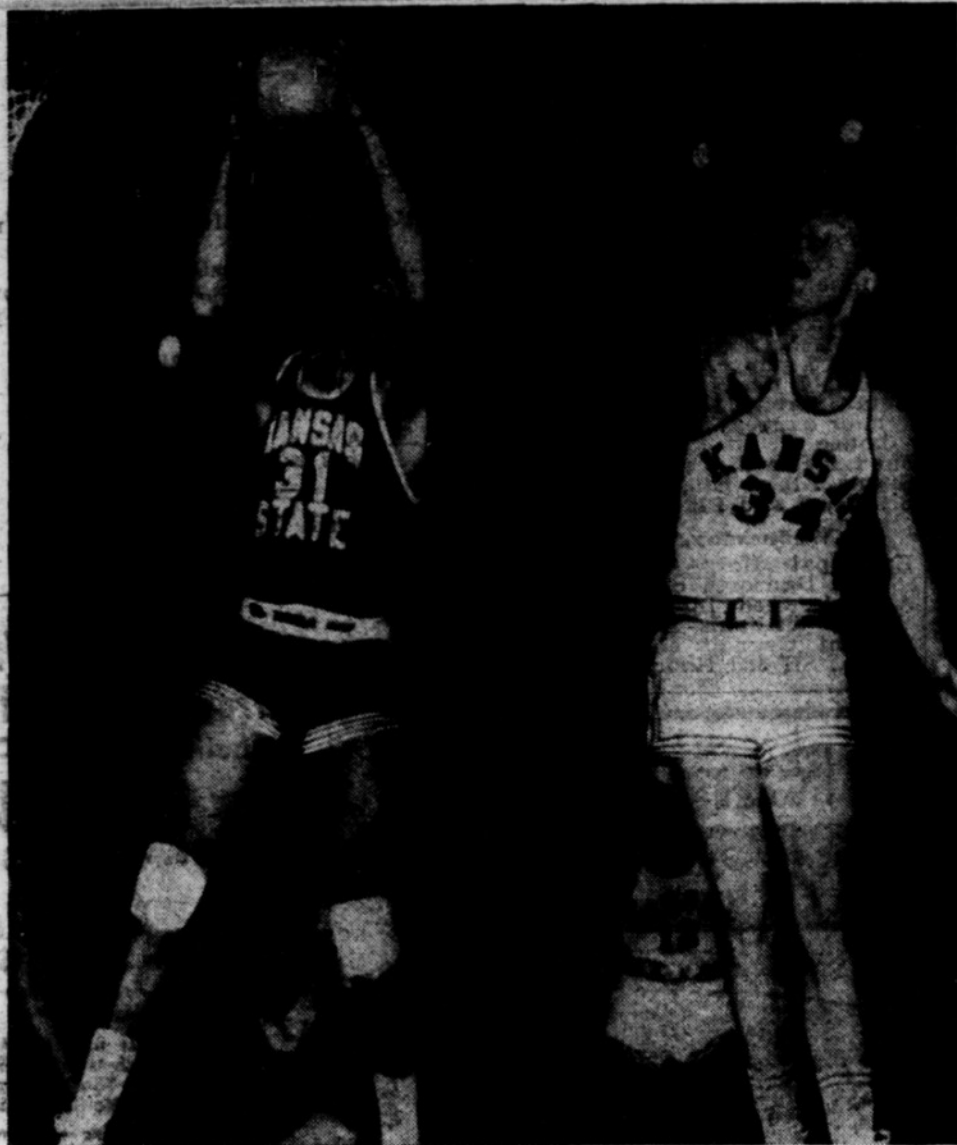

Photo by Darryl Heikes

K-STATE'S BOB BOOZER (31) grabs a rebound after Kansas university forward, Monte Johnson (34) misses a lay up in last night's game at Lawrence. Boozer was the game's leading scorer with 32 points and paced the Cats to their 79-75 victory.

Winter Glad, Win Sweet; Harp Sad, Bitter Defeat

By **ELDON MILLER**
Collegian Sports Editor

The contrast of post-game emotion which is so common in a sports event was even more apparent than usual after the all-important K-State victory over KU, 79-75, last night at Lawrence. The Wildcat dressing room was a mad-house of cheers, hand-shaking, and back-slapping. Coach Tex Winter was kept busy answering questions and receiving congratulations and appeared very worn-out as he praised his team.

"K-State may not have the finesse of a lot of ball clubs but this is undoubtedly one of the best Wildcat teams in the history of the school," said Winter.

"During the first half we played our best ball of the year but we tightened up a little in the second half.

"This was Boozer's finest game and Parr did great too.

"We did a very good job in holding Chamberlain down to only 25 points for the regular game and two overtimes. We used a 1-3-1 zone, with Parr playing Wilt man-to-man and the others sinking back on him.

"We can't look by this Iowa State game Saturday. They have the type of team you can't loaf by.

"The league race is not over yet, but we have a jump on them," Winter said with a broad smile on his face.

The KU dressing room was as quiet as a funeral parlor with everyone moving around as if stunned at what had happened.

Jayhawk Coach Dick Harp, although not considering his team

completely out of the conference race, was very skeptical about the situation.

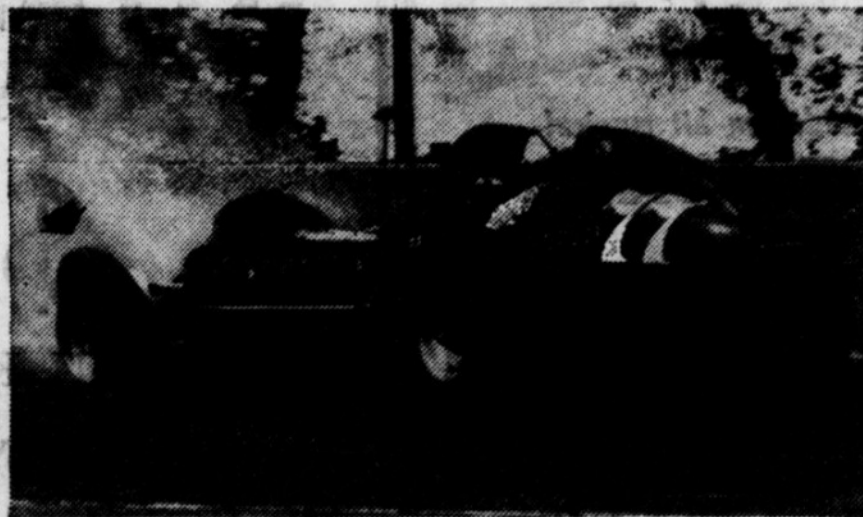

"I think the best we can get is a tie for the championship. There is a chance of K-State getting upset by some other team and we could beat them at Manhattan. But I don't think they will lose a game to any other conference team.

"We lost control of the ball game right at the beginning and that really put us down.

"Our guards were able to get close shots at the start but they missed them, K-State rebounded, and we didn't have anybody back to guard against their fast break.

In the second half our guards thought it best to stay back and pass up a lot of shots in order to keep K-State from getting easy buckets.

"I always thought Boozer was a great player but I never wanted him to prove it against us. Hayden Abbott did a real fine job too. I think he is a kind of unsung hero—he never gets much credit for what he does."

MY CLOSEST SHAVE by Pat Flaherty 1956 Indianapolis Speedway Winner

"My closest shave was at Indianapolis in 1953," says Pat Flaherty, 1956 Indianapolis winner. "The track temperature that day hit 125° and the exhaust fumes hung right down on the speedway. I was going into the north turn at 130 mph when the fumes got me. I blacked out, hit the outside concrete fence, and skidded along for 120 feet. The car was demolished, my helmet was torn off, my safety belt broke—but I didn't break a single bone!"

For YOUR Close Shave—with a razor, not a racing car—try new Colgate Instant Shave. What a way to shave! It's the quickest, easiest way ever, no matter what razor you use. Smooth, too! Shaves your whiskers, saves your skin. A great shave buy for the tough-beard guy!

Colgate Instant Shave

Wildcats Calm KU Jayhawks; Boozer Bangs in 32 Points

(Continued from page 1)

Chamberlain for game high. The Stilt had 14.

Both teams drew 18 fouls. Monte Johnson, 6-5 Hawk forward, was forced from the game with five fouls while K-State lost both Jack Parr, 6-9 center, and Boozer in the last overtime.

The 17,500 Allen field house fans saw K-State start to work early in the game and build up a 20-10 lead with about eight minutes gone.

From there on the Wildcats managed to stay in front with leads of 9 to 11 points. Two free throws and a jump shot by Wally Frank, 6-8 sophomore, at the sound of the buzzer gave K-State a commanding 41-28 halftime lead.

The K-State fast break registered for five easy lay-ins during the first half surge.

Chamberlain hit one of his notorious two-inch shots with only 10 seconds of the second half gone to start a KU rally which finally pulled the Jayhawks back into the game.

Ron Loneski, 6-5 Hawk forward, scored on a jump shot while being fouled and sank the free throw with 5:22 left to knot the game at 56-56.

The teams traded baskets to make it a 60-60 score with 3:00 remaining.

The Wildcats gained possession of the ball with 2:30 left and stalled for one last shot. Parr missed a jumper with five seconds left and the game went into overtime.

The teams continued to match

baskets in the first overtime and with :44 left, the score tied at 65-65. Parr made a beautiful block on an attempted Chamberlain dunk and the buzzer sounded with the score still tied.

Halfway through the second overtime period Boozer hit a hook shot which made the score 71-69 and put the Cats in front to stay. These were Boozer's last points of the game.

'State of the College' Talk To Be Given by McCain

President McCain's traditional State of the College talk Wednesday will be the first of four assembly programs for February and will launch a semester fare that includes a former Scotland Yard man, pianist Gerald Moore, a Catholic Sister, a U.S. Senator, writer Stewart Alsop, and numerous special assemblies.

Gerritz Says KS Enrollment Reaches 6,268

At the end of the regular enrollment period, January 31, the College enrollment had reached 6,268, with about 150 late enrollees expected by E. M. Gerritz, director of admissions and registrar.

A total enrollment of 6,450, an increase of 282 over a year ago, is expected this semester, according to E. M. Gerritz, director of admissions and registrar.

Compared with the enrollment figures of last fall, the number of students at K-State has dropped about 4 per cent, according to Mr. Gerritz.

The School of Arts and Sciences with 2,368 leads in enrollment. Following is the School of Engineering with 1,850; agriculture, 795; graduate, 533; home economics, 458; and veterinary medicine, 272.

The number of men enrolled at K-State is 4,793, and the women 1,483.

Among classes, sophomores with 1,545 enrolled are in the lead. The freshmen are second with 1,492; juniors third with 1,364; seniors, fourth with 1,161; and graduate students, fifth with 533. There are 160 special or provisional students enrolled.

John Barry Named KSDB-FM Manager

John F. Barry, Sp Sr, has been named general manager of the spring semester staff of KSDB-FM radio station. Sidwell Hutchins, Sp Sr, will act as program director for the spring semester.

Daily directors for the KSDB-FM spring semester staff are: Monday, Jim Harrison, Sp Soph; Tuesday, Jack Hartle, Sp Jr; Wednesday, Pete Charlton, Sp Sr; Thursday, Ken Keefer, Sp Soph; Friday, Ted McCoy, Sp Sr; and Saturday, Ed Taylor, Sp Fr.

Other members of the staff are continuity chief, Le Anne Wilson, Sp Jr; announcer, Bill Cole, Sp Sr; sports chief, Virg Walter, Sp Jr; music chief, Sandy Ruggels, MGS Soph; traffic chief, Brenda Leber, Sp Fr;

Engineer, Bill Laubengayer, EE

A "Concert of Sacred Music," a joint effort by various organizations of the Music department, is planned for the Easter assembly, Wednesday, April 2. Selections will be drawn from the great works of Protestant and Jewish sacred music and some of the Gregorian chants.

The Home Economics Hospitality Day assembly will be between April 21 and 26. The exact date and speaker for the assembly have not been chosen.

The senior leaders' recognition assembly Tuesday, May 6, will be addressed by Dr. Herbert Coith, director of the Proctor and Gamble scholarship program and a member of the K-State class of 1915.

ROTC Cadets Plan Weekend At West Point

Twelve K-State Army ROTC Cadets will leave for West Point Thursday to spend the weekend visiting the U.S. Military Academy.

The students will live with their West Point cadet escorts, eat at cadet mess, attend classes, observe a combat demonstration, and watch a review and inspection of West Pointers, according to Col. William Harvey, professor of military sciences and tactics.

Students scheduled to make the trip are Bill Brethour, AH Sr; Bob Carlson, BA Jr; Larry Youngdoff, BA Jr; Leland Fager, Ar 04; George Serpan, EE Jr; Paul Hatfield, AED Sr; Thurston Banks, ChE Jr; Ron McKinnie, AED Sr; Frank Meegan, BAA Sr; Pat Conlon, ChE Sr; Howard Teaford, BAA Jr; and Craig Fisher, BPM Sr.

VOLUME LXIV Kansas State College, Manhattan, Kansas, Wednesday, February 5, 1958 NUMBER 78

Past U.S. Treasurer Gray Slated for AWS Program

Mrs. Georgia Neese Clark Gray, a Kansas woman who rose from assistant cashier of the Richland State bank to Treasurer of the United States, will be the featured speaker at the third annual All Women's Day program March 13 at K-State. The Associated Women Students will sponsor the event.

"The program will be in the afternoon and evening for all women students," said Margaret Lahey, associate dean of students. "Mrs. Gray will cover the topic of a woman's role in politics. Her talk will be the high-point of the day, and we're delighted to have a native Kansan as the speaker."

Mrs. Gray became a Democratic national committeewoman in 1936, and in 1937 became

president of the Richland State bank, after being employed there for three years. She supported Truman during his presidential campaign in 1948, and in 1949 was appointed United States treasurer.

As Treasurer, Mrs. Gray signed all new currency, and was responsible for the public money of the United States. She was the boss of 1,300 government employees.

Mrs. Gray was born in Richland, and after graduating from Washburn college in 1921 with a bachelor of arts degree, attended a dramatic school in New York City. In the 1920s, she appeared in stock company productions in Boston, Cleveland, and New Orleans.

Mrs. Gray now lives with her

husband, Andrew J. Gray, in Richland where she is still Democratic national committeewoman, and manages a grain elevator, a general store, and several farms. She is also vice-president of the Richland State bank.

The theme of All Women's Day will be "What You Will Be, You Are Now Becoming," said Margaret Crouch, HT Jr, general chairman of AWS. AWS has cooperated with the Political Science club in obtaining Mrs. Gray as a speaker.

Louis H. Douglas, professor in the history, government, and philosophy department and sponsor of the Political Science club, commented, "I feel that the college, and in particular, the students interested in public affairs, are fortunate in having the opportunity to meet Mrs. Gray. We hope she will be able to visit some of our classes. It is an opportunity for government majors to meet her personally."

Automatic Pinsetters Authorized by UGB

Automatic pinsetters costing \$77,000 were unanimously authorized for the eight Student Union bowling alleys yesterday by the Union Governing Board.

A contract with the Brunswick company has yet to be worked out—which means the pinsetters aren't a sure thing for K-Staters at the present.

"If we get the contract settled soon we hope to have the pinsetters installed following Easter vacation," Union Director Loren Kottner said.

"Due to increased usage the bowling alleys should net as much money with the automatic pinsetters as with the present system of pinboys. A lot of time is wasted waiting on pinboys and they are hard to hire too," Kottner said.

Cost of the mechanical setters

is set at \$8,100 apiece for a total of \$64,800.

In addition to a \$6,383 down payment, \$643 is needed for remodeling the pit area behind the pinsetters, \$920 is required for freight, \$820 for tools and parts, and \$6,480 for the six per cent interest on the balance of \$56,000 remaining after the down payment and trade-in. The machines in use now will be traded in for \$4,132 credit. Payment will be \$9,600 a year for eight years.

The Union still owes three yearly payments of \$7,700 on the alleys proper, which initially cost half as much as the pinsetters.

A jump of between sixteen and thirty-three per cent in income is expected, with the advent of automatic pinsetters, over last year when 60,000 lines were bowled.

Union Dance Planned After KSC-Iowa Game

The first all-college Union dance of the semester will be in the Union ballroom after the K-State-Iowa State game Saturday night, according to Forrest Mendenhall, Union Publicity committee chairman.

The ballroom will be decorated around a cafe theme. Tables will be placed on the sidelines of the dance floor. Mendenhall said the dress will be casual.

Tickets will be available at the door, and the charge will be \$1.50 a couple.

Facelifting for Post Office

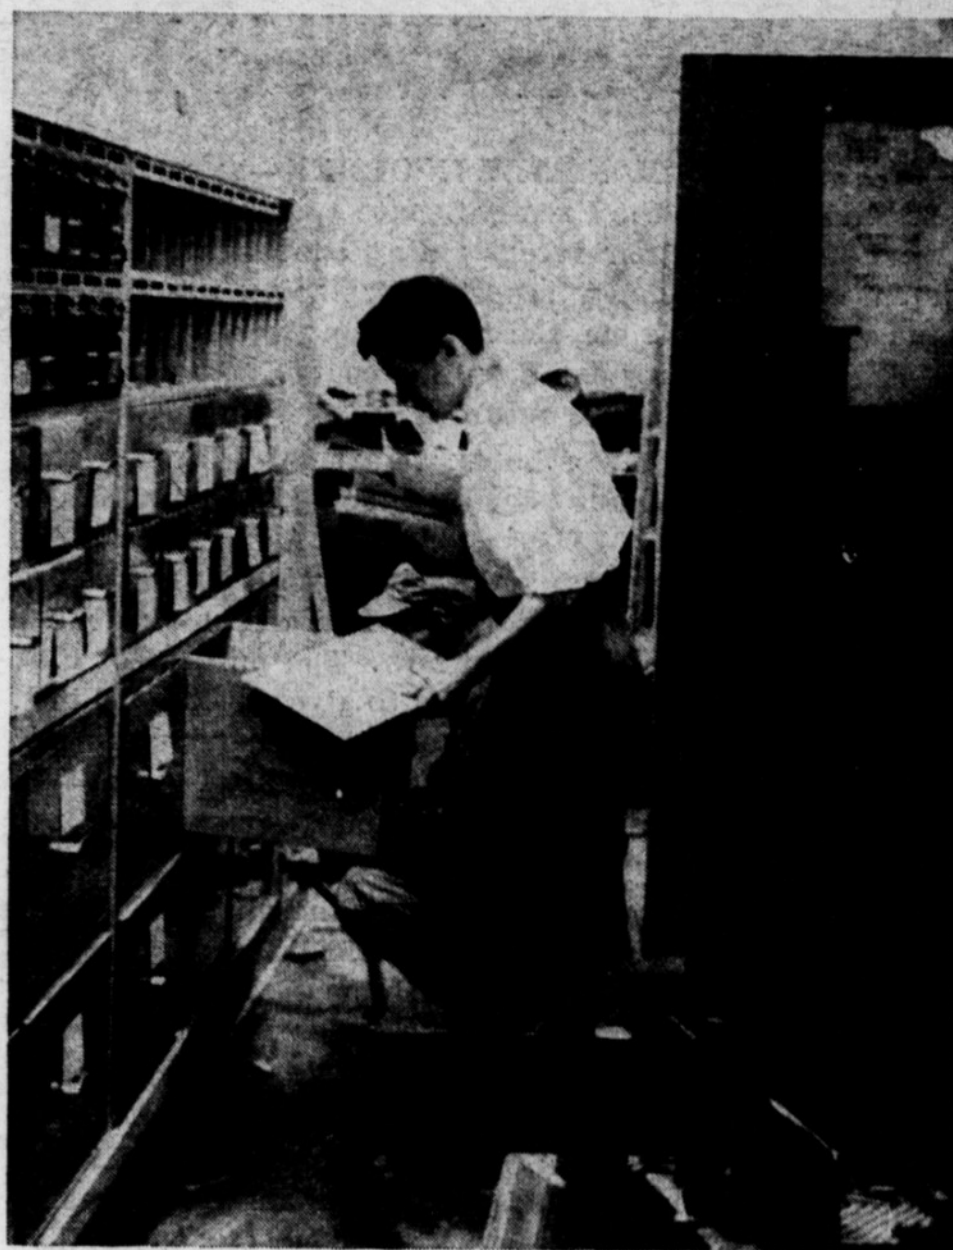

Photo by Doug Tedrow

A BUSY OFFICE worker continues her daily duties amid the smell of freshly-cut wood, noise, and confusion at the post office in Anderson. The office is being completely redecorated and rebuilt.

McCain Discusses Pay, Space Needs

Despite a record of achievement and enlarged service, Kansas State college is still faced with many problems, President James A. McCain told students and faculty at an assembly in the College auditorium this morning.

McCain pointed to building needs on campus and faculty pay raises as urgent needs for Kansas State. "At least four major new buildings are needed on campus in order to replace temporary barracks now used for teaching and research, and to accommodate present enrollments," he said.

The Kansas State president said that enrollment at the College will start to climb next year, rising from the current figure to 12,000 or 15,000 full-time students by 1967. He attributed this to an increase in the number of college-age youth, coupled with a high percentage of Kansas youth who are attending, or will plan to attend, college.

"To accommodate these larger

student populations, it is imperative that adequate measures be undertaken soon to enlarge the faculty and physical plant of the College," McCain said.

More Students Must Sign Up For CU Trip

Only about half the number of students of the 75 required have signed up to take the special rate trip to the Colorado game, according to Dick Frank, Ec Jr, who is making arrangements for the trip. The required number must sign today in order to make reservations possible for a large group.

Students who take the trip will leave by train at 11:40 p.m. Friday. The total round trip train fare to Denver, bus fare to Boulder and back to Denver, and game ticket will cost them only \$21. This is actually about \$11 less than the ordinary round trip train ticket for one person to Denver, said Frank.

The train will arrive in Denver Saturday at 8:05 a.m., where busses will be waiting to go on to Boulder. Sunday morning the busses will pick up the students and take them back to Denver, where they will leave at 9:15 a.m. and arrive in Manhattan at 8:05 that evening.

Those who have already signed up for the trip will be contacted Thursday or Friday and notified as to whether or not the special rate will be in effect. A deposit of \$10 is required before the trip and the balance will be paid upon boarding the train. If less than 75 persons make the trip, the deposits will be applied on regular rate train tickets.

'Aggie Damages Unlikely To Bring Bill'

Manhattan will probably not bill K-State for the damages inflicted in the crowd celebration at 12th and Moro streets Monday night following the KU-K-State basketball game, according to City Manager D. C. Wesche.

"We didn't attempt to make an estimate of the damages," Wesche said, "and I think they primarily consisted of the two utility poles and two axes which were taken from the fire engine."

Expressing his happiness that K-State had won the game with its arch-rival, the city official said he felt students behaved quite well considering the tension and importance which the game naturally had built.

"I certainly don't condone it," Wesche commented, "however, I don't know of any complete answer to the situation. It would

be desirable if we could control festivities some way.

"I certainly feel if we could plan some activities which the students knew about, things would go more smoothly. I certainly feel it would be worth a try.

"When we beat KU here, or when we win the Big Eight title, or also when we go to the NCAA playoff, we'll have the same problem again. Some organizing should be done now to provide for it.

"Another thing I was worried about Monday night was the danger of someone being badly injured. A problem last night were the beer bottles and tin cans which were being thrown. The intersection was covered with glass," Wesche said.

Dean of Students, Herbert J. Wunderlich, suggested the best

remedy for the Aggieville incident would be to "shut off the taps" at the taverns in Aggie. He also admitted that faulty planning had perhaps been partly the reason for lack of controlled crowd action.

"We will try to provide more things to do than our Union does, if that is possible. The taprooms actually provide the incentive at 12th and Moro, but two-thirds of that crowd were actually on-lookers," Wunderlich said.

Describing the pep rally led by the cheerleaders as "swell," the Dean of Students said he felt the band should have been there a little sooner, but that it hadn't really been alerted soon enough.

"We know now that we should have kept some cheerleaders back and had them there with the program all the time. I don't know what we could try in there,

but of course the team always climaxes it," he commented.

Agreeing that a dance at the Student Union might have attracted students, Wunderlich mentioned that care would have to be taken in programming.

"We'd almost have to screen folks who totter in through the Union, although actually when it got up on the campus there wasn't much hurling of crockery and cans," he said.

Dean Wunderlich checked with Student Health yesterday morning on the injuries to Bruce Hull, PrV Soph, whose leg had been struck by the falling utility pole. Apparently Hull suffered a bruise and slight skin abrasion. Hull's doctor was unavailable for comment, but nurses on duty said there was no evidence of broken bones, but that the student was still in Student Health.

Congratulations to Faculty, Administration On Seven Week Deficiency Report System

CONGRATULATIONS ARE IN ORDER—so early in the semester yet!—to the Faculty Senate and the Administrative Council on their recent ruling concerning the new seven weeks deficiency reports. Replacing the five and nine weeks' exam time, the new setup gives students two weeks in which they can drop any course without having a withdrawal or failure recorded.

After contacting five schools, we can safely assume that a majority of the deans heartily endorse the new system. Assistant Dean Orval Ebberts, School of Arts and Sciences, contends that the change has been the outgrowth of much study on the situation. "A five weeks grade has been pretty meaningless up to now. The purpose of it is to give the faculty an opportunity to give a real good test. When you're asked to grade someone when you're not even sure what he looks like, it's pretty hard to do. We very definitely feel that it is an improvement over the old situation."

Dean M. A. Durland, School of Engineering and Architecture, agreed that it would be beneficial to both students and faculty. In the School of Home Economics, Dean Doretta Hoffman commented, "As far as I am concerned, we are in agreement with the idea. We are happy to give it a try."

Dean E. E. Leasure, School of Veterinary Medicine, pointed out it would give faculty members more time to appraise students. "We can better judge student ability in that time, besides cutting down considerably on the office work."

The only adverse comment came from the School of Agriculture, as Assistant Dean C. W. Mullen explained that early notice of low grades was sometimes more beneficial to students. "I don't really object to it and yet I liked the warning to students that were getting behind at five weeks, and we liked to send word to the parents, telling them the students were getting behind. I have felt that word from the parents to their sons and daughters urging them not to get behind was more effective than anything we could say to them."

Feeling that K-Staters should be of age, however, we can't go along with the last idea. We just can't help thinking that if a student won't study, Mom and Dad can't hold his pencil and book for him . . . or at least they shouldn't. Perhaps it would be worthwhile to remind students, however, that where they have previously been sure of two tests before the final, they'd better not count on more than one now, since pros aren't required to give them.

An obligation also lies on faculty heads: students can reasonably expect a definite grade at seven weeks, rather than the seemingly standard "satisfactory" which was so often the grade given at five weeks. No longer is it necessary to hand in a grade card with the usual vague "OK" scribbled down as the five weeks' grade.

Students planning activities might check the calendar, since five and nine weeks are now open for meetings, etc., but March 17 through 22 will be "dead"—with double emphasis put on the single test which is replacing the two exams.

Greeks who are required to turn in grades to the house can heave a sigh of relief if they are expecting low grades—perhaps they can manage two additional weeks of freedom before the bad news leaks out!

AND WHILE WE'RE HANDING OUT PLAUDITS—K-State can take a bow this week after reading assembly speaker Arthur Schlesinger's letter directed to A. L. Pugsley, dean of academic administration: "Just a line to say thanks once again. I greatly enjoyed my Manhattan visit. I was impressed too by the quality of the questions."

We're quite proud that students performed so intelligently in the company of an assembly speaker; it's even nicer to know that he was properly impressed!—Sue Goss

Telegraphic Tabloids

By UNITED PRESS

Galesburg, Ill.—Marine Corps Sgt. Ronald G. Phillips, 28, yesterday was charged with smashing his car into a parked auto while drunk. It was the same auto, parked in the same place, that Phillips crashed into last November.

London—Pat McSherry today began a three months jail sentence for stealing a policeman's pants.

Constable George Stiles testified yesterday that when he returned from night duty he found McSherry in his room "in the act of putting on my trousers."

San Pedro, Calif.—A trail of green paint smeared on wardrobe lockers of a school led to the principal's office where a pair of television-conscious youngsters had scrawled:

"Mike and John painted the walls—signed Zorro."

Dublin—Thomas Marsh, 26, reported today he has invented a device which flashes a light on a fishing rod when a fish is hooked.

Chicago—A Mothers' club is planning to serve Italian dinners to raise money to erase the fine Italian handiwork of their amorous offspring.

Proceeds of the dinner will go towards replacing desk tops on which high school students have etched hearts and arrows and love messages.

Baltimore—Edward Luzzie has decided to move his business from Baltimore to suburban White Hall to escape the city's new advertising tax.

LITTLE MAN ON CAMPUS BY BIBLER

KU Students May Be Expelled For Early-Enrollment Forgery

Lawrence, (U.P.)—Ninety-four Kansas university students face possible expulsion pending the result of charges they forged papers to allow early enrollment.

School officials said yesterday the group has been given a chance to clear itself before expulsion action will be taken. However, Laurence C. Woodruff, dean of students, said their enrollments had already been cancelled and that new registration would be required if the students are cleared.

James K. Hitt, university

registrar, noted the apparent forgeries. Officials said the early enrollment permits were sold to the users for \$1 each. Students often prefer early enrollment privileges in that a wide choice of instructors, courses and class hours are available.

Laurence C. Woodruff, dean of students said the fake permits were printed by some offset method from counterfeit plates.

Dean Woodruff, interviewed Sunday night, said, "We have reason to believe there were more permits circulated."

Pogo

By Walt Kelly

READERS' FORUM

Dear Editor:

Two score and one year ago our fathers brought forth on this campus a timely whistle conceived for convenience, and dedicated to the proposition that all students should have an equal chance to synchronize their time pieces.

Now we are engaged in a great struggle, testing whether one administration, or any minute group of women so inconsiderate and so undedicated, can long stop our whistle. We are met on this great campus to challenge that wrong. It is NOT our intention to dedicate a portion of that whistle to its final resting place, but to rally those who have likened its tones to that of music, so that that whistle might again be heard by the beloved. It is altogether fitting and proper that we should do this.

But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this whistle. The brave classmen, living here, who may die here, and who may struggle here, will consecrate it far above our poor power to add or detract. The world

will little note nor long remember what we say here, but it can never forget what we are going to do here. It is for us the students of K.S.U., rather, to be dedicated here to the unfinished work of that new prospectus. It is rather for us to be here dedicated to the great task remaining before us—that for this one administration and this minute group of women we have NO devotion to that cause for which they gave a contemptible measure of time; that we highly resolve that these knaves have done their work in vain; that this campus, under God, shall have a new birth of that whistle; and that the government of this campus shall be of the loyal, by the dedicated and for the patriotic, and shall never again perish from the paths of righteousness.

Terry L. Parsons, EE Soph
James Mechling, BA Soph
Harold E. Harmon, EE Sr
Larry Wangerin, IE Soph

Editor's note: This isn't Gettysburg—but it sounds reasonable!

'High School College Girls' Find KS Fills Spare Time

Two Manhattan high school seniors are enrolled in five hours of credit apiece at K-State this semester.

The two girls, Judy Smith and

Vicky Kendall, are in an oral communications class on Monday and Wednesday and in written communications on Tuesday, Thursday, and Saturday.

It is not unusual for K-State

to accept Manhattan high school students seeking college credits. The girls had acceptable high school grades and obtained the permission from their principal.

"We were planning to go to K-State anyway," said Vicky. They thought they would take several hours at the college "to make good use of some spare time."

Judy is planning to enroll in college here next fall and will major in elementary education. Vicky plans to major in clothing and retailing beginning in summer school this year.

The girls have not yet attended their first Saturday classes, but Vicky said, "That's my day to sleep and I'm going to miss it."

Photo by Darryl Heikes

PONDERING OVER A PROBLEM in oral communications are Judy Smith, left, and Vicky Kendall, Manhattan high school seniors enrolled in oral communications class on Monday and Wednesday and written communications on Tuesday, Thursday, and Saturday. Each girl is taking three hours a day at Manhattan high school and five hours a week at K-State.

New Choral Concert On Tap Next Week

De Paur Gala, a new choral concert attraction, will appear at the College auditorium February 14, at 8:15 p.m. The group is sponsored by the Manhattan Artist series.

Works to be presented by the De Paur Gala include Kurt Weill's condensation of his Broadway musical, "Lost in the Stars," with lyrics by Maxwell Anderson; and the uncut George Kleinsinger opera, "Archy and Mehitabel." It is a story of the love affair of a cockroach and an alley cat.

"Court of Love," and "Carmina Burana" by the European composer Carl Orff, will also be presented. These are based on 13th century manuscripts written by wandering minstrels of the middle ages. The untranslatable texts are given in original Latin. Rounding out the program is the "Walpurgisnacht" by Felix Mendelssohn.

Director and conductor of the

company is Leonard De Paur, for nine seasons head of the De Paur Infantry chorus. It was disbanded last year and the present De Paur Gala was formed to replace it.

Inez Matthews, soprano, recreates the role of Irina in "Lost in the Stars." She originally performed the role in the Broadway production and on a coast to coast tour. She will also sing the part of Mehitabel, the slinky alley cat of Archy and Mehitabel, and the soprano solos of "Carmina Burana."

Appearing with Miss Matthews is McHenry Boatwright, baritone. Narrator for "Lost in the Stars" and "Archy and Mehitabel" is Paul Westbrook.

Reserved seats for the performance may be secured at the music office in the College auditorium. Student admission is \$1.

World News

Navy Scuttles Vanguard; Rather Not Talk About It

Compiled from United Press By CHAS. H. SCHREIBER

Washington—The baby moon in the Vanguard satellite that misfired today "probably" carried a simple form of life, Dr. John P. Hagen said today.

Hagen, director of the Vanguard project, also said another attempt to launch a Vanguard rocket will be made "as soon as possible."

Newsman asked Hagen whether the 3.4 pound test moon in the nose of the Vanguard carried yeast cells to check the affect of weightlessness on a simple form of life.

"It probably did," Hagen said.

The Navy disclosed recently yeast cells would be placed in one of the Vanguard test satellites but did not specify which one.

Dr. Richard W. Porter, chairman of the U.S. International Geophysical Year Satellite committee, sweated out the failure with Hagen at the Naval Research Laboratory. Both men stayed until nearly 4 a.m. (CST), more than two hours after they knew the Vanguard had broken up and been destroyed.

Porter also was asked when another firing will be attempted.

"It will be as soon as the crew can get it on the stand," he said. "There are other missiles there and they will launch them as soon as they can."

The scientist declined to say

whether the next launching will be another 3.4-pound, six-inch test satellite or the fully-instrumented 20-inch satellite scheduled to be launched in March.

Porter also appeared dispirited and was reluctant to discuss today's failure.

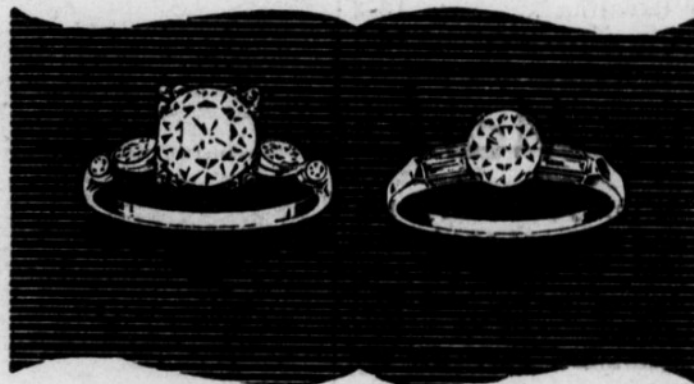

"Let's not talk about this one," he told newsmen. "It was a failure. What difference does it make?"

Hagen said it would probably be late this afternoon before he knew the precise reason the Vanguard had to be exploded by a range officer about a minute after it left the Cape Canaveral launching pad.

Anti-Recession Tax

Washington—A bill was introduced by Rep. Robert W. Kean (R-N.J.) to reduce everybody's taxes at least five per cent as an anti-recession step. Some low income taxpayers would get a 10 per cent cut under the bill which Kean said would trim the treasury of \$2,500,000,000 a year.

KS Fourth in Polls; 'Beat' KU Tops One

The Associated Press and the International News Service both ranked K-State fourth in this week's national basketball ratings.

West Virginia's Mountaineers were named the number one college basketball team by the AP for the seventh straight week while Kansas university was given the top spot by INS.

The rankings were based on games through Saturday and did not take into account Monday night's tussle between Kansas and K-State.

The race for the top spot became wide open when the last two unbeaten major teams, West Virginia and St. John's of Brooklyn, finally met defeat last week.

With the K-State victory over Kansas, the race should become even more of a scramble.

AP	INS
1. West Virginia 15-1	1. Kansas 13-2
2. Kansas 12-3	2. West Virginia 15-1
3. Cincinnati 15-2	3. San Francisco 15-1
4. K-State 13-1	4. K-State 15-1
5. San Francisco 15-1	5. Cincinnati 15-2
6. Oklahoma State 13-2	6. Oklahoma State 13-2
7. North Carolina 13-3	7. Temple 14-2
8. Maryland 11-3	8. Bradley 12-3
9. North Carolina State 12-3	9. North Carolina 13-3
10. Temple 14-2	10. Dayton 16-2

Parr Near Scoring Mark

Center Jack Parr needs but 12 more points to break the K-State all-time basketball scoring record set by Dick Knostman in 1953.

Parr, 6-9 senior, has scored 1,072 points as a Wildcat cager. Knostman, 6-6 all-America center, had a career's total of 1,083 points.

Parr has scored 227 points so far this season, averaging 14.2 in the 16 games played.

As a sophomore Parr scored 434 points in 25 games for a 17.4 average and last year he collected 411 points and a 20.6 average in 20 games.

Parr's shooting has fallen off

considerably this year as he is hitting only 32.4 per cent of his field goal attempts. He hit 47 per cent of his shots last season and 41.1 the year before.

As a sophomore Parr led the Wildcats to a Big Seven crown and was named all-America by Helms Foundation for his play last season. He has also been a two-time all Big Seven choice.

Parr scored 30 points or more in two straight games last season, hitting 33 against Minnesota university and 30 against Iowa university two nights later.

Two Cat rebound records are also held by Parr.

Oklahoma Cagers on Rise; Parrack's Record Climbing

By UNITED PRESS

Don't look now, but there's a new Bud Wilkinson in the making at Oklahoma.

His name is Doyle Parrack, and he's not giving Bud any headaches since he's a basketball coach instead of a football genius.

But if rough, tough Doyle Parrack has his way, the Sooners some day—and some day soon—may be as well noted for round ball as Wilkinson has made them in football.

Parrack took over the Oklahoma reins three seasons ago and won four games. Last year, he doubled it to eight. This season, Oklahoma has won 10, including that squeeze by Kansas while Wilt Chamberlain was ill.

That doesn't quite make Oklahoma a national basketball champion, but observers in the Big Eight conference are generally agreed that Parrack some day will have the Sooners up near the top—and in what many call the toughest basketball league in the nation.

It hasn't been easy for the 36-year-old Parrack. After the first disastrous season, his assistant coach, John Grayson, became head coach at Idaho State. With him went center Leroy Bacher,

the top scorer in the Big Seven that season.

Last year, he came up with one of the best sophomores in the league in Don Schwall. The Boston Red Sox picked Schwall off the squad with a reported

\$50,000 bonus contract early this season.

Parrack didn't complain and said instead, "Who can blame the kid for signing for that kind of money?"

But his starting unit was broken up and only because Parrack had recruited a couple of sophomores, Denny Price and Jack Marsh, have the Sooners been able to keep in the Big Eight running.

Oklahoma is in the third place in the Big Eight today, having won four of six league games. And that may be a foundation which will pull the Sooners out of the Big Eight cellar for the first time in four years.

Football Aide Appointed

Bob Reynolds, football coach at Morton High School in Cicero, Ill., has been named backfield coach at Kansas State, according to H. B. (Bebe) Lee, K-State director of athletics.

Reynolds fills the vacancy left by the resignation of Steve Sueie who moved to a similar post on the Illinois grid staff. Reynolds' appointment is effective February 1. Head Wildcat Coach Bus Mertes said he will specialize in coaching K-State backs on defense.

A former Iowa U. player, Reynolds has coached football and track at Morton High for two seasons. He was athletic director and football coach at Atsugi (Japan) Naval Air Station in 1955-56.

Gratitude

Norwalk, Conn. (U.P.)—A grateful skunk, after being lifted by the tail by Mrs. Carl Ebert and having a glass bottle encircling its neck smashed by a policeman, rewarded its rescuers. It scampered to a nearby woods—leaving no lingering after-effects.

You'll be pleased with a Collegian classified.

Ever meet a trusting soul?

"You can't go wrong looking for a job these days," he assures you. "Opportunities are great all over. All the good companies have about the same to offer."

Do they? A lot of not-so-trusting souls think otherwise. They suspect that some companies have much more to offer than others, and they want to find out which those are.

We'll help. We want to tell you how much the Bell Telephone Companies offer in the way of advancement opportunities, training, pay and benefits, professional associates and working conditions. No matter what your educational background—the arts, the sciences, business or engineering—make a date to talk with a Bell interviewer when he visits your campus. You can also get information about the careers these companies offer by reading the Bell Telephone booklet on file in your Placement Office, or by writing for "Challenge and Opportunity" to:

Cat Indoor Track Team Good But League Rough—Haylett

By TERRY KNOWLES

"We'll have a good team this year but good indoor track teams just can't win the Big Eight meet anymore," said Wildcat track coach Ward Haylett. "Competition in the conference is getting too tough to win with just a good squad."

Haylett, who is in his 30th season at Kansas State after joining the staff in 1928, pointed to the great improvement of the Oklahoma and Nebraska indoor teams as examples of new power in the Big Eight along with the addition to Oklahoma State university. Both Oklahoma and Nebraska have several foreign tracksters who will strengthen the two teams.

Despite the fact that Nebraska and Oklahoma will field greatly improved teams from last year, coach Haylett pegs Kansas as the team to beat in the Big Eight conference meet in Kansas City March 1. K-State placed fourth in last year's meet while the Jayhawks chopped first.

Coach Haylett said the mile relay, the 440-yard dash, the hurdle races, the high jump, and the distance races will reap most of the Wildcat points this season.

K-State had one event-sweep at the Nebraska triangular meet last weekend in the 440-yard dash. DeLoss Dodds, a junior speedster, won the event with the time of 50.6 followed by Jim Vader and Larry French, also juniors.

The trio along with Gene O'Connor later set a new meet and field house record at Nebraska in the mile relay with a time of 3:25. The best time for this same relay team came at the Sugar Bowl meet in New Orleans during Christmas vacation when they posted a time of 3:18.8. Despite this showing, they were edged by a crack mile team from Texas university.

Dodds' best quarter-mile mark indoors is 49.6 on an outdoor track and he had been clocked at 48.3. Dodds anchors the mile relay unit.

O'Connor, besides running a strong leg on the mile relay team, is also the Big Seven de-

fending 60-yard low hurdle champion. The senior, has been a threat ever since he was a sophomore when he was the Big Seven outdoor high and low hurdle champion.

Haylett will also be counting on a fine crop of sophomores for support this season. In the first

meet there were two sophomores, Steve French and Duane Holman, who received first place honors. French won the high jump with a leap of 6-5 while Holman set a meet record in the 2-mile run with the time of 9:39.5. French's high jump mark is the highest in Wildcat history for a sophomore.

SENIOR LARRY FRENCH is a member of K-State's mile relay team which ran second to Texas at the Christmas Sugar Bowl meet and took first in the Nebraska triangular.

KU Slips To Fourth

Kansas university's loss to K-State Monday knocked the Jayhawks down to fourth place in the Big Eight basketball race.

Oklahoma trails the Wildcats

with a 4-2 record and Iowa State is third at 3-2. The Jayhawks stand at 2-2.

The standings:

Conf.	W	L	Pct.	PF	PA
K-State	5	0	1.000	364	302
Oklahoma	4	2	.667	356	333
Iowa State	3	2	.600	287	279
Kansas	2	2	.500	272	243
Missouri	1	3	.250	220	243
Colorado	1	4	.200	239	305
Nebraska	1	4	.200	285	318

All games

K-State	15	1	.938	1147	939
Kansas	12	3	.800	1007	823
Okl.	11	4	.733	902	656
Iowa St.	10	6	.626	974	867
Missouri	7	7	.500	885	877
Colorado	5	10	.333	831	955
Nebraska	6	10	.367	975	1064

Saturday's games:
Iowa State at K-State
Nebraska at Kansas
Missouri at Colorado

Even Scoring Cat Tradition

Although the K-State basketball team doesn't have a player close to the top in the nation's scoring race, it doesn't necessarily mean that one could not be.

"If we wanted to 'play to' one man—say either Parr or Boozer—I feel sure they could be 30-point performers," said Coach Tex Winter.

"We feel, however, that five potential scoring threats are better than one. Of our top six men—what I term our regulars—five of them are scoring nine points a game or better."

"Even scoring has become a tradition here at K-State. We have always relied on balanced team scoring, and anticipate that we always will."

Winter pointed to percentages to impress the fact that at K-State all the Wildcats fire away at the basket.

"Parr and Boozer are each taking 22 per cent of our total shots, between them they total 44 per cent. Since both men are in the line-up almost all the time, that's awfully close to their 40 per cent share of the total."

"On some teams, however, you will find one man shooting a third or more of the team shots. Is it any wonder that a man like that has a more impressive scoring record?"

DeWitz Sets RB Mark

Roy DeWitz, 6-8 senior, set a new K-State basketball record in rebounding for guards against Kansas university Monday.

DeWitz had 15 rebounds to top the mark of Pachin Vicchs who grabbed 13 against Houston university in 1955.

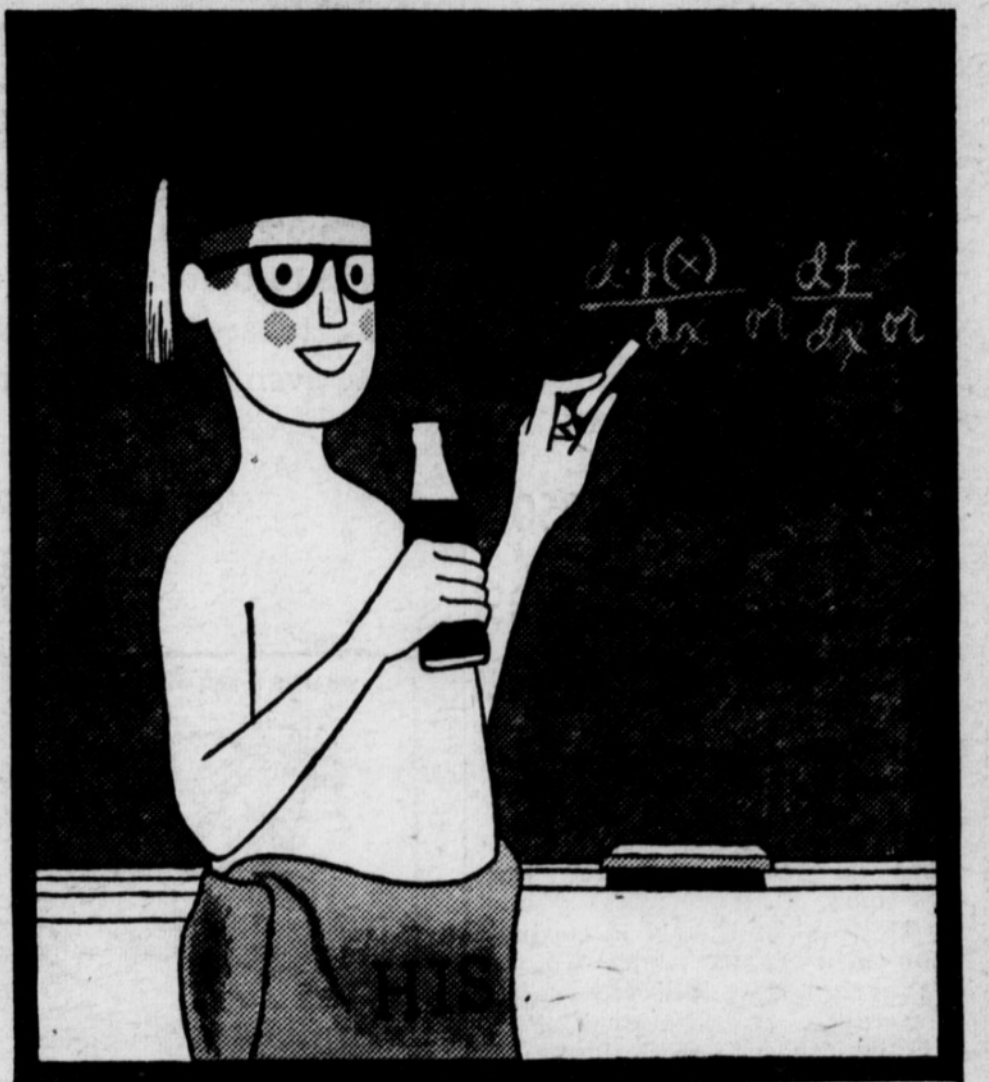

Video Rights Open For Kansas Game

Television coverage of the next K-State-Kansas basketball game March 8 at Manhattan may be more complete than it was at Lawrence.

"Television rights to the Kansas game are being offered to any station that wants to carry the game," said H. B. (Bebe) Lee, K-State athletic director. "We're not promoting this, but offering it on a non-exclusive basis." KU offered the game on a bid basis.

The game could be carried by any television station in the state. "The deadline date for stations to apply for the game is February 12," continued Lee. "There's nothing definite on it at this time, although several stations are interested."

Certain specific transmission requirements out of Manhattan, however, increase the cost of televising games from Ahearn field house. For instance, relay towers would have to be constructed for such a telecast.

CHI OMEGA sorority played hostess to Farm House last night at an exchange dinner, at the Chi Omega house. The group retired to the living room after supper to play cards.

Pace of Job Recruiting Expected To Rise Soon

The pace of recruiting of engineering and technical graduates could become "hectic" by next fall, commented Chester Peters, director of Placement center.

Tuesday was the opening of the spring semester recruiting season and Peters expects a larger number of firms on campus than the 200-plus here during last term.

"The planned expansion of defense industries and other public programs will be filtered through the economy to increase demand for all types of graduates," he said.

Salaries of January graduates were up slightly, despite the drop in defense expenditures and general lull, and Peters labelled the demand for K-State engineers and technical people as "active."

Beginning engineers and technical graduates accepted employment at an average salary of \$480 a month. This was up slightly from the spring of 1957. Beginning industrial salaries ranged from \$415 to \$610 a month.

Demand for accounting and business majors fluctuated during the past two semesters with

the average beginning salary at \$401 a month, an increase of 2 per cent over last Spring.

Beginning salaries for business and agriculture graduates were relatively unchanged.

In agriculture and non-technical fields, many of the graduates are entering the armed services or

continuing their education before accepting jobs.

Peters said companies interviewing were more selective this past fall, with a premium placed on scholarship and the capacity of a student to logically handle problems. However, in the technical fields, most students had several choices of employment.

Atkeson Is Selected Kansas Dairy Leader

Prof. F. W. Atkeson, head of the Department of Dairy Husbandry since 1935, has been named a "Kansas Dairy Leader," by the Kansas Inter-Breed Dairy Cattle council.

Sixth to be named by the Council to the state's dairy hall of fame, Professor Atkeson's name will appear with James W. Linn, W. H. Mott, James Fitch, G. Fred Williams, and Karl B. Musser.

Some of Professor Atkeson's

friends have established the Atkeson loan fund in recognition of his work as chairman of the Kansas formula feed conference.

Professor Atkeson is an accredited judge of the American Jersey Cattle club and Holstein-Friesian association of America. He is a member of the American Dairy Science association, American Genetics association, and the Society of Animal Production.

K-State Prof Gets Award From Group

Prof. Linn Helander of the Mechanical Engineering department, received the first newly-established annual award from the American Society of Heating and Air Conditioning Engineers, at a meeting of the Kansas City section of the society Monday.

The award, for outstanding accomplishments in teaching and for interesting students in subjects related to heating and air conditioning industries, was presented by E. K. Campbell, secretary of the society.

Professor Helander was selected for the honor by several life members of the society.

Accompanying Professor Helander to the meeting in Kansas City were M. A. Durland, dean of the School of Engineering and Architecture; Prof. Ralph G. Nevins, head of the Mechanical Engineering department; Mrs. Nevins, and Mrs. Helander.

Union Will Sponsor Photography Contest

Official entry forms for the national photography contest sponsored by the Student Union, are available at the activities center from Ollie White, Union director. Prints for the contest, open to all regular college enrollees, must be sent to White not later than February 26.

The contest is held in conjunction with Kappa Alpha Mu, national honorary photojournalism fraternity; the National Press Photographers association; and the Encyclopedia Britannica.

Prints may be entered in seven categories: portfolio, news, features, sports, pictorial, portraits and/or character, and a picture series or sequence.

The fifty best entries will be shown for the first time at the Kappa Alpha Mu convention at Southern Illinois university, March 21-23. The pictures will then be sent to K-State and other colleges and universities throughout the nation.

Outdoor Meeting

Lancaster, Mass. (U.P.)—For the first time in this town's 304-year history, a town meeting has been held outdoors. Eighteen citizens conducted their business just outside the town hall because of humid weather.

Sticklers!

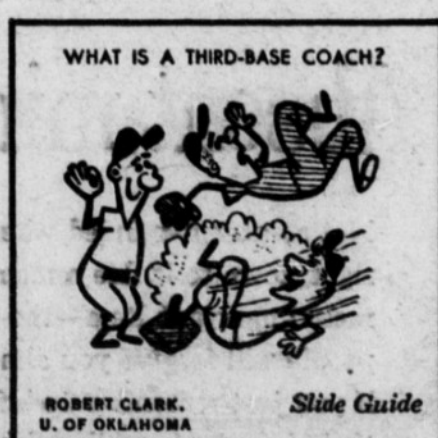

TAXI DRIVING, at best, is a *checkered* career. Some days, nothing seems to click—including the meter! Traffic crawls, motor stalls, horns bleat, bumpers meet. What a moment to reach for a Lucky—and discover (horrors!) you're fresh out. That's when the most genial driver turns into a *Crabby Cabby*. And why not? He's missing the best taste going... a cigarette that's light as they come. Luckies are all light tobacco—good-tasting tobacco, *toasted* to taste even better. Try 'em yourself. And step on it!

DON'T JUST STAND THERE...

**STICKLE!
MAKE \$25**

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, New York.

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

Photo by Darryl Heikes

THINGS ARE JUST ABOUT READY for a log to be placed on the hearth of the stone fireplace at the new Gamma Phi Beta sorority house at 1807 Todd. The fireplace separates the living room and the library. Sitting in the fireplace displaying some of the new fireplace implements are from left: Doris Geis, PEW Jr; Kathy Schultis, HEJ Jr; and Judy Higgins, SEd Soph. The Gamma Phi's moved into their new house January 31.

Forty-Six Gamma Phi Betas Enjoy Ultramodern Quarters

By JOYCE RECTOR

A colorful new home greeted 46 Gamma Phi Betas as they arrived back at school from semester vacation.

The sorority found a great change from its old house in the newly-completed 2-story ultramodern building begun last year. The house, located at 1807 Todd, cost about \$165,000, and is a study in native stone, redwood, white plaster, and glass.

The exterior of the house is striking in the fact that the entire north and south walls are of glass, whereas the east and west walls are of native stone.

The first floor is keyed to a

beige color, with one wall of the dining room and the house-mother's quarters a soft blue.

Between the living room and dining room is a folding birch door; the outer walls of the two rooms are sliding glass doors. Separating the library, paneled in redwood, and the living room is a double stone fireplace.

In the full basement the girls have a laundry room, furnace room, and recreation room, which will be finished in the future.

The stairway to the second floor is also of native stone, with a skylight above it.

Second floor consists of 3- and 4-girl study rooms, two

dorms, a lounge, and two baths. All furniture in the lounge is orange, turquoise, or bamboo in color.

The study rooms have walls colored in light blue, light green, pumpkin, or beige. The desk-chest combinations are either blue-green or pink, according to wall color.

The only primitive thing about the house is that there are no telephones! Due to frozen ground, no cable can be laid, and so far no unfrozen ground is in sight.

Semester Officers Named by Greeks

Alpha Chi Omega

The newly elected officers of Alpha Chi Omega are Emma Lou Douglass, PEW Jr, president; Marcia Petracek, EEd Jr, first vice-president; Pat Hunter, EEd Jr, second vice-president; Vera Wierenga, DIM Soph, recording secretary; Arlene Richardson, TxC Jr, corresponding secretary; Emmalea Magruder, SEd Jr, treasurer; Shirley Smith, Chm Soph, assistant treasurer; Claudia Applebaugh, HEN Soph, AWS representative; Emily Douthit, EEd Jr, senior panhellenic representative; Mary Ruth Hall, ML Jr, junior panhellenic representative; Jean Bartley, EEd Jr, social chairman; Sally Clary, HEN Soph, assistant social chairman; Joy Allen, HT Jr, scholarship chairman; Mary Ann Hauge, BA Soph, assistant scholarship chairman; Marijoe Bestgen, Eng Jr, rush chairman; Kay Pearson, Soc Soph, assistant rush chairman; Judy Simmons, SEd Soph, activities chairman; Carol McCosh, HEN Soph, assistant activities chairman; Helen Habernigg, EEd Soph, intramurals; Deanna Frommer, EEd Soph, song leader; Arnita Otte, Soc Soph, assistant song leader; Kathy Hueftle, Psy Soph, house-manager; Ellen Grimsley, SEd Soph, chaplain; Sharon Wagner, RT Soph, warden; Margean West-erhouse, HEN Soph, historian; Ruth O'Hara, HEJ Jr, Lyre editor.

ing secretary; Dick Hotz, MT Jr, corresponding secretary; Doug Archer, Phy Soph, guide; and Larry McWhorter, Ar 03, historian.

Lambda Chi Alpha

New officers have been elected at the Lambda Chi Alpha house. They are Don Wilson, Ar 03, president; Jerry Greene, AgE Jr, vice-president; Ken Smith, EE Soph, treasurer; Max Fagerquist, BPM Sr, secretary; Tom Gibson, EE Jr, ritualist; Ron Whitechurch, BA Soph, pledge trainer; and Herb Haas, CE Jr., social chairman.

Alpha Xi Delta

Jan Madsen, HEJ Jr, was elected president of Alpha Xi Delta sorority recently. Other newly-elected officers are Roberta Wray, SEd Jr, vice-president; Sandra Mays, EEd Soph, recording secretary; Judy Perine, Art Jr, corresponding secretary; Lavinne Tonne, HEE Jr, treasurer; Sharon Knox, EEd Jr, membership chairman; Elaine Arnote, EEd Jr, social chairman; Jan Arnold, ChW Jr, journal correspondent; Carolyn Humburg, HE Soph, senior panhellenic representative; Jayne Taylor, TJ Jr, historian; Anne Anset, TxC Jr, chaplain; and Judy Stark, SEd Soph, song leader.

Sigma Alpha Epsilon

New officers of Sigma Alpha Epsilon are Mike Stout, AH Sr, president; David Cool, Ag Jr, vice-president; Loren Swenson, TA Soph, recorder; Stan Peterson, AE Soph, treasurer; John Weigand, GA Jr, correspondent; Frank McCormick, His Soph, warden; Bob Graham, Ar 02, chronicler; Jim Vader, BA Soph, herald; Andy Stewart, VM Jr, chaplain; and Jim Grier, CE Jr, pledge trainer.

Delta Tau Delta

New officers in the Delta Tau Delta house are Laurence Schaper, AgE Jr, president; Dave Craig, CE Jr, vice-president; Karl Stut-terheim, EE Soph, treasurer; Mike Dole, ChE Jr, assistant treasurer; Mike Finney, Gvt Soph, record-

KS Engineers Name Chairmen for Open House

Executive committee and departmental chairmen have been announced in the planning for Engineers' Open House, which is scheduled March 14 and 15. Theme this year is "The Science of Engineering."

The executive committee members are LeRoy Stayton, ME Sr, manager; Clyde Sprague, ME Sr, secretary; Max Mechner, ME Jr, treasurer; Allen Hjelmfelt, CE Jr, publicity chairman; Gene

Bennett, ME Sr, television publicity chairman; Don Beck, IE Sr, newspaper publicity chairman;

Jim Lewelling, EE Jr, newspaper publicity assistant; John Hindman, ME Jr, television publicity assistant; Larry Smith, IE Sr, radio publicity chairman; Duane Huber, ArE Jr, routing chairman; Bill Bickford, CE Jr, assistant routing chairman; George Strobel, NE Sr, co-ordinating chairman; and Samuel Martinez, Ar 05, buttons and program chairman.

Departmental chairmen who will plan exhibits are Donald Meseke, EE Sr, Electrical Engineering; Walter Gillen, ME Sr, Mechanical Engineering; Keith Fillmore, Ar 04, Architecture; Vern Scott, IE Sr, Industrial Engineering; William Carter, IE Jr, Applied Mechanics;

Don Butel, CE Jr, and Bill Stuenkel, CE Sr, Civil Engineering; Bill Harrison, NE Sr, Chemical Engineering; Dean Nehrig, ChE Sr, Nuclear Engineering; Roland Turner, ME Jr, Air Force ROTC; Dale Lumb, EE Sr, Military Science; and August Dorn-

busch, AgE Jr, Agricultural Engineering.

Student Union Committees

Positions on five Union committees are now open. The position of Jazz club chairman is open until February 12. Interviews are scheduled for February 13 in the activities center.

Positions for the following subcommittees close February 10: tours subchairmanship on hospitality, art lounge subchairmanship on art, special promotions subchairmanship on publicity, and the production and arrangements subchairmanship on campus entertainment. Interviews for these subchairmanships will be scheduled later.

AWS Tea

An informal tea for Sister Madeleva, Religious Emphasis Week assembly speaker, will be sponsored by the Associated Women Students council in the main lounge of the Union February 17. All women students are invited to attend the tea, 3:30 to 4:30 p.m.

Sister Madeleva is president of

the women's counterpart to the University of Notre Dame—St. Marys college of South Bend, Ind., and a poet of international reputation.

United Fund

House and dorm representatives on the Solicitations subcommittee

of the SGA Funds and Drives committee will meet with solicitations co-chairmen Jackie DuMars and Bob Blackwelder in the Union Thursday, February 6, rather than February 4 as previously scheduled. The campus united fund drive will begin the following Monday.

Chooses Cast For 'Paycock'

Taking the leading parts in K-State Players' production of "Juno and the Paycock" are Clenece Roberts, Sp Soph; Ken Nakari, Sp Jr; Carol Cilek, Eng Jr; and Landon Friesen, Soc Sr, according to Carolyn Hunt, Clo Gr, director of the play. The play by Sean O'Casey will be given March 6 and 7 by the Players.

"Juno and the Paycock" is a tragedy interlarded with comic happenings. Cap'n Boyle is believed to have inherited a large sum of money—the play revolves around this main idea.

Juno will be played by Miss Roberts; Cap'n Boyle by Nakari; Mary Boyle by Miss Cilek; Johnny Boyle by Friesen; Joxer by Jim Johnson, PrV Soph; Mrs. Madigan by Pat Myers, Sp Soph; Mrs. Tancred by Nancy Wantland, EEd Fr; Jerry Devine by Jack Macy, Psp Fr; Charles Bentham by Bart Everett, NE Fr;

Needle Nuggett by Bob Lincoln, Sp Fr; Irregular Mobilizer by Bob Johnson, Ar 01; Irregular by John Throop, BA Fr; coal block vendor by Wayne Stewart, EE Sr; sewing machine man by Herman Zillmer, Sp Gr;

First furniture removal man by Darwin Klein, BAA Soph; assistant furniture removal man by Zillmer; first neighbor by Karen Hampton, Sp Soph; and other neighbors by Beverly Brewer, BMT Fr, and Virginia Wealey, EEd Soph. Miss Whealey is also the assistant director.

What's it like to be with IBM?

Gene McGrew won a scholarship and went through Princeton in the top third of his class . . . managed varsity track . . . commanded an artillery battery in Korea. "When you put a lot of preparation into your career," Gene McGrew feels, "you should look for a lot in return."

Out of the Army in 1953, he discussed IBM with a sales representative. It sounded like real opportunity. After an interview with an IBM branch manager, Gene McGrew was sure. Although sales was only one of many jobs he felt he could handle, this kind of selling (IBM machines are as much an idea as a product) would enable him to capitalize fully on his education, experience, and talents. He's learned also that "no other form of training or career development I can think of provides such diversity of experience in all phases of business and industrial activity. This kind of training and experience develops top business executives."

Thus began an extensive and interesting training program marked by merit salary increases. The first three

Outlining programming test

months of the training course combined introductory machine schooling and observation of branch office operations in Pittsburgh (his home town). The next three months were spent studying the application of the Company's data processing machines to major phases of accounting in business, science and

government. With this background of know-how, Gene McGrew was ready for seven months of practical field training, during which he became a real contributing member of the sales team, working with a succession of experienced salesmen in a variety of situations with many different customers. With this experience behind him, he was ready for IBM's famous sales school, a final five-week polishing course in selling techniques.

Receives first assignment

Upon the successful conclusion of this course he was given his long-awaited first sales assignment, his own territory near Pittsburgh. This territory was comprised of some fourteen companies presently using IBM equipment, together with many companies who were logical potential users. Gene McGrew's job is to assist his customers in achieving maximum efficiency through the use of their equipment, as well as to help them ex-

Sales Representative Gene W. McGrew came to IBM following his military service after college. Here he reviews his progress and tells why the electronic data processing field offers one of the most exciting sales careers in America today.

tend its use to new applications. He is also responsible for the development of new business. His biggest sale was to a large industrial corporation. Now installed, this IBM electronic system simplifies various major phases of the customer's accounting work. His fine job with this customer resulted in the expanded use of equipment and the ordering of three additional medium-sized data processing machines. He is now working to develop the sale of one of IBM's largest computers, the 705, to another customer.

Future wide open

"Advancement opportunities in IBM," Gene McGrew says, "are excellent, as you'd expect in the leading com-

Checking out new client's system

pany in a dynamic and rapidly expanding industry. Ahead of me on the sales management advancement road are nearly two hundred Branch Managerships, seventeen District Managerships, and numerous executive positions at the Regional and Headquarters level in five different divisions."

This profile is just one example of what it's like to be with IBM. There are excellent opportunities for well-qualified college men in Research, Development, Manufacturing, Sales and Applied Science. Why not ask your College Placement Director when IBM will next interview on your campus? Or, for information about how your degree will fit you for an IBM career, just write or call the manager of the nearest IBM office:

VOLUME LXIV

Kansas State College, Manhattan, Kansas, Thursday, February 6, 1958

NUMBER 79

DESK WORK plays a major part of the research done by Phil Kirmser, associate professor in applied mechanics, and Isaac Wakabayashi, instructor in electrical engineering.

Whistle's Fate Still in Doubt; Faculty Will Decide Problem

The fate of the College whistle will be decided when the Faculty Senate meets Monday, said President James McCain when asked the status of the controversial issue.

"Since recent requests for and against the whistle have come largely from the faculty, as well as from townspeople and students, I have asked the Senate to make recommendations," he said.

"I've been here eight years and heard the whistle once, when I happened to be standing right near the Physical plant when it blew.

"Increasingly, we have had complaints from student wives, although they have never been very serious complaints. Recently, however, a professor com-

mented in a letter that learning never stops, and therefore we couldn't live by a whistle which started the day at 8 and stopped at 5.

"Some of these people think it is really disgraceful to have a steam whistle on a university campus," McCain explained. "However, we have discovered that others almost plan their lives by the whistle."

Further evidence of the dependency on the whistle is the case of a woman who wrote that she always set her clocks by the whistle. And, unusually enough, she did it by listening to the local radio station, KMAN. The woman lives far from Manhattan, but could hear the whistle over the radio program as a part of the

"background."

Case Bonebrake, director of heat and power, has had many comments from nearby residents who'd like to hear the familiar sound at 8 a.m., noon, 1, and 5 p.m. again.

"The last time the whistle blew was at noon on December 21," Bonebrake commented, "and we've had all sorts of complaints since then."

One woman called on December 26 to tell the Physical plant she'd sent her children out to play on the afternoon of the 21st and told them to come in when the whistle blew. "She told us she'd appreciate it if we'd please blow the whistle once more. The children haven't returned yet and she'd like them to come home so she could tell them it isn't going to blow again," Bonebrake laughed.

"The whistle was stopped by an order of the President," he explained. "We have a man who has worked here 37 years and it has been here as long as he can remember. I understand it's supposed to have been used 40 years last June."

Bonebrake admitted that another use besides that of time-telling meant they'd keep the whistle. "It is a secondary fire alarm system. In case the telephone network fails, the whistle is used to summon the fire team to the campus for a fire. That's the only other reason it is used."

He said "Lack of use very definitely could cause malfunction. Valves could rust and steam lines clog with corrosion. Even electrical circuits might fail," he explained.

"We have received complaints from people as far as five and six miles out of town who have missed the whistle," Bonebrake said.

UF Drive Sponsored By SGA Committee

The Student Governing Association Funds and Drives committee is sponsoring the United Fund drive on campus February 10 through 14, according to Mary Beth Brooks, HEJ Soph, publicity chairman.

The Steering committee of the SGA group consists of subcommittee heads: Kay Eplee, BA Jr, major chairman; Irene Mangelsdorf, EEd Soph, secretary-treasurer; Peggy Daniels, Eng Jr, education; Bob Blackwelder, AgE Soph and Jackie Dumars, HEJ Jr, solicitation; and Miss Brooks.

Funds contributed to the United Fund drive will be apportioned to 14 organizations. Ap-

proximately 40 per cent will go to the Manhattan United Fund, which is subdivided into 45 per cent for the Red Cross and 55 per cent for the Community Chest. The Community Chest consists of 10 separate drives, such as Mental Health association and the Scout organizations.

Another 40 per cent will go to the World University service, which has various improvement programs planned for its annual program.

Of the remaining amount, 10 per cent will be assigned to the American Heart association and 10 per cent is for the American Cancer society.

Attempt Being Made To Pinpoint Location

Photographs of the Russian satellite taken by two faculty members in the School of Engineering are expected to draw attention to Kansas State college.

Associate Professor Phil Kirmser of the Applied Mechanics department and Isaac Wakabayashi, instructor in the Department of Electrical Engineering, have worked long hours since last October toward pinpointing the location of the Russian satellite within a radius of two city blocks.

The idea to photograph Sputnik developed after Kirmser and his wife had seen the satellite at the brightest it has been—at 5:20 a.m. October 18.

A cup of coffee and notes on a napkin at an Aggieville cafe with an exchange of ideas between the professor and Wakabayashi started them on work which has become a major interest in their lives.

"We still have the napkins on which we did our first figuring," Kirmser laughed. "Of course, we have added quite a bit to them by now."

Using a National Bureau of

Standards radio in order to synchronize the timing of the photographs, the men work with two cameras approximately 30 miles apart.

Photographs are taken in early morning, usually between 4 and 5 a.m. One camera is approximately six miles outside Manhattan and the other is near St. Marys.

The church steeple in St. Marys has served as a ready reference, since its latitude and longitude were taken about 1881.

"We're going to go out and hunt up some more of these markers—there are so many around here—in order to find more ideal conditions. For instance, now we walk from two to three blocks uphill carrying equipment in order to get to our site," Kirmser explained.

By comparing the photographs and noting the location of identical stars, in conjunction to the satellite, the two scientists hope to determine a more exact charting of the orbit and the location of Sputnik.

(Continued on page 3)

Hill Has K Once Again; Sigma Tau Responsible

The foot of the "K" on K-Hill has been replaced at a cost of \$2,100.

During the flood of 1951 the letter was undermined by the water. Three years ago the foot of the "K" dropped down the 60-degree hill.

Plans and specifications for the repair were made by the Physical plant and Sigma Tau, engineering scholastic honorary, according to R. F. Gingrich, superintendent of the physical plant.

An allotment of \$2,000 was appropriated for the repair by the Student Council. The remaining \$100 was a contribution from

the various engineering honoraries.

The "K" which is 60 feet in height and 40 feet in width, was constructed on Prospect hill in April, 1921, by the Civil Engineering department. Private subscriptions from the department paid for the construction of the letter.

According to Dean Nehrig, ChE Sr, Sigma Tau president, the "S" was added in the 1930s.

Sigma Tau is responsible for the upkeep of the letters. Each fall as an initiation project the Sigma Tau pledges whitewash the letters.

Photo by Gary Yeakley

THE PROBLEM SEEMS TO BE whether to paint all of the "KS" or merely the newly repaired "K" on K-Hill, and Pat Corbin, TJ Jr, ponders over the decision.

Research Takes Limelight; Mediocrity Gets a Shove

RESEARCH AT Kansas State college has never been so much in the limelight as it is now, as two faculty members spend long hours photographing the Russian satellite.

These men have devoted enormous amounts of time and energy to an idea which came to them as they drank coffee. And they have asked no reward; in fact, only recently has the entire scope of their project been uncovered in any detail.

These men are a part of the vast army of "unsung heroes" of Kansas State college, who are accomplishing a great deal in one of the most important fields today—that of scientific research and development particularly in reference to space.

They don't stand alone—nor do they claim to do so. They will more than willingly share the credit which comes to them, even in meagre amounts, with others who have contributed much less but are offering some measure of support and aid.

ACCUSATIONS OF mediocrity,

Readers' Forum

Dear Editor:

"Would be nice, methinks, if the paint and polish boys could find time to do research on the proper place for pedestrians to crosswalk, (as the signs in front of Seaton say), and then to stop a little alley of yellow for students to walk through. I, for one, own an automobile, and find it most frustrating to attempt to drive past Seaton during between-class breaks, not to mention assembly times. A fellow can't stop all the way in front of Seaton; neither, so says my ethics text, should a fellow target in on the mob, gleefully racking up pedestrian points. As a matter of cold fact, there are laws to prohibit a fellow from doing that.

But the fact remains: a car, while stopped, is stopped in only one place. Therefore, by cool-headed logic, how in the blue eyed world can a car possibly stop all the way, from one edge of Seaton to the other? —Doug Tedrow, TJ Sr.

Charlie Brown and Fuzzy Face Fans: 'Peanuts' Will Oust 'Pogo' in Collegian

For all K-Staters who are acquainted with a floppy-eared, fuzzy-faced hound; a thumb-sucking toddler, clutching a "security blanket;" a charming young lady who holds claim to the title of world champion fustbudget; or a mad pianist with a yen for Beethoven—we have news. And for those who haven't been lucky enough to become acquainted with these

of conformity, of little student initiative and of various weaknesses in our colleges and universities are leveled daily, and frequently we can see ample evidence in that direction.

For instance, when you—or if you—read the front page stories on today's Collegian, which was more appealing to you? Which did you feel affected you more—the College whistle or the furthering of information on today's outer space exploration?

We hope you enjoyed both, certainly, but there's no question in our minds and, we hope in yours, as to which is more important. The display and space given the two stories obviously points out our feelings.

We don't suppose Professor Kirmser and Mr. Wakabayashi ever stop to question whether or not students realize the importance of work such as they are doing; this does not, however, excuse apathy on the part of the 6,200 students who in an all-college vote last fall demanded that they be allowed the "prestige" of being university students.

THE QUESTION which comes to mind: is the university a school or a frame of mind? Is university a label or a way of life, a way to wisdom? Is university merely being a student at one of several colleges which are administered by one central body, or is it seeking the information, the knowledge, the experiences of men such as our two engineering faculty members and countless others over the campus who can broaden our outlook, enrich our minds, develop our perception?

We're anxious to see the scrawls on the tables at the Union today; the question remains: will they reflect the creativity of the thinking of university-level instructors?

individuals—we have news. Beginning March 24, 1958, the comic strip "Peanuts" will appear daily on the editorial page of the Collegian.

Of course this means our friend Pogo will no longer be appearing, and this may be considered a dogboned outrage by some people. However, we feel we are taking the lesser of the two outrages and on March 24 we will switch strips.

"See any satellites?"

Top Ten Tunes

'At the Hop' Takes Top Spot On Jukeboxes, in Disc Shops

By Marilyn Tindall

"AT THE HOP" by Danny and the Juniors seems to be the most popular record all over Manhattan this week. The disc is in the No. 1 spot in Manhattan record sales for the second consecutive week and has also moved into the top spot on the jukeboxes.

The Diamonds again appear to be blazing their way to the top with "The Stroll," which is in position No. 3 on the record sales list and position No. 2 on Manhattan jukeboxes.

THE TEN BEST SELLERS in Manhattan this week:

1. "At the Hop," Danny and the Juniors
2. "Get a Job," Silhouettes
3. "The Stroll," The Diamonds
4. "Don't," Elvis Presley
5. "You Are My Destiny," Paul Anka
6. "La Dee Dah," Billy and Lillie
7. "Sugartime," McGuire Sisters
8. "Swinging Shepherd Blues," Moe Koffman
9. "Oh, Julie," Crescendos
10. "Sail Along Silvery Moon," Billy Vaughn

TOP TEN TUNES on Manhattan jukeboxes this week:

1. "At the Hop," Danny and the Juniors
2. "The Stroll," The Diamonds
3. "Great Balls of Fire," Jerry Lee Lewis
4. "Raunchy," Billy Vaughn
5. "Sugartime," McGuire Sisters
6. "Peggy Sue," Buddy Holly
7. "Oh, Boy," The Crickets
8. "Why Don't They Understand," George Hamilton
9. "Stood Up," Ricky Nelson
10. "Witchcraft," Frank Sinatra

AND IN THE WAY OF ALBUMS, Frank Sinatra has two out that are among the best sellers for this week, "Pal Joey," and "Come Fly With Me." Incidentally, Andre Previn, also, has an album called "Pal Joey." However, his album is for jazz lovers only.

Three of Jackie Gleason's albums are particularly timely now with Valentine's Day approaching. They are "Music for Lovers Only," "Music for Love Hours,"

and "Velvet Brass." Nat "King" Cole also gets in a romantic mood that is appropriate for this special day with "For Two in Love" and "Ballads of the Day."

"Pal Joey" of course includes tunes from the movie by that name, and the Sinatra album is the sound track from the movie. Some of the tunes are "A Small Hotel," "The Lady Is a Tramp," and "Bewitched, Bothered, and Bewildered."

The Sinatra album "Come Fly with Me," backed by Billy May and his orchestra, offers a chance for a little traveling on the part of the listener. The album takes you from New York through Europe and back to South America with tunes which include "Autumn in New York," "April in Paris," "Isle of Capri," "Moonlight in Vermont," "Blue Hawaii," and "Brazil."

Johnny Mathis has a smooth album out backed by the orchestration of Percy Faith. It is called "Warm," and includes "My One and Only Love," "Baby, Baby, Baby," "The Lovely Things You Do," "I've Grown Accustomed to Her Face," "What'll I Do?" and "I'm Glad There Is You."

"Velvet Brass" is Gleason's latest album and he comes through in his usual good form.

Syria, Egypt May Add Yemen To New Republic

Compiled from United Press
By CHAS. SHREIBER

The Syro-Egyptian Union moved today to add Yemen to the new United Arab Republic in a development that could affect the balance of power in the oil-rich Arabian peninsula.

Egyptian President Gamal Abdul Nasser began formal talks in Cairo with Yemeni Crown Prince Seif El Islam El Badr to work out details of Yemen's entry.

The Egyptian and Syrian parliaments yesterday unanimously approved plans for the new Republic while other Arab states looked on with mingled interest and apprehension.

Nasser would become president of the joint state in what Middle East observers said was furtherance of his ambition to become head of a state that would include all Arab nations.

Question Extremists

Paris—Police questioned more than 20 rightwing extremists and Algerians today in an effort to find out who planted a bomb which exploded in the national assembly building last night.

A small fire was started when the bomb blew up in a washroom and one whole wing of the ancient "Palais Bourbon" was without heating today. The explosion touched off political indignation throughout France.

Business as usual went on inside the chamber this morning, and police guards were withdrawn around noon.

The group questioned today included members of the extreme rightwing party headed by Jean-Baptiste Biaggi, a former war hero and once an attorney for Gen. Charles DeGaulle.

Unemployment Benefits

Washington — More jobless Americans are collecting unemployment benefits than ever before and the total is expected to climb further, the government disclosed today. A Democratic senator introduced legislation to increase the benefits.

The Labor department said in testimony published today 2,779,000 persons were drawing unemployment insurance under state programs in the week ended January 4. The figure was almost 400,000 higher than the previous mark in January, 1950.

The department told the House Appropriations committee the total was expected to rise to 2,900,000 this month and then start a moderate downward movement in March.

Italians Reject Red Move

Rome—The Italian Chamber of Deputies overwhelmingly approved the government's firm Pro-Western policy last night and rejected a Communist resolution against American missile bases in Italy.

Only the Communists and leftwing Socialists opposed a motion supporting the Nato-oriented stand of Premier Adone Zoli's government. The Social Democrats abstained in the show-of-hands vote which closed a foreign policy debate.

U.S. Asks Russian Aims

Washington—The United States is ready to ask Russia squarely if it wants to start negotiations on a diplomatic level toward a "summit" conference, it was learned today.

A high administration source said U.S. Ambassador Llewellyn E.

Thomson, Jr., when he returns to Moscow tomorrow will put the question to Russian Foreign Minister Andrei A. Gromyko.

Thompson also will sound out Gromyko on diplomatic-level disarmament moves and other East-West problems, the source said. At the same time there was

speculation here that Russia might consent to a first step disarmament agreement in order to improve relations with the West for the next 10 or 12 years. This is the period Soviet leaders have indicated their country needs to catch up to the United States in over-all industrial production.

Red Moon Photographed

(Continued from page 1)

"We're probably within a few miles now," Professor Kirmser estimated. "We have no idea how soon we'll reach our goal, since computations and charting require a great deal of time. We may have several days of desk work to do after we stop to take more photographs."

The box-type cameras which the two men use were made by them especially for their work. "Right now we can get the shutter synchronized within a tenth of a second, and we think its possible to get this within one-thousandth of a second," Wakabayashi commented.

Charts and diagrams play a vital part in their work. One with which they work is useful in judging roughly when the rocket will fall. The two researchers say indications point towards its falling around the early part of May.

Both men insist that full credit isn't theirs. "We have a great deal of co-operation from many people, and they certainly deserve recognition for the amount of work they've done," Kirmser said.

Among the men who've helped with the project are Brock Dale, associate professor of physics; Tom Creech, instructor of applied

mechanics; and Earl Darby, professor of industrial engineering.

Kirmser and Wakabayashi say there is little chance of photographing the United States satellite in the immediate future. "We don't have a ghost of a chance with our present equipment, since the satellite is so small and our cameras just aren't fast enough," Kirmser explained.

However, the men see a possible attempt at photographing it later. Wakabayashi seems the more optimistic of the two, but both hope someday to attempt it.

"The cameras would have to be about 40 times faster. We have some faster film ordered, but even with that I doubt if we could get it now," Kirmser said.

Both men had high praise for the Manhattan Moonwatch station which saw the U.S. satellite last Sunday. "They've done a wonderful job on this. It's almost impossible, and only about two reports of having seen it at all have come from this country," Kirmser commented.

You'll be pleased with a Collegian classified.

College Gets Mills In Equipment Loan

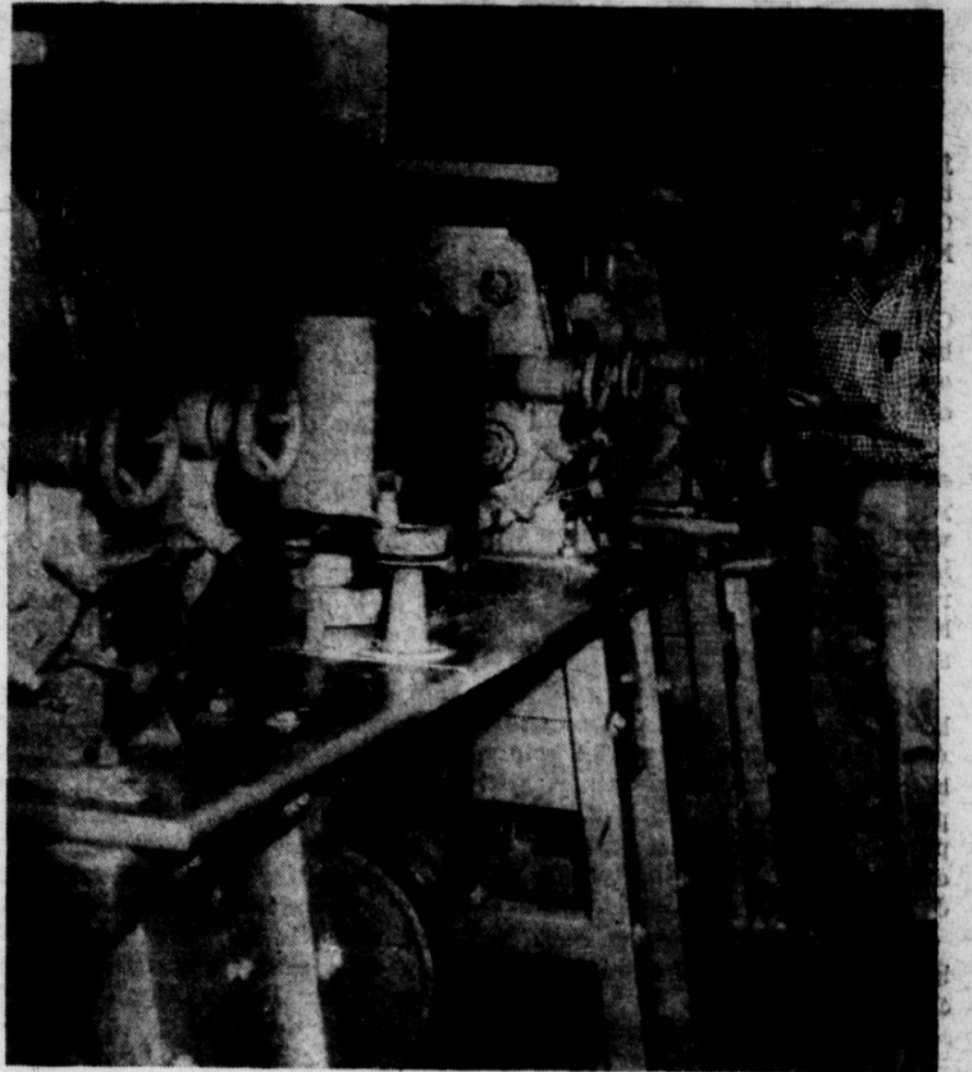

Photo by Gary Yeakley

A NEWLY MILLED BRAN SAMPLE is inspected by Dennis Jackson, MT Sr, in a test run of one of the milling department's two new experimental mills. The mills are part of a federal equipment loan to the department to replace losses from the August 25 fire. Other equipment has been ordered and will be in use in the department soon.

Cattle Trouble

Montpelier, Vt. (U.P.)—State police asked farmers to place lamps well ahead of cattle crossings after motorists complained that farmers had been driving cattle across highways before dawn causing drivers to have several near-miss accidents.

Old Olds Used For Kiddie Car

Some old cars never die, they just rust away. And that's how the automobile at the K-State Child Development center, 311 N. 14th, will probably succumb.

Costing all of \$20, the 1939 Oldsmobile is lovingly cared for by its two- and three-year-old owners, and cheerfully shown off for the benefit of visitors.

The car, which is minus an engine, still manages to take its young drivers any place they wish to go, and although one tire is flat and several fenders are in rather precarious positions, it still has an "OK" from the Kansas State Highway patrol.

This is not just any old car, however. For it has a radio (although it doesn't work) and a bug screen (even though it will probably never see a bug.) It is painted a grey-blue, except on one fender, where the green undercoater is peeking through.

Mrs. Betty C. Frogley, FCD Gr, is the person responsible for purchase of the car.

Having to find or make a new

toy for the nursery as a class project, Mrs. Frogley ran across a similar car in the yard of a nursery in Topeka. After receiving permission, she began scouting around for cheap cars. She finally found "The One."

After paying \$15 for two wheels and five dollars for other expenses, Mrs. Frogley and the children saw the wrecker bring their "new" car into the back yard. Once there, however, the movers ran into difficulty. The car had no reverse. So, before they could back it into position, the man had to jack it up and remove the transmission. The car was then pushed into place, and put into immediate use by its young owners.

Surrounded by slippery slides, teeter-totters, and jungle-gyms, many cars might be inclined to get an inferiority complex. But, as one visitor observed recently, "It looks quite proud and happy." And with its big long nose stuck way out, and its grill stretched clear around the front, it does look just that!

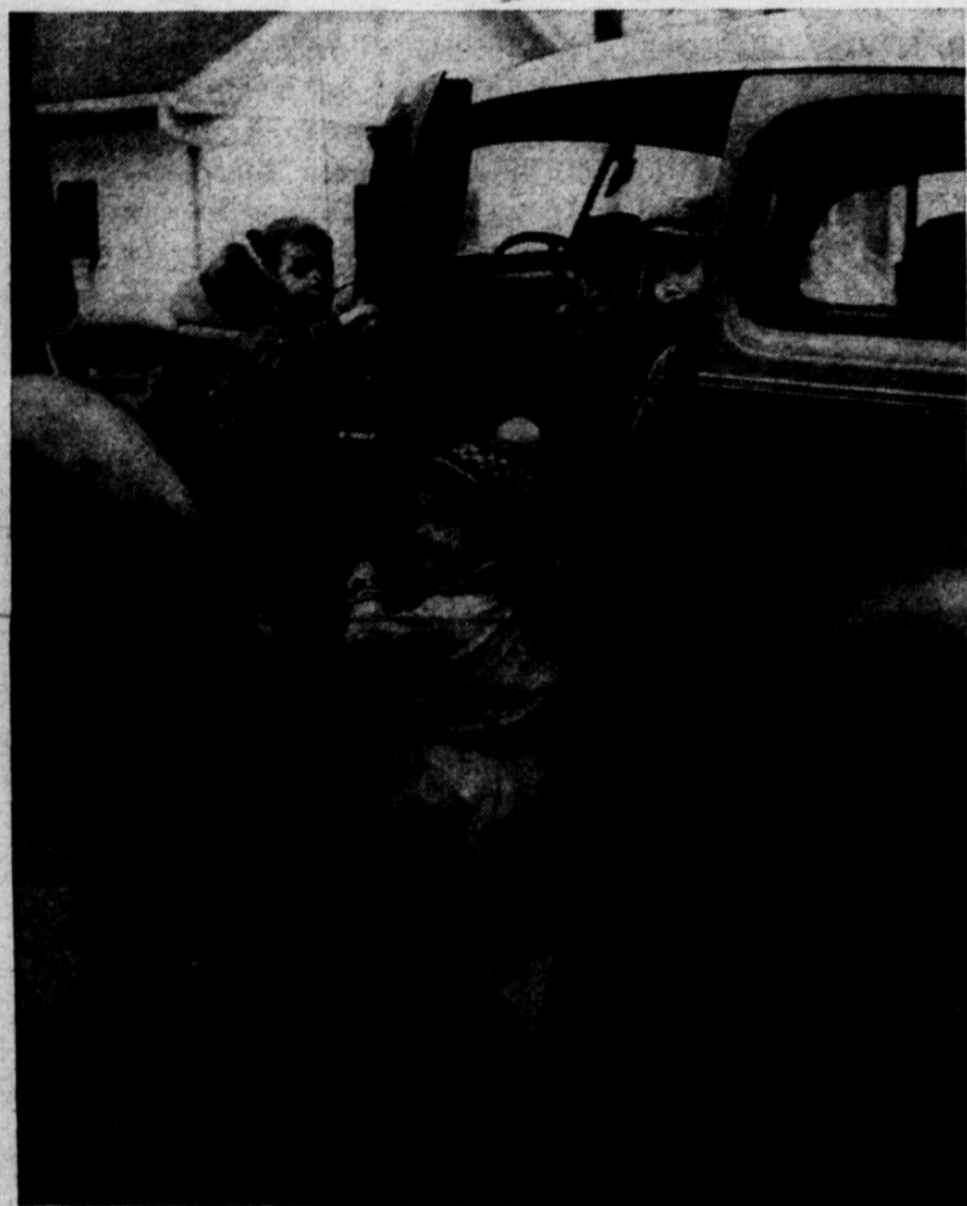

Photo by Gary Settle

A CARLOAD OF KIDDIES have a barrel of fun in the Child Development Center car, which was purchased for them by Mrs. Betty Frogley.

King Flit and His Entourage Set Up Housekeeping at KS

The quarter horse stallion King Flit and four mares of well known breeding, also quarter horses, have been given to K-State. The gift was made by Robert Q. Sutherland of Overland Park.

King Flit has such famous relatives as King's Pistol, his brother and world's champion cutting horse this year. He was sired by King P-234, regarded as one of the leading sires of registered quarter horses in the United States. King Flit was bred by Bud Warren of Perry, Okla. King P-234 is now owned by Jess Hankins of Rock Springs, Texas.

The College has had quarter horse mares before but the addition of King Flit marks the first time a stud quarter horse has been used, according to Walter Smith, assistant professor of animal husbandry. Smith also noted that the horses will be used for instruction and training of students in agriculture.

The gift was in commemoration of the services to horses of Dr. Edward R. Frank of the School of Veterinary Medicine.

Sutherland purchased King Flit in 1956 for \$10,000 but the stallion broke a bone in a rear ankle soon after he was purchased. Although the horse has not fully recovered, the injury is not expected to affect his value for breeding purposes.

Three of the mares are of Lowry breeding, and also have many famous relatives, while the fourth mare is the offspring of Joe Moore, one of the all time great quarter horses.

Home Ec Lectures Planned for Spring

Plans have been completed for the spring home economics lectures, according to Margaret Rafterington, assistant professor of home economics and a member of the Lecture committee.

Freshmen women will meet in small groups in Calvin lounge with home economics staff members for informal discussion of freshman needs, desires, and questions about college.

The sophomores will continue their visits to departmental areas to learn of the career opportunities available to home economics graduates and to see the classroom facilities of the various departments.

Junior women will tour the research areas to learn about the type of work done in research at K-State.

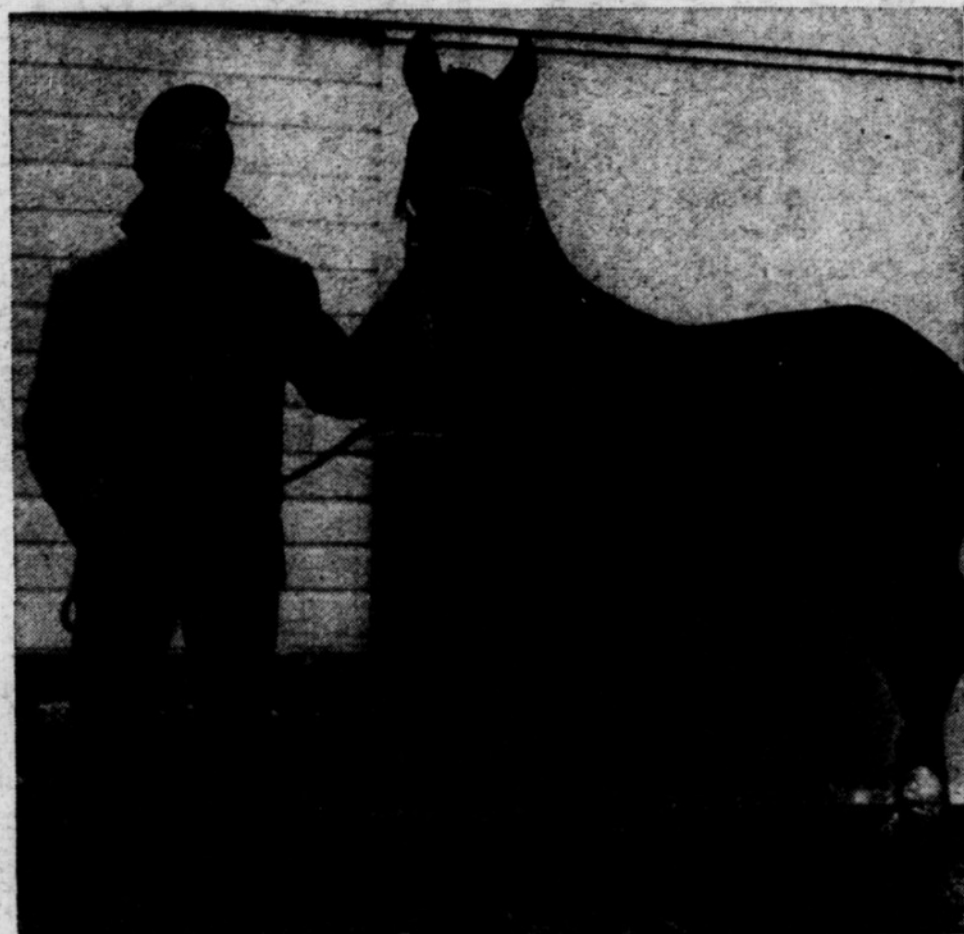

Photo by Gary Yeakley

KING FLIT, NEW REIGNING KING of animal husbandry's horse herd, is shown by Rae Luginsland, AH Jr. King and four quarter horse mares with foal were given to K-State by R. Q. Sutherland. Before his hind leg was injured in an accident King was valued at about \$10,000 as a cutting horse, according to Luginsland.

Carol Sitz, HEJ Jr, chapter correspondent; Sharon Keif, HE Soph, rush chairman; Jackie Glover, EEd Soph, assistant rush chairman; Joan Taylor, MGS Jr, senior panhellenic representative; Carolyn James, EEd Jr, junior panhellenic representative; Kay Chamness, EEd Jr, formal social chairman; Lois Bones, EEd Jr, informal social chairman; Margaret Crouch, HT Jr, activities;

Sandra Swanson, EEd Soph, A.W.S. representative; Ardith Lehman, HT Jr, historian; Jo Ellen Cooley, HGS Soph, song leader; Barbara Burns, PEW Soph, intramurals; Dorothy Kalous, EEd Jr, assistant secretary; LaDonna Keller, Art Soph, vocations; Beverly Bass, HT Soph, publicity; and Patty Jo Zajic, EEd Soph, social and civic service.

Alpha Tau Omega

Recently elected Alpha Tau Omega officers for the second semester are LaRue Anderson, CE Jr, vice-president; Leslie Ogg, BAA Soph, scribe; Ervin Stahel,

AE Sr, keeper of annals; Paul Meier, Geg Jr, sentinel; Jim Johnson, PrV Soph, usher; Clayton Griffin, EE Jr, pledge trainer; Harry Lehew, Sp Soph, house manager; and Jim Angle, TJ Soph, reporter.

Sigma Chi

Newly elected officers of Sigma Chi fraternity are Bill Koch, BA Sr, consul; Steve Douglas, PS Soph, pro-consul; Marc Asher, BPM Sr, magister; Dayton Koch, IE Jr, queastor; Bill Walter, HSp Sr, annotator; John Simmons, BA Soph, tribune; Larry Williams, BA Soph, associate editor; Neil Denton, ME Soph, kustos; and Larry Bilotta, His Soph, historian.

Acacia

Newly elected officers of Acacia fraternity are Jay Dennis Bassett, AE Jr, venerable dean; Larry Ihrig, ME Soph, senior dean; Douglas Moore, Ar 03, secretary; Larry Nelson, BPM Soph, treasurer; Norman House, Ag Jr, senior steward; Marshall Ballard, PrL Soph, junior steward;

Norman Newton, ME Soph, rush captain; Tom Amerline, NE Soph, social chairman; Gene New, VM Soph, and Larry Figgs, ME Jr, Interfraternity council representatives; Fred Loseke, ME Soph, corresponding secretary; Don Livingston, ChE Soph, fraternity publications editor; Moore, historian; Russell Hodges, AH Soph, li-

brarian; Ballard, chaplain; Hodges and Figgs, sentinels; Miles Funk, ChE Jr, intramurals chairman; and J. L. Neal, PrV Soph, publicity chairman.

Kappa Sigma

Kappa Sigmas have elected Jon Dutton, CE Sr, grand master. Other new officers are Dick Barrett, CE Sr, grand procurator; Bob Parker, BA Soph, grand master of ceremonies; Doug Ward, BAA Soph, grand treasurer; Jerome Moore, EE Sr, grand scribe; and Dean Ebel, AEd Jr, social chairman.

Theta Xi

Dick Spalding, BA Sr, is new president of Theta Xi fraternity. Other new second semester officers are Norman Jackson, EE Jr, vice-president; Gary Comfort, BA Soph, treasurer; Ronald Riggenbach, Bact Sr, corresponding secretary; Paul Ridenour, BA Sr, house manager; and Jay Tennant, BA Sr, assistant house manager.

Delta Sigma Phi

New officers at the Delta Sigma Phi house are Joe Marnell, BA Jr, president; Phillip Rush, Agr Sr, vice president; David Hotchkiss, EE Soph, secretary; Dean Gigstad, DM Jr, treasurer; and Tom Ruhlman, EE Jr, sergeant-at-arms.

Greek Groups Boast More New Pledges

Acacia

Ron Dillon, Phy Fr; Norman Pfeifer, ME Fr; and John McLeland, FT Jr; are new pledges of Acacia fraternity.

New pledges of Sigma Alpha Epsilon are Dave Stenson, IE Fr; Ray Eaton, Ar Fr; and Tom Watkins, BA Fr.

Delta Upsilon

Four men recently pledged by Delta Upsilon are Richard Goudy, ME Soph; Mike Smith, ME Fr; Hollis Pettz, ME Fr; and James MacDonald, BA Fr.

Sigma Chi

New Sigma Chi pledges are Wayne Campbell, PEM Fr; Tom Moss, GA Fr; Leonard Munger,

EE Fr; and Dan Winger, PrV Fr.

Phi Delta Theta

Phi Delta Theta recently pledged Bob Johnson, Ar Fr.

Phi Kappa

Three men were recently pledged by Phi Kappa. They are John DeCaprio, BA Fr; Nunzio Cataldo, PEM Fr; and Robert Burns, PEM Fr.

Beta Theta Pi

New pledges of Beta Theta Pi are Charles T. Prevo, NE Soph, from McPherson, and William E. Bayless, ME Soph from Blue Mound.

Delta Tau Delta

William Bickford, CE Jr, from El Dorado, is a new pledge of Delta Tau Delta.

Love Still Blooms Among KS Couples

Smerchek-Haines

Sandra Smerchek, MEI Sr, and Dick Haines, TJ '58, were married January 26 in the First Christian church. Dick is now awaiting orders for military duty and Sandra will graduate from K-State in May. Both are from Manhattan.

Clary-Vining

Pat Clary, TJ '58, and Cecil Vining, AEd Sr, were married in the First Methodist church January 26. Pat, who graduated from K-State at the semester, is now employed by the Manhattan Mercury. The couple is at home at 1439 Laramie.

Beardmore-Davis

Joanne Beardmore and John Davis, EE Soph, were married in the Crestview Methodist church in Topeka January 26. John is a member of Delta Upsilon fraternity. They are both from Topeka and will be living at 102 Hawthorne there.

Engagements

Stevens-Schultis

Chocolates were passed at the Alpha Chi Omega house to announce the engagement of Patsy Stevens, MGS Sr, to 2nd Lt. Estel Schultis, '57 AH. Estel is a mem-

ber of Alpha Gamma Rho and is now stationed at Malden, Mo.

Patsy is from Junction City and Estel is from Great Bend.

Riggs-Stout

Leeann Riggs, His Sr, and Mike Stout, AH Sr, recently announced their engagement. Leeann, a Kappa Kappa Gamma, is from Kansas City, Mo., and Mike, a member of Sigma Alpha Epsilon, is from Bazaar. No wedding date has been set.

Wallerstedt-George

The engagement of Suzanne Wallerstedt and Bob George has been announced at the Delta Delta Delta and Sigma Chi houses. Suzanne, EEd Soph, is from Manhattan and Bob, MEd Sr, is from Washington.

Prather-Rushton

Jolene Prather, EEd Jr, and Dick Rushton, IE Soph, have announced their engagement. They will be married in Wichita May 31. Jolene is a member of Pi Beta Phi and Dick is a Sigma Chi.

Alexander-Schmidt

Candy hearts at the Gamma Phi Beta house Sunday announced the engagement of Carolee Alexander, HT Jr, to E. M. Schmidt. E. M. is a junior at Emporia State where he is majoring in civil engineering. Both are from Burlington.

KANSAS STATE COLLEGIAN

Thursday, February 6, 1958-6

Cats Outscore Opponents By 12 Points a Contest

K-State's basketball team is outscoring its opponents, 71-59.3, through the 16 games played, totalling 1,147 points to the opposition's 949.

The Wildcats field goal percentage is 38.9 and the free throw percentage is 64.3. This compares with figures of 34.5 and 59.7 for the opponents.

Bob Boozer, 6-8 junior forward, is the leading individual scorer with 313 points and a 19.6 game average. Boozer is also leading in the foul department with 57 infractions.

Center Jack Parr, 6-9 senior, is the top rebounder with 180 grabs for an 11.3 average.

Wally Frank, 6-8 sophomore, is the best shooter from the field with an exceptional average of 52 per cent. Frank has hit 53 of 102 field goal attempts.

Roy DeWitz, 6-3 senior guard, is the best from the charity line with 49 of 65 free throw attempts and 75 per cent.

Last year at the end of 16 games the Cats had a 10-6 record and were in the middle of 10-game winning streak which started with a 5-6 mark. The Cats were averaging 74.2 against 65.9.

Parr, who had played in 13 games, was the leading scorer with 256 points and 19.7 average and the leading rebounder, averaging 15.3 with 198 snarles.

Parr also had the best shooting percentage with 101 of 221 shots for 45.7.

Bob Boozer was the leading fouler with 53 and guard Eddie Wallace, the only senior on last year's starting team, was the best foul shooter with 43 of 63 for 76 per cent.

Tiger Coach Gives Advice

Missouri university head football Coach Dan Devine gave the Tiger fans a bit of advice recently which probably expressed the feelings of many coaches throughout the nation.

Addressing the local club meeting at Columbia, Devine said.

"Yes, we of the coaching staff would appreciate any advice which will help our football team toward improvement. Only thing is, we would like the advice the Monday before the game and not the Monday afterward.

It is doubtful whether Monday morning quarterbacks will take heed, however.

New Grid Rule Is Good For Fans, Says Bus Mertes

By LANCE GILMORE

Bus Mertes expressed hearty approval yesterday of the new football rule-raising to two points the value of a goal after touch-down by running or passing.

"Our entire staff is pleased with the ruling," Mertes said, "and I hope it will result in more scoring. The rule will heighten excitement in the game and make it a little easier for colleges to compete with the interest in pro football.

"I think there is going to be more leniency toward offense this year. College has put a lot of emphasis on defense the last few years because coaches know they can win that way. The ruling should help swing things back to offense, and I think that is good from the spectator's viewpoint. We have an obligation to that fan in the \$3.50 seat."

Mertes said the ruling took

coaches around the country a little by surprise. "We usually have a chance to vote on that sort of thing, but perhaps it's best the committee went ahead and voted it in, as coaches can be pretty conservative."

Turning to K-State grid prospects, the head mentor cited lack of experience as the big handicap for the coming season.

"We lost a lot of boys by gradu-

ation and things don't look too good. Still, we have a lot of depth and had a good freshman crop last year so perhaps time will tell."

Mertes was noncommittal on the conference race but thinks Colorado's prospects are exceptionally good. "And then there's always Oklahoma," he added, smiling.

Spring tryouts are scheduled for April 9 and Mertes urged that anyone interested sign up now.

Strannigan Likes Wildcats But Has Hopes for I-State

"They are simply the best," is the way Bill Strannigan, whose Iowa State cagers face K-State at Manhattan Saturday, described the Wildcats after watching them take the measure of Kansas, 79-75.

Strannigan gave his Cyclones a day off Monday and scouted the game himself.

"I've been giving Bob Lamson and Glen Anderson all these good trips," he laughed, "so I decided I'd take one myself. I'm not sure it was a good thing. K-State had already done a pretty good job of convincing me it had a great team at Ames. Now I'm more scared than ever."

Actually Strannigan had nothing but praise for both teams. He liked the great play of the K-Staters, he liked the tremendous surge of the Jayhawks in coming from behind.

In fact, he liked everything about the game but the prospect of having three games with the two teams still on his 1958 schedule.

"No, I don't know how we'll play either one of them," was his answer to the obvious question. "We'll try to come up with answers by game time, though."

Strannigan did have a little more of a ray of hope though with the return to form of John Crawford, whose early brilliance had rated the Cyclones with the best of the 1958 teams.

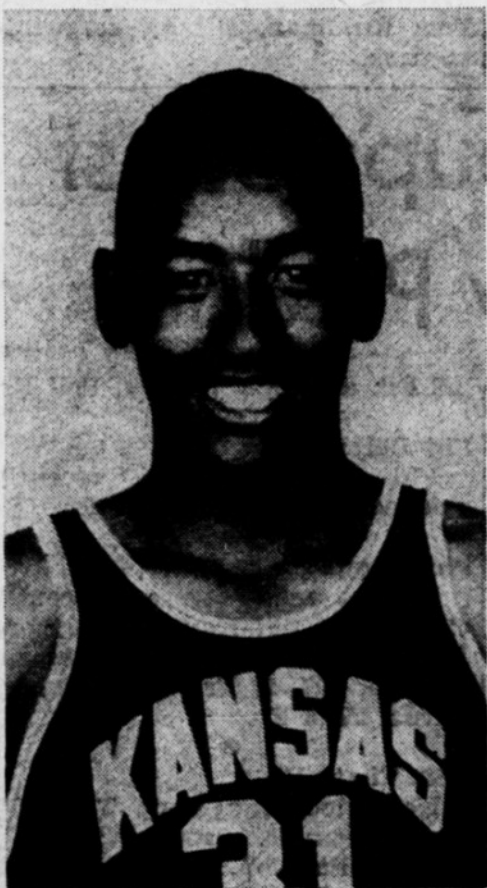

Crawford has scored 33 points in his last two outings and has given evidence of having regained full use of his injured ankle.

If John Krocheski's sprained ankle is healed then the Cyclone boss will have his squad at full strength for the game at Manhattan.

MU Loses Gridder

Columbia, Mo. (U.P.)—Bill Richardson, counted on as one of Missouri university's brightest football hopes for coming seasons, withdrew from school yesterday, it was learned today.

Richardson, a 200-pound back, will enroll at Fort Scott, Kan., junior college, it was reported. There was no immediate announcement as to the reason for the withdrawal.

BIG BOB BOOZER is pacing the K-State scoring with 313 points and a 19.6 point a game average. Boozer finished the season with this exact same average last year.

No Room

New Haven, Conn. (U.P.)—The key to room 44 of the Tontine Hotel was returned a bit too late. It wound up in the postoffice which was built on the site of the hotel which was razed 45 years ago.

UNDER NEW MANAGEMENT

Predicting Rougher Times

TEX WINTER AND BUS MERTES are both smiling in this picture but neither is over-optimistic about the future. Winter knows that his cage team will be the target for all conference opponents since it is in the driver's seat of the Big Eight race. Mertes will be faced with the problem of replacing a lot of experienced personnel when his football squad begins spring practice April 9.

Temple on the Prowl With 14 Straight Wins

By UNITED PRESS

The Temple Owls, with a classy string of 14 straight victories, don't give a hoot about all those raves for Wilt Chamberlain, Oscar Robertson and Elgin Baylor; they'll still take Guy Rodgers, the guy they're counting on to lead them into a post-season tournament berth.

More than any other player, the 22-year-old Rodgers has been responsible for the current Temple winning streak that has made the Owls the nation's eighth-ranked team.

Rodgers not only has averaged 20 points per game this season, but he calls out the plays for the Owls—even as he is dribbling down the floor—and plays a spectacular defensive game despite the fact he is only 6-0 tall and generally goes against much bigger opponents.

His performance against Duquesne in a 72-48 victory for Temple last night was a typical one.

Rodgers was individual high scorer with 25 points. He also had six assists and six rebounds.

Oklahoma State and Bradley, the other two teams in the top

ten who played last night, also encountered a minimum of difficulty.

Seventh-ranked Oklahoma State chalked up its 14th win in 16 starts by whipping Tulsa, 64-46, while ninth-ranked Bradley topped Arizona, 71-58.

Arizona crept to within a point of Bradley early in the second half of their game but the Braves then moved ahead by 10 points and led by 18 with less than six minutes left. Reserve forward Gene Morse was Bradley's high scorer with 16 points.

Villanova had to rally to defeat Seton Hall, 72-64, for its eighth win in 13 games. Villanova frittered away an early 25-9 lead but then came on to score 16 points late in the second half while Seton Hall scored only two. Joe Ryan was high scorer for Villanova with 22 points.

Wildcats Match Top Mark In K-State's Cage History

By PAUL DeWEESE
K-State Sports Publicity Director

When K-State ripped the nation's basketball waters with a 79-75 win over Kansas—ranked first by one poll—the Wildcats attained a 15-1 season mark to match the best cage record in K-State's history.

Only the 1947-48 squad, which went on to place fourth in NCAA play, had as good a record.

That Wildcat win set other

marks, too. It was the first time in two seasons that KU had been defeated by anything more than a two-point margin; it was the Jayhawks' first home defeat with all-American Wilt Chamberlain in the lineup.

It was the most points scored on Kansas this season (in fact, it matches the 79-point high of last season set by Missouri in a 92-79 loss); and it was only the second K-State win over

the Hawks in the last 12 games.

"It was a tremendous win, and it took a whale of a ball game to do it," said Coach Tex Winter. "Now we have seven big scraps ahead—and anyone of them can tumble us."

It's not that Tex lacks confidence in the current Wildcat team. Far from it, he explains. "I feel that we have all the ingredients of a truly great basketball team.

"We have good height, good speed, great playmaking, and good shooting. Our lack is in hitting from outside, and we may even overcome that.

"We know, however, that all our opponents will be pointing for us even more than ever, and among them are some real good basketball teams."

Which one of the upcoming Wildcat foes offers the biggest worry: "That's easy," said the Cat coach. "Iowa State here Saturday, because the Cyclones are next. In a league as rugged as the Big Eight, nobody dares look beyond the next game.

"But in addition to that, Iowa State is among the conference's best. They were picked among the league's top four contenders in pre-season polls, and that's where they belong."

Jayhawks Shatter Marks In Track Meet with OU

By UNITED PRESS

A strong Kansas university track team unofficially shattered one conference mark and made shambles of meet records last night as it whipped Oklahoma 67-37 in the first indoor meet of the year for both.

Kansas, winning nine of 12 events, broke three meet records and tied two others. KU's Ernie Shelby leaped 25 feet, 4 inches, the longest broadjump in conference annals. However, his mark will not be entered as the Big Eight recognized only those records established in its annual meet.

Tom Skutka broke the mile run record by beating Oklahoma's highly-rated South African, Gail Hodgson. Skutka's time of 4:15.4 bettered the old record by 2.5 seconds.

Charlie Tidwell nipped the Sooners' Dee Givens in a record time of 6.2 in the 60-yard dash and the Jayhawker's Bill Tillman equaled the 60 yard high hurdle record of 7.5 seconds.

Kansas displayed tremendous depth, which should make it formidable in what coach Bill Easton termed "our toughest meet on the year" the Michigan State relays at Lansing this Saturday.

The Jayhawks' Al Oerter won the shot put event with the second longest heave in conference history, either indoor or out. The 1956 Olympic entry's shot traveled 56 feet, 2 inches.

Harp Changes Hawk Lineup For NU Game

Kansas Coach Dick Harp will change his starting lineup for the first time since the second game of the year when Sophomore Bob Hickman moved up at guard against Nebraska Saturday. He is sending up another rookie, Al Donaghue, 6-4½, 205-pound forward, in place of the veteran Monte Johnson. Donaghue spun his best effort in the 75-79 loss to K-State, banking four goals and fighting hard to contain 6-9 center Jack Parr.

Despite a 2-2 conference level, 2½ games back of league-leading Kansas State, there is no feeling at Kansas of conceding the flag until all the results are in.

Fencers Meet Tonight

An organizational meeting of fencing enthusiasts will take place at 7:30 this evening in Nichols 108. The aim of the group, according to Herman Zillmer, graduate assistant of speech, will be to schedule matches with other teams in the area for next year. Anyone interested in fencing is invited to attend.

OPEN THURSDAY NIGHT TILL 9:00 P.M.

Cinema 16 To Show 'Oliver Twist,' English Film

"Oliver Twist" by Charles Dickens will be shown today at 7:30 p.m. in the Union little theater in the Cinema 16 series. Single admission is 60 cents.

The film of the classic novel stars Robert Newton, Alec Guinness, Kay Walsh, Frances L. Sullivan, and John Howard Davies.

Other movies scheduled for the spring semester are: February 20—"Rendezvous with Juliette" (French), March 6—"A Midsummer Night's Dream" (English), March 13—"One Summer of Happiness" (Swedish), March 20—"Hidden River" (Spanish), April 10—"Great Expectations" (English), April 24—"Gate to Hell" (Japanese), May 8—"This Strange Passion" (Spanish).

Campus Industries

Four positions on the Campus Industries committee are now open, according to George Hooper, BA Sr. Applications may be obtained in the SGA office located in the activities center of the Student Union.

Applicants will be interviewed

and appointed by Student Council. Immediately after the appointment of new committee members, a committee chairman will be chosen. Work will consist of helping to improve business relations between the campus and local Manhattan businessmen and working with the Placement center in finding employment for students.

Amateur Radio Club

Three films about radar will be shown at today's meeting of the K-State Amateur Radio club. Everyone interested will be welcome at the meeting in Room 11 of the Military Science building at 7:30 p.m.

Scholarships

An initial gift of \$1,000 has been received by the Endowment association for the establishment of the "Thomas G. Hobbs Memorial Scholarship."

Kenneth M. Heywood, development director, said the money

will be used to support a program of scholarships for students in agricultural economics.

The gift is from Miss Helen E. Hobbs of Kansas City, Mo., honoring the memory of her brother, who was a resident of Concordia. Hobbs was a farm loan administrator and also was in the wholesale grocery business there.

Collegiate 4-H

The staff for the special issue of the Kansas 4-H Journal has been selected, according to Pat Goings, SED Soph, business manager of the magazine.

Staff members are Ann Eklund, HDA Sr, editorial manager; Miss Goings, business manager; Pat Todd, HT Sr, copy manager; Emily Douthitt, EED Jr, and Connie Clary, EED Soph, copy assistants; and Marjorie Roeckers, county representative manager.

Assistants to Miss Roeckers are Ilene Davey, HT Jr, for the northwest district; Jim Lonker, Ag Soph, southwest district; Rogene Davis, EED Soph, central district; Jerry Hundley, ChE Soph, northeast district; Betty Sellers, HDA Sr, southeast district. Collegiate 4-H club manager is Beverly Richardson.

Material for the Journal is obtained from all counties on each project and activity. It is not only for recognition of outstanding members but is also a guide for original ideas to interested 4-H members.

Fifteen thousand copies of the 4-H Journal are to be printed this year, according to Miss Goings.

Each county has a county representative who works with the Collegiate 4-H district county assistant. These representatives gather the basic material and pictures of the outstanding projects. Then Miss Roeckers and her assistants write the copy.

Alpha Lambda Delta

Charter members of Alpha Lambda Delta, honorary for freshmen women, have elected officers for the spring semester. Anne Pederson, BPM Jr, is president; Ilse Reiling, Art Sr, vice-president; Betty Emery, HT Jr, secretary; Carol Exline, PEW Jr, treasurer; Carolyn Eby, BA Jr, historian; Peggy Daniels, Eng Jr, senior adviser; Patsy Garner, junior adviser.

Members of the honorary must have a 2.5 average for at least one semester of their freshman year.

Jr. AVMA

A lecture on horseshoeing as it is related to veterinary work was presented at Tuesday's meeting of Jr AVMA. M. Sgt. Harrison M. Murphy of the Army ROTC staff was guest speaker.

Faculty Review

A faculty review called "Strike Me Purple" will be presented for the student body by the faculty March 10 and 11 in the Union little theater. It is being sponsored by the Union campus entertainment committee.

According to the show's producer-director, Dr. John L. Robson, associate professor of speech, "It will be a faculty version of Ed Sullivan's show." Sketches, monologues, dances, songs, and movies will be presented.

Any faculty member interested

in participating in the program in any way, is asked to contact Doctor Robson at the Speech department.

Pi Tau Sigma

Gene Fox, ME Sr, has been elected president of Pi Tau Sigma, mechanical engineering honorary. Other officers are Sydney Rinard, ME Sr, vice-president; Bill Pierce, ME Jr, recording secretary; Frank Jurenka, ME Jr, treasurer; Glen Bullock, ME Sr, Armin Brandhorst, ME Jr, and Melvin Schwartz, ME Sr, indicator card editors.

Advancement of Management

Dr. Reed F. Morse, head of the Civil Engineering department, was the guest speaker at the meeting of the Society for Advancement of Management Wednesday. According to Don Beck, IE Sr, editor of the chapter bulletin, Dr. Morse told the group about objectives and advantages of national professional societies.

NUMBER 80

Ellington Engaged For Jazz Concert

Petition Asks Whistle Return

Arrangements have been made for the appearance of Duke Ellington to perform on the K-State campus April 9, according to Ron Leslie, Ec Jr, arrangement chairman of the Jazz club. This and other issues were discussed by members of the club at the Tuesday meeting in the Union.

Leslie said admission prices and other necessary information will be supplied next week. He also noted that all Greek houses have consented to cancel their chapter meetings on that night so their members will be able to attend the concert.

Plans were also discussed for bringing George Shearing and his group to the campus for a concert late in May, but as yet nothing definite has been arranged.

It was thought last semester that Sarah Vaughn might be able to perform here, but according to Leslie difficulties have appeared and it is now doubtful if she will be able to appear.

The Ellington performance will bring the total of jazz musicians who have appeared on the campus to four. Others are Dave Brubeck, Stan Kenton, and Louis Armstrong, who will appear March 8.

UPC Names Cummerford To Publicity

Union Program Council last night selected Jackie Cummerford, BAA Jr, as Union Publicity chairman, according to Lowell Novy, president.

Other business consisted of oral reports by committee chairmen concerning activity plans for the semester.

The first all-school event will be a dance sponsored by the Union dance committee after the Iowa State-K-State game Saturday.

The dance will feature Bob Dougherty and his band. Casual dress is the order of the evening, and the admission will be \$1 per couple.

The works of Saul Steinberg, leading cartoonist, will be on exhibit in the art lounge beginning today.

February 10 the Union Games committee is sponsoring a Worst Bowler contest, with prizes being given the three lowest scores. Students may sign now at the games desk and pay 80 cents entrance fee.

February 13, the night of the Big Four Plus Two Talent Show, is another date to keep in mind. Rounding out the February Union activities will be a listening party scheduled on the 22nd, the night of the Missouri-K-State basketball game.

March 7 and 8 are red-letter days for K-State with Louis Armstrong and his band on campus. The seventh is the Union birthday party, with activities beginning at 3:15 p.m. in the Union for a full day's entertainment.

'Big 4 Plus 2' Ticket Selling Begins Today

Ticket sales for the Big Four Plus Two talent show went on sale this morning at the information desk in the Union lobby. The show will be presented Thursday, February 14 at 7:30 p.m. in the College auditorium.

This year's fare will include three entries each from the same schools that sponsored last year (KU, K-State, NU), two acts by Missouri, and one apiece by Iowa State and Oklahoma.

This year the show will go on the road for the first time, beginning here on Thursday, traveling to Lawrence for the next evening's performance, and finishing at NU at Lincoln on Saturday.

FROM THE RANKS of those "for whom the bell tolls" came support last night for the petition asking for the return of the familiar whistle, stilled recently by request of disgruntled petitioners. From left, those above are Mary Jo Cochran, SED Fr; Jane Byler, BMT Fr; Jacqueline Johnson, PEW Fr; Dale Evans, PEM Fr; and Bob Conover, Eng Jr. Conover reported about 450 students have signed the petition so far.

Senior Activity Cards For RP Due Saturday

Senior activity cards for the 1958 Royal Purple must be returned to Student Publications, K103a, by Saturday if the information is to appear in the yearbook.

Any senior who did not receive an activity blank may obtain one at K103a.

The cards provide space for such data as special awards, organizations and offices.

Editor Marcia Boyd emphasized that this material cannot appear with the student's picture if the cards are not turned in by the deadline.

Theme of Orpheum Shows Is 'Pardon the Expression'

"Pardon the Expression" is the 1958 theme of the annual Y-Orpheum show, March 28 and 29, featuring seven double entries and one single.

The four judges are Don Hurley, WIBW continuity and production co-ordinator; Professor

Everett Fetter, Music department head at Washburn university and conductor of the Topeka Symphony orchestra; Ronald Gold, literature instructor at Washburn university and director of the Topeka Civic theater; and Jeanie Hunter, traffic manager

of KJAY and an employee in the continuity department of Young and Rubican, an advertising agency.

Sigma Nu offers the one single entry. The skit is a modern adult western entitled "Go West, Young Man, Go West."

"Out of This World," the theme of the Alpha Delta Pi and Phi Delta Theta entry, will take the audience on an imaginary trip to Mars, Jupiter, and Venus.

The Alpha Xi Delta and Sigma Chi skit is a satire on Student Health entitled "Is There a Doctor in the House?" The plot revolves around curing natives of a disease on a South Sea island.

A large "backward Tennessee" family tries to marry off their naive daughter in the Alpha Chi Omega and Alpha Gamma Rho entry, "You Can't Tell a Book by Its Cover," a take-off on the novel, "Little Women."

"Get Thee Behind Me Satan," the Beta Theta Pi and Delta Delta Delta skit, involves two angels who visit Inferno.

The Kappa Deltas and Alpha Kappa Lambdas will dramatize the familiar college expression, "Shape Up or Ship Out." A group of college girls board the wrong boat and then decide to "shape up" the crew.

A satire, "Snow's Plight and Seven Minors," is the entry of Chi Omega and Alpha Tau Omega. The plot develops when Snow White runs away from home because her mother would not let her join show business.

The Gamma Phi Beta and Tau Kappa Epsilon skit, "Go to Hell," is a take-off on Dante's "Inferno." The plot revolves around the seven sins of college life.

Catholic Poetess Will Highlight Religious Emphasis Speeches

"Religion and Literature" is the theme of Religious Emphasis week this year, February 16-21, according to Dr. William C. Tremmel, director of student religious activities at K-State.

President McCain will be the first speaker and on the same program guests and the week's speakers will be introduced. A reception and coffee period follows.

Highlighting the first full day—Monday, February 17—will be Sister Madeleva, president of St. Mary's college, South Bend, Ind., and internationally-known poetess, who will speak at an assembly.

Sister Madeleva has won several awards for her poetry, including the Siena Medal and the Cum Laude Poets' Corner medal. St. Mary's college is the women's counterpart to the University of Notre Dame.

Also scheduled for Monday is a roundtable discussion and coffee, an assembly speech followup in the Union, two seminars, a

literary review, and discussion of the Gospels of Matthew, Mark, and Luke.

On Tuesday a skeptics' hour is scheduled. Two more seminars

are planned for that day plus a new testament talk, another review, and a faculty forum.

Two seminars and an evening service are on tap Wednesday.

Scotland Yard Detective To Talk Here Monday

Robert Fabian, former superintendent of Scotland Yard and Chief of its Detective division, will reveal "Secrets of Scotland Yard" at an all-College assembly Monday at 9:30 a.m.

Fabian has an international reputation for breaking difficult cases and his program is designed to interest those whose knowledge of crime detection is limited to "whodunits."

He has enhanced this reputa-

tion by a series of 39 television programs based on his service at Scotland Yard. He is author of two best sellers, "London After Dark" and "Fabian of Scotland Yard."

After being educated in London Fabian joined the metropolitan police there, rising from a constable on the beat to sergeant, inspector, chief inspector, and then superintendent.

The usual schedule of shortened classes will be followed.

"A loaf of bread,...A jug of wine,...But Whistle!...Where art thou?...!"

Inquiring Reporter

Should the Whistle Whistle? Student Opinion Is Varied

By Terry Knowles

A NUMBER of K-State students were interviewed yesterday concerning the College whistle which no longer sounds at its old times. When asked the question, "Would you be in favor of the power plant whistle blowing again at its regular times?", five students answered with an emphatic yes, one answered no, and four gave affirmative replies but qualified their answers.

THE WHISTLE, which has been marking the time on this campus for many years, was silenced by an order from the administration on December 21. Several arguments were given on both sides of the question by the students interviewed.

GEORGE PODCHUN, CE Jr—Yes, I'd like to hear it blow again. I live near the plant and it didn't bother me. It has been sort of a time piece for me. I'd like to see something done to get the whistle working again.

CLENECE ROBERTS, Sp Soph—We need a tradition like KU's Campanile. Yes, I would like to hear the whistle blow again just for a tradition.

LARRY CRITES, Ar 01—I would like the whistle if it were not so loud and if it didn't have such an odd tone to it.

BOB ANDERSON, BA Soph—It's okay

for the whistle to blow in the afternoon but the early morning whistle should not start again.

BOB SANDERS, MGS Soph—Yes, it was rather a tradition for the whistle to blow here at school and it was usually on time.

DAVID ADAMS, AEc Jr—I believe it's another way of saving on Governor Docking's budget and it is just a waste of time for the whistle to blow. It also caused a disturbance.

JUDY STARK, SED Soph—There are advantages and disadvantages to the whistle, but it would be convenient for the students if the whistle would blow again.

LEE BREWER, AA Jr—Yes, I'd like to hear it blow again because when it blows you can tell if you're late to class.

DON ARGABRIGHT, AH Soph—Yes, it's rather traditional, and it is a good time piece. I don't see why it was discontinued in the first place.

CARL JAMES, EE Sr—It's a pretty good thing for the people off campus but the whistle is awfully loud for the people who live in the courts across the street from the power plant.

World News

New York Schools Suspending Pupils; New Outbreaks Prompt Official Action

Compiled from United Press
By CHAS. H. SCHREIBER

New York—School officials today began suspending pupils charged with criminal violence in an effort to rid classes of young hoodlums and "protect the innocent."

Spurred by new outbreaks of beatings and stabbings, the board of education ordered that any pupils "charged with a violation of law involving violence or insubordination shall be forthwith suspended from regular school attendance."

Preliminary unofficial estimates indicated up to 600 pupils might be affected. A board spokesman said officials expected to have a figure by noon today on how many convicted youthful offenders are now attending the city's 800 public schools.

The school board was said to have adopted its new policy as the immediate result of two incidents Wednesday in which a school monitor was stabbed by a fellow student and another monitor was beaten unconscious by three other pupils.

A few hours before the suspension order was issued, a grand jury that has been investigating school violence in Brooklyn handed up a fifth presentment critical of school policies in handling juvenile delinquency. The jury urged a

broader policy on weeding out lawless youths from the schools and declared "prompt emergency action is necessary."

Foil Assassination Plot

Cairo—Five persons were under indictment of the Egyptian government today on charges of plotting to assassinate President Gamal Abdel Nasser and restore the monarchy to Egypt.

The accused included Ahmed Mortada, former interior minister under ex-King Farouk, another Egyptian, two Lebanese and a Turk. All are living abroad.

An Editorial

Silenced Whistle Uproar Provides Interesting Game

Never have we heard of a campus—or even a community, for that matter, so much up in arms as is Kansas State over the steam whistle which was discontinued at noon on December 21.

We've had students, faculty and staff employees call us, write us, tell us and send word by friends that they want, or don't want, the reinstatement of the whistle. And the comments are just as varied as the commentators.

While doing research for yesterday's story on the facts concerning the whistle, we ran across a number of rumored reports which perhaps have some basis and interest for readers who are watching the controversy.

First of all, let it be pointed out that elimination of the whistle apparently wasn't a result of complaints from student wives in behalf of the welfare of their children. Although those living particularly close undoubtedly are disturbed by the noise, reports are that a large number of them have adjusted to the whistle—just as they did to the low rent and the cramped quarters—and it's a comparative few who gripe.

Next, it's interesting to note that at least one petition which was passed among faculty members came about as part of a game—that of determining what power a "pressure group" has on Kansas State's campus.

Rumors have it that a contest was carried on in one department to learn how many people signed which petition (for or against the reinstatement of the whistle), and whether it was because of a preference, a joking attitude, or the fact that a departmental "wheel" (could we call him the big boss?) had signed one vetoing the whistle.

After these petitions were acted upon by the powers that be, we learned that a letter had been sent by one professor who protested quite vehemently on the "factory atmosphere" which a steam

whistle gave the campus. He further asserted that learning did not begin at 8 a.m. and 1 p.m., nor did it end at noon and 5 p.m.; therefore, he expressed the fear that students might get this wrong impression and judge their study hours accordingly.

He described—both in the letter and verbally—the whistle as a "symbol" of what the College is or is not, and urged that under no circumstances should it be continued.

President McCain, who asserts that he believes in the campus as a "Community of Scholars," has turned the entire matter over to the Faculty Senate, which will meet Monday to take final responsibility in the situation. He has stated that the College will abide by its final decision.

What we found most interesting in all this was the symbolic emphasis, and the idea that students were led to believe that education was on an eight-hour schedule.

We can't help but question the motives behind the professor's beliefs.

Since the whistle does have a secondary purpose, that of an emergency fire alarm, which might be made ineffectual by lack of use (according to Case Bonebrake), we wonder if there isn't more value in keeping the whistle than in satisfying a departmental, or even an entire school's, desire to eliminate "symbols."

We'd even go so far as to point out that this might be a basic difference between various departments and schools—that it might be interesting to question whether a group believes in what it is doing, or is simply doing it to destroy the "symbols" of others!

A student petition is presently being circulated in favor of the whistle, and it will be presented to the Faculty Senate for consideration Monday. One of the students responsible commented, "Whether or not it's a symbol isn't important. The whistle is used as an emergency fire alarm and is the sole time-piece to synchronize watches on campus."

Perhaps these students are simply looking for a good battle—but when the Senate meets Monday, we hope it looks at the purpose behind the demands which will be presented. Although student rebellion against silencing the whistle may be a game, too, we still can't believe that students are gullible enough to think the whistle marks quitting time for learning.

Campus conflict is becoming more apparent in scheduling. We're not sure who's responsible for the continual doubling up of events, but the activity center, Student Activities board and Student Council might well get together to correlate things.

For instance, the same night of the play "Juno and the Paycock," Louis Armstrong will be forced into the Livestock Pavilion for his concert. The play, of course, is in the Auditorium. Not that our College auditorium is any jewel, but isn't it rather adding insult to injury to schedule him in the "Cow College's Colossal Cowbarn?"

And just to make things really bad, we're wondering if anyone noticed that seven weeks exams will run concurrently with Religious Emphasis Week?

Activities

New KS Women Enrollees Feted at 'Spicy Tea Party'

Hot tea was served at a "Spicy Tea party" in the Union art lounge Thursday at 4 p.m., as Associated Women Students staged an informal orientation session for new women students who enrolled at K-State this semester.

A good portion of about 45 new women students attended the tea and got to meet each other. Short welcoming speeches were given by Margaret Lahey, dean of women; Neil Scott, Soc Sr, student body president; and Patsy Garner, EEd Jr, president of AWS.

Royal Purple

Students are needed to work in the business office for the 1958 Royal Purple. One hour of college credit will be given for three hours of work a week. Interested students should see Marcia Sowers, TxC Jr, RP business manager, or apply in Kedzie 103A.

Debate

Bill Hiatt, Ar 03, and Dan Hahn, Sp Jr, represented Kansas State college in a joint debate with a University of Kansas debate team that was held in Topeka today in connection with the carpenters' union convention. The teams debated the right-to-work issue.

K-State Masonic Club

George Smidt, IE Jr, was recently elected president of the K-State Masonic club. Other new officers are "Pete" Klein, GA Sr, vice-president; Ted E. Purvis, BA Soph, secretary; Don Dutton, EE Jr, treasurer; and Enoch Kenworthy, Hrt Gr, sergeant at arms.

Junior Recital

Janice Marie Casey, MAV Jr, mezzo-soprano, will present a Junior recital Monday at 8 p.m. in Chapel auditorium. Yvonne Hodges, MEI Jr, will be the accompanist.

The program includes "Alma Mia," Handel; "Dank Sei Dir, Herr," Handel; "She Never Told Her Love," Haydn; "L'esclave," Lalo; "Ouvre Tes Yeux Bleus," Massenet; "The Green River," Carpenter; "Springtide," Becker; "Nina Bobo," Crist; "Transformation," Watts; and "Laus Deo," Milford.

AVMA

"Class night" was the theme of the meeting of the American Veterinary Medical association auxiliary last night in Umberger hall. Members divided into groups according to classes and presented skits and other enter-

tainment, according to Rosemary Sherman, publicity chairman.

Varsity Men's Glee Club

The Kansas State college varsity men's glee club will sing at halftime of the K-State-Iowa State basketball game Saturday night in Ahearn field house.

Director Morris Hayes' 75-man group will sing the "Whiffenpoof Song," "Nothing Like a Dame," and "I Could Have Danced All Night."

Recruiting Team

A recruiting team from the U.S. army electronic proving ground at Ft. Huachuca, Ariz., will be on campus February 7 to seek scientific and technical personnel for employment.

Chester Peters, director of Placement center, said the proving ground seeks to hire around 60 young scientists this spring.

Union Movies

"Titanic" will be shown in the Union little theater tonight, Saturday and Sunday at 7:30 p.m. Admission is 25 cents.

The film stars Barbara Stanwyck, Clifton Webb and Robert

Wagner. Walt Disney's "Beaver Valley" will be the short subject.

Other movies scheduled for the spring semester are: February 14, 15, and 16, "The Robe"; February 21, 22, and 23, "Three Coins in the Fountain"; February 28, March 1, and 2, "The Thirty-Nine Steps"; March 7, 8, and 9, "Showboat"; March 14, 15, and 16, "The Man in the White Suit."

March 21, 22, and 23, "Love Is a Many Splendored Thing"; March 28, 29, and 30, "Genevieve"; April 11, 12, and 13, "Dial M for Murder"; April 18, 19, and 20, "Gentlemen's Agreement"; April 25, 26, and 27, "The Deep Blue Sea"; May 2, 3, and 4, "The Story of Three Loves"; May 9, 10, and 11, "With a Song in My Heart"; May 16, 17, and 18, "Where's Charlie"; and May 23, 24, and 25, "Phantom of the Rue Morgue" and "Return of the Vampire."

Jr. AVMA

M-Sgt. Harrison M. Murphy of the Army ROTC staff was a recent guest speaker at a Jr. AVMA meeting. Murphy presented a lecture accompanied with color slides on the practice of horseshoeing as it relates to veterinary work.

Payne Poultry Award Won by Loyd Vernon

Loyd Vernon, PH Sr, is the first winner of the \$200 Loyal F. Payne poultry scholarship.

The newly established award is to be made annually to a junior or senior majoring in poultry husbandry, according to T. B. Avery, K-State Poultry department head.

The recipient must have "good scholastic standing, demonstrate leadership, and be in need of financial assistance."

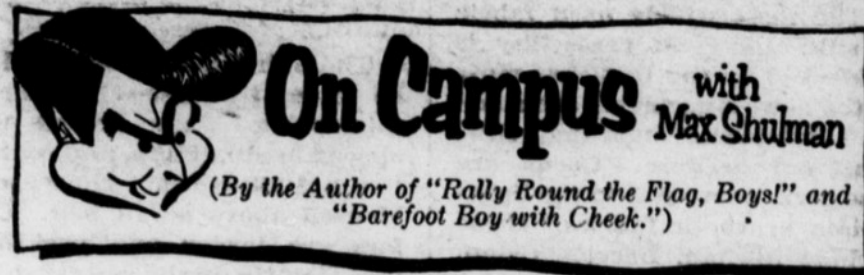

Vernon is president of the National Collegiate Poultry club and the K-State Poultry Science club. He was a member of the K-State poultry judging team which placed

second in national competition in Chicago last November.

Avery said the award was made possible through friends of Payne, who was head of K-State's Department of Poultry Husbandry from 1923 to 1954, and currently is president of the American Poultry Historical society.

Vernon was a member of the K-State poultry judging team which placed second in national competition in Chicago last November.

He is a 1947 graduate of Oberlin high school and is married and has three children.

A SCHOOL AWAY FROM SCHOOL

Students majoring in science, like all other American students, have a wild yearning for culture, but, alas, when a student is after a degree in engineering or math or like that, he simply does not have time to take all the liberal arts courses his heart pines for.

And what is being done about this unhappy situation? I'll tell you what: Enlightened corporations everywhere are setting up on-the-job liberal arts programs for the newly employed science graduate—courses designed to broaden his cultural base—for the enlightened corporation realizes that the truly cultured employee is the truly valuable employee.

Take, for example, Lambswool Sigafos.

A week after his graduation, Lambswool reported to Mr. Femur, the personnel director of an enlightened corporation engaged in the manufacture of cotter pins and wing nuts. "How do you do?" said Lambswool. "I'm Lambswool Sigafos and I've come to work."

"Sit down," said Mr. Femur, chuckling kindly. "Have a Marlboro."

"Thank you," said Lambswool. "I like Marlboros. I like their filter and their flavor."

"Me too," said Mr. Femur, blinking humanely. "And I like their flip-top box. When my flip-top box of Marlboros is empty, I use it to keep fish hooks in."

"Know what I do when my flip-top box of Marlboros is empty?" asked Lambswool.

"What?" said Mr. Femur, sniggering graciously.

"I buy some more Marlboros," said Lambswool.

"A sound idea," said Mr. Femur, vibrating fetchingly. "But enough chit-chat. Come along to the campus."

"Campus?" said Lambswool, puzzled. "But I've come to work. Take me to my drawing board."

"This is an enlightened corporation," said Mr. Femur, yodelling viciously. "First you must get your cultural base broadened."

Mr. Femur took Lambswool to the training campus, which looked like any other campus. It had ivy-covered buildings, dormitories, fraternity and sorority houses, a stadium, a deer park, and a moat. Lambswool was given a roommate, a beanie, and copies of the company hymn and rouser, and the enlightened corporation proceeded to fill the gap in his culture.

The Corporation Proceeded to fill the Gap in his Culture

First he was taught to read, then to print capital letters, then capital and small letters. Then there was an attempt to teach him script, but it was ultimately abandoned.

From these fundamentals, Lambswool progressed slowly but steadily through the more complex disciplines. He was diligent, and the corporation was patient, and in the end they were rewarded, for when Lambswool finished, he could play a clavier, compose a triolet, parse a sentence, and identify the birthstone for every month of the year.

His lengthy schooling finally over, Lambswool was assigned to an important executive position where he served with immense distinction. . . . Not, however, for long, because one week later he reached retirement age.

Today, still spry, he lives in St. Petersburg, Florida, where he supplements his pension by parsing sentences for tourists.

© 1958, Max Shulman

Here's a sentence that's easy to parse: Subject—you. Verb—get. Object—a lot to like in a Marlboro, whose makers bring you this column throughout the school year.

Vivid Hues Appear On Fashion Scene

By KATHY SCHULTIS

K-State coeds with an eye for the newest fashions are welcoming easy-fit clothes in rich colors and fabrics for spring.

The richest colors on the spring horizon are primavera green, marine blue, and sun-drenched marigold. Tints and shades of these colors in floral prints, tweeds, checks, and plaids are blazing their way into the fashions. Colors get together in the newest clothes when brilliant pink and orange, cool blue and green, and vivid pink and red combinations are used.

The most widely used fabric is silk. Its great versatility is evidenced by the fact that most of the newest garments are made of silk surah, shantung, chiffon, and organza. Coeds are also giving approval to the lightweight synthetic fabrics. These include Acrilan, Dacron, Orlon, rayon, and nylon. Linen and cotton garments are making an appearance, but are not as popular as in past seasons.

Fabric designers have created many exciting floral prints for spring clothes. Marigold silk strewn with golden asters, silk surah brushed with shaggy yellow chrysanthemums and green leaves, a slither of emerald silk covered with darker green flowers, asters crowded on silk—these are just a few of the exciting new floral prints.

Easy fit in middie and chemise dresses is being stressed by nearly all fashion designers. Imagine a trench coat with its belt dropped

several notches, or an overblouse sleeved to the elbow and clipped at the hip, sitting on a slim skirt! Add a neck scarf or a floppy bow to the chemise dress for a special touch. Or, a long strand of beads in a brilliant contrasting color.

Pleated skirts have arrived on the spring scene to stay and are kept imperishable by the new fabric blends that make crispness a permanent thing. Above the pleated skirt is a hip-clinging, easy-fit jacket. Jackets of the new spring suits move in a straight slender line down to the hipbone. What better way is there to ignore a waist?

The shirtdress is expected to be among the best sellers again this spring. These dresses will appear in silk, linen, and cotton. For a 1958-edition, choose one bloused above a tall belt. Collars are larger and necklines dive slightly on the newest shirt-dresses.

Not to be neglected are accessories. Hats are large with brims that turn up slightly. Floral prints, checks, tweeds, and plaids of garment fabrics are used for the newest spring hats. Gloves to mix or match, long or short, are being shown everywhere. Shoes have also taken on the rich colors of spring as orange, gold, green, blue, red, and eggshell colors are being shown.

The new jewelry reveals the light, romantic feeling of spring. Tints of pink, yellow, blue, and green are featured everywhere together with white and crystal.

No Lemon Drops for Them!

Pringle-Dellett

The pinning of Judy Pringle, BA Jr, to Fred Dellett, ME Soph, was recently announced at the Chi Omega and Delta Sigma Phi houses. Judy is from Kansas City, Mo., and Fred is from Larned.

Merritt-Jones

Chocolates at the Delta Delta Delta house Wednesday night announced the pinning of Connie Merritt, Ch Soph, to Jerry Jones,

EE Soph. Jerry is a member of Beta Theta Pi.

Johnston-Rupard

Marilyn Johnston, BPM Soph, passed chocolates at the Kappa Delta house, and Barry Rupard, BA Jr, passed cigars at the Alpha Kappa Lambda house to announce their pinning Wednesday night. The AKLs serenaded the KDs after dinner. Marilyn is from

Scandia and Barry is from Hutchinson.

Maxwell-Pacilio

Chocolates were passed at the Kappa Delta house and cigars were passed at the Tau Kappa Epsilon house Wednesday night to announce the pinning of Annette Maxwell, Gvt Fr, Manhattan, to John Pacilio, Agr Soph, Colby. Members of TKE serenaded at the KD house after dinner.

I SENT HER HOME TO GET HER SPECTACLES!

Several days ago, one of my regular customers stopped in to buy a diamond. She knew what she wanted, and she knew she could trust me to give it to her. So she just took a quick look at the stone I showed her, and said she'd take it.

But I don't sell diamonds that way. I like to have each customer compare the stone they buy against a master set;—a set made up for me by one of the largest diamond houses in the world. In fact, I insist on it.

This master set consists of five different diamonds, each the same size but of a different grade. By using these diamonds as a guide, my customers can readily check the quality of the gem they buy and see where they're getting their money's worth.

This particular customer, however, didn't think a comparison was necessary. And besides, she'd left her spectacles at home.

Well, in my business, I know how easy it is for a person to make a mistake when buying a diamond. You can put almost any stone on a piece of black velvet and make it look like a million dollars. Only by comparing it with a full

range of graded gems can you tell exactly what you're getting, and whether or not you're paying a fair price.

That's where lots of folks get fooled. And that's why a good many women have been disappointed when they held their diamond ring alongside a friend's! So I told this lady that I simply wouldn't sell her a diamond until she saw this "Diamond-Analysis" with her own eyes. And then I sent her home to get her spectacles!

Maybe you think I'm stupid or stubborn to make such an issue of every sale. And maybe I am. But I promised myself, years ago, that no one would ever buy a diamond from me without first knowing that every penny paid was well-spent. And I'm still following that policy.

10 a.m.-10 p.m.

WILDCATS WOW! Even yells such as this one done by Cheerleader Susan Schober, PEW Jr, can't be heard outside the anecho chamber in Seaton hall. The unusual construction of the walls prevents echoes and keeps out unwanted noises. Sound levels of equipment can be accurately measured due to the isolation from outside sounds and echoes. The chamber can be entered by way of a soundproof door. The floor is interwoven steel cables with sound-absorbing material below it.

RAPID WEIGHING of feeds and grains can be accomplished by this automatic scales in the Feed Technology building. Operating the controls is Freddy Garcia, FT Gr, from Dominican Republic. Grain from bins above can be run into the scales and from there to the mixer in the basement or to other bins and elevators.

Interesting Mechanical Facilities Hide Beneath K-State Buildings

SWIMMING ALL YEAR is enjoyed in the pool in Nichols. Shown here from left: Jim Mariner, BPM Jr, and Jim Nolen, ME Jr, as they work out for the swimming team. Classes also use the pool.

Hidden away on various basement floors around the campus are many fascinating and, in some cases rare, mechanical facilities. Everything from a soundproof room to an "electric brain" can be found 'neath K-State halls.

Pictures on this page show some of the extensive technical equipment (even a swimming pool!) that instructors can employ in supplementing the texts.

Besides the facilities pictures here, the College can boast of such aids as a telescope (on a roof, this time), a weapons arsenal, television and radio training rooms, a wind tunnel, teletypes, X-ray machines, and soon, by a recent AEC grant, an atomic reactor.

A student hasn't really "seen" the campus until he has wandered through some of the labyrinthian labs on campus and viewed the surprising equipment within.

Many classes lean heavily on laboratory apparatus for technical instruction, experimentation, and research work. With a national trend toward encouragement of scientific and technical progress, the K-State administration can look favorably on its investments in such fields.

The sub-ground floors of Seaton and Waters in particular should interest those unacquainted with the areas, as should the physics and chemical apparatus in Willard and communications equipment in Nichols.

All this by way of saying it's not all in the books.

DIALS ARE SET like this, as Dr. Charles A. Halijak, associate professor of electrical engineering, explains the Analog Computer to Bobby G. Strait, EE Sr. Instructors and a few students use the computer, which was built by two former K-State professors.

Photos by Don Argabright

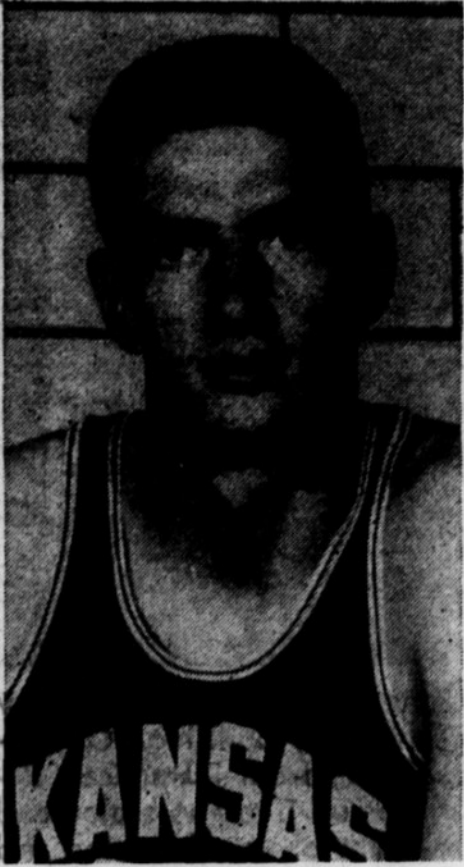

THIRTY KILOWATTS of electricity can be generated by this diesel generating plant manned by mechanical engineering seniors, from left: Archie Cornelius on the throttle, Roland Stevens at the gauges, and Clyde Sprague taking data. Classroom studies in the Mechanical Engineering department, often involve this International motor and generator. The public sees this installation while taking tours during the Engineers' Open House.

KEEPING A CLOSE EYE on the IBM machine is Harlan G. Hale, K-State IBM director. This machine was making assignment sheets at the time, one copy of which the students will receive to check their schedule. It is capable of taking the information from 100 cards a minute and really doesn't need to be watched as it is completely automatic. This machine, called a tabulator, is capable of making out grade reports, record sheets, statistical reports and many other jobs.

Cagers To Meet Cyclones In Home Game Tomorrow

JACK PARR CAN BREAK the all-time basketball scoring record tomorrow night against Iowa State by getting 12 points. Parr has 1,072 points compared to 1,083 scored by Dick Knostman.

Sports Mag Lauds Cats

K-State's basketball team, which seems to be getting the cold shoulder in the nation's ratings by the major press polls, ranking only fourth, has received high praise from the weekly magazine "Sports Illustrated" this week.

Following is the conclusion of an article which describes the pre-game problems and strategies of each coach before the Wildcat-Kansas game and the results of the game.

"Tex Winter did not have to worry about his second-guessers. The most rabid fans could hardly have asked for a better effort, and Winter could not have expected better execution of his plans.

"But Dick Harp was undoubtedly in for a rough time from the Phog Allen supporters (those who doubt Harp's coaching ability). He does not deserve it. Kansas was beaten by a better team, one which may well be the best in the nation."

Basketball Scores

East
Holy Cross 79, N.Y.U. 74
West Virginia 87, St. John's (N.Y.) 78
St. Peter's (N.J.) 93, Loyola (Ill.) 62
Massachusetts 65, Rhode Island 60
Connecticut 107, Vermont 95
South

Carnegi Tech 71, Waynesburg 54

K-State's Wildcats meet the Iowa State basketball team tomorrow night in Ahearn field house in what should be their sternest test at home yet this season.

Coach Bill Strannigan's Cyclones were rated as a solid contender for the conference championship at the beginning of the season but an injury to the team's top scorer and rebounder, John Crawford, has set them back considerably.

Nevertheless, Iowa State has been able to register a 10-6 record for the season and a conference mark of 3-2.

One of their losses was to K-State two weeks ago when the Wildcats came through with an easy 64-54 triumph at Ames.

But Crawford, 6-5 senior forward, is starting to come back into his old form. He is currently pacing the Cyclones with 12.3 points a game and 14.1 rebounds.

Strannigan has the highest of praise for the Wildcats; in fact, he was only conference coach to pick K-State to win the Big Eight pre-season tournament at Kansas City.

But he still is not giving up the hope of beating the Cats.

"You'd think a coach ought to relax when he has to face a team like K-State," he said after watching the K-State-Kansas Monday. "But the trouble with this game is that no matter how good you think a team is you'll still try to beat them. We'll come out with that in mind Saturday. But what a team!"

If any coach can stop the Wildcat attack, Strannigan could be the man. Last year his team held Kansas' Wilt Chamberlain to his lowest point total in his college career, 19, while edging the Jayhawks, 39-37.

K-State has much at stake in the game. The Wildcats will be protecting their 5-0 loop record while at the same time shooting for the school's best all-time won-lost mark. The Cats now stand at 15-1 for the season.

Jack Parr, 6-9 senior center, should break the all-time scoring record of 1,083 points set by all-American Dick Knostman in 1953. Parr is just 11 points shy of the mark with 1,072 points—227 of them this season.

Probable starters:

K-State	Iowa State
Abbott (6-3)	F (6-5) Crawford
Boozier (6-8)	F (6-4) Bergman
Parr (6-9)	C (6-8) Medsker
DeWitz (6-3)	G (6-2) Frahm
Matuszak (6-0)	G (5-10) Baukol

Broadcasts: K-State Radio Network (Frank Jones), Cyclone Sports Network (Dale Williams), WIBW Topeka (Dev Nelson), and KINT Des Moines (Al Couppee).

IOWA STATE'S JOHN CRAWFORD will be a threat to the Wildcats. The 6-5 senior forward is currently pacing the Cyclones with 12.3 points a game and 14.1 rebounds.

Grid Aide To ISC

Ames, Iowa, Feb. 6 (U.P.)—Burnie Miller, 29, an assistant backfield coach at Indiana, has been hired by new head coach Clayton Stapleton as a backfield coach at Iowa State.

Matmen Host Buffs

K-State's wrestling team, victor over Cornell college and Nebraska university last weekend, will attempt to better its 4-5 record against Colorado university tonight at 7:30 p.m. in Ahearn gymnasium.

Coach Fritz Knorr has made several changes in the Wildcats' lineup. Russell Grant has moved

from the 137 pound class to the 130 pound division. Pete Everist has moved down one notch to 137 pounds, and Jim Hurtt has taken over the 147 pound class. A new heavyweight, Bob Schmidt, gives the Cats their first representation in that class since Ken Ellis transferred to Tulsa university at the semester.

Colorado, also one match short of the .500 mark at 1-2, will be on the road for three matches in as many nights. The Buffs were defeated 21-3 Saturday by a strong Iowa State team.

You'll be pleased with a Collegian classified.

MU Athletes Are Ineligible

Columbia, Mo. (U.P.)—Basketball players Al Abram and Don Hymer of Missouri university are on the ineligible list today because of scholastic deficiencies.

Coach Sparky Stalcup said Abram and Hymer, who both stand 6-5, will not play against Colorado at Boulder Saturday.

Abram has started a few games and was the team's leading rebounder plus averaging more than 10 points a game. He was the first Negro ever to compete in a varsity sport at Missouri, joining the squad at mid-season a year ago.

Tracksters To Compete In Michigan State Meet

K-State's mile relay team will get an acid test Saturday when it faces some of the top teams in the nation at the Michigan State Indoor Relays at East Lansing.

Coach Ward Haylett's team, which recently set a stadium and meet record at the Nebraska Triangular, will run against strong foursomes from the Big Ten and Big Eight.

Gene O'Connor is the lone senior on the team with Juniors DeLoss Dodds, Jim Vader, and Larry French rounding out the quartet.

Dodds, who anchors the relay unit, won the 440-yard dash at the Nebraska meet in the time of 50.6. Vader and French finished second and third in the event to give the Wildcats a sweep in the quarter mile.

The relay team's only setback during the year was at the Sugar Bowl indoor meet where Texas university, anchored by ace sprinter Eddie Southern,

Tiger Tracksters Coast by Wichita

Columbia, Mo.—(U.P.)—Lowell Bonfield won the low and high hurdles yesterday for 10 points and distinction of being the only double winner as Missouri crushed Wichita 81-23 in an indoor track meet.

It was the first win for Missouri, which bowed to Notre Dame last week. It was the first outing for Wichita.

Bonfield edged Don Jordan of Wichita in both races. Jordan was high for WU with six points.

edged the Wildcats. Dodds gained seven yards during the final lap on the speedy Texan but was inches short of a first place.

Steve French, sophomore high jumper, will be seeking his second win of the year as he won the high jump at Nebraska with a leap of 6-5. French's mark compares well with others in the conference. In the Kansas-Oklahoma duel last week, the winning height in the high jump was only 6-3½.

Another sophomore winner at Nebraska, Duane Holman, will face major competition in the two-mile run. Holman's record-breaking time at Nebraska was 9:39.5 while the winning time in the KU-OU dual was 9:33.7.

Kansas, with its talent-rich cinder team, will once again field a strong and experienced unit. Ernie Shelby, who recently turned in the longest broad jump in Big Eight history, and Al Oerter, who is the only 56-foot shot putter in the conference, will spearhead the massive Jayhawk force.

Shelby leaped 25-4 on his first try to better K-State's Herb Hoskins' mark of 25-2½ set in 1950.

Other strong Jayhawk contenders will be Charlie Tidwell, 60-yard dash; Bill Tillman, high and low hurdles; and Jerry McNeal, two-mile run.

Swimming Team Is Set For Weekend of Action

K-State swimmers host Fort Hays State today at 4 p.m. and Emporia State tomorrow at 2 p.m. in a pair of non-conference meets.

Coach Bill Thrall will be without the services of Gordon Harper one of his better freestylers, who is still bothered with a throat infection.

Two new members, Jerry Fitzgerald, a freestyle swimmer, and Alan Rader, will help the team as it tries to improve on its season dual record of 3-3. Rader will fill the gap left by Jim Nolen who was forced to switch from breaststroke to freestyle completion because of a knee injury.

Thrall expects Emporia State to be the roughest of the two foes. The Wildcat swimmers have defeated Fort Hays, 50-35, and Emporia, 61-21, earlier this season.

Top individual performances are expected from Dave Dicken and Jim Mariner.

Dicken turned in the time of 2:43 in the 200-yard butterfly at the recent Colorado university meet. Mariner set his best individual time of 2:26.8 in the 200-

yard backstroke in the same meet.

K-State starters:
400-yard medley relay—1, James Mariner; 2, Alan Rader; 3, Dave Dicken; 4, Jim Nolen

IM Meeting Is Monday

There will be a meeting of the intramural managers on Monday night at 7 p.m. in Ahearn gymnasium, room 301. Any organization wishing to enter a team in the intramural volleyball tournament must have a representative at this meeting. Other spring sports will also be discussed.

220-yard freestyle—1, Tom Coblenz; 2, John Nickel
60-yard freestyle—1, Jerry Fitzgerald; 2, Mariner
Diving—1, Marian Towns
200-yard butterfly—1, Dicken; 2, Ron Mihorden
100-yard freestyle—1, Tom Onuma; 2, Towns
200-yard backstroke—1, Mariner; 2, Nickel
440-yard freestyle—1, Coblenz; 2, Rader
200-yard breaststroke—1, Mihorden; 2, Nolen
400-yard freestyle relay—1, Nolen; 2, Fitzgerald; 3, Onuma; 4, Nickel

VOLUME LXIV Kansas State College, Manhattan, Kansas, Monday, February 10, 1958 NUMBER 81

Council Will Discuss Bids For Group Insurance Plan

Student Council members will decide upon specifications for a group health insurance plan for Kansas State students at a regularly scheduled meeting this evening in SU 205.

The proposed specifications, revised from those earlier drawn up, approved by the Council, and submitted to nearly 30 insurance companies for bids early in January, were prepared by Sam Warren, EE Jr and chairman of the Health Insurance committee; Council Chairman Paul Hatfield, AEd Sr; Student Body President Neil Scott, Soc Sr; and Council member Mardy Edwards, HDA Jr.

Blue Cross-Blue Shield submitted a plan to the Council with some advantages not included in the first specifications, so the Council decided to reject all bids on the earlier plan, and revise specifications to include some of those advantages or advantages proposed by the companies.

According to Scott, the new proposed specifications are to be submitted to the insurance companies upon approval by the Council. He said there is one big difference between these specifications and the earlier ones. The new plan outline includes a provision which will allow a company to present another plan—they can propose changes which will allow them to make a better offer.

Low bids on the first specifications were \$8 for single student, \$16 for student-spouse, and

\$24 for student-spouse-dependent by Globe Life and Accident Insurance company of Oklahoma City, Okla.; and \$7.75 for single student, \$16.50 for student-spouse, and \$23 for student-spouse-dependent by Mutual of Omaha (Neb.). The period to be covered by those fees would be six months.

Blue Cross-Blue Shield offered, for more complete coverage, a plan costing the single student \$10 a semester, student-spouse \$20, and student-spouse-dependent \$25.

Upon selection of the bid which will best benefit K-State students, the insurance will be sold during enrollment periods.

Scott said that he expected about 50 per cent of the student body to regularly purchase the insurance after it has become established on campus—in about three years. He said that this is an estimate made through a comparison of Kansas State with other Big Eight schools who have group insurance plans.

Other matters on the agenda for tonight's Council meeting include the proposed constitution change to raise scholastic requirements for positions of authority in activities. The major changes will require a student to have an overall 1.2 grade average to be named to major activities position.

Increase Marked In Virus Diseases

Deep concern has been voiced by Dr. B. W. Lafene, director of Student Health, in relation to the marked increase of pneumonia, flu and colds in the past few days.

There were fifteen students at the health service with one or a combination of these ailments as of last night.

Dr. Lafene said, "I am deeply concerned about this, particularly pneumonia. Students are being careless about caring for what appear to be slight or lingering colds. What may be a cold today, can be pneumonia tomorrow."

Students are warned to do two things: 1. Prevent the spread of infection to others. 2. Prevent against contracting infection from others.

"I urge all students who have colds or show any sign of infection to come to Student Health

for medical care and consultation," he said.

Pneumonia is not a simple disease, nor is it easy to combat. "Many students are going to lose out on part or even a whole semester of school if more care is not taken to prevent the spread of these infections. I am appealing to all to help fight this before it gets a good foothold," said Dr. Lafene.

Student Health has recently received a shipment of a new type vaccine, developed to fight not only Asian Flu, but the common types also. It is recommended that students go to Student Health and take advantage of this protection as soon as possible.

Assembly Speaker Solves 1946 Case

Robert Fabian, famed former superintendent of London's Scotland Yard, spiced an account of the solution of a 1946 London murder case with wry, British humor at an all-College assembly this morning.

Speaking before a capacity crowd, the slueth-turned-speaker told how the Scotland Yard team solved the case. He emphasized that it was a "team" effort, and pointed out, as he progressed through the narrative, the similarities between the case he was describing and the routine case.

Fabian said that the operating cost is high for crime detection, since there are a variety of different departments who assist police officers.

All officers draw 30 pounds (about \$90) when they go out on a case—all of which must be accounted for upon solution of the crime. In a note of wry humor, Fabian added that 30 pounds was the same amount allowed officers in the days of Queen Victoria.

We're all in this business to get the answers as quickly as we can get them," he said. "And the police officer picks up many tidbits of information from what I call the 'university of the street.'"

As an example of "university of the street" knowledge, the British detective said that a dead person, when carried by another person and dumped to the ground, will invariably lay with one knee up.

"Nobody expects to go into a dirty murder wearing kid gloves," Fabian said. "We have our own set of rules made for us by our own artful lawyers."

"Perhaps a bad thing about a detective officer, is that he doesn't believe everything he's told. When a police officer has made up his mind to charge a suspect, he doesn't question him unless he is warned first."

However, Fabian apparently did not feel that police ethics compelled the officer to drop all questioning when the suspect's guilt had been established beyond a reasonable doubt. By his own admission, he was sometimes slow in making up his mind to charge the suspect.

In an introductory note, the famed detective—speaking of discipline for children in the modern age—commented that "there is only one thing missing from this world, and that is discipline—and respect too, I suppose."

Robert Fabian

Taxis, Posters Stopped by IPC

No taxi service or posters will be used this year by the 33 individual houses in campaigning for Interfraternity Pledge council king and queen according to Dan Vogel, BA Jr. Candidate-pushing will be limited to a skit Tuesday night in Umberger hall.

Each fraternity and sorority will present a three-minute skit with no more than ten characters publicizing its candidates. There will be no admission charge to this skit night, beginning at 7 p.m. in Williams auditorium.

The king and queen will be crowned at the IPC dance Friday night in the Union's main ballroom by last year's pledge royalty, Joe Gardner, BAA Jr, and Mary Helen Eaton, EEd Jr.

Pledges will vote for their king and queen at the door. "Ballots have already been distributed to the pledges through their IPC representatives," said Vogel. "The pledges are to bring their ballots to the dance and vote as they go in. Each pledge will have one vote."

Manhattan Dam Area May Be National Park

The Tuttle Creek Reservoir area north of Manhattan may be the site of Kansas' first National Park if far-reaching plans of Manhattan's Park board are realized.

The board is attempting to create a park association with the intention of getting National Park status for the Tuttle Creek area and perhaps establishing it as a "commemoration of the plains," according to Hurst Majors, a member of the board.

A public dinner meeting Monday, February 24, in the Wareham hotel is scheduled in hopes of uniting public interest in the idea and forming a park association, Majors said.

"A National Park or monument would require action by the U.S. Department of the Interior and this would mean extensive study and reporting of the entire

situation before we could get official designation," Hurst emphasized.

"I think we stand a chance to get such a park, because there is presently no National Park in Kansas. Such a thing would have to be of national significance to get approval by the Interior Department, and thus our idea is a park that would be a 'commemoration to the entire plains area,' he said.

"There is no assurance that we can get this through," but if so, it would be a tribute to Manhattan and the area. The Blue valley is a beautiful area and we think it would be an ideal site for a National Park. It would also be of great recreational value to future K-Staters," he added, "and we invite College support in the project."

Photo by Don Argebright

SNOWBALLS FLY in front of the statue of William Alexander Harris. Jerry Ross, Agr Jr, left, and Don Miller, AgJ Sr, took advantage of the new fallen snow and staged the battle as they were walking across the campus Sunday night. The snow fell as the weather bureau forecast. Warnings were out for south central and southwest Kansas, and as many K-Staters know, they included very slick streets for Manhattan.

Book Exchange Fails; Fault Is with Students

With \$60 in missing books, Sigma Tau, engineering honorary fraternity, and Student Council can hardly be blamed if they're slightly disgruntled at student reception of the book exchange.

We talked to Dean Nehrig, ChE Sr, president of Sigma Tau; Bill Harrison, NE Sr, book exchange manager; George Hooper, BA Sr, Student Council book exchange chairman; Neil Scott, Soc Sr, student body president; and Loren Kottner, Union director, to find out exactly what happened.

None of them seemed to know "exactly," or at least all details aren't yet open to publication. Verified was the fact that approximately \$60 in books were lost sometime Thursday, perhaps after the book exchange closed. According to Nehrig, this assures the honorary of a loss, whereas they would have possibly broken even otherwise.

Included in the missing items were about six books, a slide rule and a drawing set, according to Kottner. He reported that the third floor of the Union was locked after the exchange closed, and that night managers checked during the evening on the usual rounds.

Harrison explained that approximately 625 books were sold, but the major difficulty was in the lack of books which were brought to the exchange. "If we had had around five times as many books as we actually did have, we might have done a real good job, since we had many more buyers than sellers," Harrison reported.

Apparently K-Staters are to blame if any chance for continuance of the exchange has folded; complete participation is the only reason such a project could succeed—particularly if, as Student Council decreed, it was to be a non-profit attempt. The sad part of the present situation is that neither group will even make expenses, and reportedly will be forced to make up between \$25 to \$100 in deficit from each treasury.

So perhaps everybody loses—Student Council and Sigma Tau are minus funds, students may have lost any chance for a permanent school book exchange and if the books were taken, the campus cops will try to arrange something for those involved. Ironically, the only light loss we can think of in this case is that of the Veterans' organization. After spending \$23 in initiating an all-College book exchange, it lost only that amount when Sigma Tau and Student Council appeared on the scene as the dark-horse "winner" of a losing race.—Sue Goss

Screen Scene

Ladd, de Wilde Are Uninspiring As Navy Man, Runaway Orphan

Playing at the Wareham theater now through Wednesday is "The Missouri Traveler" which was premiered in Kansas City, Mo., several days ago.

The story opens with a runaway orphan boy (Brandon de Wilde) trying to get to Florida with total traveling expenses of \$1. Arriving in Delphi, Mo., his journey ends after he meets the local yokel newspaper editor (Gary Merrill). Merrill does a fine job of convincing the young lad that Delphi is a good place to hang his hat.

The amazing feature of Delphi at the turn of the 20th century is the completely modern paved streets and curbs on which the early vintage horseless carriages are seen sputtering and backfiring.

The outstanding contribution the movie makes is the background music which is more or less country style with a Civil War-beat.

Mary Hosford, making her first screen attempt, plays the part of the last of the Southern belle efficiency experts.

When she decides to do something about the orphan boy's home situation, an ex-bartender mutters, "the last time she decided to get organized, we lost our beer."

All-in-all "The Missouri Traveler" is good for a few half-hearted laughs if you look hard enough.

Starting Thursday is "The Enemy Below," a World War II problem concerning a U.S. destroyer captain (Robert Mitchum) stalking (or vice versa) German submarine captain (Curt Jurgens). The previews looked pretty explosive!—Jackson.

In "The Deep Six," currently showing at the Campus theater till Wednesday, Alan Ladd stars as a New York commercial illustrator who gets drafted by the navy and finds he must reconcile his Quaker background with the killing necessary in war.

Ladd, with a naval ROTC college background, finds himself an officer and repeatedly in a

position where he must authorize killing for the protection of his own men, and his reluctance to do so provides most of the suspense of the movie.

Finally, with his best buddy wounded at his side, he "finds himself" and in the grand old style cuts down a handful of Japs with his machinegun.

The girl, Dianne Foster, unconvincedly tells Ladd that she could marry him if she were the simple country girl she used to be, but that the superficiality of the big city (she has a good position in an advertising firm) has tainted her and she isn't good enough for him now. To complicate things further, she

has been engaged for two years to the ad executive who applied the veneer, and she feels obligated to him.

She and Ladd meet later in Frisco after she has decided she's the girl for him, but this time he throws the monkey wrench and decides it wouldn't be fair to her to unite because he might get killed in action and leave her a widow.

Love prevails, however, and they clinch decisively as he returns wounded from the war.

The real humor in the story is provided by buddy William Bendix who outshines a cast of swabbies trying to be funny in the Mr. Roberts vein.

LITTLE MAN ON CAMPUS BY BIBLER

K-State Scheduled for \$12,613,000 Appropriations, Virtually Identical to Operating Budget Request

By JOHN MITCHELL

Kansas State college was scheduled today to get an appropriation from the Kansas Legislature virtually identical to what was asked for in the college's operating budget for the fiscal year starting next July.

In round figures, K-State is to get \$12,613,000 of the approximately \$25 million appropriated for the state university and colleges. Formal approval by the House of Representatives was scheduled this morning. Tentative approval of the measure as passed by the Senate January 22 was given Saturday.

That \$12,613,000 total breaks down into approximately \$12,529,000 for general operation of the college, including organized research and extension work, and \$84,000 for capital improvements financed from the state's general revenue fund. Not included are capital improvements—major buildings and the like—financed from the state's Educational Building fund or federal loan funds.

"One way of considering the appropriation as compared to the original budget request is that the budget was based on an expected enrollment of 7,200 next fall and the Legislature acted on the basis of an enrollment of 7,100," according to Daniel D. Beatty, K-State's business manager.

As passed by the Senate and concurred in by the House, the budget underwent a reduction of approximately \$160,000, or 1.3 per cent, from the original budget request. The original re-

quest of approximately \$12,773,000 was made up of approximately \$12,679,000 as operating budget, plus \$94,000 for capital improvements. The capital improvement portion came through the legislative mill reduced by \$10,000 and the operating budget was cut by approximately \$150,000.

As the money proposals went to the Legislature in Gov. George Docking's budget, the capital improvement portion was reduced by \$67,200—to \$26,800—and the general operating portion by approximately \$591,000. But of that reduction of more than half a million dollars in the operating budget, upwards of \$300,000 represented what was essentially a budgeting proposal rather than an actual elimination of funds.

The apparent cut that was not a specific cut involved the proposed 5 per cent pay raise to be distributed among faculty and staff members to maintain the College's competitive position in relation to industry and other colleges and universities. The College budget asked for \$323,740 for that item; the governor took that out of the specific K-State budget and included it in some \$950,000 he proposed be appropriated to the Board of Regents and in turn be distributed to the state schools by the board.

A major cut by the governor that was largely accepted by the Legislature came in connection with that portion of the funds for County Agricultural Extension councils which is paid by the

College. The original budget asked slightly less than \$153,000 for two purposes:

1—As special aid to eight Kansas counties which have reached the legal limit in the amount of local tax money they are devoting to Extension council work, and

2—To provide an increase in the College payroll contribution equal to \$300 for each extension, home demonstration, and 4-H county agent.

The governor cut the full amount in preparing his budget, and the Legislature restored only some \$40,000—enough to equal an additional \$150 for each agent. That does not mean each agent will get a raise of \$150 a year; it means enough will be available to give raises equivalent to that amount, although the actual distribution, if any, is up to each county.

Of the cuts the governor made in the \$94,000 capital improvements total to be financed from the general revenue, the Legislature restored all but \$10,000. The missing \$10,000 had been budgeted for a pre-fabricated green house.

As approved, the capital improvement funds voted from general revenue consist of \$46,000 for remodeling of Veterinary hall, \$21,000 for construction and repair of campus walks and roads, and \$17,000 for electrical improvements. The governor had eliminated the \$46,000 for Veterinary hall and had cut the walks and roads item by \$11,200, to \$9,800, as well as eliminating the greenhouse item.

GOING UP for two points, K-State's Bob Boozer finds his way blocked by Iowa State's Don Medsker (55) and Bud Bergman (35). Jack Parr and Hayden Abbott (24) move in for a possible rebound.

Wildcats Slip by Cyclones For Big Eight Cage Win

By ELDON MILLER
Collegian Sports Editor

K-State's league leading basketball team, now the target for all the other Big Eight members, cleared a big obstacle on its way to the conference crown by defeating Iowa State, 77-70, Saturday night in Ahearn field house.

The Wildcats played very well, according to Coach Tex Winter, as they ran their conference mark to 6-0 while Kansas university, embittered by last Monday's loss to K-State, was defeating Nebraska university, 102-46, to move into third place at 3-2.

A capacity crowd of 12,500, including members of the 1947-48 Big Seven champion Wildcat team, saw the Cats establish two new K-State records.

The victory brought K-State's season's record to 16-1, one better than the previous best of 15-1 set by the onlooking '47-48 team.

Senior Jack Parr, 6-9 center, scored 18 points to set a new career scoring standard of 1,090 points. This broke the old record of 1,083 set by Dick Knostman in 1953.

Bob Boozer, 6-8 Cat forward, led game scoring with 20 points. John Krocheski, 6-7 alternate center for the Cyclones, was high for Iowa State with 17.

K-State hit 43.9 per cent on 25 of 57 field goal attempts while the Cyclones had 26 of 66 for 39.4 per cent.

Good free throw shooting and rebounding greatly helped the Cat cause. K-State had 27 of 31 free throws to Iowa State's 18 of 21. The Cyclones out-fouled K-State, 19-16.

The Wildcats dominated back-board play with 45 rebounds to Iowa State's 27. Parr was the game's rebounding leader with 12.

Cats Second by INS

K-State's Wildcats are rated as the second top basketball team by this week's International News Service poll. West Virginia is first, San Francisco third, and Kansas university fourth.

CU Buffaloes Top K-State's Matmen

K-State's wrestling team was defeated, 16-12, by Colorado university Friday night in Ahearn gymnasium. This loss gives the Wildcats a season's mark of 4-6.

K-State failed to pick up a first place but captured two second places in the mile relay and the 1,000-yard run.

The Wildcats' mile relay team, composed of Jim Vader, Gene O'Connor, Larry French, and DeLoss Dodds, was nosed out by a foursome from Nebraska. The relay team had earlier beaten the Cornhuskers at Lincoln in the Nebraska triangular.

Jesse Unruh, senior distance runner, was a welcome surprise for Coach Ward Haylett's team as he was second in the 1000-yard run.

usual strong showing by nabbing five first place honors.

Big Eighters Sparkle In MSC Track Meet

Big Eight entries dominated the scene at the 35th Michigan State Indoor relays Saturday at East Lansing. Kansas, Nebraska, and Oklahoma claimed 10 first place positions, including all four relays, with KU making their

Tankers Victorious In Weekend Action

K-State swimmers set two new varsity records as they defeated Fort Hays State 57-29 Friday, and Emporia State 60-24 Saturday in two non-conference dual meets. The Wildcats placed first in 19 of the 20 events as they raised their season dual record to 5-3.

James Mariner set a new varsity record Friday when he won the 200-yard backstroke in 2:25.8. On Saturday he broke this record and also set a new pool record as he swam the distance in 2:23.8. Dave Dicken set a new K-State varsity record Saturday in the 200-yard butterfly.

Coach Bill Stanhigan's Cyclones used a tight 2-1-2 zone which bottled up the middle for the Cats offensive attack. K-State, however, was able to hit from outside during the first half, hitting at a 55.5 per cent clip, and left the floor at halftime with a 40-30 lead.

The beginning of the second half was a cold period for the Cats as their outside shooting failed to connect.

Iowa State pulled to a 41-41 tie with 16:15 remaining and held close until the last four minutes when 14 straight K-State free

throws insured the victory.

Substitute guard Jim Holwerda, inserted into the K-State lineup midway through the last half, hit three from long range to spark K-State.

IM Meeting Is Tonight

Any organization wishing to participate in the intramural volleyball program must have a representative at the meeting in room 301 of Ahearn gymnasium tonight at 7.

Seniors Meet to Discuss Senior Week Activities

Senior week is scheduled as the main topic at a meeting of the senior class tomorrow at 7:15 p.m. in the Student Union Little theatre.

The program for Senior week, February 24 through March 21, is to be planned tentatively, including the selling of badges to all class members.

Other items for discussion are the seniors gift to the College, the possibility of having KSU on the diplomas; the introduction of the new class adviser, Ernie Barrett; the idea of a reserved section for all seniors at basketball games; and membership in the K-State Alumni association.

YWCA

The Young Women's Christian Association membership drive will be today and tomorrow. Membership cards can be purchased at the tables set up in Anderson for one dollar. Those who are not able to sign up either day can still sign

up after Tuesday at any time in the Y.W.C.A. office in Anderson.

Purple Pepsters

Purple Pepsters will meet tonight at 5 p.m. in J15, according to Joyce Graham, BAA Sr, president of the organization.

There will be election of officers and the new constitution will be given out to members attending the meeting.

License Penalty

There will be a 50 cent penalty on automobile license tags purchased in Riley County after February 15, County Treasurer, Beatrice King, has announced.

She said the highway patrol will begin picking up drivers with 1957 tags March 1.

Ag Economics

A report on the regional convention will be given at the meeting of the Agricultural Economics

club February 11, at 7:30 p.m. in Waters Hall. All prospective members of the club are invited to attend.

Future Teachers

"Comparative Education" will be the topic discussed at the joint meeting of the Future Teachers of America club and Phi Delta Kappa, honorary education fraternity, Thursday at 7:30 in the Union little theatre.

Mrs. Hinnie Smith, EEd Jr, will be one of the speakers. She will talk on the educational system in Holland.

Refreshments will be served by Phi Delta Kapa.

Greeks Unique Trophies Range Greatly in Value

By TERRY KNOWLES

Ranging from a case of beer to a sterling silver crown valued at \$100, K-State fraternities and sororities have a number of unique trophies which they vie for each year in annual events. Most of the organizations have some type of award which they claim as prize possessions.

The most expensive of these trophies is the Air Force Ball crown which is given each year to the Air Force Ball queen. Harriet Harwick, EEd Soph, was crowned queen at this year's ball. The trophy is now on display at Delta Delta Delta sorority.

The Air Force crown is constructed of sterling silver and lined with velvet. A number of silver planes are located around the crown with the Air Force insignia located on the front of it.

One of the most unusual awards is located at the Pi Beta Phi sorority. The K-State Pi Phi chapter was presented a clay pigeon for selling the most magazine subscriptions which help support the philanthropic activities of the national chapter. The pigeon is painted purple, red, and orange.

Sigma Nu possesses a small but unique trophy in its "Big Al" award. This wooden plaque with

a runner inscribed in it, is presented each year to the Sigma Nu member who scores the most points during the annual intramural track meet. The plaque was left by a former pledge who received it in high school.

A small trophy bearing a greased pig is presently stationed at the Alpha Xi Delta sorority. The trophy was won by Ruth Wollhof in 1956 when she captured a greased pig during the Sigma Chi Derby Day activities.

One of the most unusual trophies on the campus is a gold-painted commode erected on a wooden stand which is presented to the winner of the annual Flush Bowl football game between Phi Delta Theta and Sigma Alpha Epsilon. The trophy weighs approximately 75 pounds and is two and a half feet high. The Sig Alphas presently have the trophy as they won the 1957 contest.

NUMBER 82

Student Council Passes Revised Insurance Plan

Student Council passed revised group health insurance plan specifications at its regular meeting last night.

The specifications will be sent to about 30 insurance companies

for bids today, with all bids due by February 22. A committee will evaluate the bids and select the one best suited for Kansas State college. The company picked would then have the authority to sell the insurance at enrollment periods through their own or student representatives.

The insurance company submitting the winning bid would be required to pay up to \$9 a day for a maximum of 120 days in hospitalization charges—except in mental and nervous cases, which would carry a stipulation of \$9 a day for a maximum of 30 days. However, an alternate plan may be submitted.

The specifications include allowance for surgeons' fees up to \$260, and such items as blood tests, drugs, medicines, operating room charges, and anesthetists' charges.

In other business, the Council passed a constitutional amendment to change the requirements for scholastic eligibility of major student activities positions. Now,

to become a part of the constitution, the amendment must be ratified by four of the six school councils.

The amendment will require a student to have a 1.2 grade average for the entire period of his enrollment to be eligible for election or appointment to major activities positions.

The Council also amended the Student Governing association by-laws pertaining to the same question to require a check of grades at the time of petitioning or appointment for a position, and at the end of each semester while the office holder is in office. Students are also to be allowed to have flunked a course during the previous semester or to have "conditions" in a course during the previous semester, so long as grade averages are 1.2 or better.

Special Day For Women Is Discussed

Plans to be presented to the Women's council concerning All-Women's Day, March 13, were discussed by the Associated Women Students Executive board last night.

It was suggested that Margaret Crouch, HT Jr, chairman of All-Women's Day committees, bring her committees to the council meeting Monday, February 17, to explain plans for the day to the council.

Council members will convene in "buzz" groups to discuss the All-Women's Day plans. They then will meet together and pool their ideas.

Patsy Garner, EEd Jr, president of the women's organization, announced that Kenneth M. Heywood, director of the K-State Endowment association, would be invited to speak before the council Monday about the association's plans for scholarship houses at K-State.

Staters May Volunteer To Attend NSA Confab

Students interested in attending a National Students Association Student Government conference at Kansas university this weekend may sign up in the SGA office in the Union activities center today, according to Student Council Chairman Paul Hatfield, AgE Sr.

Summer Job Fare Ample for Staters

Summer employment opportunities are beginning to knock on the doors of interested K-Staters, according to the Placement center.

Student-trainee positions are available with the U.S. Department of Agriculture and the Department of Interior, with salaries set at \$2,960 for students with no college training; \$3,175 for students with one year of training; and \$3,415 for stu-

Thefts Suspected At Union, Nichols

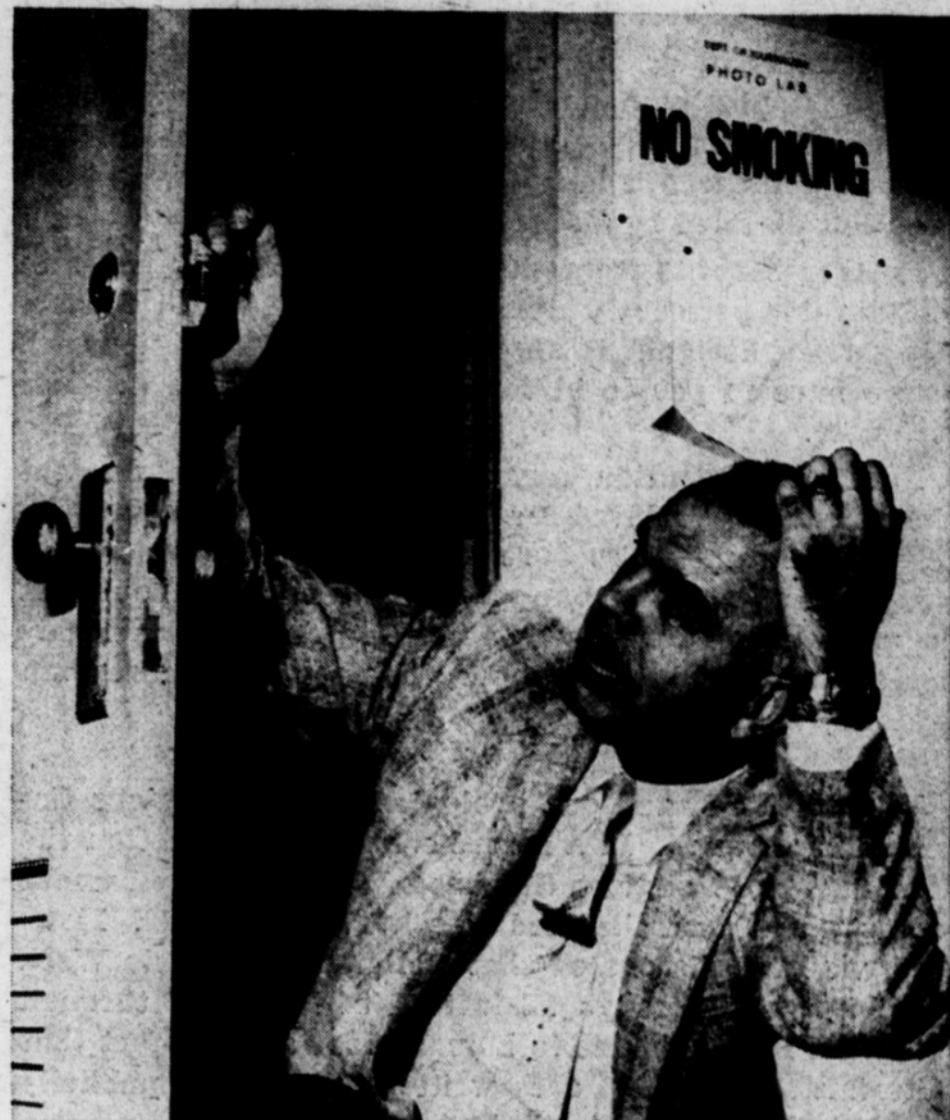

Photo by Darryl Heikes

COME BACK, Robert Fabian-Elbert Macy, associate professor of journalism and news photography instructor, looks in amazement at the lock on the photography supply closet in Nichols gym that was jimmied sometime this weekend.

Suspected thefts at the student book exchange in the K-State Union Thursday and the Journalism department's news photography darkroom in Nichols gymnasium Friday were reported this weekend.

Roger Ward, campus patrolman, reported that a couple of leads had developed in the two cases of suspected theft. "We don't think both jobs were done by the same people," Patrolman Ward commented.

Several books, a slide rule, and a drawing set were missing in the approximately \$60 worth of sale items taken from the book exchange, sponsored by Sigma Tau, honorary engineering fraternity, and Student Council.

Photographic supplies totaling \$25 were missing from the news photo lab in the basement of Nichols, according to Ward.

Missing were approximately a dozen packages of 5 by 7 printing paper and two cases of roll film, according to Elbert Macy, associate professor of journalism.

Weekend Accidents Result in Damages To Three Vehicles

Two accidents resulting in minor damage to three cars occurred on the campus over the weekend.

An auto driven by Anne Pederson, BPM Jr, slid on ice and collided with the rear end of a car driven by Sheldon Williams, Ar 04, when Williams stopped behind a car at the corner of Oak and Vattier near the chapel.

Damages to the Pederson car's left front fender, parking light, and grill totaled \$75. The right tail light and fender of Williams' car were damaged at an estimated \$15.

Robert Reid, EE Jr, and Albert Cottrall, IE Sr, were driving cars that hit in the Student Union parking lot and resulted in \$25 damages to the rear bumper of Cottrall's car. The Reid auto was not damaged. Cottrall was backing up and Reid was going forward at the time of the accident.

Budapest University Student Of '56 Revolt Enrolls at KS

HUNGARIAN REFUGEE, Domokos Hajado, will study architecture at K-State this semester. He was brought here by the United Students Christian council. He is a guest of the Tau Kappa Epsilon fraternity.

Enrolled at K-State this semester is the first Hungarian refugee from the revolt in October, 1956.

Domokos "Domi" Hajado was a junior at the University of Budapest when the revolt started. When he arrived in the United States in January, 1957, he studied English at Earlham college in Richmond, Ind. Last summer he worked for an architectural firm in California.

The 22-year-old architectural student was brought to K-State by the United Students Christian council, a committee composed of representatives of nine Protestant groups on campus.

Both of Hajado's parents still live in Budapest and he hears from them often. His father is a taxi driver there.

According to several of Hajado's instructors here, he is more advanced in some of his work than other architectural juniors. In the University of Budapest students may take courses comparable to the junior and senior level here during their first two years of college.

The USCC contacted Hajado through the Refugee Resettlement agency, according to Gail Cross, AA Jr, chairman of the USCC. Money for sponsoring Hajado at K-State was contributed by the nine religious groups. Several of the groups asked members to contribute the equivalent of a day's work during the summer. The Tau Kappa Epsilon fraternity has provided Hajado with a room for the semester.

Hajado expresses a willingness to talk about the revolt. He has offered to speak on the revolt to various groups of students and has sent for the film that has been prepared for Hungarian refugee students here.

Beard Winner To Get Prize, Electric Razor

First place prize in the Engineers' Open House beard growing contest will be an electric razor, according to Don Beck, IE Sr, Engineers' Open House publicity chairman.

The beard, which should be a "mariner's beard," will be judged at the judges' discretion, although length and neatness of trim will be important.

Judges of the contest will be St. Pat, St. Patricia, a representative of Yeo and Trubey Electric company, who donated the razor, and two faculty members.

UF Provides Chance To Back Good Cause

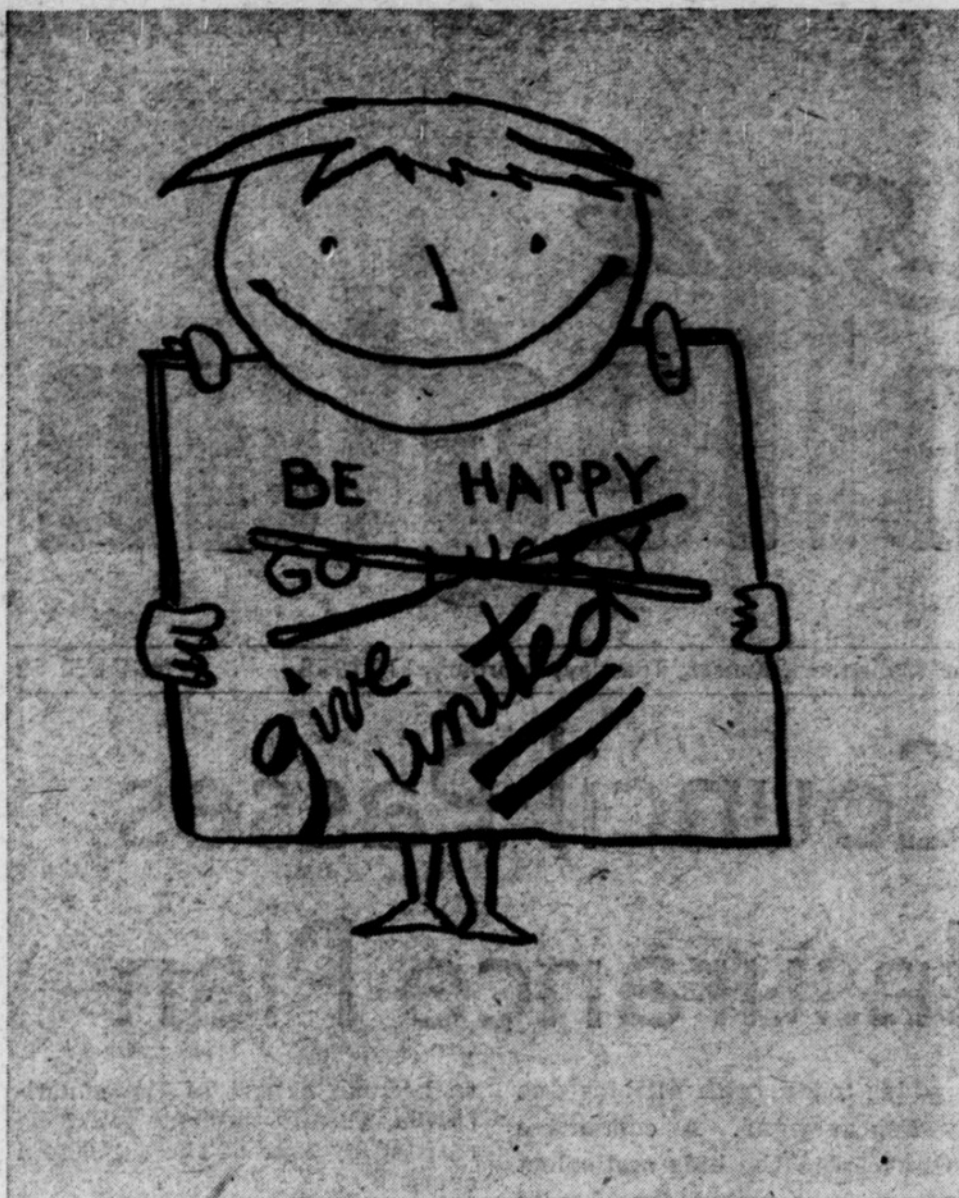

K-STATERS HAVE an excellent opportunity to back a really worthwhile cause on campus this week. The United Fund drive will be in full swing all five days.

Humanitarian or not, donations are not only needed but are practically mandatory if we're to see any definite headway in the never-ending battle against disease, vitally necessary research, and hospital care for those who have been left disabled by disease.

Further benefits from the United Fund drive come in K-State's 40 per cent which will go to the World University service, designed to spread educational facilities such as we have to people in foreign countries who are less fortunate.

Needless to mention, any amount is welcome. Student checks have just arrived for those fortunate enough to receive them, and we're sure even those who depend on salaried earnings or money from Mom and Dad could cut out a few extras for some contribution. Although we may never personally benefit, those who do will be more than grateful, we're sure.

WE GOOFED, and our apologies to the Religious Coordinating council. In a recent editorial, we question the doubling up of Religious Emphasis Week and seven weeks exams which are scheduled March 17 through 22. However, we later discovered that Religious Emphasis Week is February 17 through 22 instead of March 17 through 22! We'll lay the blame to human error and the fact that editorials frequently are written "between publicity hounds"—hence the mistake!—Sue Goss

Attention: Miss Sue Goss:

The Executive Committee for 1958 Engineers' Open House extends its congratulations to the staff of the second semester Kansas State Collegian for the excellent quality of its news coverage.

We especially enjoyed "Scientists Photograph Red Moon" in your February 6 issue, and "Interesting Mechanical Facilities Hide Beneath K-State Buildings."

The Collegian's successful attempt to look beyond the minor details of everyday events, and instead to report the educational news of the College, is a valuable asset to Kansas State.

Keep up the good work!

Executive Committee,
1958 Engineers' Open House

Counsel Claims FCC Whitewash

Compiled from United Press
By CHAS. H. SCHREIBER

Washington—The chairman of the stormy House investigation into misconduct on the Federal Communications Commission (FCC) is quitting today in an apparent protest over the firing of his chief counsel.

Rep. Morgan M. Moulder (D-Mo.) said he was in "apparent disagreement" with the majority of the House Commerce subcommittee which voted to fire Counsel Bernard Schwartz.

Schwartz's ouster came late yesterday after the 34-year-old investigator accused the majority of the subcommittee of trying to "whitewash" his charges of White House influence on decisions by federal regulatory agencies, including the FCC. Schwartz specifically excluded Moulder, who had backed him, from the whitewash allegation.

Schwartz said the investigation "now has as much chance as a snowball in hell." Moulder said he would resign as chairman this morning, but stay on the subcommittee.

Bulgaria Fights 'Rock'

London—Diplomatic sources reported today that Communist Bulgaria has arrested more than 3,000 youths in a return to the tough anti-Western policies of Josef Stalin.

The "crimes" charged against the youths include addiction to jazz, rock 'n' roll and the wearing of western-type clothing. The penalty is forced labor as a means of "re-education."

Russia Aids Egypt

Cairo—Egypt's National Assembly has unanimously approved the 175 million dollar aid act with Russia as expected.

In approving the pact yesterday, the Assembly passed a resolution thanking Russia for the aid. Minister of Industry Aziz Sidky, who signed the agreement in Moscow last month, said the pact "had no political strings attached." The money, considered the backbone of Egypt's current five-year plan, is to be paid back over 12 years at 2 1/2 per cent interest.

Over the Ivy Line

Colorado Daily Has Money-Saving Advice: Ring Solves Romance, Finance Problems

By Judie Ross

ROMANCE AND FINANCES are two problems that have faced college students from the beginning of "extracurricular" activities. But the problem has been solved, as far as one Colorado university student is concerned. From the Colorado Daily comes this advice—Get Engaged.

You have no idea of how much money you can save by making this entangling alliance. Every time the little dear mentions something that costs above your principles (about 19 cents) you just remind her of the virtues of thrift and the need of saving for a rainy day. Shuts 'em up every time.

It gets you out of the problems related to 'dating a clamoring crowd of predatory females. You get rid of all the hollering and screeching and yowling about them wanting this or that.

Another advantage to getting yourself into such a verbal contract is that you have more time to practice teaching your scrub-woman-to-be just where she will stand. For instance, when she mentions money, she will know by your actions just what you can spend.

A groan means, "You can buy it, but . . ."

A snort means, "I'm not convinced."

A glare means, "The judge will be sympathetic to my case."

A choking fit means, "NO!"

Of course, one must spend at least some money on his lady-lord as a "token of affection." They deserve at least a coke and a candy bar each week.

But if they come at you with that outstretched hand and that look of fiscal starvation, just tell them, "You've got me; what else could you want?"

Fair coeds of Kansas State, beware when that man in your life offers his promise of undying love. Find out if his intentions are honorable or if he is just plain broke.

THIS IDEA must be catching on, however. The Minnesota Daily is making attempts to set up or, at least try to satisfactorily work out the problem of boys trying to get a date when the ratio on campus is against the stronger (?) sex. Six male-type individuals wrote a letter to the Minneapolis Star columnist Cedric Adams, beseeching him to find companions for them. In an attempt to solve this serious problem, the college paper intervened and from it came the following editorial:

"In last Saturday's column, he (Cedric Adams) printed a letter written in behalf of six friends who were in search of mature women. The six 'eligible bachelors' range in age from 21 to 26 and are University students. Their plea to Cedric was quite well put and their line should be appealing to even the most cynical female.

"But the reason for our mentioning this little attempt at match-making is to determine whether something can't be done on campus to help these young men. After all, we like to keep this sort of thing in the family.

"Members of the Union Board staff tell the Daily they are quite willing to set up some kind of program for the older student if any of them are willing to run for it. The Union has some funds which it will make available for programs. This might be the solution to the plight of the six lonely men who don't have much money for dates, but sound like a lot of fun."

Maybe the third floor of the Kansas State Student Union could be converted into a dating bureau, equipped with UNIVAC for perfect matching of willing parties. Interested students may wish to contact the University of Minnesota to discover if the program proved successful.

ALL THIS BRINGS us to the problem of fireworks. At the recent pep rally, we were not sure if the celebration was the victory over KU or whether it was the 4th of July. Oregon State college is faced with a similar problem, reported in the Oregon State Daily Barometer.

"Campus police were treated to a fireworks display Saturday night when they investigated a report that an unidentified student was shooting roman candles on the south side of Weatherford hall . . . In recent weeks there have been many firecrackers and weapons discharged from the dormitories. These acts endanger the lives of all students with the possibilities of ricocheting bullets and fires caused by fireworks. Students are to be reminded that all weapons must be registered and stored with the Corvallis police." Beware K-Staters, you, too, may have to register your firecrackers.

LOOKING AT BLUEPRINTS of a buffalo which will be sculptured from this seven-ton stone are Don Filby, Art Sr, and Ruth Kirtland, Art Sr. The stone is sitting in the physical plant. The art students will do the sculpture for Sunset Zoo.

Art Students Sculpture Animals for Sunset Zoo

Two art seniors at K-State have put their sculpturing talents to work on 50 tons of limestone to make two monuments for the Sunset Zoo as a special project.

Ruth Kirtland is sculpturing a buffalo which will be used as an entrance marker for the zoo. It will be 17 feet long and 10 feet tall. The center stone of the buffalo which forms the body weighs seven tons alone.

A bear for the picnic grounds

is being made by Don Filby. It will be 5 feet by 4 feet by 3 feet and will stand on a 12 foot pedestal. The bear weighs five tons.

The monuments are a special project of Manhattan, K-State, and the Department of Architecture and Allied Arts in co-operation with the Park Planning board. Part of the stone was contributed by the Bayer Stone and Construction company of Manhat-

tan. The air hammers being used were a gift from the city of Manhattan.

J. Cranston Heintzelman, professor in the Department of Architecture and Allied Arts, selected the two students for the project. Miss Kirtland has had eight hours of sculpturing, and Filby has had six.

Both students spend about ten hours a week in the agricultural engineering barracks working on the stone animals. Since both students are seniors, they plan to complete the animals by June.

According to Professor Heintzelman, this is the biggest project of its kind to be undertaken by the department.

Little Royal Sign-Up To Begin Tomorrow

Students may start registering tomorrow for the drawing of animals that they will fit and show in the Little American Royal. Registration will be in West Waters hall and in the new Animal Industries building Wednesday, Thursday, and Friday of this week.

No more door prizes will be given at the Little Royal, previously awarded to the 4-H clubs and FFA chapters represented, according to Jack Van Horn, DH Sr, acting chairman of the Little Royal committee.

The committee decided to disperse with them after assigning the money to be used in other

means of attracting the various youth groups, Van Horn said.

The Little American Royal, the 30th annual event, is scheduled Saturday, March 29, in the Animal Industries building.

The Royal is a livestock fitting and showing contest sponsored by the K-State Dairy club and the Block and Bridle club. Outstanding leaders in the Kansas livestock industry will judge the contest to select the best animal showman.

The various committees are working now on the prizes and awards for winners of the showing contest. "Committees for the Little American Royal are really making progress now," commented Van Horn.

West Point Lacks Girls, Freedom Found at KSC

"The thing I learned while at West Point Academy was to appreciate the coeds and the freedom we have here at K-State," said Bob Carlson, BA Jr, one of the 12 K-State students who visited West Point Military Academy, Thursday, Friday, and Saturday of last week.

The K-Staters flew from Forbes Air Force base in Topeka, Thursday morning in a C-47 transport plane piloted by Col. Charles H. Wilkins, ROTC instructor, and his crew. Col. William W. Harvey, head of the Army ROTC department accompanied the students.

The K-State men stood all formations, ate with the cadets, and attended classes with them. Each student was under supervision of a West Point cadet.

Orientation at the academy included classes in the school's operation and in the requirements for admission.

"One of the more beautiful sights at West Point is the 'Plain,'" Carlson said. "The 'Plain,'" he explained, "is a huge drill field, perhaps half as large as the K-State campus. It is the center of all activities with all the buildings built around the area."

The K-State men watched the inspection parade as cadets passed

before the Board of Visitors, a group of United States government officials similar to the Board of Regents of a college.

Several of the K-Staters attended the gymnastics match between West Point and Penn State university Saturday afternoon. Others watched the cadets beat Boston college in a hockey match.

Students were amazed at the size of the mess hall which seats around 2,500 men at each meal and the good food that was served.

Because of the snow and icy conditions in the Eastern states, on the return trip Sunday, the heating elements were directed to the defrosting system for the windows and the inside of the plane was without any heat. With the temperature around the 30 degree below mark, students inside the plane had to move around to keep warm.

No Bait

Manitowoc, Wis. (U.P.)—A 16-year-old boy looking for night-crawlers with a flashlight looked up to find himself surrounded by police. Neighbors, suspecting he was a prowler bothering city residents of late, had called officers.

Betas and Rebels Lead In Intramural Standings

Beta Theta Pi and the Rebels lead the fraternity and independent intramural leagues at the end of the first semester. The Betas have a 35-point edge over Sigma Phi Epsilon while the Rebels are leading the O.K. House by only a 239-228 count.

Sigma Alpha Epsilon, fraternity intramural champions for the past six years, has slipped to third place with a total of 327½ points, 63½ points off the pace. Pi Kappa Alpha is fourth with 293 and Sigma Chi is in fifth place with 261 counters.

House of Williams is running a close third in the independent division with a 215-point total. West Stadium has tallied 190 points for fourth place and Rho Alphas are fifth with 179 points.

Fraternity Standings:

1. Beta Theta Pi	391
2. Sigma Phi Epsilon ..	356
3. Sigma Alpha Epsilon..	327½
4. Pi Kappa Alpha	293

U.P. Poll Picks Cats

K-State's basketball team moved into first place in the United Press major college ratings, climbing from the fourth place spot they occupied last week.

The UP board of coaches gave the Wildcats 15 first-place votes and 294 points, enabling them to climb into the top spot.

Kansas university, which had

replaced West Virginia as number one last week, dropped to fifth. West Virginia and San Francisco remained third and fourth respectively while Cincinnati climbed into fourth.

Oklahoma State advanced from seventh to sixth and Temple, with 15 straight victories, moved from eighth to seventh. Maryland advanced from 10th to eighth.

North Carolina State, 14th last week, jumped to ninth and Bradley dropped from ninth to 14th after losing to Oklahoma State.

North Carolina, which lost to Duke Saturday, and Kentucky tied for 10th. North Carolina, which won all its games last season enroute to the NCAA championship, was sixth last week. Kentucky was 12th.

1. K-State	16-1
2. West Virginia	17-1
3. San Francisco	16-1
4. Cincinnati	16-2
5. Kansas	13-3
6. Oklahoma State	15-2
7. Temple	15-2
8. Maryland	13-3
9. North Carolina State ..	14-3
10. North Carolina	13-4
11. Kentucky	15-4
12. Second ten: Dayton, Duke, Bradley, Notre Dame, Michigan State, Michigan, California, Tennessee, Brigham Young, and Seattle.

Notre Dame 106, Marquette 74
Minnesota 80, Michigan 69
Illinois 99, Purdue 84
Indiana 93, Wisconsin 87

The Stilt's Taper Could Be Caper

By UNITED PRESS

Wilt Chamberlain, who broke big eight basketball scoring records with 46 points Saturday night against Nebraska, made only six against Colorado last night at Boulder.

But it was obvious it wasn't Colorado's fault. The tall star repeatedly refused opportunities to shoot, passing instead.

His Kansas teammates slowed down to Colorado's deliberate ball-control tactics and still won easily, 60-51.

Some observers believed Kansas Coach Dick Harp was just experimenting with a new offense for the next encounter with K-State—the top team on the United Press basketball poll.

But Harp said, "Wilt decided on this move . . . because the CU boys weren't giving him enough room under the basket."

Wilt himself said, "This was a good opportunity to brush up on my passing. They were gangling up on me and I could feed the ball to the other boys for easy scores."

Sooners Over NU With Hot Shooting

By UNITED PRESS

The Oklahoma Sooners moved past Nebraska 66-39 last night as Bill Hammond, a 6-6 sophomore, uncorked one of the most stunning shooting exhibitions of the basketball season at Norman.

The Oklahoma City native pumped in eight straight floor attempts without a miss, seven of them coming in the first half. By game's end, Hammond had 19 points, high for the contest.

Herschell Turner and Wilson Fitzpatrick paced the Cornhuskers' muffled attack with 10 points each. Nebraska, fighting with Colorado to avoid the Big Eight cellar, hit on less than 19 per cent of its field goal attempts.

Hawks Win At Boulder; Stilt Wilted

Kansas university's Wilt Chamberlain, content with passing off to his teammates, scored his all-time low of six points last night as the Jayhawks defeated the Colorado university basketball team at Boulder, 60-51.

Kansas, third in the Big Eight standings, now has a 4-2 record and Colorado is in last with Nebraska university, both at 1-6.

A capacity crowd of 7,000 fans saw Chamberlain, who scored 46 against Nebraska Saturday, play the role of a feeder last night as three of his teammates hit in the double figures.

The Buffaloes employed a zone defense which had three men concentrating on the big stuffer and Chamberlain cashed in on only two field goals and two free throws.

Forward Alan Donaghue was high for KU with 15 points and Ron Loneski, 6-5 forward, and Bob Billings, 5-11 guard, each had 14.

Colorado's Jerry Schroeder, 6-1 junior guard, was high scorer in the game with 22 points. Leo Hayward of Colorado also hit in double figures with 14.

You'll be pleased with a Collegian classified.

The Jayhawkers Are Trying To Forget This

Swimmers To Meet Hawks

K-State's swimming team travels to Lawrence today to try to avenge an earlier defeat at the hands of the Kansas university swimmers. The Wildcat swimmers dropped a 48-36 decision to KU here January 15.

Coach Bill Thrall and his crew have high hopes of improving their dual season record of 5-3, which they brought above the .500

mark with two recent victories over Fort Hays State and Emporia State.

Probable K-State entries:

400-yard medley relay—1. James Mariner; 2. Ron Mihordin; 3. Dave Dicken; 4. James Nolen
220-yard freestyle—1. Tom Coblentz; 2. John Nickel
60-yard freestyle—1. Tom Onuma; 2. Jerry Fitzgerald
Diving—1. Marion Towns; 2. Allen Rader

200-yard butterfly—1. Dicken; 2. Nolen
100-yard freestyle—1. Onuma; 2. Fitzgerald
200-yard backstroke—1. Mariner; 2. Nickel
440-yard freestyle—Coblentz; 2. Dicken
200-yard breaststroke—1. Mihordin; 2. Rader
400-yard freestyle relay — 1. Onuma; 2. Nolen; 3. Fitzgerald; 4. Mariner

OU, KU Hang Tight In Conference Race

Oklahoma university and Kansas university both took Big Eight basketball wins last night to maintain their second and third positions in the conference race.

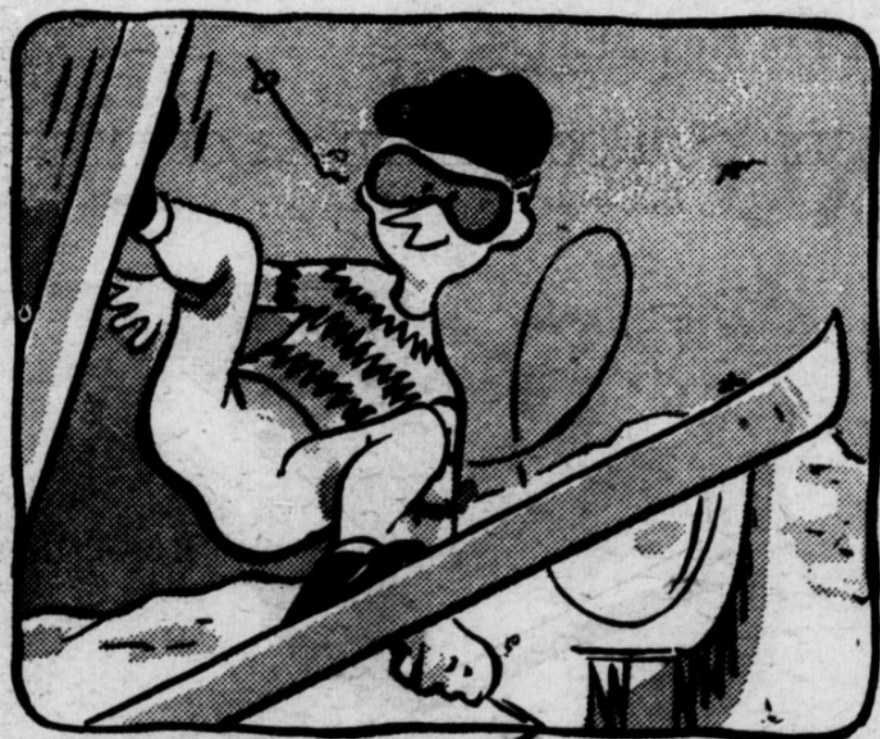

Oklahoma put away Nebraska university, 66-39, to register a 5-2 conference mark and Kansas downed Colorado university, 60-51, to post a 4-2 record.

Five games are on tap for the rest of this week. On Wednesday Oklahoma State is at Oklahoma and Missouri is at Nebraska.

On Saturday Kansas hosts Iowa State, Colorado entertains K-State, and Oklahoma is at Missouri.

The standings:

ALL GAMES	W	L
K-State	16	1
Kansas	14	3
Oklahoma	12	4
Iowa State	10	7
Missouri	8	7
Nebraska	6	11
Colorado	5	11
CONFERENCE	W	L
K-State	6	0
Oklahoma	5	2
Kansas	4	2
Iowa State	3	3
Missouri	2	3
Colorado	1	6
Nebraska	1	6

Sportcerpts

by Eldon Miller

This column will appear frequently in the Collegian this semester (we hope) in order to convey our feelings on the Big Eight sports scene to the college students at K-State.

We would appreciate any response, either pro or con, on the part of our readers to the opinions expressed herein.

To begin this column nothing would be more appropriate than a quick look to see how our friends down the Kaw river have been doing.

Kansas university has a very fine basketball team and those representing Kansas university will be the first to tell you about it.

Prior to our February 3 game with the Jayhawkers all the publicity that came out of Lawrence was quick to imply that Kansas could beat K-State any time it wanted to.

We particularly remember two feature stories which appeared in the Daily Kansan, KU's student publication, on Bob Billings and Ron Loneski, two Hawk starters.

About half the content of each story went on about how the Hawks were going to man-handle K-State in conference play this season.

But Loneski was kind enough to say that the Wildcats had a pretty fair team. "Possibly the second best team in the nation," said big Ron.

Well, K-State proved who had the better team and is in the driver's seat now.

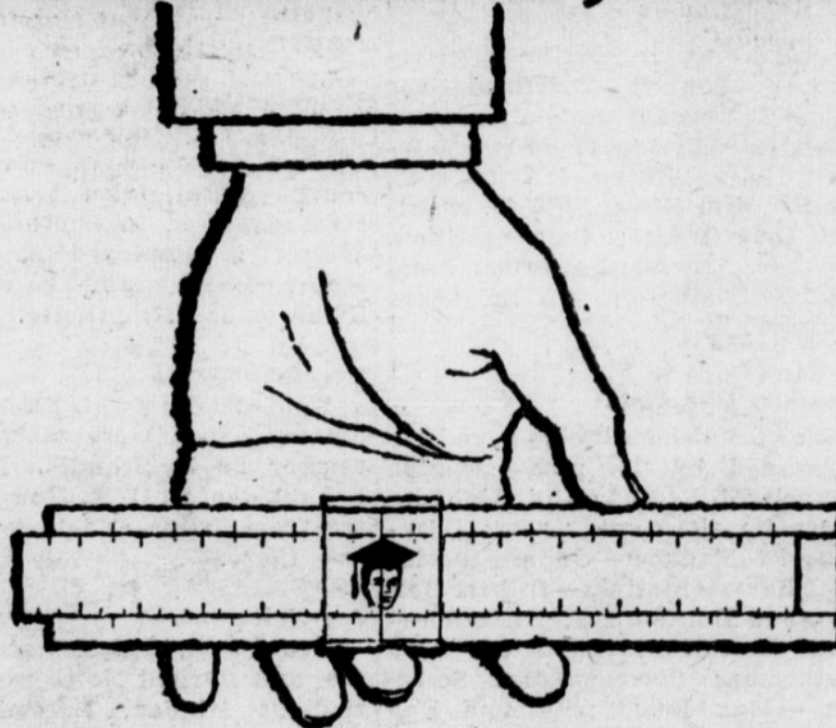

The people from Lawrence are trying frantically to build their prestige back up.

But they don't have to flex their muscles for us. We all know that Kansas has a good team—possibly the second best in the nation.

A Cincinnati sports writer (as much as we hate to admit it), defending Cincinnati university's basketball schedule against those who said it was "soft" compared to that of Kansas university, asked the question "Since when does the Big Eight stand out as a basketball power?"

Well, how about that?

Valentines Day Nears; Cupid Jumps the Gun

Tockey-Clark

Charles Clark, EE Soph, has announced his engagement to Georgeane Tockey at the Kappa Sigma house. Georgeane is a graduate of Hutchinson junior college. She is now a secretary for a Hutchinson law firm.

Both Georgeane and Chuck are from Hutchinson.

Oberhelman-Ayers

The engagement of Louann Oberhelman, Sp Sr, and Dick Ayers was announced at the Chi Omega house Tuesday. Louann is from Topeka and Dick is a member of Sigma Phi Epsilon at Washburn university. They are planning an August wedding.

Barnett-Brunnemer

Barbara Barnett, HEN Fr, has announced her engagement at Southeast hall to Pfc. William J. Brunnemer. Brunnemer is stationed at Santa Anna, Calif. Both are from Glen Elder. They have made no wedding plans yet.

Dawes-Goetsch

Sonja Dawes, BMT Fr from Brewster, announced her engage-

ment at Southeast hall to Gary Goetsch, IE Soph, also from Brewster. Wedding plans are indefinite.

Cannady-Zielsdorf

Mary Ann Cannady, EEd Fr from Princeton, has announced her engagement at Southeast hall to Marvin Zielsdorf from Burlington. No wedding plans have been made yet.

Steinle-Hagan

The engagement of Kay Steinle, Soc Sr, to Lt. James Hagan, USMC, was announced recently. Kay is a member of Delta Delta Delta and Jim is a graduate of the University of Oklahoma. He is now stationed in Pensacola, Fla.

Stark-Klotz

Martha Sue Stark, HT Sr from Bonner Springs, has announced her engagement to Robert Orin Klotz Jr. of Lake of the Forest. Robert is a junior at Colorado State university. A May wedding is planned.

Forbes-Callahan

Chuck Callahan, ME Sr, re-

cently announced his engagement to Jo Forbes at the Kappa Sigma house. Jo is a former Kansas State student who is now attending Washburn university. She is from Neodesha and is a member of Alpha Delta Pi. Chuck is from Independence.

Frogge-West

Howard West, AH Sr, has passed cigars at the Delta Sigma Phi house to announce his engagement to Sharon Frogge from Yates Center. Sharon is a sophomore at Southern Methodist university. A June wedding is planned.

Coleman-Breuninger

Sue Coleman, EEd Fr, passed chocolates at the Delta Delta Delta house Wednesday evening to announce her engagement to Larry Breuninger. Larry, BA Jr, is a student at Washburn university. He is a member of Kappa Sigma. Both are from Topeka.

Harnish-Franklin

The engagement of Darrel Franklin, BA Sr, and Janette Harnish has been announced at the Lambda Chi Alpha house. Miss Harnish is employed in Kinsley. No definite plans have been made for the wedding.

Jordan-Knudson

Mary Alice Jordan, HT Soph, recently announced her engagement to Dean Knudson at Waltheim hall.

Marriages

Cameron-Nickel

Shirley Cameron, EEd Sr, was married to John Grayson Nickel, EE Soph, in a double ring ceremony at Winfield. Shirley is a member of Delta Delta Delta sorority.

Peterson-Meyers

Carol Peterson, EEd Fr, and Walter Meyers were married recently. Carol, from Morrowville, formerly lived in Southeast hall. Walter is employed at Brewer Motor company, and the couple is living at 511 N. Juliette.

Freed-Cardwell

Kenneth Cardwell, SED Jr, and Shirley Freed were married December 29 in Scandia. Kenneth is a resident of O. K. House. Both are from Salina and they plan to live there.

Joy-Nolte

Denni Joy, 1957 K-State graduate, and Burdell Nolte were married at Mission, December 27. Denni is a Delta Delta Delta, and Burdell is a Sigma Phi Epsilon.

More Frat Elections Bring New Officers

Phi Delta Theta

New officers at the Phi Delta Theta house are John Spangler, Phy Sr, president; Dick Brantingham, BA Soph, secretary; Gene Olander, SED Soph, and Robert Annan, BA Soph, social chairman; Dave Nuttle, AH Sr, reporter; Clancy Norris, PEM Jr, rush chairman; Nick Hudelson, AE Soph, alumni secretary; Bill Patterson, Sp Sr, librarian; Marlin Meador, Ar 05, warden; Rex Pearson, BA Soph, chaplain; Dick Pearson, BA Jr, chorister; and Phil Reid, EE Jr, Bill Taylor, ME Soph, and Earl Fort, AEd Sr, executive council.

Delta Upsilon

Newly elected officers of Delta Upsilon fraternity are Ralph Willard, Chm Sr, president; Henry Andrade, BA Jr, vice-president; George Beck, BA Jr, treasurer; Roger Smith, EE Soph, recording secretary; Mart Cooley, MTe Sr, corresponding secretary; Bill Gordon, AEd Jr, rush chairman; and Dale Nordstrom, ME Jr, house manager.

Farm House

New officers of Farm House fraternity are Janver Krehbiel, DM Sr, president; Ronald Schultz, AH Jr, business manager; Veryl

James, Agr Jr, treasurer; Richard Folsche, AGE Jr, secretary; Jimmy Beauchamp, TA Jr, pledge master; Martyn Apley, FT Soph, rush chairman; Jim Withers, PrV Soph, social chairman; Donald Wittum, VM Jr, historian; Russell Adams, TA Sr, scholarship chairman;

Ronald McCune, AEd Soph, corresponding secretary; Dwight Jackson, Ag Jr, senior Interfraternity council representative; Charles Dorgan, AGE Jr, junior Interfraternity council representative; Larry Boone, AA Jr, song leader; Jim Brown, FT Jr, assistant song leader; Dale Schilling, Ag Sr, sergeant-at-arms; and Carlyle Thompson, TA Sr, board member.

Lambda Chi Alpha

The following officers have been appointed by the new executive council of Lambda Chi Alpha to serve for the coming year: Intramural Manager—John Steele; IFC Representatives—Gilbert Helting and Bob Suttles; Historian—Bob Haitbrink; Reporter—Gary Culberson; Corresponding Secretary—Max Fossey; Gamma Ray Editor—Orlo McNary; and Song Leader—Richard Streets.

The Social Whirl...

The Pi Beta Phis will entertain the Kappa Kappa Gammas at a breakfast Sunday morning at 8:30 at the Pi Phi house.

Waltheim hall had an open house Sunday for freshman residents of Northwest hall. The girls met the house director and officers of Waltheim and toured the dorm. Southeast girls will attend a similar function this Sunday.

Following the Iowa State game Saturday evening a house party was given by Alpha Kappa Lambda. Members and their dates were entertained with dancing, table tennis, television, and card games. Refreshments were served.

Delta Delta Delta and Sigma Nu will have an exchange dinner Thursday evening.

The ADPis and the Sig Eps will have an exchange dinner tonight.

Beta Sigma Psi fraternity was host to Alpha Delta Pi sorority members at an hour dance at the Beta Sig house last week. Card playing alternated with dancing to provide entertainment, and refreshments were served.

Kappa Delta sorority was the guest of Delta Upsilon fraternity

at an exchange dessert Thursday night. Dancing followed the dessert.

Guests

Mary Frances White, assistant professor in the English department, was a dinner guest at the Kappa Delta house Wednesday.

Delta Sigma Phis and their dates attended an informal party at the chapter house following the K-State-Iowa State basketball game Saturday night. The couples danced, and played cards and table tennis. About thirty couples attended.

Exchange Dinners

Acacia fraternity will have an exchange dinner with Alpha Xi Delta Thursday.

Tea

A tea at the Alpha Xi Delta house Sunday, from 3 p.m. to 5 p.m., honored Miss Dorothy Swinney, Wichita, who spent the weekend at the house for chapter inspection.

You'll be pleased with a Collegian classified.

KS Coeds Enjoy Dorm Life, New Director

Four Campus Dormitories House About 650 Women

New Dorm Director Is 1956 K-State Grad

Although the combined capacity of the four K-State dormitories is 645, there now are 653 women living in them. Northwest, with 217 women, is the largest, followed by Southeast with 215; Van Zile, 155; and Waltheim, 66.

The first dormitory constructed was Van Zile hall. It resulted from the agitation of the women's clubs throughout the state concerning women's housing at the College. In April, 1925, the Board of Regents adopted the name in honor of Miss Geraldine Van Zile, the dean of women.

In September, 1925, the contract was let and the Legislature appropriated \$200,000 for the building on the north side of the campus. It was opened for use in September, 1926.

Soon the women of the state again felt that housing for women was insufficient. In 1946 the Endowment association purchased Waltheim, an apartment house at 1436 Laramie, and turned it over to the College. Waltheim is a German word meaning "waltz home." It was named by the owner's mother-in-law.

In 1947 the Legislature appropriated \$500,000 for the construction of two dormitories and passed the bill permitting the College to borrow money to finish paying for the halls. The contract was let in 1949.

Northwest was ready for occupancy in September, 1951. In September, 1952, Southeast was finished. They were constructed on each side of Van Zile.

At the present time upperclass women live in Van Zile and Waltheim. Freshmen and a few upperclass women live in Northwest and Southeast.

Each dormitory is headed by

a director and an assistant. The directors are Mrs. Robert Smith, Van Zile; Mrs. Jane Prier, Waltheim; Miss Virginia Smith, Northwest; and Miss Gladys Grace, Southeast.

In the two freshman dormitories upperclass women may earn two hours of college credit by serving as a counselor for freshman women one year. All College freshmen are required to live in dormitories unless special permission to do otherwise is granted.

In 1955 the system of dormitory parents was begun at Van Zile when Mrs. John Gibson became director. Her husband, a veterinary medicine student, also lived in the dorm.

Mr. and Mrs. Robert Smith replaced the Gibsons this semester. Smith is a graduate student in education and business.

The dormitories are operated by a house council which is composed of a representative from each corridor.

Dormitory rules are enforced by Tribunal members. These women are nominated by the entire dormitory and elected by the house council.

The dormitory serves three meals each day except on Sunday when the evening meal is not served. Each dormitory employs a dietitian. Mrs. Grace Shugart is the director of the residence halls food service.

Van Zile, Northwest, and Southeast have a living room, a library, a music room, and a recreation room with a television set. Waltheim has a piano, a television set, and books in one main lounge. Laundry facilities are provided in all four dormitories.

FORMER K-STATE, Mrs. Robert Smith, is the newly appointed dormitory director at Van Zile hall. She replaces Mrs. John Gibson in this position.

Card Tourney To Be March 1 In One Session

K-State is one of the more than 100 colleges and universities throughout the United States which has entered the 1958 National Intercollegiate Bridge tournament.

All play will be by mail and will be conducted in a single session March 1 at 8 p.m. in the Student Union, according to Bob Smith, ChE Jr, Union games committee subchairman.

The bridge hands will be returned to committee headquarters and will be scored by Geoffrey Mott-Smith, author and contract bridge authority, who will determine campus, regional, and national winners.

Prizes will include trophy cups for the colleges winning the national titles, one cup for the college with the pair scoring highest on the east-west hands and one cup for the college of the north-south hand winners. Each of the four individual national winners will receive a smaller cup for his permanent possession.

Each college competing for the first time in 1958 will be presented with a plaque designed to bear the names of the four individual campus champions. In addition, each of these winners will receive a certificate suitable for framing.

There will be a tournament entrance fee of fifty cents to be paid at the Union games desk before February 22.

Grads in Grade Teaching Get All-Time High Salary

Salaries at the highest level in history were received by beginning elementary teachers who were graduated from Kansas State college in January, according to Chester Peters, director of placement.

With the average starting salaries at \$3,650, they show an increase of nearly \$300 over mid-semester a year ago. The actual range of beginning salaries was from \$3,300 to \$4,000.

Out of the 58 prospective teacher graduates, 23 accepted positions immediately, nine continued in graduate school, six became full-time homemakers, and five located in private industry or with governmental organizations. Because of special

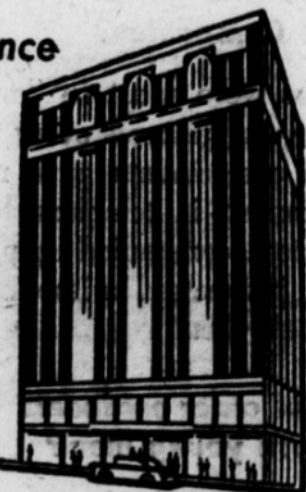

location preferences, several others have not accepted jobs.

Several of the K-State graduates accepted positions in Kansas suburban areas, Peters said.

Over 1,200 teaching vacancies have been reported to the College—an increase over past years. While the demand is strong in all areas of teaching, the more critical shortages appear to be in the fields of science and mathematics.

Leadership School Set For Thursday in Union

First meeting of the leadership workshop sponsored by the Student Council will be Thursday at 7 p.m. in room 15 of Eisenhower hall, according to Linda Merritt, EEd Soph, chairman of the workshop publicity committee.

The meeting will include general orientation for those who have been accepted to participate in the workshop. The meeting was originally scheduled for tonight.

Omicron Nu

Omicron Nu, home economics scholastic honorary, will meet at the home of Mrs. J. Huck, 804 Moro, Thursday, at 7:30 p.m.

Miss Alpha C. Latzke, head of the Department of Clothing and Textiles, will speak on the "American Home Economics Association," according to Kay Wadsworth, HT Sr, president.

Cosmopolitan Club

The Cosmopolitan club's annual Feast of Nations will be Friday at 6:30 p.m. in the First Methodist church. Foreign dishes will be served, and foreign entertainment will comprise the program.

Collegiate 4-H

Ben Handlin, AH Sr, has been elected president of Collegiate 4-H. Other officers are Arnita Otte, HDA Soph, vice president; Marjorie Roeckers, HDA Jr, and Mary Jo Mauler, HEJ Fr, secretaries; Rowland Williams, Ar 01, song leader; and Leland Elliott, AE Sr, marshal.

Corresponding secretaries are Rogene Davis, EEd Soph; Kay Gardner, BMT Fr; Ralph Gillmore, AE Fr; Fern Jahnke, SED Fr; Ron Janasek, FT Fr; and Maurine Neal, HE Fr.

Phems

Phems will meet Thursday at 4 p.m. in Nichols 104. Speaker will be Edith Melzer, who will discuss physical education in Germany in comparison with physical education in the United States.

Veterans' Club

"Mardi Gras," Veterans' club's annual dinner-dance, will be held at the Skyline club Sunday at 6 p.m., according to Gary Latham, Ar 03, publicity chairman. All veterans and their dates are invited.

Mu Phi Epsilon

New officers of Mu Phi Epsilon, national honorary music sorority are Yvonne Hodges, MEI Jr, president; Donna Turner, MEI Jr, vice president; Marilyn Moore, HEA Jr, warden; Carolyn Lilly, HEI Soph, recording secretary;

Nancy Irvine, MEI Jr, program chairman; Kay Reboul, MEI Jr, corresponding secretary; Jo Ellen Cooley, MGS Soph, historian; Carol Korinek, MGS Soph, chorister; Becky Dudrey, MEI Soph, chaplain; and Betty Larkin, MEI Soph, treasurer.

Kay Reboul, Carol Korinek, Betty Larkin, Jo Ellen Cooley and

Becky Dudrey were initiated into the honorary Sunday.

Astronomy Club

"Aurora Borealis" will be discussed by Tom Clark, Ch Gr, at the Astronomy club meeting Friday, at 7:30 p.m. in the physics lecture hall, according to Berdell Funke, SED Fr, president.

YWCA

"Pardon Me, Your Prejudice Is Showing," will be discussed by Mrs. Leona Dobson, a Manhattan resident, active in church and club groups, at the YWCA meeting to-

day at 4 p.m. in room 207 of the Union.

Masonic Club

George Smidt, IE Jr, has been elected president of the K-State Masonic club for the coming year. The new officers are LeRoy "Pete" Klein, GA Sr, vice president; Ted E. Purvis, BA Soph, secretary; Don Sutton, EE Jr, treasurer; and Enoch Kenworthy, Hrt Gr, sergeant-at-arms.

You'll be pleased with a Collegian classified.

John Lawlor, B.S. in E.E., Brown, '52, answers some questions about

An engineering career with the Bell Telephone Companies

John Lawlor is a Transmission Engineer with New England Telephone and Telegraph Company in Boston. His answers reflect his experiences during five years in the telephone business.

Q How did you begin as an engineer in the Bell Telephone Companies?

A My first fifteen months were spent in "on-the-job" training—changing assignments every three months or so. These assignments gave me a broad, over-all background in telephone engineering. And they were accompanied by plenty of responsibility. They progressed in importance with my ability to handle them.

Q What is the attitude of older engineers and supervisors toward young men?

A I've found a strong team spirit in the telephone company. You're encouraged to contribute your ideas, and they're received with an open mind. Young men and new ideas are regarded as vital to the continuing growth of the company.

Q How about opportunities for advancement?

A I'd say they depend on the man. Opportunities to demonstrate your ability come with each new

job you're given. The size and importance of your assignments grow with your ability to handle them. All promotions are made from within, and the growth of the business is creating new openings all the time. One more thing. Most telephone engineering locations are convenient to colleges. You can aid your advancement by keeping on with your studies.

Q How does the telephone company stack up where pay is concerned?

A Starting salaries are competitive with those offered by most large companies. Raises are based on merit, with several increases during your first two years with the company. What's more, your performance is reviewed regularly to make sure that your pay keeps up with your progress. All things considered, I think a Bell Telephone career is second to none in rewards and opportunities.

Find out about career opportunities for you in the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office, or write for "Challenge and Opportunity" to: College Employment Supervisor, American Telephone and Telegraph Company, 195 Broadway, New York 7, N. Y.

Steam Whistle Blows On Senate's Approval

K-State's steam whistle is blowing again, following action by the Faculty Senate in yesterday afternoon's meeting, according to Glenn Beck, director of the Agricultural Experiment station, who is chairman of the Senate.

The whistle was sounded for the first time at 5 p.m. immediately after the meeting. "We thought it was an appropriate way to announce our approval," Beck commented.

"The Senate voted to blow the whistle at 8 a.m., noon, 1 p.m., and 5 p.m., weekdays, except on Saturday afternoons, so the action went in effect today," he said.

The whistle, which has been

used at Kansas State for approximately 40 years, was recently discontinued by President McCain's order after several petitions had reached his office protesting its use.

When later groups and individuals asked that he reinstate the whistle, McCain referred the entire matter to the Faculty Senate, explaining he felt their preference was that most in question.

Other action taken by the Senate was that of initiating a faculty newsletter. A committee, to be appointed later, was authorized to study the possibilities of such action as now approved, Beck explained.

Big Four Plus Two Talent To Appear Here Thursday

The Big Four Plus Two talent show will be presented at K-State on Thursday at 7:30 p.m. in the College auditorium. K-State, Kansas university, and Nebraska university, will be the main participating schools. Missouri university with two entries and Iowa State college and Oklahoma university with single entries, will participate just for the practice this year. The show is sponsored and co-ordinated by the Campus Entertainment committee of the Union Program council.

Last year's Big Three talent show with K-State, KU, and NU

participating, was presented at K-State only.

Due to the success of last year's program, the show will go on the road this year for the first time. After being presented at K-State Thursday, the show will be presented at Lawrence Friday night and at Lincoln Saturday night.

Roger Brown, a speech major from KU will be master of ceremonies for the show. Brown has appeared in seven plays during his four years at KU. He was a member of a group sent to Europe by the U.S. Department of Defense to present a variety show on the world-wide United Service Organization tour during the summer of 1956.

Entering from K-State are Jan White, HT Jr, marimba soloist; the Four Delts, and the Nightcaps. The Four Delts are, Larry Foulke, NE Jr; Lowell Novy, VM

Soph; Max Bishop, ArE Soph; and George Rood, NE Jr. The Nightcaps, are Jon Weigand, GA Jr, Bob Sanders, EE Soph; Doug Exline, ME Soph; and Janet Holm, EEd Soph.

Delano Lewis, tap dancer who has appeared in several shows on the KU campus and for various other groups; the Triads, female vocal trio; and the Don Conard Quintet, five-piece jazz group, are KU's entries.

The Triads are Elaine Knupp, first soprano; Helen Larson, second soprano; Sondra McIntosh, alto; and Jan Rodgers, accompanist. They have toured army camps, appeared on Ted Mack's show in New York, and have worked past summers as singing waitresses at resorts.

In the Don Conard Quintette are Conard, string bass; Jay Fisher, piano; Ron Allerton, (Continued on page 3)

ROTC To Choose Royalty This Week

Sixteen candidates for Army ROTC Military Ball queen have been nominated by sororities and other college living groups. Army ROTC cadets will participate in elimination voting on the candidates Wednesday and Thursday this week. Five finalists will be chosen from this vote.

Final voting for the queen will be at the Military Ball in the Student Union main ballroom

IPC Hopefuls For Royalty Are Shown

Thirty-two organized houses presented their candidates for IPC king or queen before a capacity crowd of nearly 700 last night in Williams auditorium.

The annual IPC dance will be Friday at 9 p.m. in the Union's main ballroom. The winners of this year's contest will be crowned at the dance by last year's pledge royalty Joe Gardner, BAA Jr, and Mary Helen Eaton, EEd Jr. Each pledge has already received a ballot and will receive only one vote.

Robert Smith, ChE Jr, acted as master of ceremonies during the Tuesday performances and introduced each candidate to the audience.

The twenty-two men's organizations presented their candidates first in alphabetical order, and were followed by the ten participating women's groups.

The theme of the skits ranged from "Go Ape," presented by Delta Tau Delta, to "Beauty Contest," performed by Clovia. "The Line Up" seemed to be the most popular theme among male organizations, while no definite pattern was followed by the women.

Smith said the results of the voting, which will take place as the pledges enter the dance, will be announced about 10:15 p.m. that evening.

February 21. One of the five finalists will be crowned queen and the other four will be attendants.

Women selected as candidates are Judy O'Hara, EEd Jr, Delta Delta Delta; Janell Farrell, TxC Sr, Kappa Kappa Gamma; Lois Bones, EEd Jr, Chi Omega; Sharon Skupa, Soc Soph, Kappa Delta; Mary Ann Hauge, BA Soph, Alpha Chi Omega; Nancy Payne, EEd Soph, Pi Beta Phi; Betsy Burnham, EEd Jr, Gamma Phi Beta;

Carrol Kellogg, HT Jr, Clovia; Jackie Mall, SEd Soph, Alpha Xi Delta; Carolyn Moore, BA Sr, Alpha Delta Pi; Sandra Tenario, SEd Soph, and Karen Hampton, Sp Soph, Van Zile hall; Dawn Shannon, HT Soph, Waltheim hall; Harriet Wetlaufer, HE Fr, Northwest hall; and Carolyn Banks, Psy Fr, and Judy Jackson, EA Fr, Southeast hall.

SGA To Offer Secretarial Job In Union Office

Applications for part time secretarial work in the Student Governing association office, will be open at the SGA desk in the Student Union activities center Thursday, according to Pat McDermott, BA Sr, corresponding secretary for the organization.

No salary is offered for the work. Secretarial help is needed weekdays 1 p.m. to 5 p.m., and Saturdays 8 a.m. until noon. Duties will be filing, typing and general secretarial work.

Applications will close Wednesday, February 19. All applicants are requested to go to the business administration barracks for a meeting either Thursday or Friday, February 20 or 21 at 4 p.m.

Applicants are requested to bring a shorthand notebook, pen, typing paper, and an eraser.

"This work can possibly be a stepping stone to higher positions in SGA," said Pat McDermott.

Lafene Sets Up Station In Union for Flu Shots

An immunization station in the K-State Union lobby was set up at noon today, according to Dr. B. W. Lafene, director of Student Health. Students may obtain flu shots for several days. K-Staters can get their first or second shots at the station. Those who were vaccinated at Student Health earlier will not be charged for the second shot, but the first shot will cost students 50 cents.

Senior Week Is Okayed By 75 at Class Meeting

Photo by Darryl Heikes
THERE WERE MORE EMPTY SEATS than seniors at the senior class meeting last night in the little theater of the Union. The seniors voted to have their banquet February 24.

K-State Singers are being considered for a European tour to perform for service men by the United States Special Services division, according to Judy Horn, EEd Jr, publicity chairman of the Singers. This consideration is a result at a four performance audition at Ft. Riley January 12.

"We are still waiting for an answer, and if we are accepted, we will leave sometime early in the summer," Miss Horn said.

Many dance routines have been added to supplement the Singers' choral performance.

On the Singers' schedule for this spring are programs for the

all-College dance, February 15, sponsored by the Newman club; the Agricultural Economic department, February 24; the Agricultural Bankers banquet at the Student Union, February 28; and the Phi Kappa Alpha Teachers meeting at the Union, April 3.

The K-State Singers will go on tour with the A Cappella choir from March 10 to March 14. They will sing on Wichita television station KTVH March 13, at 4 p.m.

The group is planning a concert to be given on campus sometime in March. A definite date will be announced later.

Senior Week was accepted unanimously by approximately 75 seniors at a 1958 senior class meeting last night in the Union little theater. Senior Week will be February 24 through March 1, according to Gene O'Connor, PEM Sr, president of the senior class.

The senior class president also announced that Ernie Barrett, assistant secretary of the Alumni association, has been asked to be the 1958 senior class adviser.

A motion was approved by a majority to have a senior dinner February 24. The second motion accepted specified the senior dinner would be an informal buffet style dinner.

In other action a motion was passed to assess each graduating senior 50 cents at the time he rents his robe for graduation. This assessment would go for a senior gift to the College and cover the cost of Senior Week.

O'Connor said that special arrangements are being made to have a special section for seniors at the K-State-Missouri basketball game March 1.

However, only those seniors who have purchased senior badges will be eligible to sit in the section. O'Connor said that tentative plans are being made to have the seniors sit in the faculty section of the Field House.

Apathy Is Prevalent on Campus; Few Attend Senior Class Meeting

SENIORS CAME out in full force—approximately 75 out of the 1,100 graduating students—to debate a proposed Senior Week and methods of obtaining funds for the senior class gift.

We'd like to have a question answered: what's the reason for the apathy? Are only these 75 going to participate in Senior Week? Do 1,025 Seniors dislike the idea of leaving a gift to K-State? Do they think that the whole idea is a game, not worthy of mature consideration, or is their time more valuably spent elsewhere?

The senior class needn't feel that we're levelling these charges just at it. We're pointing both barrels at all the organizations, club, etc., who schedule meetings week in and week out. If they're just being handled by office-seekers and "member-maniacs," why not just have one continual meeting for this apparent minority, and quit wasting needless time and effort to entice those people who don't give a—well, at least show little interest.

It seems to us that as we read the many news releases and notices which pass over

our news desk, the fad these days is to appoint nine subcommittees to take care of the five committees that are working with the three executive committees to ask the administration what's best

And obviously, after looking at the picture on today's front page, or if you were one of the patriotic 75, something's wrong somewhere. Heavens, a spontaneous rally in Aggieville can attract 2,500 with no trouble at all.

We'd suggest the planning committee, or at least one of its subcommittees, of the various organizations think it over. Membership is life or death to any group, and unless active participation is in evidence, a few people must be working awfully hard for nothing.

In case you hadn't heard—or read—the whistle is back. We hope you're happy about it. We are, since we figure we can get up, get dressed, and race to Kedzie only 13 minutes late for an 8 a.m. class if we get up as it blasts off!—Sue Goss.

LITTLE MAN ON CAMPUS BY BIBLER

"SAY SOMETHING NICE ABOUT DEMOCRATS—I HAPPEN TO KNOW HE FLUNKED 13 KNOWN REPUBLICANS LAST TERM."

Philip Young Returns; India Lectures Ended

By NANCY MOLTER JACKSON

"Unlike American students, Indian students are very excitable about national and campus politics," said Associate Professor Philip Young of the English department who recently returned from a three-month lecture tour of India.

Young explained that when Indian students disagree on an issue, they have riots, go on strike and refuse to attend classes. "Students are very rebellious except when they are in class. They are formal in class and by our standards, very backward."

In reference to his trip Professor Young explained, "The State department asked me to make a lecture tour of a dozen of the largest Indian universities in the northern, central, and southern parts of India and speak before their faculties in order to interest them in teaching courses in American literature."

A few of the universities that Young and his colleague, Professor Richard B. Davis of the University of Tennessee lectured at were the Universities of Delhi, Benares, Madras, and Lucknow.

Young's main purpose on the lecture tour was to try to convince the Indian educators that

American literature is worth their time as a separate subject. "Indian students do read American literature but it is offered along with English and European literature in one course usually," he said.

Among other subjects, Young lectured on "Modern American Fiction," "Modern American Poetry," and "Ernest Hemingway." Young is the author of a book on Hemingway which was published in 1952. Since that time, it has been translated into French, German, and Spanish.

"The most popular American writers of Indians are the 19th century writers, Emerson, Whitman, and Thoreau. The reason for this is that these three American writers, themselves, were greatly influenced by Indian Hindu thought," according to Young.

"They are also definitely interested in 20th century writers, especially T. S. Eliot. Indians have mixed feelings about William Faulkner and Ernest Hemingway. They find Faulkner difficult to read and understand. On the other hand, they understand Hemingway but they find Hemingway's view of the world 'foreign' and are unsympathetic to his ideas."

Young said that India's one Communist state, Kerala, showed "definite opposition to our program and ideas." "The Communists in academic life there are inferior compared to the Marxist-minded students I encountered when I taught at New York university. The Indian faculty members and students who are Communists are maliciously hostile and ignorant."

Interestingly enough, Professor Young said that most Indian university classes are taught in English. The reason for this, he explained, is that many different languages are spoken in India. English has proven to be a common language that they can all speak. He said that one of the "hot" issues of India right now is whether to make English the national language.

Professor Young said he considered the lecture tour "pretty successful." He said the State department has also sent journalism professors to India for similar purposes. Young said that journalism is a new idea in Indian universities, and the faculties have shown a willingness to offer journalism courses.

World News

NATO Allies Demand Bombing Explanation; Tunisians Stage Demonstrations Against French

Compiled from United Press
By CHAS. H. SCHREIBER

France's NATO allies demanded an explanation for the bombing of a Tunisian village which touched off wild and angry demonstrations against the French today in Tunis.

Angry mobs of Tunisians shouting their hatred of France marched to the residence of President Habib Bourguiba and demanded arms with which to drive 25,000 French troops out of Tunisia.

The Tunisian armed forces and gendarmes were alerted for serious trouble in the first major anti-French demonstration since the village of Sakiet Sidi Youssef was hit on Saturday.

Nationwide demonstrations were called in Tunisia for Friday when memorial services will be held for the 75 Sakiet dead.

The demonstrations coincided with a tightening blockade of French military posts in Tunisia. French military commanders left Tunis today by helicopter to join their beleaguered troops.

Gen. Gernand Gambiez, commander-in-chief of the French armed forces in Tunisia, called off a planned visit today to the big naval base of Bizerte where the Tunisians have threatened to fire if France tries to bring in reinforcements.

Japanese Still at War

Manila—Japanese officials expressed optimism today that two World War II stragglers would soon come out of their hideouts on Luband Island for repatriation to Japan.

A Japanese mission dropped packages yesterday into the jungle area where the stragglers have been hiding since the war. The packages contained letters from their families, photographs, medicine, cigarettes, food and an imperial message declaring the war ended August 15, 1945. Also included was equipment with which the stragglers could signal their whereabouts and their desire to be repatriated.

FCC Files Go to Morse

Washington—The strife-torn House investigation of alleged "misconduct" in federal agencies swung dramatically today on the decision of Sen. Wayne Morse.

Morse found himself in physical possession of disputed files

handed him by ousted Staff Chief Bernard Schwartz of a House Commerce subcommittee investigating six regulatory agencies.

The Oregon Democrat gave no hint of what he would do with the files. He said he would have a statement about them later today.

Schwartz, in a statement late yesterday, asserted he had uncovered evidence of "the payment of money" to a Federal Communications commissioner in a disputed TV channel case. He did not name the person or case.

He declared he had "planned to bring to light the machinations of the White House clique in controlling decisions" of federal regulatory agencies. He ticked off as members of the "clique" the names of Presidential Assistant Sherman Adams, White House Counsel Gerald Morgan, Commerce Secretary Sinclair Weeks, Col. George Gordon Moore, Mrs. Eisenhower's brother-in-law, and former Gov. Thomas E. Dewey of New York.

Space Mates Needed

San Antonio—The first space traveler should have a companion rather than rocket alone above the earth, a doctor suggested after observing the first three days of a man's simulated trip to outer space.

"A cabin which would support a crew of two or more—a mutually dependent crew—would be more desirable for future orbital flight," Dr. George H. Steinkamp said yesterday.

Steinkamp, chief of the Air Force's Department of Space Medicine, has been watching Airman Donald G. Farrell's reactions as he "pilots" a three-by-five-foot steel chamber simulating the

conditions of a flight into space.

Steinkamp pronounced Farrell "mentally keen" and doing "excellently" at the end of the third day of his "flight." He said there was no sign of wear on the 23-year-old airman's body or nerves.

Tax Cuts into Earnings

New York—What will the record \$74 billion budget for fiscal 1959 actually cost you and your family?

The tax foundation figures that it will cost the average family with an income of \$5,000 about \$800—or 16 per cent of the family's annual earnings.

National defense is by far the biggest single item in the budget, accounting for \$496 of the total. The next biggest single item—\$85—will go for interest on the federal debt.

Approximately \$54 of the average family's federal tax burden will be spent for veteran's services and benefits, while \$50 is earmarked for agriculture and agricultural resources.

Pledge's Performance Introduces Candidate

PLEDGES OF ACACIA fraternity use a skit to introduce their candidate for Interpledge Council king. They are, from left: (standing) Dee Burcham, Ar 01; Allen Jones, PrV Fr; Mike McCarthy, PrV Fr; (kneeling) Larry Bartlett, EE Fr; and Roger Sherman, tDs Soph.

Two Tour Europe In Six-Month Jaunt

A dream of touring Europe on "two shoestrings" and a Volkswagon is coming true for two K-State students.

Clinton Pierce, Ag Sr, and Phil Warnken, AEc Jr, sailed from New York harbor February 6 on "the Ryndam," beginning their six months trip, the envy of any arm-chair traveler. Awaiting their arrival in Rotterdam, February 15, is a 1958 black Volkswagon ordered through a U. S. car agency.

Expecting to find cold weather in the Netherlands, Clint and Phil, both from Hutchinson,

will drive South and tour southern Europe, including stops at the Rock of Gibraltar, the French Riviera, and Monte Carlo. They will then head North to France, Germany, Switzerland, Luxemburg, and Belgium, and into the Scandinavian countries for the summer leg of the trip.

The K-Staters plan an average of \$3 per day for their expenses and driving costs, with overnight stops at youth hotels for 50 cents, and frequent nights under the stars in Europe in sleeping bags.

Smithsonian Commends Manhattan Moonwatch

The Manhattan Moon Watch team received a telegram yesterday from the Smithsonian Institute, commending it on its work in sighting the United States' first satellite, the Explorer. The Manhattan station was the first to sight the satellite.

The team consists of K-State students, members of the faculty, and Manhattan citizens. Walter Scott Houston, instructor in the English department, is its director, and Cliff Simpson, 421 South 16th, is in charge of radio tracking.

Williams Wins Bowling Tourney

A score of 40 won the Low Score bowling tournament last night on the Union alleys for Sheldon Williams, Ar 04. Placing second was Don Huxman, ME Jr, with a total of 53, and third was Fred Toplikar, AEc Fr, with 60 pins.

Talent Show Is Tomorrow

(Continued from page 1)

drums; Ron Thatcher, vibes and trombone; and Gary Foster, tenor saxophone. This group played for dances at KU.

Appearing from NU will be Cliff Soubier, folk singer; the Silhouettes, male quartet; and Barb and Duke Coonrad, vocal and instrumental duet. Soubier and the Silhouettes were first and second place winners in the All-University talent show there.

Dipak Shah, a ballad singer originally from Poona, India, will represent Iowa State. Shah was winner of two Iowa State campus variety shows this year and has recorded some of his folk songs.

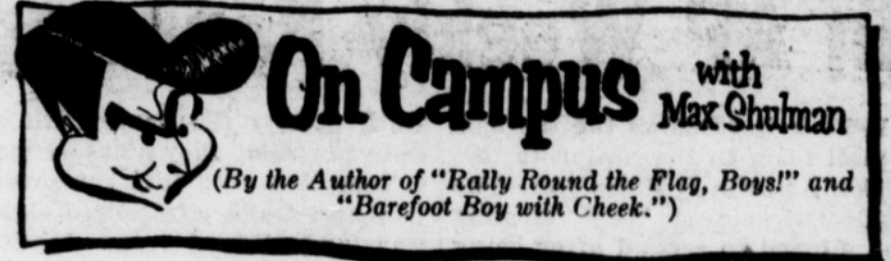

Charles Schwartz and Larry Bledsoe, a singing and dancing

comedy team, are the OU entrants.

MU performers are Winifred Kaneshiro, hula dancer; and Barbara Crawford, Broadway-type singer.

Carney Is Elected Pepsters President

Sally Carney, Eng Jr, was elected president of the Purple Pepsters, women's pep club, Monday night. Others elected were Ann McMillin, Mth Soph, vice president; Corrine Wright, HT Jr, secretary; and Jackie Comerford, BAA Jr, notifications chairman. The remaining officers will be elected at a meeting Monday at 5 p.m. in J-15.

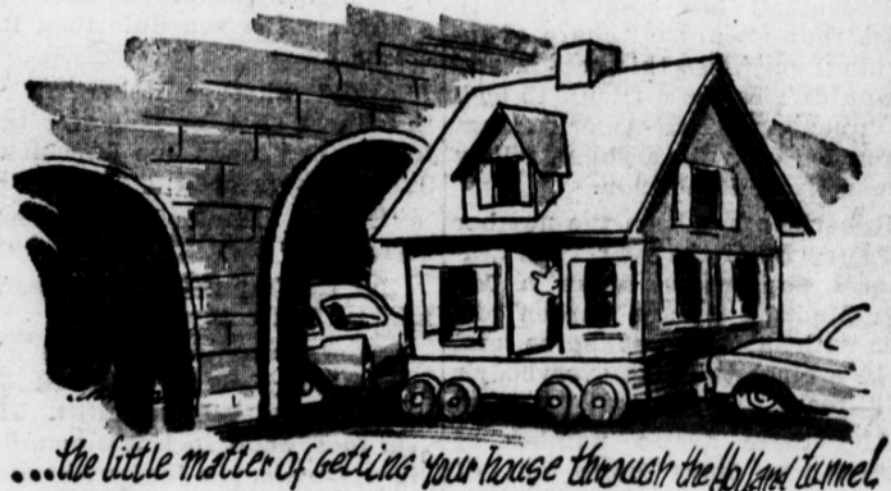

BE IT EVER SO HUMBLE

Today let us apply the hot white light of sustained thinking to the greatest single problem besetting American colleges. I refer, of course, to homesickness.

It is enough to rend the heart, walking along a campus at night and listening to entire dormitories sobbing themselves to sleep. And in the morning when the poor, lorn students rise from their tear-stained pallets and refuse their breakfasts and shamble off to class, their lips trembling, their eyelids gritty, it is enough to turn the bones to aspic.

What can be done to overcome homesickness? Well sir, the obvious solution is for the student to put his home on rollers and bring it to college with him. This, however, presents three serious problems:

1) It is likely to play hob with your wine cellar; many wines, as we all know, will not travel.

2) There is the matter of getting your house through the Holland Tunnel, which has a clearance of only 14 feet, 8 inches. This, of course, is ample for ranch houses, but quite impossible for Cape Cods, Georgians, and Saltboxes, and I, for one, think it would be a flagrant injustice to deny higher education to students from Cape Cod, Georgia, and Saltbox.

3) There is the question of public utilities. Your house—and, of course, all the other houses in your town—has wires leading to the municipal power plant, pipes leading to the municipal water supply and gas main. So you will find when you start rolling your house to college that you are, willy-nilly, dragging all the other houses in town with you. This will result in gross population shifts and will make the Bureau of the Census cross as bears.

No, I'm afraid that taking your house to college is not feasible. The thing to do, then, is to make your campus lodgings as close a replica of your home as possible.

Adorn your quarters with familiar objects, things that will constantly remind you of home. Your brother Sam, for instance. Or your citizenship papers. Or a carton of Marlboros.

There is nothing like Marlboros, dear friends, to make you feel completely at home. They're so easy, so friendly, so welcome, so likable. The filter is great. The flavor is marvelous. The Flip-Top Box is wonderful. The tattoo is optional.

Decorating your diggings with familiar objects is an excellent remedy for homesickness, but it is not without its hazards. Take, for instance, the case of Tignor Sigafos and Estabrook Raunch who were assigned to share a room last fall in the freshman dorm.

Tignor, an ice-skating addict from Minnesota, brought with him 44 barrels over which he had jumped the previous winter to win the Minnesota Jumping-Over-Barrels Championship. Estabrook, a history major from Massachusetts, brought Plymouth Rock.

Well sir, there was simply not enough room for 44 barrels and Plymouth Rock too. Tignor and Estabrook fell into such a violent quarrel that the entire dorm was kept awake for twelve days and twelve nights. Finally the Dean of Men was called in to adjudicate the dispute. He listened carefully to both sides of the argument, then took Tignor and Estabrook and pierced their ears and sold them to gypsies.

© 1958, Max Shulman

And now all is quiet in the dorm, and everyone sits in peace and smokes his Marlboros, whose makers bring you this column throughout the school year.

SPORTS

KANSAS STATE COLLEGIAN

Wednesday, February 12, 1958-4

K-State Is Number One In AP Weekly Rankings

K-State is rated as the top basketball team in the nation in this week's Associated Press poll. The Wildcats replaced West Virginia who slipped to second after being given the top spot by the AP for seven straight weeks.

The Mountaineers received more first place votes than K-State, 45-32, but in total points the Wildcats shaded West Virginia, 878-865.

Cincinnati remained in third place and Kansas, which was second last week, dropped to fourth.

San Francisco and Oklahoma

State occupy the same fifth and sixth positions they had last week.

Temple moved into the seventh spot and Duke climbed to eighth. Maryland slipped from eighth to ninth and North Carolina State from ninth to tenth.

North Carolina, seventh last week, dropped out of the top ten. Oklahoma university was named number 20.

1. K-State	16-1
2. West Virginia	18-1
3. Cincinnati	16-2
4. Kansas	14-3
5. San Francisco	16-1
6. Oklahoma State	15-2
7. Temple	16-2
8. Duke	12-5
9. Maryland	13-3
10. North Carolina State	14-3

Bob Boozer Is Mentioned As All-America Prospect

By UNITED PRESS

Basketball has come up with more than its annual share of individual surprises this season and it wouldn't be too difficult to pick an "unexpected" all-America team if you led off with a young fellow named Oscar Robertson.

Robertson has been the number one surprise of the year. The Cincinnati sophomore broke a 10-year Madison Square Garden record with a 56-point spree and looks a cinch to make everybody's "all" team.

And there are a number of others who have come out of nowhere to at least get a healthy look-in.

To name a few, how about Bob Boozer of K-State, Don Hennon of Pitt, Jerry West of West Virginia, Eddie Goldberg of Syracuse and Bob Plump of Butler?

The pre-season choices included such as Wilt Chamberlain of Kansas, Elgin Baylor of Seattle, Guy Rodgers of Temple, Pete Brennan of North Carolina and Archie Dees of Indiana. They haven't gone back any and still are fine probabilities for national honors.

But Robertson seems destined to supplant one of them when it comes time to make out the ballots. The six foot, five inch Cincinnati star from Indianapolis is a strong second to Baylor but it

must be taken into consideration that the Seattle sharpshooter plays a much easier schedule than Robertson.

Asked whether Robertson was the finest shot he had ever seen, former pro coach Joe Lapchick of St. John's quipped:

"I'm a Hank Luisetti man, myself."

But that's putting Robertson in mighty fast company.

Boozer was one of the spark-plugs as K-State knocked off Kansas and Wilt the Stilt. The six foot, eight inch 220-pounder from Omaha is a junior who does everything well and belongs with the best of them.

Hennon is small for this giant set but the five foot, nine inch Pitt star has been a real money player. A fine shot, he also is murder from the foul line with 34 in a row to his credit.

Goldberg is small by collegiate basketball standards at five feet, 10 inches. But the Fort Lee, N.J., player, another sophomore, is alert and quick. West, the West Virginia sophomore, can drive and at six feet, three inches is a defensive power. He can shoot, too, as attested by 37 points against a good Villanova team.

Plump is "only" five feet, 11 inches but the 155-pounder from Milan, Ind., is fourth in free throw accuracy and in the top 25 scorers.

'Bebe' Busy as Athletic Director

By DON VERASKA

An intense desire for improvement exemplifies the man who heads K-State's nine varsity sports. He is H. B. (Bebe) Lee, Wildcat athletic director. "I don't think any of us on the athletic staff are satisfied with our results," Bebe said. "We would like to improve them."

Lee does, however, greatly admire the Wildcat spirit. "The strength of our program, and the hope for its future lies in the spirit and morale among our own staff, and in that of the members of the teams. Everyone is pulling together!"

His daily routine is an assortment of trivialities and important business. "We've been spending a lot of time recently on scheduling and personnel problems," he said. "Then there's the normal routine of daily business—payment of bills and correspondence. There's a lot of committee work on Big Eight conference problems, and work in conjunction with scholarships and eligibility."

"I usually have a talk every day with the different coaches, and I try to attend every sports event that we have. A lot of our work is looking ahead to the future when we'll have a larger enrollment. Most of the work we are doing now is in terms of the distant future."

Bebe Lee was named athletic director at K-State February 17, 1956. He had been head basketball coach at Colorado university since 1950, where he brought the Buffaloes from last place to a co-championship with Kansas university in 1954, and a championship in 1955.

His 1955 team finished Big Seven play with an 11-1 record, and went on to take third place in the NCAA consolation finals.

The success of Lee's basketball teams was due to his emphasis on defense. Colorado held Big Seven opponents to an average of 66 points a game in both 1954 and 1955—tops in the league.

Lee was born in Dallas but grew up in California. At Hollywood high school he lettered in basketball and baseball. He and the great Hank Luisetti led Stanford university's cage team to three successive Pacific Coast conference championships from 1936 to 1938.

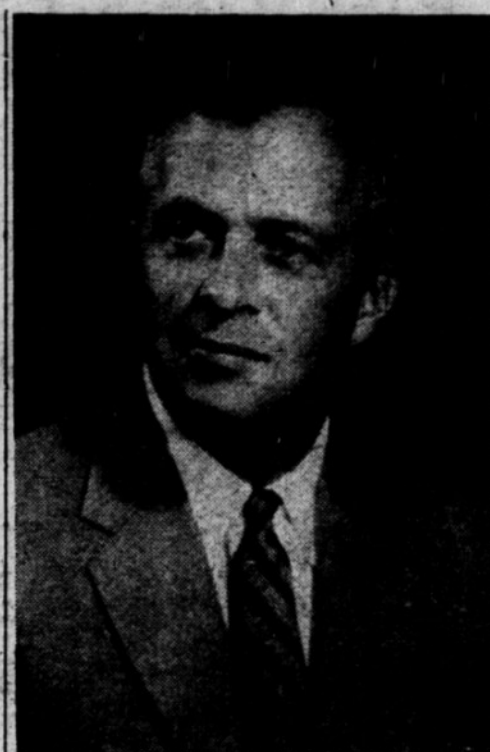

He stayed at Stanford three

years as a basketball assistant coach before becoming head basketball coach at Utah State. His team played—and won—one game before Bebe was called into the Navy. Discharged in 1945, he entered private business, but in 1949 accepted the position of head coach at Colorado A&M. A year later, he went to Colorado university, where in five years he posted a 52-64 record.

Comparing his job of athletic director with coaching, Bebe said, "This job is more time consuming, and I do miss the active coaching. Where I was just interested in one sport, I am now confronted with problems in all sports."

"There isn't any sport in our intercollegiate program that I'm not interested in. I'm influenced by the sport that is in season. That sport is my primary interest."

You'll be pleased with a Collegian classified.

K-STATE DISTANCE RUNNER JESSE UNRUH will appear in the mile and the half mile runs when the Cats host Colorado and Iowa State in a triangular meet Friday.

Jesse Unruh Has Competed Against a Four-Minute Miler

By TERRY KNOWLES

Jesse Unruh, K-State distance runner, has failed to win a first place at the Michigan State Indoor relays, but the 6-3 senior has come away with three consecutive second places at the relays in the 1,000-yard run.

Unruh's most recent second place performance came last Saturday at East Lansing when he finished behind Wisconsin's Dan McKinney.

One of Unruh's biggest thrills came at these same Michigan State Relays in 1956 when, as a sophomore, he edged Jan Howell, Kansas University distance runner, for second in the 1,000-yard run. His best time during the three trials at the relays is 2:17.5. The Michigan State relays is the only meet in which K-State participates that the 1,000-yard run is listed as an event.

Unruh will compete in the mile and half mile run against Colorado and Iowa State Friday in the Wildcats' first home showing this year. The triangular meet, which will begin at 7 p.m., will be held in Ahearn field house.

The rangy distance runner has been clocked at 1:54.1 in the half mile. This is a considerable improvement over his best high school performance when he ran a 2:05.8. He attended two high schools, Topeka high and Mascoutah, Ill.

During his three years of varsity competition, Unruh has lettered two years in cross-country and is presently seeking his third letter in varsity track.

When asked who was the

best runner that he had competed against, Unruh stated that Jim Bailey, Oregon University ace, was probably the finest. Bailey, who ran for Australia during the 1956 Olympics, has broken the four-minute barrier.

Besides running the mile, half mile, and other distance events, Unruh also anchors the Cats' two-mile relay team. His best time in the half mile came during the 1957 Kansas State Indoor relays when he turned in a time of 1:54.1.

K-State Mermen Dunked By Hawk Tankers, 56-30

K-State's swimming team was defeated by Kansas university, 56-30, yesterday at the KU pool. The loss left the Cat mermen with a season's dual record of 5-4.

K-State started fast by winning the 400-yard medley relay, but soon fell behind in what Coach

Bill Thrall termed one of his team's poorest performances of the season.

Sportcerpts

by Eldon Miller

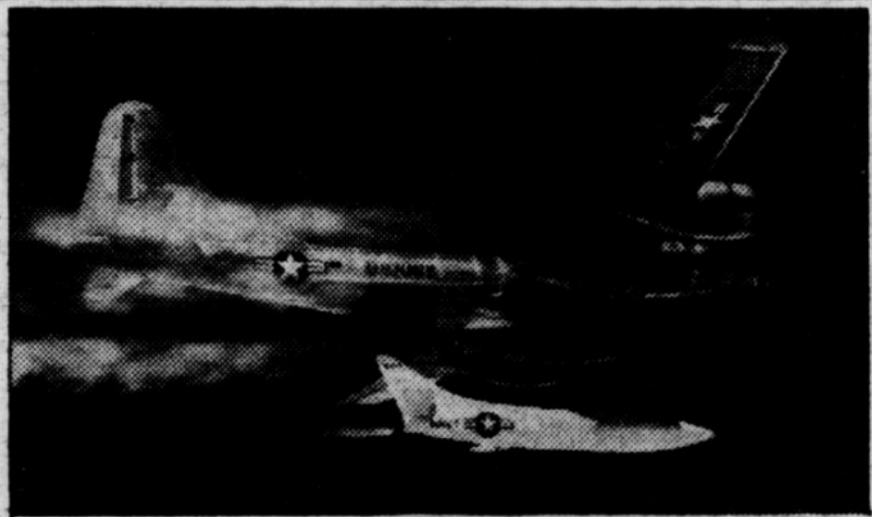

Tonight's Missouri Valley conference basketball game at Cincinnati between Cincinnati university and Bradley is one which K-State fans should be interested in—it should determine who the winner of the Big Eight race will play in the first round of the NCAA regionals at Lawrence March 14-15.

These teams are in contention for the Missouri Valley championship and tonight's winner should almost have the title cinched.

Cincinnati is 8-1 in conference play while the Braves stand at 7-1. Bradley won the first game between the teams, 79-73, at Peoria, Ill.

Cincinnati, led by scoring sensation Oscar Robertson, is a slight favorite in this game. Robertson, a 6-5 sophomore, is the nation's second leading scorer with a 32.94 average, trailing Seattle's Elgin Baylor who has a 33.72 mark.

Bradley, however, has a very strong squad with 16 of last year's squad members back. The Braves won the NIT tourney last year. Bradley is led by 6-7 Barney Cable and 6-5 Bobby Joe Mason.

MY CLOSEST SHAVE by Bill Bridgeman

Douglas Test Pilot

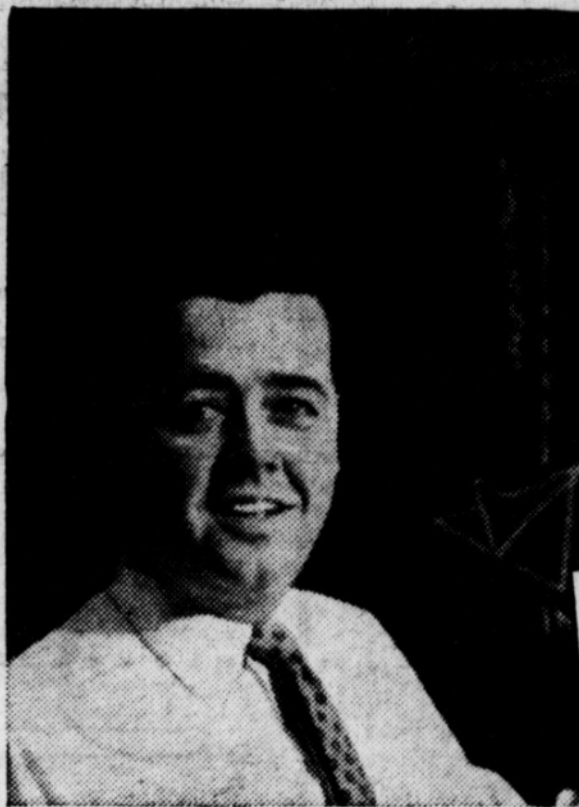

"My closest shave was during the first try at a speed record in the fantastic Douglas Skyrocket," says Test Pilot Bill Bridgeman, author of *The Lonely Sky*. "A special B-29 dropped me like a bomb at 30,000 feet ... I turned on my rockets and climbed to 40,000 ... when suddenly all power failed. Rocket power, cabin pressure, heat—everything went—and the window frosted over so I couldn't see. Finally I got the radio going on an emergency battery ... and a pilot in a chase plane talked me down to a blind landing!"

BS CANDIDATES
Choose employment
or graduate study

MS, PhD CANDIDATES
Choose direct assignment

... As an RCA Engineer

Receive your MS in Electrical Engineering, Mechanical Engineering or Physics at RCA's expense, through the RCA Graduate Study Program. At the same time, you're beginning your RCA career as an engineer on a fully professional level, getting a head start in the field you prefer. RCA pays the full cost of your tuition, fees and approved texts while you take graduate study part time at the University of Pennsylvania or Rutgers University.

Or, you may prefer a different path ahead ... RCA Design and Development Specialized Training. Here is another of RCA's programs for careers, in which you begin by working full-time on planned technical assign-

ments. Experienced engineers and interested management guide your progress. You may receive assignments in design and development of radar, airborne electronics, computers, missile electronics, television, radio and other equipment fields, as well as in Electron Tubes, Semiconductors and Components. MS, PhD Candidates are eligible for direct assignments in the above mentioned fields.

There's a lot more that's extremely interesting about an RCA engineering career. You should have these facts to make a wise decision about your future. Get them in person very soon when an RCA engineering management representative arrives on campus—

FEBRUARY 26, 1958

Right now, though, see your placement officer. Get squared away on a specific time for your interview. And get your copies of the brochures that also help to fill you in on the RCA picture. If you're tied up when RCA's representative is here, send a resume to:

Mr. Robert Hakliach, Manager
College Relations, Dept. CR-11
Radio Corporation of America
Camden 2, New Jersey

Tomorrow is here today

"SHOULD WE BUY CANDY?" Bill Ogborn, VM Sr, right, asks James Howard, Geo Gr, as they pause at a counter covered with satin hearts, while shopping for gifts for their favorite valentines. K-State men have been swamping the shops, and candy counters are always a favorite. Coeds also have been buying gifts to give to their special fellows on the big day. Seems as if it's almost Christmas in February.

Guys Buy Hearts, Flowers To Give to Favorite Dolls

By JOYCE RECTOR

"Hearts and flowers" time is coming up, and Manhattan stores of all types are busy with the onslaught of college students in love (whether it be avid or lukewarm) buying gifts for their beloved.

Candy, flowers, and cards, the perennial favorites, are on top again this year.

The cards have changed just a little from the ones Grandpa sent Grandma, although everything else has remained virtually the same. For, way in the lead of Valentine cards are the contemporaries.

At one store the ratio of contemporary cards sold to that of ordinary Valentine cards ran three to one. Ranging from small to large, black and white to multi-colored, and grotesque to even more grotesque, the cards are snapped up by male and female alike, wishing to reveal their innermost thoughts to their partners. And after all, it is the thought that counts!

The "love-er" side of Valentine day is revealed in the flowers and candy, both of which are being bought in abundance.

Heart-shaped boxes of candy vary in weight from 6 1/2 ounces to two pounds. The one and two-pound boxes are lavishly decor-

ated with red, blue, and yellow satin covers trimmed with bows, lace, and figures of Cupid.

Red roses will delight many girls this year. Far surpassing all other flowers, they will be received in a variety of kinds, sizes, and shades. Also on the market is a "Valentine bouquet." A bouquet of different flowers is arranged, and small plastic foam hearts are hidden in the flowers. The men also ask for potted plants such as azaleas and chrysanthemums. Bouquets of carnations are also popular.

Photos are a favorite, too.

Photographers report that both men and women will be receiving portraits this February 14, perhaps a few more men than women. A striking difference in means of getting the photograph is used, however. While most men have their pictures taken especially for the occasion, the ladies simply dig a print out of the photographer's files and use it!

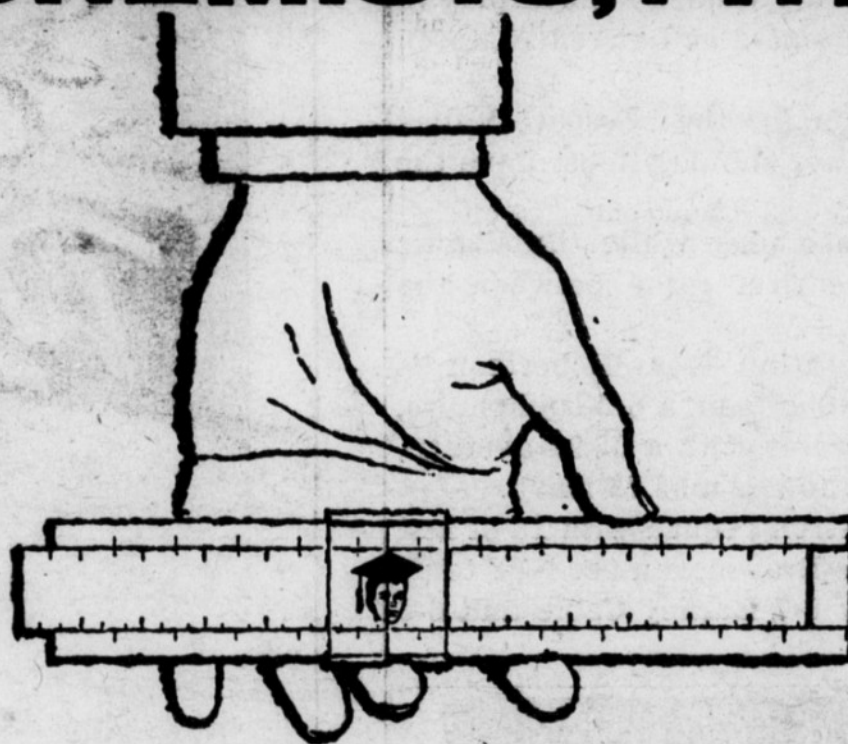

Jewelry is probably the next most important item on the gift list. The men seem to go for pearl necklaces and identification bracelets in a big way. Silver and gold necklaces and bracelets with hearts attached are popular.

For their gents, co-eds are buy-

ing shirts, sweaters, belts and ties. The Ivy League button down shirt is a best seller, and the crew neck sweater runs a close second. The ladies seem to prefer their ties striped or of a wool material. Leather belts are the widest choice.

Everything considered, it looks like a well-fed, well-jeweled, and well-scented Valentine's day for K-Staters.

Twelve KS Rifle Experts Named by Army ROTC

K-State's Army ROTC awarded 12 expert rifle medals to qualifying students Tuesday evening in the Military Science building.

Presentations were made by Col. William W. Harvey, head of the Army ROTC department. The 12 students who qualified for the National Rifle association medals were, Thurston E. Banks, ChE Jr; William F. Balfanz, ME Soph; Bill G. Davis, ME Soph; Charles D. Eustace, Geo Soph; Douglas K. Erway, ChE Fr; Charles Gunn, Ar 01; Harry D. Jeffries, EE Fr; Herman T. Kamerman, PrV Soph; Paul C. Parsons, BA Sr; Earl D. Stevens, TA Fr; and Kenneth R. Varaska, ME Sr.

A trophy was awarded to the Varsity Rifle team for winning the Jess Mosteller memorial trophy at the Eastern Kansas Gallery tournament at K-State in January. This tournament was won in competition with contestants entered from the Midwestern states.

The Eastern Kansas Tournament is open to everyone, including professional marksmen.

Members of the team are Banks, Eustace, William M. Shilling, GE Soph; and Fred H. Kohman, ME Soph. Shilling is the high individual marksman of the tournament, and was awarded a trophy for his efforts by Capt. James R. Anderson, coach of the Varsity team.

The Rifle team has won all of its matches up to this date, and Captain Anderson said the team has a good chance to win the Big Eight contest here May 3.

Other rifle meets that the team will compete in will be at Nebraska, February 22; at Boonesville, Mo., March 8; the Creighton Invitation meet, March 28; the Nebraska Invitation meet, April 5; and the Big Eight Shoot-off, May 3.

Y-Orpheum Contest For Cover Design Will Close Feb. 28

Cover designs for the Y-Orpheum Program Cover contest may be turned in to the Y-Orpheum box in the Union activities center from February 15 to February 28. The designs should be on an 8½" by 11" page, and should include the title, "Pardon the Expression," 1958 Y-Orpheum, March 28-29, College Auditorium. Approximately 50 words about the designer should accompany each entry.

First prize is \$5 and an article and picture about the winning designer in the Y-Orpheum program. Judging will be based on originality, neatness, design principles, and correlation with the theme.

MEMBERS OF K-STATE'S varsity rifle team display the plaques they won at the Eastern Kansas Gallery tournament. They are, from left: Kneeling, William Schilling, CE Soph; Charles Eustace, Geo Soph; Thurston Banks, ChE Jr; and Fred Kohman, ME Soph. Standing are Col. William Harvey, left, who presented the plaques and Capt. James R. Anderson, rifle team coach.

Summer Term Short Courses Are Increased

Eight special workshops and short courses have been added to the K-State's 1958 summer session program, according to Paul M. Young, summer school director. The regular nine-week session begins June 9 and ends August 11.

All but two of the special short courses will begin June 9. A one-week session on techniques and materials of instrumental music; three-week workshops in vocational agriculture, athletic coaching, farm mechanics, and foods; and a six-week workshop in highway safety and driver education will be offered.

A one-week workshop in school music is offered June 16 to June 21, and a one-week workshop in teaching of vocational agriculture July 21 to July 25.

Summer school catalogues listing the special courses and regular summer school offerings are available upon request.

Activities

Foreign Students Invited To International Function

Invitations are extended to all foreign students in Kansas colleges and universities to attend the International Weekend, February 28 through March 1, at K-State. Samih Hasayen, ME Sr, is general chairman of the event which is being held for the second consecutive year at the College.

Reservations for attending the International Weekend should be in to Mel Eaton, EEd Jr, by February 20. Registration will begin at 1 p.m. February 28, in the Union.

Block and Bridle Club

An informal meeting for prospective members of the Block and Bridle club will be at 7:30 p.m. Wednesday in Animal Industries 128, according to Bill Clark, AH Sr, vice-president of the organization.

The meeting is open to all students interested in livestock.

Student-Faculty Seminar

"Segregation: States' Rights and Federal Responsibilities" will be the topic of an open discussion

at the student-faculty seminar in Eisenhower 223, February 19, at 4 p.m.

John R. Snider, Gvt Gr, will be the moderator. Members of the panel are Gerald K. Smith, PrL Sr, on states' rights; Edward A. McCoy, PrL Sr, on federal responsibilities; and Lynn Mechesney, Gvt Jr, on international implications.

Theta Sigma Phi

Theta Sigma Phi, journalism honorary for women, will meet Thursday at 4 p.m. in Kedzie hall, room 211.

Plans for the annual Matrix Table banquet will be discussed, according to Carol Sitz, HEJ Jr, banquet chairman.

Graduate Students Association

Newly elected president of the Graduate Students association is Bernard Schleicher, Bac Gr. Other officers are John Snider, Gvt Gr, vice-president; Ronald Welling, Math Gr, secretary; Harold Tuma, AH Gr, treasurer; and Mary Garner, IMg Gr, program chairman.

Garzio's Ceramic Work to Appear At World's Fair in Brussels, Belgium

By DON VERASKA

Unlike the proverbial jack-of-all-trades, Angelo Garzio, assistant professor of art, seems to be the master of several. He has been a librarian, professional musician, art history teacher, and is now teaching ceramics and design.

Probably foremost of Garzio's activities is his work in ceramics. Two of his pieces, a large bowl, and a porcelain bottle, will appear in the United States pavilion in the World's Fair at Brussels next April. "I am one of perhaps 15 or 20 who have pieces in this part of the exhibition," he said.

Garzio was recommended by

the American Craftsman council to the State department. "The actual forming time on the potter's wheel was only about one-half hour," he explained, "but firing the pieces at 2500 degrees F. took about 36 hours."

The porcelain bottle was decorated by the iron brush method—dissolving iron oxide in water, and brushing it on the bottle. The bowl has a Finnish wood ash and dolomite glaze, which gives it a "yellowish-reddish-bluish color."

Born in a village 30 miles east of Naples, Italy, Garzio's family came to the United States in 1930, when he was eight years old. They settled in Syracuse, N.Y.

Garzio played the French

horn professionally from 1938 until about 1950. During the war he was crew chief and engineer on a B-26. He has played for the Syracuse, Rochester, and Utica symphony orchestras, and also for an orchestra in Chicago.

Resuming his education after the war, he completed five years of college at Syracuse university in three and a half years, receiving his bachelor of arts, and bachelor of library science degrees in 1949.

He went to Italy in 1950 and attended the University of Florence for one year where he studied art, musicology, and literature of the Italian Renaissance. Back in this country, he went to work for

the Bridgeport, Conn., public library, but quit in September 1952 when he decided to get his master's degree in art history.

He received this degree in 1954 at Iowa university, intending to continue his library work. But he had become interested in ceramics while at Iowa, so he continued school and completed his master of fine arts in ceramics.

Garzio went to Finland to work and study with the Arabia Pottery company in November, 1956, and had a one-man ceramics show at the Arabia showroom in Helsinki.

Garzio teaches five classes—beginning and advanced ceramics, beginning and advanced design in crafts, and metalwork and jewelry.

FOR
K-STATE
GRADUATING
ENGINEERS

"...a good time for thinking..."

"A man's really got to study to make the grade in engineering, whether it's E.E., M.E., or C.E. But when I was at K-State, we found time to sit around and just talk, at some place like the Union. It was a good time for thinking about our future. We were all pretty hot on being right, no mistakes, and we knew what we wanted out of life. I'm sure it's the same way with you."

"...we wanted to get off on the right foot..."

"We knew we wanted to get off on the right foot with an outfit where we'd have a chance, right off, to take responsibility on important projects. That's why we worked hard at finding out just what various companies had to offer us. We wanted to know about salary, sure. But we also wanted to know about the work we'd be doing about our chances for getting ahead in engineering and management, about the kind of people we'd be working for... and with. And we found that the best place to get the answers was at campus interviews sponsored by the companies looking for engineers."

"...I decided... Emerson."

"As a result of my interviews, I decided to go with Emerson Electric. They offered me a realistic salary, the knowledge that Emerson had important projects to work on, and I could see for myself that there'd be plenty of opportunity to move up fast in a company where engineers and management are young and aggressive, with young, hard-fisted plans for the future."

"...some pretty hot projects here..."

"Right now, we're working on some pretty hot projects here, stuff like the B-58 Hustler bomber fire control system and F-101 Voodoo fighter structure. We're working on missiles, too. But behind this important defense work, Emerson Electric is sound in commercial manufacturing, with a reputation in the electrical field that stretches back to 1890. And that literally means money in the bank."

"...give yourself every break..."

"I think Emerson is a darned good career outfit. But I know every man's got to work out his own future. That's why all I'm really urging you to do is give yourself every break by getting all the answers before you decide. Sign up to talk with the people from Emerson Electric. It's just a half hour of your time, and you'll learn exactly what Emerson can offer you. Remember, it's your future you're going in to talk about."

Emil Kouba Jr. graduated from Kansas State in 1957. His work was in E.E. At Emerson Electric, Emil is working on video gating circuits in Emerson's mortar locator project.

VOLUME LXIV

Kansas State College, Manhattan, Kansas, Thursday, February 13, 1958

NUMBER 84

Some Doubt Rules Of Re-Instatement

Are students who enrolled prior to last December 10, when K-State's student probation and dismissal standards were made more stringent, bound by the new standards?

Would sophomores whose cumulative grade point averages were just above the sophomore probationary level automatically be placed on probation when they become juniors, since the junior requirement is two-tenths of a point higher?

These are two of the questions the College's Re-instatement committee would like the Faculty Senate to clarify before the committee is called upon to consider any cases under the new rules.

The rules provide, among other things, that no student who has been dismissed for scholastic reasons can be re-instated until the Re-instatement committee has given its approval. Under the former rules, a dismissed student could re-enroll after staying out of school for one semester.

Other new probation and dismissal rules passed by the Faculty Senate in December, provide that:

1. A certain cumulative grade point average must be kept to maintain good standing. The average differs with the student's classification. A probationary grade point is .5 for freshmen and sophomores and .7 for juniors and seniors. Dismissal occurs if the grade average drops below .3 for freshmen, .4 for sophomores, .5 for juniors, and .6 for seniors.

2. Students are notified of their dismissed status by their academic deans in July. No one is dismissed at the end of the fall semester.

3. Probation remains in effect until the student achieves a grade average above the required minimum.

At least some members of the committee also are wondering whether the possible effect of the new rules on a student's total college future should be taken into account. Under the old setup, re-instatement after a first dismissal for scholastic reasons was automatic, entailing only a one-semester suspension. But

Award Planned For Promotion Of Brotherhood

The presentation of the B'nai B'rith Hillel Foundation Brotherhood award will be next Thursday, according to Dr. Wm. C. Tremmel, Religious Activities director.

The purpose of the award is to recognize the student who has contributed most during the year to the promotion of brotherhood, goodwill, and understanding among the various religious, cultural, and ethnic groups on campus.

under the new rules re-instatement is not automatic, and other schools might refuse to accept a student dismissed from K-State for scholastic reasons.

Chief Bostick Says Council To Be Billed

Student Council will be billed for two fire axes valued at \$7.50 each unless the axes are returned to the Manhattan Fire department. The axes were taken from the local firetruck during the celebration in Aggieville following the K-State-KU basketball game.

Fire Chief Paul Bostick said "All we want is the return of our axes; they are essential equipment. If whoever has the axes will bring them back, no questions will be asked." The chief suggested that the axes be left outside the firehouse.

India Staff Does Us Proud, Says Weber, Home Again

"Members of the Kansas State college technical assistance team in India are giving an excellent account of themselves under unusual, and in some instances, difficult circumstances," said Dr. Arthur D. Weber after returning from a two-month visit to India.

Of these faculty members, Dr. Weber said, "They and their

wives deserve high commendation for the contributions they are making toward developing and strengthening democratic institutions in India."

Dr. Weber, who is dean of the School of Agriculture, went to India in December to review K-State's participation in the International Co-operation admini-

stration's educational program there.

At the present time K-State has eight faculty members participating in the program in India. Tentative plans call for sending five more Kansas men within the next year.

The K-State team has been in India since the summer of 1956 and will continue to work there until 1959, according to the present setup. Extending the program another three years after 1959 is being considered.

The Kansas technical assistance team works with agricultural and veterinary colleges in Andhra Pradesh and Bombay states to strengthen research and extension in these educational institutions.

"There is a great need in India to bridge the gap between higher institutions of learning and the people," Dr. Weber said.

While in India he conferred with Ambassador Ellsworth Bunker and Minister-Director Howard E. Houston of the United States Technical Co-operation mission.

Weber said one of the highlights of his trip was to hear Congressman Dalip S. Saund of California address the Indian Parliament. Congressman Saund is a native Indian who came to the United States 37 years ago. Dr. Weber said he thought the California congressman made a most favorable impression on the Indian people and that his talk helped to strengthen the United States technical program.

DEAN OF AGRICULTURE, Dr. A. D. Weber, tries his hand at the local means of transportation during his two month inspection tour in India with a group of other U.S. agricultural experts. Dr. and Mrs. Weber, who is the passenger in the bullock cart, returned to the campus Monday.

Flu May Curtail Night Privileges

"Curtailed night privileges" may be the price K-Staters will pay if a second flu epidemic is not prevented, according to Dr. B. W. Lafene, director of Student Health.

"We have set up an influenza shot center in the Union lobby for the sole purpose of making it more convenient for the students to receive these shots. It will continue as long as the students respond, and wake up to the fact that we can help them," said Dr. Lafene.

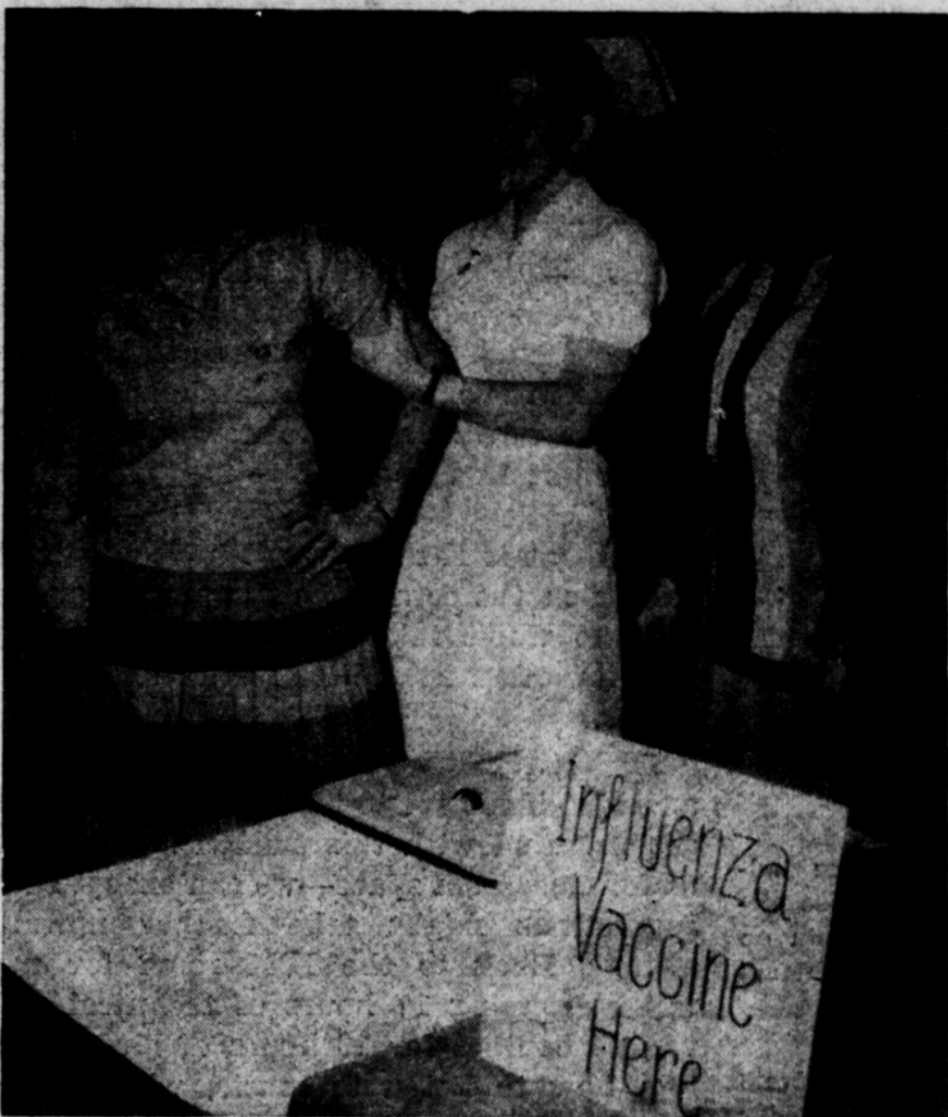

Photo by Gary Yeakley

SUSAN SCHOBBER, PEW Jr., gets the "needle" from Nurse Marilyn Moore, as Mrs. Merrilee Becker, Student Health clerk, looks on. The temporary immunization station was set up in the Student Union lobby yesterday to encourage students to get their flu shots.

In reference to the possibility of another influenza epidemic Dr. Lafene said, "If students don't cover those coughs and sneezes and take care of themselves, it's coming just as surely as can be—in fact I'm not so sure it has not already started."

"If these cases continue to increase in the next few days, as they have this week, we might have to open the old College hospital and take on more help. That means more money, which we haven't got. To compensate for this, it could mean an increase in student health fees before the end of the semester," he said.

It has been said that the shots will cause a slight case of influenza. "It will not do this unless the person is harboring flu germs in the body. These germs will become active with the serum, but would not be as serious as it could be without the shot," said Dr. Lafene.

Juco Deans Meet Here Feb. 25, 26

Deans from fourteen public junior colleges in Kansas and Kansas City, Mo., will visit K-State's campus Tuesday and Wednesday, February 25 and 26, according to E. M. Gerritz, director of admissions and registrar.

The conference's purpose is to bring the deans together with their former students. More than 900 ex-junior college students are now attending K-State. Hutchinson Junior college has the largest number, 98.

A schedule of events, beginning Tuesday evening with a dinner in the Student Union, and ending with a discussion period and coffee Wednesday afternoon, is planned.

As guests of the College, they will see the K-State-Oklahoma University basketball game Tuesday evening. They will go on a round of tours Wednesday, register at Van Zile hall, and meet with their former students.

Fort General Will Inspect Here Friday

The Army ROTC detachment will be inspected tomorrow by Brigadier General Forrest Caraway, assistant division commander of the First Infantry division at Fort Riley.

General Caraway will be met at 8:45 a.m. by an honor guard of the Pershing Rifle company, ROTC military band, and the color guard.

During his visit the general will meet with President McCain and Paul M. Young, acting dean of the School of Arts and Sciences, and will attend a luncheon with College officials.

General Caraway served in Korea as commander of the 179th Infantry Regiment and later as senior adviser to the Republic of Korea II Corps.

An Editorial

Union Is Immunization Point, Snares Would-Be Germ Victims

IF THE MOUNTAIN won't go to Mohammed, we're thankful Mohammed has taken the first step. By Mohammed, we are referring of course to Dr. B. W. Lafene, director of Student Health, who has moved an immunization point to the K-State Union lobby in hopes of ensnaring would-be germ victims . . . the students who have refused to get flu shots or failed to return for a second round.

AND IF YOU'D been with us to Student Health last night to see suffering Staters bemoaning their foolish failure to act in time, you'd be more willing to take advantage of the convenient setup Dr. Lafene has provided. We realize this will take a cer-

tain amount of courage on your part . . . but be brave; show the coffee line you can take it with the best of 'em!

WE'RE THINKING of suggesting a "Red Badge of Courage" for students who get their vaccinations . . . and in this case, do get the full dosage; don't go off half-shot!

PARTICULARLY NOTEWORTHY in this issue is the situation on reinstatement, which has recently been revised to tighten the rein-on probation, dismissals, and reviewing such cases.

STUDENTS WHO might be affected by this harsher policy had better check the regulations closely, and keep tab on further developments. It's bad enough to let yourself get in such poor scholastic shape, but with the advent of these new regulations, you might find yourself going from a dismissed college student to a working man—it looks as if K-State won't have you back except on the committee's approval, and if K-State won't take you, its pretty likely that few other accredited institutions would either.

IT MIGHT BE worth keeping it in mind as added incentive to make at least average grades. And with this sudden sweat upon us for classroom space—we can except such regulations might take further upward swings. Back to the IBM room for us: we're dropping 17 hours of technical, advanced courses for 13 hours of birdwatching, how to listen to music, why I read Peyton place, how to interpret two lines, and basketweaving II. . . . who knows, some prof might set his foot down and make us work in the one we're attending now. And aren't grades the important thing?—Sue Goss.

By UNITED PRESS

Milwaukee—Mrs. Margaret Leow's newborn boy arrived at the Milwaukee County General hospital two minutes before she did.

Mrs. Leow, 26, gave birth in her husband's car last night. She was transferred to an ambulance and a police car sped off with the bundled-up infant, arriving at the hospital first.

London—Embarrassed Army authorities admitted today that Derek Partridge, 22, whose picture has been circulating throughout Britain on recruiting posters labeled "The Important Man," served in the Air Force.

Reading, England—Reading university students out for some fun yesterday planted a metal cylinder marked "USAF—danger. Highly radioactive," in a public garden and stood back to see what would happen.

They hung around for six hours before a little girl picked it up, trotted 50 yards down the road and threw it in the river.

LITTLE MAN ON CAMPUS BY BIBLER

Two Legislators 'Outstanding'

By UNITED PRESS

Topeka—Kansas Legislators yesterday chose Sen. Paul Wunsch (R-Kingman) and Rep. Robert Anderson (R-Ottawa) as the most outstanding members in the 1958 Legislative budget session.

The session ended at midnight last night. It was the first time the Legislature had balloted to pick its most outstanding member. Both Wunsch and Anderson are practicing attorneys.

One senator commented Wunsch "without question" was the most outstanding member of the upper chamber during the budget session.

Anderson, 37, was serving his third term as Franklin county representative. He was chairman of the Key Ways and Means committee in 1955, 1956, 1957 and the budget session of 1958.

Wunsch, 56, is a veteran legislator. He served in the Kansas House from 1937 to 1945 and in the Senate from 1945 to the present budget session.

He was speaker of the House in 1943 and president pro tem of the Senate from 1948 to the present 1958 budget session.

Student Council Is 'Legislature,' Enacts Laws for Student Welfare

By LANCE GILMORE

EVERY UNDERGRADUATE student who has paid the activity fee is a member of the Student Governing association. Obviously, an association of several thousand students must have a representative body to carry out government, and much of this is done by Student Council, the legislative branch of SGA.

Representation on the Council includes one member for 300 students in each school. For instance, if a school had approximately 3,000 members, it would have 10 Student Council positions. These members are elected by a student body general election.

In addition, two faculty members are appointed by the Faculty Senate to the Council.

THE COUNCIL MEMBERS elect a chairman or president who automatically becomes vice-president of the student body. The Council is responsible to the student body president, who is elected by a College general election. The student body president holds veto power, but a two-thirds vote may override the veto.

Although the chairman leads Council meetings to all appearances, the student body president presides over the Council in SGA Constitutional theory. In practice this amounts to an almost double leadership with the chairman guiding business, and the president sitting on in a consultory capacity.

The Council is enfranchised by the Constitution to "enact by majority vote, laws of the student body necessary to the well-being of the student community."

SUCH ACTIVITIES and projects as the Student Directory, the KU-K-State peace pact, Community Chest drive, and freshman handbook are annually handled by Student Council.

The group meets weekly, and its usual order of business is much like that of other organizations, except that in the first part of meetings business is proposed but not acted upon until the following week, and later in the meeting action is taken on business brought up the previous week. The rules are sometimes brought up the previous week. The rules are sometimes set aside and a matter acted upon the same week it comes to the Council's attention.

Although the Council is not a judicial body, one of its functions is to impose fines on organizations and individuals displaying posters on campus after the approved deadline.

IT ALSO HAS the power to fine anyone defacing K-State property and any organization violating social regulation of the College.

It must be remembered that neither the Council nor the student body president has complete authority in student affairs, although there is seldom interference from the College administration.

The Council is limited by that section of the SGA Constitution which says that "authority for student personnel policies and practices emanates from the President of the College."

The Council is empowered to charter the councils of the various schools of the College, such as the Arts and Sciences Council.

Stadium's Tommy Compares New Dormitory to 'Waldorf'

By GENE ASKEN

"Going to the new men's dorms will be like going from New York's east-side slums (West Stadium), to the Waldorf," says C. W. Thomas, director of West stadium.

Thomas (or Tommy, as he likes to be called) refers to the new men's dormitory scheduled for completion by 1960. The new dormitory, a six-story structure, will house 600 men, as compared to West stadium's space for 176.

Students who have lived at West Stadium have said its rooms, each of which accommodates from four to six boys, are not favorable for effective studying. The wooden floors and unsoundproofed ceilings echo noises from the far corners of the dormitory. It's no wonder Tommy refers to West Stadium as "the east-side slums."

A product of careful research, plans for the new dormitory are fitted to the living needs of students.

Every floor but the main floor will have 52 rooms, a lounge, storage rooms, and shower rooms. The main floor will have an information desk, business office, director's office and apartment, as well as rooms.

The basement level will have storage rooms, laundry facilities, and space for rooms to be finished later on. There is no provision for a main recreational area, but Tommy hopes someday to have one built in the basement. Three elevators will service the building.

The cafeteria will be in a separate building in the rear of the dormitory. It will have a seating capacity of 1,200 and will serve the new dorm and a prospective dorm to be built along side the new one.

The new dorm is a dream come true for Tommy who has long seen the need for a permanent men's dormitory. As director of the new dorm he will be responsible for its efficient operation. Realizing the importance of this job, Tommy has done extensive research on housing units at other schools. During the summer he will tour several universities to get a first-hand idea of how things are done.

Thinking ahead, Tommy said "Each floor will be regarded as a separate living group. It will have its own ruling councils and run its own social and athletic events, but," he stressed, "there will be an over-all house council to co-ordinate activities."

"At first, living regulations will probably be stiff in order to gain the boys' respect for the new facilities. It will undoubtedly take a few years before everything is worked out."

Basically, Tommy sees dormitory living as a fulfillment of an educational service. "Living in a dorm," he said, "is an education that you can't get out of books. Boys will get a better understanding of life by living with people."

"A dormitory is more than a place to live. It is a place where a boy may pursue his academic life, social life, spiritual life, and away-from-home family life."

"My purpose at the new dorm will be to create that home-away-from-home atmosphere. Exactly how to go about this I don't know—it's largely a matter of luck."

If past experience at West stadium is any criteria, then Tommy should accomplish his purpose.

When Tommy first took over the directorship of West stadium

things were unorganized. "There wasn't any real supervision and the boys did pretty much as they pleased," he said. "I can show you bullet holes in doorknobs and doors that were used for target practice."

Things have changed at West stadium since that time. Under Tommy's direction the boys have set up their own governing system and have succeeded in gaining the co-operation of residents.

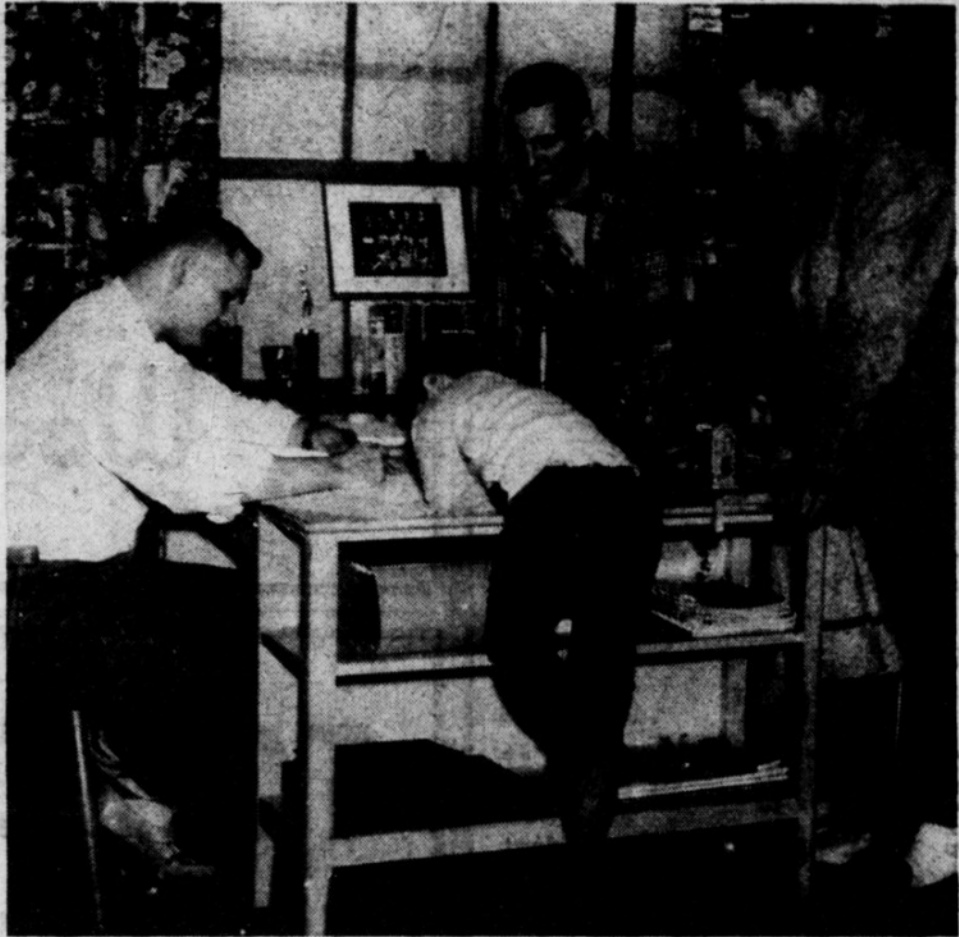

Behind Tommy's success seems to be his interest and concern for

people. He makes himself available to people and always tries to work out problems of boys who come to him.

Last year Tommy and his wife used up a pound of coffee for coffee "bull sessions" with the boys.

More often than not Tommy can be found walking from room to room talking to the boys and checking to see that everything is okay.

People just can't help liking Tommy, because Tommy likes people.

WEST STADIUM residents drop in for a chat with Director C. W. (Tommy) Thomas and his small son and daughter. The stadium houses 176 men.

Cheers for the flattering new eased sheath in Roe-Shan, a lovely blend of rayon and acetate . . . accented by run-through striped ribbon.

LADIES' DEPARTMENT ON THE MEZZANINE

Stevensons

OPEN THURSDAY NIGHT TILL 9

Activities

Dick Rolph To Head Interfraternity Council

Dick Rolph, TA Jr, was elected president of Interfraternity council Monday night for the spring semester. Other officers are Dayton Koch, IE Jr, vice-president; Bruce Stover, ME Jr, secretary; Joe Kashner, VM Fr, treasurer; Pete Lindsay, BAA Jr, corresponding secretary; and Gary Lassman, EE Soph, and Bill Patton, VM Jr, members-at-large.

Mechanics Contest

Students interested in welding, carpentry, tool conditioning, and farm power are urged to enter the third annual Farm Mechanics contest Saturday, according to Nelson Galle, AEd Sr, president of Ag Education club.

Galle said any students interested in farm machinery should enter the contest. The contest will be divided into two groups—one for students with mechanical experience and one for those without.

Club Cervantes

Esther Valdes, Ec Soph, has been elected president of Club Cervantes. Other officers are Jose Salcedo, TA Fr, vice-president; Dee Oberg, Eng Jr, secretary; Mary Ruth Hall, ML Jr, treasurer; and Sally Carney, Eng Jr, historian.

The next meeting of the club will be February 24.

Mu Phi Epsilon

Five music majors were initiated into Mu Phi Epsilon national music honorary for women, February 9. Those initiated were Kay Reboul, MEI Jr; Carol Korinek, MGS Soph; Betty Larkin, MEI

Soph; Jo Allen Cooley, MGS Soph; and Becky Dudley, MEI Soph.

Alpha Epsilon Rho

Alpha Epsilon Rho, national radio honorary fraternity, initiated four pledges and elected new officers at a banquet in the Warham hotel Sunday. The new initiates are James Harrison, Sp Soph; Sid Hutchins, Sp Sr; Larry Faler, Sp Soph; and Ken Keefer, Sp Soph.

New officers are Keefer, president; Harrison, vice-president; Faler, secretary; and Le Ann Wilson, Sp Jr, treasurer.

Gordon Jump, staff member of WIBW-TV in Topeka, spoke to the fraternity concerning the problems confronted by the college graduate upon entering the radio-television industry. Jump is the past national president of Alpha Epsilon Rho.

Associate memberships were conferred on Ken Thomas, director of KSAC; Virginia Howe, associate professor of speech; and Robert Snyder, instructor of speech.

How About an Hour Dance? Some Say, 'Let's Sit It Out'

By MAGGIE SULLIVAN

Hour dances—are they a pleasure or a pain in the neck? There seems to be some variation of opinion on this question among K-Staters.

First of all, is an hour dance really what the name implies? Well, yes and no. That is, the dance usually lasts an hour, but the time may also be spent playing cards, nibbling light refreshments, or just talking.

One of the chief objections offered by those who don't like this type of social function is that you don't really get acquainted with the people you meet. By the time you find out a person's name, you're shuttled off to a new partner and promptly forget the last one.

One girl questioned said that she preferred exchange dinners to hour dances because people spend more time with the same group during the course of the evening, and have a real chance to get to know each other.

The opposition, however, favored the trade-off method used at most hour dances. If you get stuck with someone who doesn't

know one foot from the other, and can't think of two words to say, at least you have the consolation that you will soon have a new partner, was the defending argument.

Both sides agreed that if both guys and gals who are having the exchange function are willing to try to have a good time, the party will go smoothly.

For pledges, especially, the hour dance is an opportunity to meet new people, as they are usually required to attend.

Apparently, not too many romances develop from the acquaintances made at hour dances, however. Actually, the dance seems to be nothing more than a semi-pleasant way to while away an hour.

Sororities Pick Spring Officers

Delta Delta Delta

Delta Delta Delta had installation of officers Wednesday night. Those installed were Dee Oberg, Eng Jr, president; Phyllis Walker, EEd Jr, vice-president; Dorothy Serrault, EEd Jr, marshal; Lillian Suelter, BMT Soph, chaplain; Maryanne Keller, TxC Soph, treasurer; Joann Baird, TxC Soph, recording secretary;

Judy Peebles, EEd Jr, corresponding secretary; Ann Weelborg, EEd Jr, scholarship chairman; Kathy Schmid, BMT Soph, activities chairman; Shirley Oveson, SED Soph, formal social chairman; Jane Fulton, EEd Jr, informal social chairman; Sally Carney, Eng Jr, rushing chairman; Marilyn Summers, Art Soph, service projects and fraternity education; Rosalie Austin, EEd Soph, recommendations chairman; Virginia Taylor, SED Soph, publicity chairman; Joanne Jacobs, Psy Soph, house manager;

Harriet Harwick, EEd Soph, senior Panhellenic representative; Mary Sue Schroeder, Gvt Fr, junior Panhellenic representative; Janet Viar, EEd Soph, librarian; Mary Sue Schmedemann, EEd Soph, historian; Linda Merritt, EEd Soph, song leader; Karen Swanson, EEd Soph, intramurals chairman; Patricia Murphy, SED Soph, program chairman; and Lillian Suelter, BMT Soph, AWS representative.

Gamma Phi Beta

New officers of Gamma Phi Beta sorority are Linnea Brown, Ar 04, president; Orvilla Homer, His Jr, vice-president and pledge trainer; Lorene Ritts, TxC Soph, standards chairman; Betsy Burnham, EEd Jr, recording secretary; Carolee Alexander, HT Jr, corresponding secretary; Sybil Foster, BA Jr, treasurer; Jan Albers, HT Jr, scholarship chairman; Kathy Schultis, HEJ Jr, vice-president and social chairman; and Donna Stewart, TxC Jr, house president.

Kappa Delta

Mary Beth McCoy, HT Jr, has been elected president of Kappa Delta sorority. Other officers are Sondra Cool, HT Jr, vice-president; Sharon Skupa, Soc Soph, secretary; Helen English, BAA Soph, treasurer; Ann Teas, HT Fr, assistant treasurer; Marilyn Tindall, TJ Soph, editor; and Mary Rose, EEd Jr, membership chairman.

FH Pledges New Men

New pledges of Farm House fraternity are John Baird, AE Fr; Boyd Burhoop; Robert Gardner, FT Fr; Robert Lewis, Ag Fr; Harlan Iltjen, FT Fr; Roger Pine, AH Fr; and Norman Umphenour, FrV Soph.

Respiratory Infections Nearly Fill Student Health

"Stick out your tongue and say a-a-h," seem to be the words of Dr. Sulleyman Cullu, Student Health physician, as he examines Mrs. Diane Keady, HEA Jr. (upper left) Dr. Cullu diagnosed Mrs. Keady's condition as an upper respiratory infection, and Bill McDowell, TJ Gr, makes use of the Student Health telephone (for business calls or emergencies only) while Mrs. Suzanne Biggs, nurse, studies one of her patient's charts. (upper right)

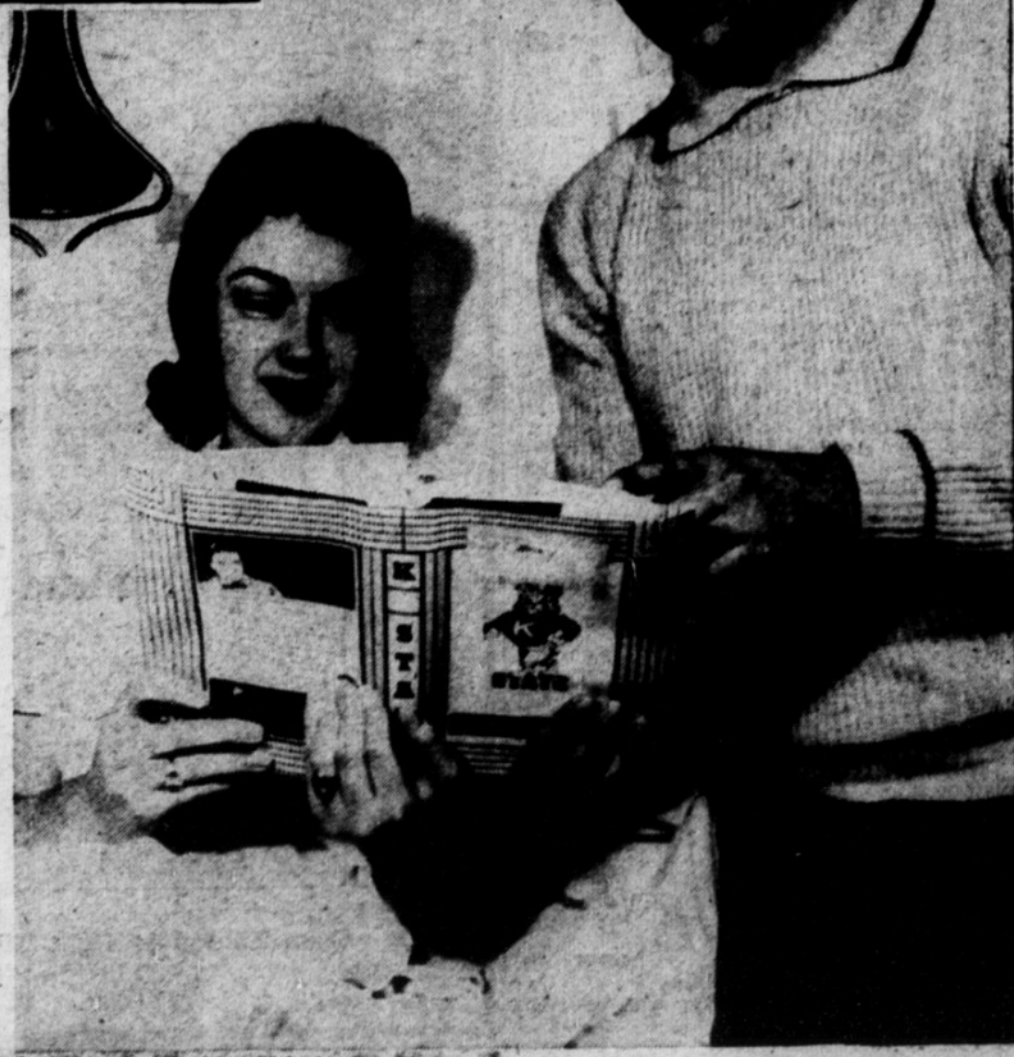

Dr. Cullu and nurse Mrs. Evelyn Schaffer look over some x-rays taken with Student Health equipment (right) . . . and Mrs. Biggs uses other Student Health equipment to take the temperature of Jack Keelan, PEM Sr. (lower left)

In the women's ward, F. L. Young, DH Sr, and Cibyl Teichman, TxC Soph, are studying, or at least looking at a textbook together.

Flu and colds have filled Student Health almost to its capacity this week as 27 students were tucked in bed last night with more expected during the next few days.

Student Health has 40 beds, according to nurse Suzanne Biggs, since two emergency cots were set up in an ex-dining room. The capacity of the men's ward is 28 and 10 women can be bedded in the other wing, with two additional beds between the two wards.

Described as a respiratory infection, the ailment which has downed many students is marked by headaches, fever, coughs, and sneezing. The staff expects a steady increase in the number of cases unless K-Staters take immediate precautions. Plenty of rest and special attention to any symptoms are advised by Student Health doctors, and students are urged to take advantage of the immunization center.

Wildcats To Have Meet With CU, I.S. Tracksters

The sixth annual indoor triangular track meet between K-State, Colorado, and Iowa State will be tomorrow night in Ahearn field house. Field events will begin at 7:30 p.m., with the first of the final running events slated for 8 p.m.

The Wildcat track team already has seen action in two indoor meets. K-State placed second to Nebraska in a triangular with the Cornhuskers and Iowa State February 1, and left Coach Ward Haylett "pleasantly surprised" by their performance at the Michigan State relays last Saturday.

"Overall, I felt we did surprisingly well," Haylett said

Dwight Wickhind, EE Jr; John Carlson, PEM Sr; William McDowell, PrL Jr; James Steiner, BA Fr; John Keeland, PEM Sr; Lenny Pierce, ME Jr; George Laddish, PEM Jr; Jerry Pife, ChE Jr; Leland Fager, Ar 04; Jim Hasler, VM Fr; Douglas Wand, ME Jr; Edward McCoy, PrL Jr; Elliot Elledge, TA Fr; and Gerald Manchester, CE Jr.

after Saturday's action in which the Wildcats tallied 18 points to place fifth in unofficial team standings in a field of 22 teams.

The Iowa State team, which made a slow start, turned in a number of fine performances against Minnesota last Saturday, including a 4:20 mile by Ron Sanson.

Colorado suffered severely from graduation last year but it will still field a strong team. The Buffs finished second behind Kansas in the conference outdoor meet last year.

Boozer Nears Cage Record

K-State's Bob Boozer needs 37 points to set a new Wildcat basketball career scoring record for forwards. The 6-8 junior has scored 783 points, second only to the 820 collected by Rick Harman from 1947 to 1950.

Boozer has six regular-season games left to break the mark.

Harman had four seasons, provided by an old Big Seven rule, to score his total. He averaged 8.1 in 92 games. Boozer has played in 40 games as a Wildcat, averaging 19.6 points a game.

Although only a junior, Boozer holds four K-State basketball

records. He has the most individual free throws for a single game scored by a forward, 16 against Colorado last year. He has the most individual free throws for a single season with

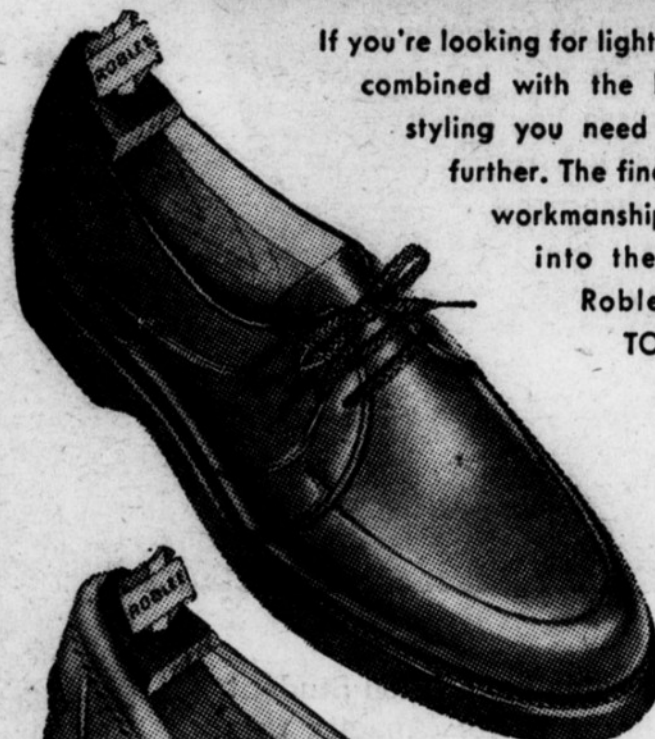

178 charity tosses, scored last season.

His 23 rebounds against Colorado last year is the most for a forward in Cat cage history and he also scored the most individual points for a forward in one season.

Gymnasts To Host KU In Ahearn Tomorrow

K-State's gymnastics team will meet Kansas university in a dual meet tomorrow at 4 p.m. in Ahearn gymnasium.

The Wildcats have a season record of 3-1. They have beaten Fort Hays State, 58-37; Oklahoma State, 58-36; and Colorado State university, 58-54; and lost to Nebraska, 68-37.

High point man for K-State this year is squad captain Robert Gramzow with 51 points. He is undefeated in the free exercise event this year. Alternate captain Allen Olsen is second high with 33 points.

K-State entries: Free exercise—George Ouye, Mike Dziura, Robert Gramzow. Trampoline—

Ray Berkley, Harold Loomis, Gramzow. Side horse—Ron Leslie, Ouye, Allen Olsen. Parallel bars—Ted Bare, Dziura, Olsen. High bars—Bare, Loomis, Robert Campbell. Swinging rings—Loomis, Dziura, Gramzow. Tumbling—Dziura, Berkley, Gramzow.

W-Virginia Wins

West Virginia, the nation's second-ranked basketball team, clinched first place in the Southern conference by beating Virginia Military Institute, 104-58. However, the Mountaineers must win a post-season conference tournament before clinching an NCAA berth.

Cincy Tops Braves; Near League Title

By UNITED PRESS

Cincinnati's Bearcats virtually clinched the Missouri Valley basketball championship last night with a 94-77 victory over Bradley at Cincinnati.

The Bearcats, with Oscar Robertson scoring 40 points, appear to have a lock on the NCAA tournament berth while Bradley is setting its sights on an NIT bid as a consolation prize.

Bradley beat Cincinnati, 79-73, on December 30 and kept it close last night until the Bearcats went off on a 20-point second-half spurt that opened their lead to 82-61.

Robertson was held to nine points in the first half but then broke loose with 31 in the second and his game-total was the most ever tallied against a Bradley team.

Tunisia Wants French Out; Guerrilla Warfare Possible

Compiled from United Press
By CHAS. H. SCHREIBER

Tunisian President Habib Bourguiba demanded again today that France remove its troops from Tunisia. He said he would turn the nation into an army of guerrilla fighters to drive them out if necessary.

Bourguiba, speaking from Tunis on his weekly radio report to the nation, warned the French that he would reply with force to any attacks by the French on his own troops.

The French and Tunisian commanders at Bizerte ordered their troops today to avoid trouble, but authorities feared some isolated incident might flare into disastrous violence.

Tunisian troops armed with rifles and a machinegun took up positions at the entrance of the channel leading to the Bizerte base where about 10,000 French troops have been isolated since Sunday from their wives and families.

Tunisia has demanded the withdrawal of all the 20,000 to 25,000 French troops in the former French protectorate as the price of renewed Franco-Tunisian friendship. It backed it up with a growing diplomatic offensive against France.

Democrats Urge Cut

Washington—Democratic congressional leaders showed a growing belief today they may have to order a big tax cut to spark the nation's lagging economy.

They indicated an unwillingness to go along with President Eisenhower's "chins up" forecast of a business upturn next month.

Informants said high administration officials also were in agreement with some key Democratic lawmakers that the Federal Reserve board must somehow be prodded into action to relax curbs on credit.

"If the Federal Reserve board won't make more funds available to the economy," one key Democrat said, "it's likely that we'll be forced into freeing funds through tax reduction."

He added that "the Federal Reserve board still has its head in the clouds fighting inflation" and apparently believes credit curbs

should be retained to pull down prices.

Minnie Given Boot

Little Rock—The superintendent of Little Rock schools today sought permanent expulsion of Negro student Minnie Jean Brown from integrated Central high.

Blossom appealed to the school board late yesterday to expel the girl because of the incidents in which she has been involved.

Minnie Jean was suspended from school once before, just before the Christmas holidays, for pouring chili on two white students. Altogether, she has been involved in five racial incidents at Central high.

Blossom, in a letter to the girl's parents, said Minnie Jean had violated an agreement under which she was reinstated in school after the chili dumping incident.

She agreed not to "retaliate either verbally or physically to any harassment by other students, but to leave such things entirely up to the school authorities to handle," Blossom said.

Schwartz Must Tell All

Washington—House investigators today ordered their ousted general counsel Bernard Schwartz—against his will—to tell what he knows about an alleged pay-off to a Federal Communications commissioner in a contested television channel case.

Neither Schwartz, with the tables turned on him, nor the House Subcommittee on Legislative Oversight named the alleged culprit in advance of the session.

Schwartz, a bespectacled and scholarly law professor, protested vehemently against being forced to testify. He wanted to go to New York on "personal affairs" and not appear before Monday.

Plans Made for Statewide 4-H Days

Fifteen statewide 4-H Club days are being planned for February, March and April, according to the state 4-H Club department here. Club have been asked to judge events of the county 4-H club days. The top-scoring numbers from the county club days are then entered in the regional contest.

SOME FACTS ABOUT IBM

The growth of the company has been spectacular since its inception in 1914. This has been especially true in recent years, as business, industry, science and government have turned increasingly to automation through electronic computers.

Such growth naturally provides many opportunities for advancement to well-qualified college graduates. IBM company policies and practices lay a firm groundwork for rewarding, enjoyable and secure careers.

At IBM, for example, individual merit is quickly recognized by increased responsibility and remuneration. Through "small-team" proj-

ect systems... cordial employee-management relations... excellent financial rewards... outstanding company-paid benefits... the potential exists for well-established careers. IBM-sponsored educational and training programs are among the most advanced in the American business world today.

IBM laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Sales and service offices in 198 principal cities throughout the United States.
